Programs

Channel	Issue	Time	Date	Duration	Title of Program	Narrative Description
10	Health	4:30 a.m. – 7 a.m.	7-1-19	1:03	Passe Partout	Using statins is linked to lower risk of death and stroke in patients with dementia. Swedish researchers found patients who used the cholesterol lowering medications had a 22 percent lower risk of death and a 23-percent reduction in risk of stroke.. which is much more likely in dementia patients.
10	Health	10 p.m.	7-1-19	1:30	News 10 at 10	An Acadiana teen battling both brain cancer and Cerebral Palsy isn't letting his physical limitations stop him from achieving his dreams.
10	Health	4:30 a.m. – 7 a.m.	7-2-19	1:00	Passe Partout	Cholesterol drugs may help heart attack patients with diabetes. British researchers found regular injections of cholesterol lowering medications can reduce the risk of heart attack or stroke in diabetes patients who had a recent heart attack.

Quarterly Issues and Program List

Channel	Issue	Time	Date	Duration	Title of Program	Narrative Description
10	Transportation	10 p.m.	7-2-19	1:30	News 10 at 10	The Acadiana Planning Commission has approved a \$1.5 million roundabout at Hospital and Girard Park Drives. There have been many safety issues and wrecks there, especially with drivers trying to make left turns from Hospital Drive onto Girard Park Drive.
10	Health	4:30 a.m.-7:30 a.m.	7-3-19	1:26	Passe Partout	U.S. researchers say they have found a way to effectively eliminate HIV in animals. Scientists from the University of Nebraska Medical Center and Temple University collaborated on the method that combines anti-retroviral drugs and gene editing to get rid of all traces of the virus in infected mice.
10	Health	10 p.m.	7-3-19	1:00	News 10 at 10	Beginning August first, Louisiana will add post-traumatic stress disorder to the list of injuries eligible for a first responder's workers compensation.
10	Health	4:30 a.m.-7:30 a.m.	7-4-19	1:08	Passe Partout	A new study suggests certain biomarkers could help predict recovery time from sports-related concussions.
10	Education	6 p.m.	7-4-19	2:45	News 10 at 6	Volunteers stuffed 5,000 backpacks for Lafayette Parish students. It's part of a special initiative by Love our Schools Foundation to help children succeed while they are getting an education.
10	Health	4:30 a.m.-7 a.m.	7-8-19	1:03	Passe Partout	A new study shows black women, hispanic women and young women may face a higher risk of developing triple-negative breast cancers which are often aggressive and do not respond to targeted therapy. Research from Georgia State University School of Public Health showed those women were up to twice as likely to be diagnosed with the disease compared to non-hispanic white women

Quarterly Issues and Program List

Channel	Issue	Time	Date	Duration	Title of Program	Narrative Description
10	Technology	10 p.m.	7-8-19	1:25	News 10 at 10	We explain the new technology doctors in Acadiana are using to help treat patients who suffered a stroke.
10	Health	4:30 a.m.-7 a.m.	7-9-19	1:08	Passe Partout	A new large analysis finds few supplements or dietary interventions protect against cardiovascular disease or death and some may be harmful. The review in the Annals of Internal Medicine shows vitamins A, B6, C, E, and D alone do not appear to influence death or heart disease and stroke. But lowering salt can be protective against death in people with normal blood pressure.
10	Children	5 p.m.	7-9-19	1:30	News 10 at 5	Parents, consumer advocates, and child protection organizations are warning lawmakers that the online world is dangerous for kids. Even on sites that claim they are “kid friendly,” our children are just a few clicks away from wildly inappropriate content.
10	Transportation	10 p.m.	7-9-19	2:05	News 10 at 10	Sometimes residents feel like the DOTD is wasting its money doing certain projects. We talk to the DOTD on how they select road projects and look at the process that's involved.
10	Health	4:30 a.m. – 7 a.m.	7-10-19	1:15	Passe Partout	A new blood test may not only diagnosis tuberculosis but also identify those at most risk of developing the disease. UK researchers say this is the first time the blood test has been studied in people
10	Business & Industry	10 p.m.	7-10-19	2:10	News 10 at 10	Governor John Bel Edwards recently legalized the industrial hemp industry in Louisiana. One Youngsville woman is at the forefront of the developing industry. During the legislative session, she was part of the group that helped educate lawmakers about CBD.

Quarterly Issues and Program List

Channel	Issue	Time	Date	Duration	Title of Program	Narrative Description
10	Health	4:30 a.m.-7 a.m.	7-11-19	1:02	Passe Partout	A new blood test may not only diagnose tuberculosis but also identify those at most risk of developing the disease. UK researchers say this is the first time the blood test has been studied in people
10	Health	4:30 a.m.-7 a.m.	7-12-19	1:08	Passe Partout	A new San Francisco study shows kidney disease patients need more medical care. More than 30 million Americans have chronic kidney disease and researchers say many suffer with uncontrolled blood pressure and diabetes for decades at a time.
10	Health	4:30 a.m.-7 a.m.	7-15-19	1:07	Passe Partout	Young athletes with ACL injuries face an increased risk of a second knee injury if they don't score at least 90 percent on a battery of tests known as the "return to sport assessment."
10	Health	10 p.m.	7-15-19	1:30	News 10 at 10	An Acadiana man who suffered a catastrophic brain injury from an ATV accident is helping other patients heal through art.
10	Health	4:30 a.m.-7 a.m.	7-16-19	1:00	Passe Partout	A new Canadian study links social media activity and television viewing to an increase in adolescent depression. The research showed that teens who spent more than the average amount of time on social media and watching tv over four years had an increased risk of severe symptoms of depression within the same time period.
10	Consumer Issues	6 p.m.	7-16-19	1:15	News 10 at 6	Louisiana's attorney general is reminding residents to be mindful of illegitimate contractors who just want to take your money.

Quarterly Issues and Program List

Channel	Issue	Time	Date	Duration	Title of Program	Narrative Description
10	Health	4:30 a.m.-7 a.m.	7-17-19	1:02	Passe Partout	A new study from the Alzheimer's Association International Conference shows having higher levels of physical activity may protect against cognitive decline and brain tissue loss from Alzheimer's disease. Researchers say the benefits were seen even at modest levels of exercise, but were most striking around 8,900 steps a day, just below the 10,000 steps many people try to log.
10	Consumer Issues	10 p.m.	7-18-19	2:10	News 10 at 10	In a report, we explain how Hurricane Barry victims can avoid not being scammed by fake contractors.
10	Health	4:30 a.m.-7 a.m.	7-19-19	1:06	Passe Partout	We know diabetes increases the risk of heart failure but now a new study finds women with both Type 1 and 2 Diabetes are at much greater risk. The International Diabetes Federation estimates 415 million adults worldwide have diabetes.
10	Health	5 p.m.	7-19-19	1:15	News 10 at 5	Broken Heart Syndrome can lead to the development of cancer. That's according to the Journal of the American Heart Association.
10	Health	4:30 a.m.-7 a.m.	7-22-19	1:05	Passe Partout	Adults diagnosed with colorectal cancer under 50 increased over the past decade. That's the finding from research at the University of Austin. The study shows African American and Hispanic young adults are being diagnosed the most.
10	Legal Matters	6 p.m.	7-22-19	1:10	News 10 at 6	State Attorney General Jeff Landry said he is not taking any legal action against four Lafayette city-parish council members. A public records request led to the discovery of text messages between council members in which they discussed business outside of a public meeting.

Quarterly Issues and Program List

Channel	Issue	Time	Date	Duration	Title of Program	Narrative Description
10	Health	4:30 a.m.- 7 a.m.	7-23-19	1:02	Passe Partout	A report in the annals of internal medicine finds that using antibiotics without a prescription is a public health problem in the U.S. Scientists found people take leftover medications or a family or friend's prescription. They also buy the drugs online or at health food stores, often setting themselves up for adverse reactions.
10	Transportation	10 p.m.	7-23-19	1:20	News 10 at 10	The City of St. Martinville, St. Martin Parish, and the DOTD are working together to overlay a two-mile section of LA 31 from Railroad Avenue to LA 92. The road is in rough shape and goes through the city and the parish. The project is meant to extend the life of the road another 15 years.
10	Economy	10 p.m.	7-24-19	1:30	News 10 at 10	The Upper Lafayette Economic Development Foundation says they are working to bring job opportunity and growth to an underserved area in Acadiana.
10	Health	4:30 a.m.-7 a.m.	7-25-19	1:00	Passe Partout	A study published in today's "Journal of Endocrinology" suggests too much caffeine during pregnancy can damage a baby's liver and contribute to liver disease in adulthood. Studying lab rats, Chinese researchers found the amount of caffeine in two to three cups of coffee a day is enough to change hormone and stress levels that lead to later liver issues.
10	Consumer Issues	10 p.m.	7-25-19	1:15	News 10 at 10	A network of scammers are pretending to be from the travel website, Expedia, and stealing thousands of dollars from consumers.

Quarterly Issues and Program List

Channel	Issue	Time	Date	Duration	Title of Program	Narrative Description
10	Health	4:30 a.m.-7 a.m.	7-26-19	1:00	Passe Partout	Certain gut bacteria may be able to prevent obesity. Researchers at the university of Utah injected clostridia into aging mice, blocking the intestine's ability to absorb fat. Researchers hope their work will lead to possible treatments for obesity and other metabolic disorders.
10	Health	4:30 a.m.-7 a.m.	7-29-19	1:00	Passe Partout	A new study looking at brain injuries in children and teens says nearly three-quarters are caused by consumer products. Falls from beds and on floors cause the bulk of infant injuries. But bicycles and contact sports such as football, basketball, and soccer cause head injuries as children grow older.
10	Consumer Issues	6 p.m.	7-29-19	1:10	News 10 at 6	Equifax has reached a \$7 million dollar settlement with the Federal Trade Commission. Meanwhile, we explained how you can protect yourself using Equifax.
10	Health	4:30 a.m.-7 a.m.	7-30-19	1:04	Passe Partout	A new British study finds high maternal blood sugar levels and body mass index are risk factors for stillbirth in diabetic mothers. Data shows mothers with pre-pregnancy diabetes have four times the increased risk of stillbirth.
10	Health	4:30 a.m.-7 a.m.	7-31-19	1:00	Passe Partout	Women with pre-eclampsia during pregnancy are five-times more likely to have end stage kidney disease later in life compared to women who don't develop the condition. That's the findings of a new Swedish study. Researchers point out, the overall risk is still small.

Quarterly Issues and Program List

Channel	Issue	Time	Date	Duration	Title of Program	Narrative Description
10	Health	4:30 a.m.-7 a.m.	8-1-19	1:00	Passe Partout	Too much or too little hemoglobin in your blood can lead to an increased risk of dementia later in life. That's according to researchers in The Netherlands who found the level of protein in red blood cells may be linked to memory issues for seniors.
10	Consumer Issues	6 p.m.	8-1-19	1:10	News 10 at 6	Scammers are using messaging apps to steal your money. We explain how the scam works and how you can protect yourself.
10	Health	4:30 a.m.-7 a.m.	8-2-19	1:01	Passe Partout	A new study shows jogging is the best exercise for people predisposed to obesity. Researchers in Taiwan also found walking, mountain climbing, and certain types of dance and yoga helped keep weight off. But cycling, stretching and swimming did not counteract obesity genes.
10	Education	10 p.m.	8-2-19	1:00	News 10 at 10	St. Landry Parish students now have access to a new school tip line. The goal is to stop crime and make a safer environment for students and teachers working together for a better education.
10	Health	4:30 a.m.-7 a.m.	8-5-19	1:00	Passe Partout	Doctors in Britain studying the heart say they are a lot closer to developing a stem cell treatment for heart failure. They expect to one day heal human hearts by harnessing a patient's own cells.
10	Education	5 p.m.	8-5-19	1:30	News 10 at 5	One Opelousas mom collects supplies for children with special needs to get the school year off to a good start. Students use the supplies in their quest to get a better education.

Quarterly Issues and Program List

Channel	Issue	Time	Date	Duration	Title of Program	Narrative Description
10	Health	4:30 a.m.-7 a.m.	8-6-19	1:00	Passe Partout	A large Stanford study indicates pivotal response treatment may best motivate children with autism to speak. PRT encourages communication by zeroing in on specific objects that interest the child. Researchers found it not only increased communication skills but also broadened social abilities.
10	Health	5 p.m.	8-6-19	1:45	News 10 at 5	Lafayette's first medical marijuana pharmacy will start seeing patients tomorrow. Health conditions treatable with medical marijuana range from autism spectrum disorder to cancer to wasting syndrome.
10	Transportation	10 p.m.	8-6-19	1:45	News 10 at 10	The Lafayette Consolidated Government, DOTD, and Acadiana Planning Commission will spend \$1.5 million to upgrade most of the traffic signals in Lafayette City-Parish. This is a high-tech upgrade to an existing, outdated system. The lights will automatically change from red to green when fire trucks respond to emergency calls. The system is meant to improve response times and public safety.
10	Health	4:30 a.m.-7 a.m.	8-7-19	1:01	Passe Partout	The drug, Naloxone has helped thousands of overdose victims, but despite its life saving success, researchers at the CDC believe the drug is underused. They say the number of prescriptions written for it has not kept pace with the steep rise in opioid abuse in the U.S.
10	Health	5 p.m.	8-7-19	1:30	News 10 at 5	It's the second most common cancer in the U.S. with one million cases expected to be diagnosed this year, but a new survey finds most people don't know about it. It is a skin cancer called Cutaneous Squamous Cell Carcinoma.

Quarterly Issues and Program List

Channel	Issue	Time	Date	Duration	Title of Program	Narrative Description
10	Health	4:30 a.m.-7 a.m.	8-8-19	1:00	Passe Partout	New research in Boston finds three or more caffeinated drinks a day can trigger migraines. One to two servings of coffee, tea, soda or energy drinks did not have the same effect, except among patients who rarely consumed caffeine.
10	Government	10 p.m.	8-8-19	1:30	News 10 at 10	We talked to one of the candidates who wants to be Louisiana's next governor.
10	Health	4:30 a.m.-7 a.m.	8-9-19	1:08	Passe Partout	Doctors say new mothers may recover more quickly from C-sections if they cut back on opioids. Kaiser Permanente Hospital in California focused on using fewer painkillers and getting patients up and walking sooner after surgery. They say those moms recovered faster and were more engaged in caring for their newborns.
10	Government (National)	10 p.m.	8-9-19	1:30	News 10 at 10	President Donald Trump left for campaign fundraisers but still continues to get new gun control measures passed.
10	Health	4:30 a.m.-7 a.m.	8-12-19	1:17	Passe Partout	New findings suggest aspirin could be beneficial to certain breast cancer patients. Researchers from the University of North Carolina studied more than a thousand breast cancer patients and found the risk of dying was lower among patients who used aspirin and who also had specific DNA characteristics in their tumors.
10	Children/Youth	10 p.m.	8-12-19	1:35	News 10 at 10	With kids back in schools, there's a bigger chance they can get more germs and illnesses. We talk about the vaccines children need to get in order for them not to get sick from other children.

Quarterly Issues and Program List

Channel	Issue	Time	Date	Duration	Title of Program	Narrative Description
10	Transportation	10 p.m.	8-13-19	1:45	News 10 at 10	We look at the 60 member LCG Streets Division. The streets division is responsible for maintaining 1,200 miles of roads in Lafayette city and parish. Most of the work involves pothole patching, but crews also do road, bridge, and sidewalk maintenance.
10	Health	4:30 a.m.-7 a.m.	8-14-19	1:00	Passe Partout	Women with type 2 diabetes are at higher risk for sleep problems. Doctors say new research highlights sleep problems are common in women in midlife and women with poor sleep should be evaluated.
10	Health	10 p.m.	8-14-19	1:55	News 10 at 10	Patients hoping to receive medical marijuana cards are coming to one Lafayette clinic. Many say they had appointments for months but were not provided the proper information needed to complete the process. Medical marijuana helps with many health conditions.
10	Health	4:30 a.m.-7 a.m.	8-15-19	1:08	Passe Partout	A new initiative in Michigan is having success cutting down on opioid-prescriptions. Surgeons statewide reduced the number of pills prescribed to patients undergoing nine common operations by nearly a third – without increasing patients' pain. Patients even reported taking only half the pills in the reduced prescriptions.
10	Consumer Issues	10 p.m.	8-15-19	1:18	News 10 at 10	In a report, we issued a warning about conartists who are taking advantage of you in a time of frustration, and what you can do to not become a target.

Quarterly Issues and Program List

Channel	Issue	Time	Date	Duration	Title of Program	Narrative Description
10	Health	4:30 a.m.-7 a.m.	8-16-19	1:01	Passe Partout	One out of 14 seniors suffer a silent stroke after surgery. Research says the strokes appear on brain scans after elective, non-cardiac operations. The study says these strokes double the risk of cognitive decline within a year.
10	Consumer Issues	10 p.m.	8-16-19	1:30	News 10 at 10	U.S. Customs computers were starting to come back online tonight after the system suffered an outage for hours across North America. Airports in New York, Los Angeles and Toronto, Canada, tweeted alerts warning of long delays, as passengers were processed manually.
10	Health	4:30 a.m.-7 a.m.	8-19-19	1:07	Passe Partout	A study published in the Canadian Medical Association Journal suggests a link between gastric reflux disease and chronic jaw pain. Researchers say anxiety and poor sleep are often seen in patients suffering from both disorders.
10	Children/Youth	10 p.m.	8-19-19	1:00	News 10 at 10	Vermilion Parish community leaders met with residents to find solutions to curb violence amongst the youth in the area.
10	Health	4:30 a.m.-7 a.m.	8-20-19	1:00	Passe Partout	A new study says boosting patients' blood pressure medication when they're leaving the hospital could pose a serious risk. Researchers at UC San Francisco found that increasing hypertension drugs for seniors may lead to more falls and fainting... and that it does not improve blood pressure levels in the long term.

Quarterly Issues and Program List

Channel	Issue	Time	Date	Duration	Title of Program	Narrative Description
10	Transportation	10 p.m.	8-20-19	1:55	News 10 at 10	DOTD recently shifted traffic between the basin bridge and the Henderson exit and between I-49 and the Breaux Bridge exit. This is part of the massive widening project on I-10 between I-49 and the basin bridge. We explain what the changes mean for motorists and get an update on the status of the project.
10	Economy	10 p.m.	8-21-19	1:00	News 10 at 10	So far this year, 39 businesses have opened up in New Iberia. The mayor explains his plans for more economic development in the city.
10	Health	4:30 a.m.- 7 a.m.	8-22-19	1:04	Passe Partout	Getting more exercise may substantially lower the risk of an early death. Research in the BMJ says 24 minutes per day of moderate activity, or five hours a day of light activity, cut the risk of early death in half for middle aged and older people.
10	Consumer Issues	10 p.m.	8-22-19	1:00	News 10 at 10	Large telecom companies and attorneys general from every state are teaming up to combating robocalls before they reach your phone
10	Health	4:30 a.m.-7 a.m.	8-23-19	1:00	Passe Partout	A new study finds fasting reduces inflammation and improves chronic inflammatory diseases. Research at Mount Sinai shows reducing caloric intake can reduce the release of inflammatory cells called monocytes in the blood stream.
10	Crime/Law Enforcement	10 p.m..	8-23-19	2:00	News 10 at 10	After two murders in a little more than two weeks, Abbeville Police are calling for action. Police say a growing problem is people with vital information who are being threatened not to share it. Tonight's vigil encouraged cooperation with police because it's needed to solve crimes quickly

Quarterly Issues and Program List

Channel	Issue	Time	Date	Duration	Title of Program	Narrative Description
10	Health	4:30 a.m.- 7 a.m.	8-26-19	1:02	Passe Partout	New research suggests more doctors need to promote healthy lifestyle changes to patients who survived cancer. The study in the journal Cancer finds while 90 percent of primary care doctors recommend things like losing weight and quitting smoking to some cancer patients. Only about 25 percent of oncologists and specialists do the same.
10	Transportation	10 p.m.	8-26-19	1:55	News 10 at 10	At least one person is dead in a fiery crash on interstate 10. Multiple vehicles were involved and miles of drivers had to be detoured for hours.
10	Transportation	5 p.m.	8-27-19	1:30	News 10 at 5	We told viewers about a rehabilitation project on the overpass at Highway 90 and Avery Island Road and explained how it will affect traffic flow in the area.
10	Health	4:30 a.m.-7 a.m.	8-28-19	1:00	Passe Partout	Total deaths from cardiometabolic disease, which includes heart disease, stroke, diabetes and hypertension, have been increasing since 2011. That's according to a new study from Northwestern University. Researchers say the majority of the deaths are preventable and the main culprit is the rise in obesity.
10	Transportation	5 p.m.	8-28-19	2:00	News 10 at 5	We gave viewers new information on the deadly crash that shut down Interstate 10 for more than 24 hours, plus we explained how the shutdown affected traffic Highway 190 which was a detour route.

Quarterly Issues and Program List

Channel	Issue	Time	Date	Duration	Title of Program	Narrative Description
10	Health	4:30 a.m.-7 a.m.	8-29-19	1:00	Passe Partout	A new study in the lancet finds early planned delivery for women with pre-eclampsia helps reduce complications. British researchers say women with a planned delivery by either induced labor or c-section within 48 hours of a pre-eclampsia diagnosis lowered their risk of complications and severe hypertension.
10	Education	10 p.m.	8-29-19	1:20	News 10 at 10	There's a recall petition circulating in Vermilion Parish that targets four current school board members. Those school board members make decisions that affect students' education.
10	Health	4:30 a.m.-7 a.m.	8-30-19	1:11	Passe Partout	A new study finds it's never too late to start exercising. Researchers say older people who have never participated in consistent workouts have the same ability to build muscle as highly trained athletes of the same age.
10	Education	10 p.m.	8-30-19	1:30	News 10 at 10	Two of the largest textbook companies are merging. We explain how the merger will affect college students in their quest to get better educated.
10	Health	4:30 a.m.-7 a.m.	9-2-19	1:00	Passe Partout	The American Academy of Pediatrics recommends that all children six months and older get the flu vaccine ideally by the end of October. The group says there's no preference between the nasal spray or the shot. The vaccine protects against four strains of influenza virus expected to circulate this season.
10	Health	5 p.m.	9-2-19	1:30	News 10 at 5	New research shows losing a moderate amount of weight could reverse the effects of obesity on the heart.

Quarterly Issues and Program List

Channel	Issue	Time	Date	Duration	Title of Program	Narrative Description
10	Transportation	10 p.m.	9-2-19	1:20	News 10 at 10	As people drive to and from their homes to see friends and family this Labor Day, you should be extra cautious on the roads. A state police spokesman, says they often see the number of traffic accidents increase during holiday weekends like Labor Day.
10	Health	4:30 a.m.- 7 a.m.	9-3-19	1:01	Passe Partout	Pregnant women exposed to certain environmental hazards are more likely to have children with higher blood pressure, according to a new Spanish study. Researchers found tobacco smoke, bisphenol-A from plastics, and the coating from non-stick pots and pans were found in the blood and urine of children with elevated blood pressure.
10	Transportation	10 p.m.	9-3-19	1:45	News 10 at 10	The Metropolitan Planning Organization and DOTD are working to put a roundabout at LA 92 and LA 733 in Milton. This area has been the site of a fatal crash and several serious wrecks. The DOTD installed a traffic signal there last fall which is only a temporary safety measure.
10	Health	4:30 a.m.- 7 a.m.	9-4-19	1:00	Passe Partout	A new study in JAMA shows more people are having MRI and CT scans, even though physician groups recommend less imaging. Medical testing can lead to over diagnosis, anxiety and radiation exposure.
10	Economy	10 p.m.	9-4-19	1:25	News 10 at 10	We explained how new development in Scott is boosting the economy and creating more jobs.
10	Health	10 p.m.	9-5-19	1:30	News 10 at 10	The number of cases of serious lung illnesses linked to vaping is mounting. The CDC is repeating a warning about e-cigarettes.

Quarterly Issues and Program List

Channel	Issue	Time	Date	Duration	Title of Program	Narrative Description
10	Health	4:30 a.m.- 7 a.m.	9-6-19	1:00	Passe Partout	Treating high blood pressure could help slow down common health conditions associated with aging. That's according to researchers from Columbia University who found people who took medication for the condition slowed their rate of cognitive decline.
10	Crime/Law Enforcement	10 p.m.	9-6-19	1:10	News 10 at 10	We've seen drug arrests time and again, whether they are the result of an unexpected traffic stop, or a thoroughly planned warrant roundup. The most recent arrests were on opposite ends of Acadiana. In Mamou and Broussard.
10	Health	10 p.m.	9-9-19	1:30	News 10 at 10	A commercial diver for 23 years is raising awareness about brain injuries after a diving accident almost killed him.
10	Health	4:30 a.m.-7 a.m.	9-10-19	1:12	Passe Partout	Shorter people are at higher risk of type 2 diabetes than taller people, according to a new study. Researchers in Germany found for every additional 4 inches of height, the risk decreased 41 percent for men and 33 percent for women. The study authors say higher liver fat linked to shorter individuals may be to blame for the increased risk.
10	Education	6 p.m.	9-10-19	1:45	News 10 at 6	Tomorrow, Lafayette Parish School Board members will discuss student population at both Comeaux and Southside High Schools. There are concerns that Southside High is over-populated and Comeaux High is under-populated. Students attend those schools to get an education.
10	Health	4:30 a.m.-7 a.m.	9-11-19	1:00	Passe Partout	A new Yale study finds teens with severe opioid use disorder may benefit from opioid treatment medications. Researchers say only two to five percent of teens with an opioid use disorder currently receive medical treatment.
