Quarterly Issues Programs List
for Stations KATP-FM, KIXZ-AM, KMXJ-FM, KPRF-FM, KXSS-FM
January 1, 2020 – March 31, 2020

Section I. Issues.

Each station has identified the following issues as significant issues facing our community in this quarter:

A. Mental Health. Exercise doesn't have to be an anxiety-inducing, hour-long activity. It can be getting a group of friends together for an axe-throwing session or even going on a ten-minute walk during lunch. Each little bit of movement matters. We uncover how taking on a different mindset to activity can lead to better habits and a happier life.

B. Immigration. Can it ever be too easy to cast a ballot in an American election? The answer is yes. Filipino immigrant Elizabeth Keathley mistakenly registered to vote while at a DMV through a law best known as the Motor Voter Law. This originally well-intentioned program is now trapping hundreds of immigrants into federal charges and possible deportation for an act they didn't fully comprehend to begin with.

C. Health. From sugary lattes to grocery staples like yogurt and bread, sugar still seems to be lurking everywhere. Even with greater awareness, it can still be hard to avoid the cookies and cake if you're craving something sweet. We speak with baking blogger, Elif Yamangil and cookbook author, Jennifer Tyler Lee about the importance of limiting sugar in your diet and how to do so while still indulging in some healthier sweets.

D. Minorities & Policing. Today, body-worn cameras are a mainstay in many police departments across the country. While the new technology increases transparency, is it leading to better relationships between the public and police? How are innovations in the field - including the incorporation of artificial intelligence - changing officers' day-to-day duties?.

E. Economics. We speak with an employee from the U.S. Census Bureau about the importance of taking part in the nationwide survey and how the government is reaching students and their families through new in-school programs.
