Education:

Education is still a main concern of the communities. Student safety while on campus is also a concern of our viewers.

Traffic/Road conditions:

Traffic has become heavier in post hurricanes Katrina, Rita, Gustav and Ike in Acadiana. Road conditions and repair due to the extra vehicular traffic is taking its toll on streets and roads. Safety, speeding and seatbelt usage are also of concern to our viewers.

Crime:

Crime has always been a major concern of our viewers. Viewers and concerned citizens are trying to cope with seemingly added drug trafficking and crime rates in our viewing area.

Health:

Concerns of our viewers who are overweight, and concerns about losing weight through a balanced nutritional meal. Also of concern are cuts in Medicare and Medicaid for the elderly.

Economy:

The economic well being of Louisiana, interest rates, mortgages, oil spill & prices, housing starts, retail sales, government stimulus packages, tax cuts/increases and unemployment are some of the concerns of our viewers.
