Date:	Show:	Topic:	Run time:	Context:
4/03	Passe Partout	Health	:50	Doctors in New York report two new blood tests can reliably detect skin cancers. They hope their findings make it easier for physicians to pick up early signs of the aggressive forms of skin cancer.
4/03	News 10 at 10	Health	1:00	The flu vaccine saves children's lives. A new study from the CDC shows getting the vaccine significantly reduces a child's risk of dying from the flu.
4/04	Passe Partout	Health	1:00	Doctors in Massachusetts have identified a gene linked to the most aggressive forms of early stage breast cancer. The findings may help physicians tailor more effective therapies.
4/04	News 10 at 5	Health	:20	A new study suggests adults who are overweight at some point in their lives face a higher risk of death from any cause, especially heart disease, cancer, and respiratory problems.
4/05	Passe Partout	Health	1:10	A new CDC report finds about ten percent of pregnant women in the United States with confirmed Zika infection had a fetus or baby with Zika-related birth defects including serious brain damage.
4/05	News 10 at 10	Health	1:00	Researchers are developing a vaccine for the Zika virus.
4/06	Passe Partout	Health	1:10	The CDC's most recent survey finds the human papilloma virus - or HPV - remains the most common sexually transmitted infection in the U.S.
4/07	Passe Partout	Health	:50	For the first time, the FDA has approved self-administered genetic tests that give a person's risk for conditions including Alzheimer's and Parkinson's disease.

4/07	News 10 at 10	Health	1:40	Breast pumping can be a daunting task for new moms. Most machines require women to sit in one place and hook themselves up to a pump. But new products on the market are giving mothers more freedom and some even work with an app.
4/10	Passe Partout	Health	:40	Researchers say dementia patients taking common sedatives may be at extra risk for pneumonia. Doctors say benzodiazepines such as Xanax and Valium were linked to a 30 percent higher risk of pneumonia in Alzheimer's patients.
4/10	News 10 at 10	Health	1:30	A Connecticut teenager is making medical history. She's one of the first in the country to receive a so called artificial pancreas. The new technology could change the lives of tens of thousands of people living with Type 1 diabetes.
4/11	Passe Partout	Health	1:10	Doctors are raising the alarm about a drop off in the use of vaccines. They're asking medical workers to stress the importance of vaccines because without widespread coverage vulnerable communities could be at risk of preventable diseases like the measles.
4/11	News 10 at 10	Health	1:10	Tens of thousands of calls are made to the National Poison Control Center every year because young children found medication and ingested it.
4/12	Passe Partout	Health	:55	Exercise can increase chances of survival after a heart attack.
4/12	News 10 at 5	Health	:25	Researchers say eating fresh fruit can reduce the risk of diabetes.
4/13	Passe Partout	Health	1:05	Being either overweight or underweight may increase the risk for migraines. Obese people were 27 percent more likely to suffer migraines than people of normal weight. Underweight patients were 13 percent more likely.
4/17	Passe Partout	Health	1:00	More Americans are struggling with serious psychological distress. Researchers analyzing statistics from the CDC found more than 8.3 million American adults reported feelings of sadness, worthlessness, and restlessness.
4/18	Passe Partout	Health	:50	Researchers at the University of California San Francisco found young adults report more

				pleasure when smoking cigarettes while drinking alcohol than they do when smoking cigarettes while using marijuana. Scientists said the findings may help people cope with triggers to smoke.
4/19	Passe Partout	Health	1:15	Doctors have been trying out steroid medications to treat a sore throat. But a study in JAMA finds they might not be that effective.
4/20	Passe Partout	Health	1:05	Cycling to work may lead to substantial health benefits. A study found commuting by bicycle is linked to a substantial decrease in the risk of dying from cancer and cardiovascular disease.
4/20	News 10 at 5	Health	1:15	Fewer Americans are actively trying to lose weight, new research shows. Researchers believe it's because being overweight is seen as the "new normal."
4/21	Passe Partout	Health	1:20	People who drink diet soda daily are almost three times more likely to develop stroke and Alzheimer's disease, according to researchers from Boston University.
4/21	News 10 at 5	Health	:25	A new study suggests diet sodas and other artificially sweetened drinks may be linked to a higher risk of stroke and dementia.
4/24	Passe Partout	Health	1:00	The American Academy of Pediatrics says the best medical care for children is at the pediatrician's office, not urgent care facilities. New guidelines recommend children receive consistent, comprehensive, non-emergency care at a pediatrics practice, and that children under two avoid treatment at retail-based clinics.
4/24	News 10 at 5	Health	1:30	A new FDA approved technology is helping surgeons personalize hip replacement operations.
4/25	Passe Partout	Health	1:00	A new study finds combining aerobic exercise and resistance training can significantly boost the brain power of people over 50.
4/25	News 10 at 5	Health	1:20	In a study, the Georgia Institute of Technology looked at the chemicals that go in the air once drivers apply their brakes.
4/26	Passe Partout	Health	1:10	Obese children face four times the risk of developing Type 2 Diabetes by the age of 25 compared to children with a normal body mass index.

4/26	News 10 at 5	Health	1:30	A new report from Autism Speaks shows health conditions such as epilepsy, sleep disturbances, gastrointestinal problems, ADHD and anxiety often go hand in hand with autism.
4/27	Passe Partout	Health	1:10	Energy drinks appear to cause more profound changes to the heart and blood pressure than caffeinated drinks alone.
4/27	News 10 at 5	Health	1:20	A new study shows that if you are looking for ways to be happier and make deeper connections with the people in your life, try being a little more compassionate.
4/28	Passe Partout	Health	1:00	About 25 percent of eye tests that come back normal at a primary eye doctor are really undiagnosed cases of age-related macular degeneration or AMD.
4/13	News 10 at 10	Education	1:00	Lafayette Parish School Superintendent Don Aguillard is drumming up support for a sales tax to help with school facilities. Students will use these facilities to get a good education.
4/06	News 10 at 6	Traffic/Road Conditions	1:45	A groundbreaking was held today for the widening of Interstate 10. The new project will help traffic flow.
4/19	News 10 at 10	Traffic/Road Conditions	:30	I-10 east near the Lobdell exit is shut down following a fiery fatal crash involving two 18 wheelers. The road closure is affecting traffic flow along the interstate.

Date:	Show:	Topic:	Run time:	Context:
5/01	Passe Partout	Health	1:00	A new study in Maryland finds fewer students are reporting bullying. Still, researchers say bullying remains prevalent with 13 to 28 percent of students reporting a bullying incident in the last month.
5/02	Passe Partout	Health	:50	Close to a billion people worldwide may be Vitamin D deficient. A new study finds people are spending less time in the sun with more sunscreen on.
5/02	News 10 at 10	Health	2:45	We aired a report about technology you can use to stay healthy and fit.
5/03	Passe Partout	Health	:55	U.S. researchers say a gluten-free diet is a bad idea for people who don't have celiac disease. They found restricting gluten can result in a low intake of whole grains which offer cardiovascular benefits.
5/04	Passe Partout	Health	1:20	A new study suggests infants and toddlers who use smart phones and electronic games may be at increased risk of speech delays.
5/04	News 10 at 10	Health	1:15	The CDC looked at how restaurants are doing on informing patrons on allergies.
5/05	Passe Partout	Health	1:10	Resveratrol, a natural compound found in red wine and some foods, may reduce artery stiffness in some people with Type 2 diabetes.
5/05	News 10 at 5	Health	1:30	Fitness centers across the country are adding high intensity water exercise classes.
5/08	Passe Partout	Health	1:00	A new study highlights the danger of cleaning ears at home with cotton swabs. Doctors found about 77 percent of injuries occurred when children try to clean their own ears, causing perforations, bleeding and other injuries.

5/09	Passe Partout	Health	:55	People suffering with chronic pain may find relief by getting more sleep. Scientists say extra sleep and even the caffeine boost in coffee worked as well as some pain medications.
5/09	News 10 at 10	Health	2:50	From movie theaters to home theatres and laptops, the noise level just keeps getting louder and louder. That's contributing to a higher rate of hearing loss across the country.
5/10	Passe Partout	Health	1:05	People who use common pain relievers such as ibuprofen and naproxen could be increasing their risk of heart attack.
5/11	Passe Partout	Health	1:10	New research finds a significant difference in the nutritional content of foods containing gluten and their gluten-free substitutes.
5/11	News 10 at 5	Health	1:20	This week is National Pet Week. Keeping pets in the home can be good for your health.
5/12	Passe Partout	Health	:45	Hepatitis C infections nearly doubled for pregnant women in recent years. Researchers say the spike is most likely linked to the nation's opioid epidemic with many people using infected needles.
5/12	News 10 at 5	Health	1:20	As we celebrate mothers across the country this weekend, one new mom in New York is counting her blessings after a brush with skin cancer.
5/15	Passe Partout	Health	:55	A daily aspirin does not lower risk of stroke for some a-fib patients. Researchers found long term aspirin therapy could raise the risk for intestinal and genital bleeding for those patients.
5/15	News 10 at 10	Health	1:00	First responders will now be allowed to carry a lifesaving drug that could help someone who overdosed on an opioid.
5/16	Passe Partout	Health	1:05	Respiratory infections can trigger a heart attack, and a new study finds that danger lingers for days.
5/16	News 10 at 10	Health	2:45	People have abused inhalants for decades, sniffing and inhaling products like hair spray, paint, glue and even gas on a cloth. But there's a deadly trend that has become popular amongst teens and elementary school children.
5/17	Passe Partout	Health	1:00	Nearly one third of seniors hospitalized with non-surgical conditions have poor outcomes when doctors prescribe opioids for pain.

				Researchers say doctors should use other pain management options including acupuncture, tai chi, heat therapy and exercise.
5/17	News 10 at 5	Health	1:30	Two new studies suggest living a healthy life can help advanced colon cancer patients live longer.
5/18	Passe Partout	Health	1:00	When doctors prescribe addictive painkillers for minor injuries, they may be feeding into the nation's opioid epidemic.
5/18	News 10 at 5	Health	1:15	Teens consuming too much salt may increase their chances of heart attack or stroke.
5/19	Passe Partout	Health	1:00	The CDC is warning of a rising number of infections from a parasite that gets into swimming pools. Known as crypto, the bug causes stomach upset for up to three weeks.
5/22	Passe Partout	Health	:50	No fruit juice for children under one. That's the new recommendation from the American Academy of Pediatrics, which previously advised no juice under 6 months old. The group says it's making the change since child obesity rates and dental issues are on the rise.
5/23	Passe Partout	Health	1:00	A new study finds 20,000 American children and teens go to the emergency room each year for gun-related injuries. The review also finds that almost 40 percent of parents mistakenly believe their children are unaware of where they store their household weapons.
5/23	News 10 at 5	Health	1:15	A new study indicates people traveling abroad may not be getting the proper vaccinations.
5/24	Passe Partout	Health	:45	Eating chocolate may lower your risk of an irregular heartbeat. Researchers found people who had moderate amounts of chocolate had a lower risk of atrial fibrillation.
5/24	News 10 at 10	Health	1:40	It was Health Day at the state capital where community members and opponents of house bill one discussed the state of healthcare in Louisiana.
5/25	Passe Partout	Health	1:00	New research shows the Zika virus was likely circulating in the Americas months before the first cases were detected.
5/25	News 10 at 5	Health	1:20	Don't go to bed with an empty stomach. Some experts are now saying snacking before snoozing is beneficial.
5/26	Passe Partout	Health	:55	The American Cancer Society is pushing skin cancer prevention on this Don't Fry Day. The

				group warns that many people may not use enough sunscreen or re-apply enough.
5/26	News 10 at 5	Health	1:30	More than five million people head to their doctor each year complaining about dizziness. Now the American Academy of Otolaryngology is updating recommendations on how to diagnose and treat vertigo.
5/29	Passe Partout	Health	:55	Researchers report a higher than normal body mass index or BMI can harm cardiovascular health even in those as young as seventeen.
5/29	News 10 at 5	Health	1:30	It's the unofficial start of summer, and warm temperatures this past winter have health officials concerned about Zika.
5/30	Passe Partout	Health	1:00	A lack of deep sleep may be lead to brain conditions like Parkinson's disease or a certain type of dementia.
5/30	News 10 at 5	Health	1:15	Almost everybody loves chocolate, and a new study has shown that the cocoa in chocolate can be good for you.
5/31	News 10 at 5	Health	1:30	Everyone can save a life. That's the powerful message behind a new campaign encouraging people to know hands only CPR.
5/03	News 10 at 10	Traffic/Road Conditions	:25	High water caused roads in Lafayette to be impassible. That affected traffic flow in the city.
5/08	News 10 at 10	Traffic/Road Conditions	1:05	After being closed for nine months, drivers still can't pass on one Arnaudville Bridge. The closure is affecting traffic flow in the area.
5/01	News 10 at 10	Education	1:00	We talk with the Lafayette Parish School Superintendent about what's next in his efforts to get students in better facilities. The facilities will help students get a better education.
