

Quarterly Issues and Program List

SECOND QUARTER 2018

Pursuant to the disclosure requirements in 47 C.F. R. 73.3526(11)(i), and during the quarter referenced above, this station provided information to its viewers regarding the following significant issues, including:

- Education
- Health/Healthcare
- Economy
- Consumer Issues
- Transportation
- Technology
- Business & Industry
- Politics

COMMUNITY AFFAIRS REPORT
April 2018

Date:	Show:	Topic:	Run time:	Context:
4/2	Passe Partout	Health	:50	New research shows kids with autism and ADHD are at higher risk for anxiety and mood disorders.
4/3	Passe Partout	Health	:52	A vaccine to prevent Zika could virtually eliminate all prenatal infections related to the mosquito-borne virus. That's according to researchers at Yale School of Public Health who used computer models to make their estimates. Zika can cause severe birth defects in babies.
4/4	Passe Partout	Health	:58	Germs with unusual resistance to antibiotics are widespread in the United States. The CDC reports that in 2017 there were more than 200 instances of germs that can't be killed by most antibiotics or germs that can spread resistance to other bugs.
4/5	Passe Partout	Health	:50	Stretching daily could help elderly people with mobility issues. A study in the Journal of Physiology shows stretching five days a week for a month increases blood flow and improves arteries in the lower leg.
4/5	News 10 at 5	Health	1:30	U.S. senators are sounding the alarm about a fourteen hundred percent price hike for a cancer medication. We explain if anything can be done to help cancer patients get the medicine they need during their battle with the disease.
4/6	Passe Partout	Health	:59	Long term exposure to traffic and air pollution can significantly increase the risk of asthma.
4/9	Passe Partout	Health	:58	Reading out loud to your child could play a big role in how well they pay attention. Researchers found kids who were read to had fewer attention problems and disruptive behaviors once they started school.

4/10	Passe Partout	Health	1:10	A study in the UK finds people with epilepsy are twice as likely to die from suicide and three times more likely to die accidentally. Researchers admit they don't understand the reason for the increased mortality risks.
4/10	News 10 at 5	Health	1:45	Preterm birth is the number one killer of babies. For one New Iberia family it was a reality they faced as first-time parents.
4/11	Passe Partout	Health	:58	New research from Britain suggests a gene that makes us eat more sugar can also help decrease body fat. Researchers say the gene which is made mostly in the liver also tends to have people eat less fat.
4/12	Passe Partout	Health	:57	Fewer children are contracting infectious diseases but the number of children diagnosed with mental disorders has stayed the same and is now the leading cause of illness. Researchers say anxiety, depression and autism are among the most common mental disorders.
4/13	Passe Partout	Health	1:06	The largest study to date shows even brief exposures to air pollution can trigger lung infections in children.
4/13	News 10 at 5	Health	1:30	South Carolina lawmakers are proposing a ban on the sale of energy drinks to children, after a deadly incident linked to high amounts of caffeine.
4/16	Passe Partout	Health	1:00	Mom's health may have a lot to do with when daughters begin puberty. A study of more than 15,000 girls and their mothers found obesity and hyperglycemia during pregnancy is linked to early onset puberty. Other studies have connected early puberty to increased risk for diabetes and cancer as well as behavioral problems.
4/17	Passe Partout	Health	:54	A mother with depression can cause her children to have lower IQs, according to a new study from U-C San Diego.
4/18	Passe Partout	Health	:48	The US Preventive Services Task Forces is recommending older adults exercise to help prevent falls versus taking vitamin D supplements. Falls are the leading cause of

				death and injury-related illness among Americans 65 and older.
4/18	News 10 at 10	Health	:30	The FDA says powder and liquid dietary supplements with concentrated amounts of caffeine are a threat to public health and have already been linked to two deaths in the U.S..
4/19	Passe Partout	Health	:48	New research shows a link between frequent marijuana use and small reductions in cognitive function in adolescents and young adults.
4/20	Passe Partout	Health	:50	A new study in Spain finds a simple test of handgrip strength can help predict survival rates for patients with stage one lung cancer. Researchers found patients with a weak handgrip were one and half times more likely to die within five years.
4/23	Passe Partout	Health	:54	Researchers from Emory University say there is growing evidence that probiotics are good for your liver. Specifically, they found the good bacteria can protect against liver damage from acetaminophen.
4/23	News 10 at 10	Health	2:00	According to U.S. News and World Report's latest nationwide study, Louisiana is ranked almost dead last in health care. In a medical report, we take a look at what future health care professionals are saying about job stability.
4/24	Passe Partout	Health	1:09	Patients diagnosed with multiple sclerosis should take medications for the disease as early as possible. That's according to new guidelines from the American Academy of Neurology.
4/25	Passe Partout	Health	:52	A new study suggests obese women who suffer from ovarian cysts may benefit from time soaking in a hot tub several times a week. Researchers found repeated heat exposure may reverse the inflammation that can cause metabolic problems.
4/26	Passe Partout	Health	1:07	A new study has linked a greater incidence of dementia to a class of drugs commonly prescribed to treat depression, incontinence and Parkinson's disease. The drugs known as anticholinergic (anti-coli-ner-gick) medications help to control involuntary muscle movements. Researchers found the

				link even with patients who took the drug 20 years before his or her diagnosis.
4/27	News 10 at 10	Health	1:00	The number of people getting sick from e. coli bacteria in romaine lettuce has grown to almost a hundred in three more states.
4/30	Passe Partout	Health	:44	Severe obesity could speed up the disabling effects of rheumatoid arthritis. That's according to doctors at the University of Pennsylvania...who looked at adults with the condition.
4/27	Passe Partout	Health	1:12	New research finds three minutes of brain stimulation may bring relief to patients with hard-to-treat depression. The therapy sends a magnetic pulse to the part of the brain that regulates moods. A study in the Lancet found it relieved depression for about half of the participants, making it just as effective as the standard 37-minute version.
4/2	News 10 at 10	Consumer Issues	:55	Investigators say scammers are targeting apps that act as digital wallets. Apps like Paypal, Zelle, and Venmo let you pay for goods and services from your phone. But they could cost you more than you bargain for.
4/9	News 10 at 10	Consumer Issues	:30	Several child products have recently been recalled. As a result, Attorney General Jeff Landry is cautioning consumers.
4/3	News 10 at 10	Transportation	1:45	Several road projects are planned for the city of New Iberia. They will improve safety and drainage.
4/12	News 10 at 10	Transportation	:25	Interstate 10 was backed up tonight as a result of a crash.
4/17	News 10 at 10	Transportation	1:30	If you're not a fan of roundabouts, they're not going away anytime soon. In fact, the metropolitan planning organization plans to study dozens of intersections for possible roundabout locations. Roundabouts help better traffic flow in the area.
4/24	News 10 at 10	Transportation	1:35	Crews are replacing a bridge in St. Landry Parish that's important to the parish's economy. The new bridge is being built on Rozena Road, off U.S. Highway 190, just west of Lawtell. The new bridge will not only help with the economy, but it will ease traffic flow in the area.

4/26	News 10 at 10	Transportation	1:00	Increased traffic over the years caused more potholes and that has caused major problems on Martinez Road in St. Landry Parish.
4/19	News 10 at 10	Education	2:10	Glenn Armentor Pay It Forward Scholarship Program allows students with troubled backgrounds to be able to get a college education and have a bright future.
4/30	News 10 at 10	Economy	1:00	One of Louisiana's safety-net hospital operators, University Hospital and Clinics in Lafayette, has notified about 770 of its employees they could be laid off and the hospital shuttered on June 30 because of proposed budget cuts.

COMMUNITY AFFAIRS REPORT
May 2018

Date:	Show:	Topic:	Run time:	Context:
5/1	Passe Partout	Transportation	:30	Portions of roads in Vermilion Parish were closed due to oil spilling from an 18-wheeler. This affected traffic flow in the area.
5/3	News 10 at 10	Transportation	Throughout the show	Interstate 10 from Lafayette to Crowley was shut down because of a chemical plant fire near the Duson exit. The closure affected traffic flow in the area.
5/15	News 10 at 10	Transportation	1:20	A major road project in St. Mary Parish is now completed. The DOTD spent 55.7 million dollars on the improvements that will help traffic flow in the area.
5/2	Passe Partout	Health	1:03	The Centers for Disease Control and Prevention has identified 9 new germs caused by bites from infected ticks, fleas and mosquitos. The agency suggests using insect repellent to reduce exposure.
5/3	Passe Partout	Health	1:05	A study in the Journal Neurology finds frequent trips to the sauna may be linked to lower stroke risk. The study tracked over 1500 people for more than 15 years who regularly use Finnish-style saunas that have temperatures over 200 degrees
5/4	Passe Partout	Health	:55	A new study in the journal, Human Reproduction, finds women who eat fast food may have difficulty getting pregnant. Researchers found those who ate less fruit, and more fast food, took half a month longer to conceive.
5/7	Passe Partout	Health	1:03	More teens are choosing sugar-sweetened sports drinks. Researchers say sports drinks add unnecessary calories to a child's diet and that the average child doesn't do enough physical activity to require their electrolytes be replenished with a sports drink.
5/7	News 10 at 10	Health	1:30	A new rule that goes into effect today requires all restaurant chains with 20 or more locations to post the calorie count of all items on the menu.

5/8	Passe Partout	Health	:56	Researchers at the University of Southern California believe they've found a way to treat hearing loss caused by explosions and other loud sounds. It involves injecting salt- and sugar solutions into the ear after exposure to loud noises. The injections help to preserve the neurons that transmit sound signals to the brain.
5/9	Passe Partout	Health	1:02	The newest guidelines on screening for prostate cancer suggest you talk to your doctor first. The U.S. Preventive Services Task Force updated its recommendation for men 55 to 69 years old. It says the decision on whether to screen should be an individual one, weighing the benefits against the potential harms, which could include false positives and over treatment.
5/10	Passe Partout	Health	:58	Research appearing in the online journal "Neurology" finds a link between depression and memory problems. The study found those suffering with depression have less brain volume and more vascular brain lesions.
5/10	News 10 at 10	Health	1:00	The state proposes massive cuts to healthcare in order to fill a big budget shortfall. University Hospital and Clinics in Lafayette is one place affected. If state lawmakers don't act quickly, the cuts would go into effect on July first.
5/11	Passe Partout	Health	:58	The rate of deaths from falls in older adults is increasing. The Centers for Disease Control and Prevention says the numbers rose from about 18,000 deaths in 2007 to almost 30,000 in 2016. Doctors are urged to discuss fall prevention during annual wellness visits.
5/14	Passe Partout	Health	:58	A new national survey finds nearly 40-percent of women are somewhat concerned about having their first OBGYN exam. Doctors with Orlando Health say talking to an OBGYN in a non-clinical setting beforehand could help young women overcome that anxiety.
5/15	Passe Partout	Health	:56	Eating yogurt may help reduce chronic inflammation, according to a new study published in the Journal of Nutrition.
5/16	Passe Partout	Health	:58	Stepping up exercise during middle age significantly reduces the risk of heart failure in as few as six years. Researchers found

				those who decreased their physical activity were 18 percent more susceptible to heart failure.
5/17	Passe Partout	Health	:55	Many people who should be screened for lung cancer aren't getting checked. A new study from the American Society of Clinical Oncology meeting shows just 2 percent of nearly 8 million eligible smokers get tested. Researchers say thousands of lives could be saved each year if patients have annual CT scans.
5/18	Passe Partout	Health	1:09	Another study reveals chronic social isolation has a negative effect on the brain.
5/21	Passe Partout	Health	1:07	Fewer men are being screened, diagnosed and treated for prostate cancer. That's according to a new study in the journal Cancer. Researchers say it may be the case men who are at low risk are choosing to have their cancer closely monitored, which can avoid potential harms of treatment.
5/21	News 10 at 5	Health	1:30	The Food and Drug Administration just approved the first of a new class of drugs to treat migraines.
5/22	Passe Partout	Health	1:06	Eating a Mediterranean Diet may help counteract the effects of air pollution on health. Researchers at New York University looked at older people exposed to high levels of air particles and nitrous oxide over a 17-year period. They found people who followed diets filled with antioxidant-rich fruits, vegetables, whole grains, fish and olive oil suffered fewer deaths.
5/23	Passe Partout	Health	1:02	Using tablets in the evening may hurt the quality of your sleep. A study in Boston says the light from screens makes people less sleepy in the evenings so that they stay awake on average half an hour later. They are then less alert in the first hour after waking up.
5/24	Passe Partout	Health	1:03	Federal health officials are warning parents that over the counter teething products can pose a risk to infants and children. The FDA says products that contain the drug benzocaine can cause rare but deadly side effects especially for children under 2. The agency is also asking manufacturers to add

				warnings on all oral health products that contain the numbing ingredient.
5/25	Passe Partout	Health	1:02	Teenagers with hay fever have higher rates of anxiety and depression and lower resistance to stress, according to a new study. Researchers from the American College of Allergy, Asthma and Immunology say teens with hay fever are also more hostile and impulsive.
5/25	News 10 at 5	Health	1:30	The use of 3D printers in medicine is growing nationwide. Now doctors in Ohio are using the technology to tailor heart valve replacements for patients to predict and avoid complications.
5/28	Passe Partout	Health	:52	Another study backs the safety of the HPV vaccine. HPV is the most common sexually transmitted disease and can lead to cervical and anal cancer.
5/30	Passe Partout	Health	:57	Male thyroid cancer patients have a nearly 50 percent higher risk of developing heart disease than women. That's according to researchers in Utah who also found obese thyroid cancer patients are 41 percent more likely to develop cardio-vascular disease.
5/30	News 10 at 5	Health	:30	A new study in the Journal of Physical Therapy Science says there are health benefits to chewing gum. Researchers found people expend extra energy if they chew gum while walking, especially older men. Chewing gum can help people lose weight, stimulate circulation, and help cope with stress.
5/31	Passe Partout	Health	:57	Male thyroid cancer patients have a nearly 50 percent higher risk of developing heart disease than women. That's according to researchers in Utah who also found obese thyroid cancer patients are 41 percent more likely to develop cardio-vascular disease.
5/31	News 10 at 5	Health	:30	Therapy dogs are helping young students build confidence and manage their anxiety. The reading education assistance dogs program, or read, puts pups in classrooms all around the world.
5/2	News 10 at 10	Economy	:50	There is a shortage of teachers in St. Landry Parish. A job fair is taking place Saturday in

				order to recruit more educators to lead students in the parish.
5/8	News 10 at 6	Economy	1:15	Thousands of job seekers went to the Cajundome today to connect with potential employers for the LEDA job fair.
5/22	News 10 at 10	Economy	1:20	CGI is expanding its operation in Lafayette. The expansion will create 400 new jobs in the area.
5/4	News 10 at 10	Consumer Issues	:30	State Police is warning you about a scam tonight. Con-artists are fraudulently using the authority of Louisiana state police in an effort to obtain money from victims.
5/16	News 10 at 10	Consumer Issues	1:10	We are warning viewers about an IRS phone scam circulating the Lafayette area.
5/18	News 10 at 10	Consumer Issues	:30	A phone scam is going around Calcasieu Parish. The scammers pose as a Calcasieu Parish sheriff's deputy.
5/11	News 10 at 10	Education	:25	Hundreds of UL Lafayette graduates walked across the stage tonight to receive their diploma. This signified that they have received the education they need to enter into the workforce in their fields of study.

COMMUNITY AFFAIRS REPORT
June 2018

Date:	Show:	Topic:	Run time:	Context:
6/1	Passe Partout	Health	1:05	Green tea could help prevent heart attacks and strokes, according to research in the Journal of Biological Chemistry. Scientists say a compound in the tea breaks up dangerous plaques in arteries, which can reduce the flow of blood to the heart and the brain.
6/1	News 10 at 5	Health	1:30	A new study by the American Medical Association shows opioid prescriptions are down nearly 25 percent over the last four years. But with overdose deaths continuing to rise.
6/4	Passe Partout	Health	:59	A new study finds many patients with the most common type of breast cancer can safely opt out of chemotherapy. Research in the New England Journal of Medicine studied thousands of women at intermediate risk for their cancer to recur. It found about 70 percent can be treated without chemo.
6/4	News 10 at 10	Health	2:10	Chronic pain affects millions of Americans, with many turning to opioids for relief. But some are turning to alternative medicine like acupuncture to get some relief.
6/5	Passe Partout	Health	1:02	More than 11 million Americans may have incorrect prescriptions for aspirin, statins and blood pressure medications. A new study from Stanford University finds the data used to determine the risk of a heart attack or stroke hasn't been updated since the 1940's, and therefore doesn't consider changes to diet, environment and medical treatments during the last seventy years.
6/6	Passe Partout	Health	:58	One in four Americans develop insomnia each year. But 75 percent of them recover normal sleep within 12 months. Researchers at the University of Pennsylvania say 21

				percent continue to be poor sleepers and about 6 percent develop chronic insomnia.
6/6	Passe Partout	Health	:58	Cancer survivors who stick to a balanced and nutritious diet may be less likely to die from cancer. Researchers at the University of Florida studied the benefits of a diet rich in produce, whole grains, proteins, and dairy. Cancer survivors who followed that diet had a 65 percent lower risk of dying from cancer.
6/7	Passe Partout	Health	1:03	A new study done for the Institute for Scientific Information on Coffee suggests a person's response to caffeine is dependent on how fast their liver can metabolize it and whether they have a specific gene variation making them more sensitive to caffeine's stimulating effects.
6/8	News 10 at 5	Health	1:30	Researchers in Massachusetts believe they may be on the brink of creating a revolutionary non-addictive painkiller. It could be a big step forward in dealing with the growing opioid crisis.
6/8	Passe Partout	Health	1:00	The elderly are most at risk for depression. The study also reveals almost one in five adults will have a major depressive episode in their life.
6/11	Passe Partout	Health	1:00	A new study finds loneliness is a strong predictor of premature death from coronary heart disease and stroke. Scandinavian researchers say people with poor social networks are three times more likely to suffer from anxiety and depression and have a significantly lower quality of life.
6/12	Passe Partout	Health	:56	Childhood deaths from pneumonia and meningitis-related bacteria dropped sharply over a fifteen-year span through 2015. Scientists at Johns Hopkins Bloomberg say more than a million children's lives were saved by vaccines and better hygiene and access to health care.
6/13	Passe Partout	Health	:59	A new study finds people in their 50's with borderline high blood pressure are at increased risk of dementia later in life. Researchers say the link was found in people with blood pressure that's higher than normal, but below the threshold for treatment.

6/13	News 10 at 5	Health	1:30	A new study says an estimated 37 percent of American adults take prescription medications that could cause depression.
6/14	Passe Partout	Health	1:00	International researchers say restricting prescription painkillers in the U.S. is linked to increases in illicit drug trade online. Federal officials limited access to prescription drugs containing hydrocodone in 2014.
6/15	Passe Partout	Health	:47	Obesity is more common in the country than the city. New CDC figures show 34 percent of adults in rural counties are obese, compared to almost 29 percent in metropolitan areas.
6/18	Passe Partout	Health	1:00	The more you lose, the more you win, say researchers looking at overweight people and knee problems. Doctors say a 20 percent weight loss adds even more mobility, quality of life improvements plus another 25 percent reduction in pain.
6/18	News 10 at 10	Health	1:10	The World Health Organization added gaming disorder to the latest draft of its classification of diseases.
6/19	Passe Partout	Health	1:00	Fewer Americans are smoking than ever before. The latest estimates from the CDC show about 14 percent of all U.S. adults smoke cigarettes, that's the lowest level recorded since tracking began in 1965. Researchers also found people living in large metropolitan areas smoked significantly less than people who live in rural areas.
6/20	Passe Partout	Health	1:00	Exercise makes the blood of obese people healthier...reducing the kind of blood cells that cause inflammation. That's from Canadian researchers who tracked obese adults in a 6-week exercise program of biking and running.
6/20	News 10 at 10	Health	1:30	Several recent outbreaks related to contaminated food have affected dozens of people across the country. But health officials say technology and consumers are helping contain these infections.
6/21	Passe Partout	Health	:54	Two groups of researchers have found lung cancer growth can be controlled with drugs known as kinase inhibitors. Doctors hope the discovery will lead to new treatments for deadliest form of cancer in both men and women.

6/22	Passe Partout	Health	1:02	Epi pens save lives, but a new study shows most adults aren't using them. A study published in Annals of Allergy, Asthma and Immunology shows 52 percent of adults with potentially life-threatening allergies don't use their injectors in an emergency. People said they either didn't have their epi pen with them or thought it wasn't necessary to use it.
6/25	Passe Partout	Health	1:00	Diabetic mothers could be putting their children at risk for Autism. New research in JAMA finds mothers with pre-existing Type 1 and Type 2 diabetes as well as gestational diabetes have higher rates of children on the autism spectrum.
6/25	News 10 at 10	Health	1:55	Kids are playing outside, swimming at the pool and even going on family vacations. But keeping them safe is top priority. We spoke with experts about summer safety.
6/26	Passe Partout	Health	1:00	The FDA has approved the first drug with an active ingredient derived from marijuana. The drug Epidiolex is for the treatment of seizures associated with two rare and severe forms of epilepsy. The chemical component in the drug does not cause a high.
6/27	Passe Partout	Health	:58	Updated guidelines on the risk of osteoporosis suggest women 65 years and older be screened with a bone measurement test to prevent fractures. The U.S. Preventive Services Task Force also suggests screening for postmenopausal women younger than 65 if they are at increased risk.
6/27	News 10 at 5	Health	1:30	Summer is here and that means family and friends will be gathering to celebrate the July 4th Holiday. But unfortunately, the fun and fireworks can be dangerous if you aren't careful. We gave important tips on how to stay safe in a report.
6/28	Passe Partout	Health	1:24	When it comes to exercise, new research shows physical activity helps patients dealing with depression to lower their risk of heart disease. The study at the University of Texas Southwestern in Dallas, shows those with high levels of fitness at middle age were much less likely to die from heart disease later in their lives, even if they were diagnosed with depression. Researchers say

				the earlier people start exercising, the more likely they are to avoid depression throughout their lives.
6/29	Passe Partout	Health	1:13	Undergoing cataract surgery could reduce your risk of a traffic accident. Canadian scientists recorded a 9 percent reduction in serious crashes among more than a half million cataract patients 65 years and older from 2006 to 2016.
6/6	News 10 at 10	Economy	1:20	Lafayette engineering firm, Stonewall, currently has eight employees, but there are plans in the works to hire more employees as it expands its services.
6/11	News 10 at 10	Economy	:25	Texas based, Accruent, is opening a tech center in New Orleans. It will bring in 350 new jobs.
6/19	News 10 at 6	Economy	:25	Governor John Bel Edwards says Aggreko is expanding its New Iberia operations. The expansion will create a total of 60 new jobs in the area.
6/12	News 10 at 10	Transportation	1:20	A major road project on Highway 90 is nearing completion. It will be a relief to drivers who have been dealing with construction and traffic problems for years.
6/14	News 10 at 10	Transportation	:25	Starting Monday, the DOTD will close the Highway 14 downtown bridge in Abbeville for repairs. The closure will affect traffic flow in the area.
6/26	News 10 at 10	Transportation	1:50	The city of Broussard continues to make improvements on St. Nazaire Road. The work is being done to accommodate traffic at the Broussard sports complex at St. Julien Park.
6/7	News 10 at 10	Consumer Issues	1:10	With hurricane season here and the potential of storms, those who feel the urge to donate to storm recovery should make sure they're giving to the right organization. We explain how one local organization is helping do just that.
6/21	News 10 at 6	Education	:45	Every summer, United Way of Acadiana stuffs the bus with more than 40,000 school supplies for local students during one local organization's school supply drive. Those supplies help students with their efforts to get a better education.

6/29	News 10 at 10	Education	:25	Costs are going up for students at Louisiana State University. The university is again raising student fees at its main campus by 5 percent. Students pay those fees to get an education.
6/22	News 10 at 10	Politics	1:30	Congressman Clay Higgins is seeking reelection this year but it won't be handed to him. His opponent in the primary, Josh Guillory has garnered the support of the former mayor of New York, Rudy Giuliani. In the days following Guillory gaining Giuliani's endorsement, Congressman Higgins picked up a stamp of approval from President Donald Trump.
