

The following is a list of some of the more significant community issues addressed by this/these station(s) for the quarter specified. This listing is by no means complete, nor is the order in which these issues appear, intended to imply any degree of priority or significance of the issues.

QUARTERLY ISSUES/PROGRAMS LIST FOR STATIONS(S) KKJZ - 4th Quarter Report – Oct/Nov/Dec
 ISSUE DESCRIPTION: DATE/TIME: DURATION: DESCRIPTION OF SEGMENT:

Race	Commonwealth Club	10/6/13 5:00am	:30 minutes	<p>Randall Kennedy, Michael R. Klein, Professor of Law, Harvard Law School; Author, <i>For Discrimination: Race, Affirmative Action, and the Law</i></p> <p>LaDoris Hazzard Cordell, Former Municipal and Superior Court Judge, Santa Clara County - Moderator</p> <p>Kennedy reckons with one of the most explosively contentious and sharply divisive issues in American society, sharing the little-known history of affirmative action and exploring the policy's pros and cons. Kennedy was awarded the 1998 Robert F. Kennedy Book Award for Race, Crime, and the Law. Now a professor at Harvard Law School, he formerly served as a law clerk for Justice Thurgood Marshall of the United States Supreme Court</p>
Health	Tuned In with Mike Johnson	10/06/13 5:30am	:30 minutes	<p>Robert Baloh, MD & Ashraf Elsayegh, MD Cedar Sinai Medical Center-</p> <p>Tom Horton- ALS Association Golden West Chapter</p> <p>Amyotrophic lateral sclerosis (ALS) is a progressive neurodegenerative disease that affects nerve cells in the brain and the spinal cord. Motor neurons reach from the brain to the spinal cord and from the spinal cord to the muscles throughout the body. The progressive degeneration of the motor neurons in ALS eventually leads to their death. When the motor neurons die, the ability of the brain to initiate and control muscle movement is lost. With voluntary muscle action progressively affected, patients in the later stages of the disease may become totally paralyzed.</p>
Law	Commonwealth Club	10/13/12	:30 minutes	<p>Bill Richardson, Former Governor of New Mexico; Author, <i>How to Sweet Talk a Shark: Strategies and Stories from a Master Negotiator</i></p> <p>In conversation with Jennifer Granholm, Former Governor of Michigan. Richardson shares his stories and insights on the art of negotiation with Granholm, now distinguished practitioner of law and public policy at the Goldman School at UC Berkeley.</p>
	Tuned In with	10/13/13	:30 minutes	<p>Dr. Ed Lamadrid - Integrative Health Studio</p>

The Arts	Mike Johnson	5:00am		Dr. Lamadrid spoke about how acupuncture can be used for common ailments, as well as debunking myths about acupuncture.
Health	Commonwealth Club	10/20/13 5:00am	:30 minutes	Graham Nash Singer; Songwriter; Author, <i>Wild Tales: A Rock & Roll Life</i> From the sounds and feelings to the girls and parties, Nash conveys the unforgettable adventures of his life through his autobiography, <i>Wild Tales: A Rock & Roll Life</i> . But it's not just a relic of history. His lyrics inspired generations to "teach your children well," and Nash is a living reminder that we are the stewards of our own future. He came onto the music scene in a generation that was pushing social norms and has since become a true renaissance man. Nash co-founded Musicians United for Safe Energy and lead its famous No Nukes concerts. He maintained a parallel career in photography as a collector, a pioneer of digital imaging and an artist, capturing the often overlooked elements of everyday life.
Health	Tuned-In with Mike Johnson	10/20/13	:30 minutes	Dr. Ed Lamadrid Integrative Health Studio Dr. Lamadrid spoke about how acupuncture can be used for common ailments, as well as debunking myths about acupuncture
The Arts	Commonwealth Club	10/27/13 5:00am	:30 minutes	Tom Vilsack, U.S. Secretary of Agriculture Michael Froman, U.S. Trade Representative The droughts and superstorms of 2012 were followed in 2013 by ravenous fires and heat waves. Do those extreme weather events have human fingerprints? The IPCC has forwarded further scientific evidence of human-caused climate disruption. This discussion will focus on where the science is firm (precipitation events, surface temperature, sea level) and where it is less clear (hurricanes). It also will touch on what kind of severe weather Americans can expect in coming years and how the scientific "debate" plays out in public.
