Dale Scherbring, CPBE  
Regional Director of Engineering  
Sinclair Broadcast Group  
2000 West 41st Street  
Baltimore, MD

July 15, 2019

Dear Dale,

The letters announcing the intention of WRGT to begin testing and/or broadcasting on its new channel were mailed on June 07, 2019 to 486 medical facilities within WRGT's predicted coverage area.

Enclosed is a copy of the Medical Notification Letter, a list of the addresses, and proof of mailing stamped by the US Post Office in Orlando, Florida.

RF Notifications will store the undeliverable letters returned by the USPS until 6 months after Phase 6 is complete. If at any point they are required please let us know and we will send them to you ASAP. Please note that the average return rate is generally eight to ten percent and letters are typically returned due to: the facility relocating and forwarding has expired, the name was changed, the facility refused to accept the letter, or the operation merged with, or was acquired by another company.

The returned letters along with the total list of facilities notified and the proof of mailing will be evidence of your sincere attempt and good faith effort to identify and notify health care operations in your coverage area. Please place these documents in your Public File.

In closing, it has been a pleasure to serve you and your station, and I look forward to helping you with any other notification needs as they arise in the future.

Sincerely,

Lisa Sockett  
COO – RF Notifications

## NOTICE OF CHANNEL AND BROADCAST FREQUENCY CHANGE OF WKEF and WRGT

**THIS LETTER CONCERNS TELEMETRY OPERATION. THE RESPONSIBLE PARTY FOR OVERSEEING AND/OR MAINTAINING CLINICAL OR BIOMEDICAL ENGINEERING EQUIPMENT AT THIS FACILITY MUST RECEIVE THIS LETTER.**

Dear Administrator or Biomedical Engineer,

WKEF and WRGT have retained RF Notifications, a broadcast TV consultant, to notify you of the impending change of the Stations' digital television channel in your area.

We are notifying you of this channel change because patients at your facility may use biomedical telemetry devices that operate in the television broadcast band and may be affected when this change takes place.

As early as September 07, 2019, these stations may begin testing their new DTV broadcast transmission equipment on UHF channels 18 and 36. This testing is in preparation for full time operations to commence no later than October 18, 2019. During this testing phase these station's current channels will remain on-air.

Certain biomedical telemetry devices have been allowed to use unoccupied TV channels in their area on a **secondary basis**, according to the rules of the Federal Communications Commission (codified at 47 CFR 15.242 (a)(1)). If interference to or from these devices arises with regard to the TV broadcast service, the devices must cease operation on that channel. It is the responsibility of the medical facility or operator of the device to identify and retune its equipment to an alternative non-interfering channel.

The purpose of this letter is to provide you information and give you reasonable opportunity to resolve any issues. It will be important for you to discuss these changes with your technology supplier, especially if there is a possibility that biomedical devices used in your facility are likely to malfunction when these stations change TV channel operations. **If you plan to replace your biomedical equipment, we urge that you purchase equipment designed to operate in the frequencies set aside for medical use.**

The contact information for the broadcast executive in charge of the TV station, along with the commencement date, TV channel and frequency band for each station are listed on the attached page(s). Please contact the individual listed on the attached page who is associated with the specific channel, if you wish for more information or want to report anticipated or actual interference problems.

Kind Regards,

Lisa Sockett, COO - RF Notifications

## Relevant Technical Information

In order to prevent interruption in patient care, please review the following pertinent information for the new facilities and compare to your telemetry equipment immediately. This is the only notice you will receive.

### WKEF

Virtual Channel	22 (the channel position on the viewers' TV receiver)
New DTV Channel	18 (the actual broadcast channel)
Frequency:	494-500 MHz
Earliest Testing date:	09/07/2019
Scheduled full time operations no later than:	10/18/2019
Effective Radiated Power:	950 kW
Antenna Location:	39-43-28.6 N 84-15-17.6 W
Antenna Height (center of radiation)	Above Ground 343 meters Above Mean Sea Level 615.8 meters Above Average Terrain 351 meters

### WRGT

Virtual Channel	45 (the channel position on the viewers' TV receiver)
New DTV Channel	36 (the actual broadcast channel)
Frequency:	602-608 MHz
Earliest Testing date:	09/07/2019
Scheduled full time operations no later than:	10/18/2019
Effective Radiated Power:	1000 kW
Antenna Location:	39-43-28.6 N 84-15-17.6 W
Antenna Height (center of radiation)	Above Ground 343 meters Above Mean Sea Level 615.8 meters Above Average Terrain 351 meters
