

## WJGV 1<sup>ST</sup> QUARTER REPORT FOR 2020

The following list represents broadcasts by WJGV which have provided significant treatment towards Putnam County Issues.

\*\*\*Aired Local Palatka City Commission Meetings of the quarter when not airing other local PA. The public was allowed from their homes the only broadcast viewing of the Palatka City Commission Meetings of the Quarter. During this quarter the public affairs segments was aired on weeknights Monday through Friday beginning at 11PM. The Palatka City Commission had several major topics as issues (1) Special Called Meeting regarding COVID-19 City Guidelines, (2) New City Manager's first 100 days on the job report and proposals, (3) The proposed removal of The Palatka Art League from the Tilman House in 6 months, and (4) Facilities Upgrades to IT Department.

\*\*\*\*Aired Palatka Black History Month Specials with City of Palatka's Vice Mayor, Mary Lawson Brown. The Brown's family has been a part of the history of Palatka for some 100 years. Her grandmother was the first licensed black funeral home director in Florida and was also a nurse under Dr. Long that resided in Palatka for many years serving both the black and white community. Also aired the Azusa Street Video, which is a film of the founding of a new religious denomination by Blacks that has spread all over the world. See program log for times it was aired pre-empting the PA segments in month of February at 11pm.

\*\*\*\*Aired PSA's on a variety of subjects COVID-19 Issues and how not to spread it all during the month of March. Other PSA's aired were on Pediatrics, Driving Safety, Pet Adoption, and Fire Safety. All PSA's were inserted as fillers during the "Classic TV" segments, which were aired 3 times per day at 11am, 5pm, and 12am.

\*\*\*\*All programs of Sermons by Pastor Marvin Garner, and the late Rev. Dolly Harrell, as well as the local sponsored programs of Rev. Karl Flagg of Mt. Tabor Baptist, and programming of Victory and NBR TV during the quarter exemplifying the Christian-Judea Ethics can also in my opinion be classed as having significant treatment towards the many ills of the Putnam County, Florida community.
