For free through our broadcast service, we serve homes with young and pre-school children, and their caregivers, who cannot afford cable or digital wired service. Our programming is delivered with English language captions, to assist viewers of all ages for whom English is a second language, to build spoken and reading vocabulary outside of an institutional setting. This level of dedicated service is far from the norm in Guam electronic media, that struggles to schedule several hours per week of any description of children's programming.
