

Quarterly Issues and Program List

FOURTH QUARTER 2018

Pursuant to the disclosure requirements in 47 C.F.R. 73.3526(1)(i), and during the quarter referenced above, this station provided information to its viewers regarding the following significant issues, including:

- Education
- Health/Healthcare
- Economy
- Consumer Issues
- Transportation
- Business & Industry
- Politics

COMMUNITY AFFAIRS REPORT
October 2018

Date:	Show:	Topic:	Run time:	Context:
10/1	News 10 at 10	Consumer Issues	1:00	We made people aware of the CEO impersonation scams targeting local businesses.
10/8	News 10 at 10	Consumer Issues	1:00	There's good news for those of you who received a check from the Federal Trade Commission. It's not a scam. It's real.
10/18	News 10 at 5	Consumer Issues	1:30	Attorney General Jeff Landry and Consumer Financial Protection Bureau Director Mick Mulvaney say scammers are taking advantage of the elderly every day. Knowing how they operate is key to stopping them.
10/22	News 10 at 6	Consumer Issues	1:20	There's a warning about political scams that are circulating during election season.
10/25	News 10 at 10	Consumer Issues	:30	The seemingly daily barrage of unwanted and illegal scam and robocalls are the target of Louisiana Attorney General Jeff Landry and 34 other state attorneys general.
10/2	News 10 at 10	Traffic/Road Conditions	1:30	A bad section of an Evangeline Parish Highway is getting fixed. The DOTD is rebuilding LA 106 from LA 13 to US Highway 167.
10/9	News 10 at 10	Traffic/Road Conditions	1:40	Iberia Parish is building a five-lane access road near Highway 90 and LA 675. The Iberia Economic Development Authority owns the land. The road will run through a planned business park called Progress Point.
10/10	News 10 at 5	Traffic/Road Conditions	:25	The Potato Shed Road Bridge, adjacent to Bayou Land Seafood, is closed for repairs. The repairs will affect traffic flow in the area.
10/3	News 10 at 5	Legal Matters	1:15	Jury deliberations are underway for Lafayette City Marshal Brian Pope's felony malfeasance and

					perjury trial. Pope lied under oath about not distributing emails about a political campaign and used his office and resources to promote a candidate running for Lafayette sheriff.
10/4		News 10 at 6	Economy	:30	The Avondale Shipyard, closed for four years, is getting new lease on life. The opening will create about 2,000 jobs.
10/24		News 10 at 10	Economy	:30	100 new jobs are coming to the AT&T call center in Lafayette.
10/5		News 10 at 5	Health	1:30	An Arizona company is recalling more than 6.5 million pounds of beef that may be contaminated with salmonella. Now people across the U.S. are checking their freezers for the possibly tainted ground beef and beef patties that were sold nationwide at Walmart and other retailers. The CDC reports 57 people from 16 states have become ill.
10/8		Passe Partout	Health	1:11	Losing weight could reduce a woman's chance of developing breast cancer after menopause. That's according to a study published in the journal, Cancer. It found postmenopausal women who shed pounds saw a 12 percent reduction in breast cancer risk, while women who gained weight, had a 54 percent higher chance of developing a rare form of the disease
10/9		Passe Partout	Health	:50	Taking too much Vitamin A could lead to bone fractures.
10/10		Passe Partout	Health	:57	Intermittent fasting may be the key to reversing Type 2 diabetes. Doctors say three of their patients, between 40 and 67, were able to stop injecting themselves with insulin after following a fasting schedule.

10/11		Passe Partout	Health	:50	The CDC recommends pregnant women get a flu shot. A new study finds pregnant women who received a flu shot reduced their risk of being hospitalized for the flu by an average of 40-percent.
10/11		News 10 at 5	Health	:30	Lafayette is offering flu shots at the parish health unit. The shot will help protect you from getting the virus.
10/12		Passe Partout	Health	:55	Improving the vision and hearing of seniors could help them fight off memory loss. A study from the University of Manchester found the rate of mental decline among older adults was cut in half after participants underwent cataract surgery.
10/15		Passe Partout	Health	:54	The Food and Drug Administration say more than 700 over-the-counter dietary supplements contained unapproved ingredients from 2007 to 2016. The supplements were sold for sexual enhancement, weight loss and muscle growth.
10/16		Passe Partout	Health	:58	A new study shows young women who had radiation therapy or chemotherapy to treat cancer are more likely to develop heart failure when pregnant or after giving birth.
10/17		Passe Partout	Health	1:20	Revised guidelines suggest infants diagnosed with bronchiolitis should not undergo routine x-rays. Canadian researchers say it's a costly and unnecessary test that puts children at risk of radiation exposure. Despite the recommendation, analysis of hospitals in the U.S. finds emergency rooms were still using the procedure on infants from 2007 to 2015.
10/17		News 10 at 5	Health	1:30	Doctors in California are using artificial intelligence to improve the accuracy of colonoscopies. They say the system developed by University of California, Irvine was

					designed to spot polyps, where all colorectal cancers begin.
10/18		Passe Partout	Health	:59	Women with a history of pre-eclampsia may have a higher risk of some types of dementia later in life. Pre-eclampsia is a life-threatening condition related to high blood pressure and other complications during pregnancy.
10/18		Passe Partout	Health	1:10	A new study finds women suffering from certain types of cancers experience more side-effects from chemotherapy than men.
10/22		Passe Partout	Health	:54	Canadian scientists say more research is needed to know whether smoking marijuana is harmful to the lungs. Various studies reveal long-term cannabis smoking affects lung health, but much of the research is conflicting.
10/23		Passe Partout	Health	1:01	The CDC is now investigating at least 155 possible cases of Acute flaccid myelitis or AFM. That's up from 127 last week. AFM affects the nervous system in mostly children and some patients are left paralyzed.
10/24		Passe Partout	Health	:47	Three-quarters of U.S. adults do not get the recommended amount of muscle-strengthening exercise each week. A new study in the American Journal of Preventive Medicine also finds lifting weights and doing sit ups just a few times a week is linked to fewer health problems like diabetes, obesity and cancer.
10/25		Passe Partout	Health	:56	Oxygen in the hospital may do more harm than good for some patients. New research finds giving extra oxygen to hospital patients with normal oxygen levels increases the risk of death. Doctors say a more moderate approach to oxygen therapy could save lives.
10/26		Passe Partout	Health	:48	Less than 4 out of 10 adults in the U.S. got their flu shots last year. the lowest rate in seven seasons. That's according to a new report from the CDC.

10/26		News 10 at 5	Health	1:30	A high-tech retinal imaging system called an Optomap allows optometrists to examine a patient's eyes without dilation, which can prevent patients from driving or doing normal activities for hours.
10/29		Passe Partout	Health	1:07	Blood pressure readings of "130 over 80" taken at home can be used to diagnose hypertension, according to new research in the Journal of the American Heart Association.
10/30		Passe Partout	Health	:40	A study in the British Medical Journal finds early exposure to antibiotics and antacids could heighten the risk of children gaining excessive weight. Researchers say the medications can affect gut microbes which may contribute to obesity in children.
10/31		Passe Partout	Health	1:20	A study of more than a million people shows removing the appendix early in life may reduce the risk of Parkinson's Disease. Researchers say a specific Protein found in the appendix is also found in the brains of Parkinson's patients, and removing the tiny organ reduces the risk of developing Parkinson's later in life by about 20-percent.
10/23		News 10 at 10	Education	1:10	Parents are concerned about several recent teacher resignations at an Abbeville Middle School. Those teachers educated students during the school year.

COMMUNITY AFFAIRS REPORT

December 2018

Date:	Show:	Topic:	Run time:	Context:
12/3	Passe Partout	Health	:58	New research finds heart attacks reoccur more frequently in young patients who smoke or have high blood pressure. Doctors say those risk factors should be addressed when treating young heart attack patients.
12/4	Passe Partout	Health	1:35	A local chiropractor uses lasers to treat a variety of ailments like lower back pain, arthritis, etc.
12/5	Passe Partout	Health	:56	Sleeping too much or not enough increases the risk of dying or developing heart disease or stroke - compared to those who sleep the recommended seven or eight hours a day.
12/6	Passe Partout	Health	:56	Engineers at Northwestern University have created the world's smallest device to fight against skin cancer. Researchers say the sensor, thinner than a credit card, can help warn people against overexposure to ultra violet radiation and its waterproof.
12/7	News 10 at 5	Health	:30	The number of people getting the flu in Louisiana is increasing. That's why the Department of Health is having a flu vaccination day.
12/10	Passe Partout	Health	:59	A new study suggests supervised exercise during breast cancer treatment can help patients improve heart function. Doctors say the exercise also helps reduce

				fatigue and improves quality of life.
12/7	Passe Partout	Health	:57	A new study of black women with the most common form of early breast cancer finds they had worse outcomes than white women even though they had the same care. Researchers at Loyola say the findings suggest biological factors may account for the difference.
12/10	News 10 at 10	Health	1:30	In a report, we explained how treatment for Type 1 Diabetes has changed throughout the years.
12/11	Passe Partout	Health	:58	A new study finds women have a higher risk of getting breast cancer after childbirth compared to women who do not have children, but the overall risk is still low. Researchers from the University of North Carolina say the increased risk may last more than 20 years. They add it was also higher for mothers who had a family history of the disease.
12/12	Passe Partout	Health	:55	Drinking a moderate amount of alcohol is associated with fewer hospitalizations compared to both drinking heavily and not drinking at all. Researchers at Harvard define moderate drinking as one glass of wine per day.
12/13	Passe Partout	Health	1:00	A new study published in the Journal Science Advances examined the effect of delaying school start times in Washington state. Data suggests teens at two Seattle high schools got about half an hour more of sleep. They were

				also more punctual and performed better in class.
12/14	Passe Partout	Health	:49	A new study finds older adults with Type 2 diabetes experience a decline in brain function.
12/17	Passe Partout	Health	1:26	Patients who start physical therapy shortly after being diagnosed with musculoskeletal pain are 7 to 16 percent less likely to overuse opioids. Researchers at Stanford University say physical therapy is a useful alternative to narcotics to manage pain.
12/17	News 10 at 10	Health	1:30	Local hospitals have seen a rise in RSV cases among babies. We gave the signs and symptoms of RSV.
12/18	Passe Partout	Health	1:00	A new study shows lack of sleep can increase the desire for junk food. Researchers found people who stayed up all night experienced increased activity in the part of the brain that's involved in food reward. They say the findings help unravel the link between sleep and obesity.
12/19	Passe Partout	Health	1:15	A new analysis of hundreds of studies suggests exercise may be just as effective as medication to lower high blood pressure. But researchers in England caution there have been no direct head to head comparison trials yet, and people should not stop taking their blood pressure drugs.
12/20	Passe Partout	Health	:58	A CDC study shows falling asleep with contact lenses could cause serious health problems. The report shows that every year, nearly 1 million people are treated for

				keratitis, an infection of the cornea, after going to sleep without removing contact lenses.
12/20	News 10 at 5	Health	:25	Louisiana came in dead last in a new report highlighting the healthiest states in the U.S.
12/21	Passe Partout	Health	:54	A study suggests excessive alcohol consumption and social media is a bad combination for college students. Researchers at Texas State University discovered binge drinkers showed signs of social media addiction and later regretted their intoxicated-fueled posts.
12/24	Passe Partout	Health	1:02	The American Academy of Pediatrics is out with new guidelines for children of American service members. Doctors say military families face unique challenges including frequent moves, prolonged separations and deployments. They recommend screening tools to help identify children at risk of behavioral problems.
12/24	News 10 at 5	Health	1:30	Research shows almost half of all children are not getting enough sleep at night, which can lead to problems concentrating and retaining information learned at school. In a report, we look at an innovative program that is helping kids get the rest they need.
12/26	Passe Partout	Health	:47	Researchers in Boston found a higher mortality rate among women over 40 suffering low back pain. Doctors say the findings suggest better back pain management might

				improve and extend quality of life.
12/27	Passe Partout	Health	:55	A new study finds DNA testing can identify the gene that causes ten percent of chronic kidney disease in adults. Researchers say the findings show that genetic testing can be used to personalize treatment for the disease.
12/28	Passe Partout	Health	1:11	A new study finds exercise burns belly fat in obese adults. But Danish researchers discovered those loses were nullified when participants took a drug used to treat rheumatoid arthritis. The drug, known as tocilizumab, also increased cholesterol regardless of how much participants exercised.
12/31	Passe Partout	Health	1:12	For older adults with heart failure, it may be okay to have a glass of wine with dinner. A new study found those who had up to seven alcoholic drinks a week survived a year longer than those who stopped drinking altogether.
12/31	News 10 at 5	Health	1:30	We explained what you should do to avoid a hangover on New Year's Day after having a lot of alcoholic drinks on New Year's Eve.
12/3	News 10 at 10	Politics	:30	U.S. Senator John Kennedy announced he will not be running for Governor of Louisiana, ending months of speculation about his political future.
12/4	News 10 at 10	Traffic/Road Conditions	1:45	Members at the Lafayette DOTD office created two new innovations that will help save time and money on local road projects.

12/11	News 10 at 10	Traffic/Road Conditions	1:30	A prominent businessman makes a new offer to tackle traffic gridlock in Baton Rouge.
12/6	News 10 at 10	Education	1:30	Students at five Lafayette Parish schools could be going to class and getting educated at other schools next August.
12/14	News 10 at 10	Education	1:00	The top item on Governor John Bel Edwards' agenda for next year is giving teachers a pay raise. Teachers are responsible for educating students in the classroom.
12/18	News 10 at 6	Economy	:30	Governor John Bel Edwards announced that two new call centers will be opening to support the Department of Children and Family Services. Over 200 jobs will be created as a result.
12/26	News 10 at 6	Consumer Issues	1:00	Tax season will begin soon. Everyone who files will be affected by new laws set to go into effect. We explain some of the changes you need to know.
12/27	News 10 at 10	Crime	1:00	The city of New Iberia brought back its police department in July 2018, and it's already having an impact on crime control in the city.
