The president acknowledges that he was warned about the pandemic since January 23rd, although he was not told that it would be something alarming. He also rectified his own administration's estimates, and said the death toll would be even higher.</p> <p>The eyes of the country are also on Florida, a state that today begins its first phase of economic reopening. Only three counties are maintaining the confinement measures: Miami-Dade, Broward and Palm Beach; there are more than six million residents there and it is where most of the cases have been registered.</p>
<p>ECONOMY: 38 STATES REOPEN THEIR ECONOMIES</p> <p>ECONOMY: CARNIVAL WITH RETURN AUGUST</p> <p>ECONOMY: STARBUCKS WILL REOPEN STORES</p> <p>PUBLIC INTEREST: INCREASE IN</p>	<p>DESPERTA AMERICA</p>	<p>05/05/20</p>	<p>7:00 am</p>	<p>LIVER 1:40</p>	<p>At least 38 states are easing restrictions and reviving their economies. Almost half of them continue to see an increase in coronavirus cases, or fail to meet the guideline of keeping 14 consecutive days in decline. The nation records almost 69,000 deaths. Projections indicate that the figure will increase to about 3,000 a day starting next June, if social distancing rules are relaxed</p> <p>The Carnival company announces that some of its ships will provide service as of August 1st. By June 1, the company plans to have more than 90% of its stores open.</p> <p>Gun sales have skyrocketed in the last month. According to the FBI, the trend has remained high since the pandemic broke out, but last April became the fourth major period of background checks since 1998, when such records</p>

In New York, 64 children have been diagnosed to date, up from 15 earlier this week. The situation changes the panorama, because until now it was thought that the virus did not represent a risk for our children</p> <p>Attention is focused on meat processing plants and the increase in cases of coronavirus. At one JBS facility in Colorado alone, nearly 300 infections and at least seven deaths have been reported, making it the second largest outbreak in the state.
