One sure-fire way to fuel your kid's sense of entitlement is to give him too many choices too early in life—like regularly allowing him to choose what he wants to eat rather than being grateful for what you've given him. When Israel received manna from heaven, the Bible says they rebelled and put God to the test by rejecting what God prepared for them—demanding the food they craved. Similarly, we may be setting up our kids for curses commensurate with entitlement and ingratitude when we give them too many choices too early.

With constantly chasing more, and in trying to keep up, we’ve become a slave to the hustle and bustle of life. What does this communicate to our children? For many of us in today’s post-Christian society, busyness and rush have become the American nightmare. Postmodern indoctrination—fueled by digital technology has given us an even greater appetite and vehicle for self-fulfillment and narcissism. Consequently, little room or inclination is left to pursue the greater eternal realities that promise us everything our carnal pursuits falsely promise. My point is that our lives are ebbing away as we confuse the urgent with the important, and our kids are watching.

It says, “Discipline your son, for, in that, there is hope. Don’t be a willing party to his death.”

**Description of Program:** "License to Parent Daily" (1:00)

We might find that many of the struggles that we have with our kids both with attitude and behavior, stem from what we allow in our homes by way of entertainment and amusement. I'm not just referring to the quality of the content but the quantity of it as well. Without Moral Absolutes in Today’s Culture, We Have No Moral Dilemmas. A postmodern worldview has hijacked American thinking since the 1960s. For today’s parent not to understand the tenets of postmodernism isn’t an option, because today it’s a major influence on the attitude and behavior of all of us. Especially our kids. It’s a worldview that claims there are no moral absolutes, and now we are seeing its logical outworking. Without scripture as their moral guide, our kids may not have felt a moral dilemma in the last five years either.

And human lives are at stake.

**Issue/Event:** "Religious Freedom and Employment Division v. Smith"

**Date:** Friday, March 6, 2020, 7:22 am & 6:26 pm

**Description of Program:** Breakpoint (4:00)

Most of our religious freedom conflicts today occur at the state and local level, as Christian business owners, for example, run afoul of state and local SOGI laws. If a law doesn't specifically target religious practices, which they never do, then there is no "free exercise" issue according to the *Employment Division* decision. Even worse, religious freedom is made a subset of freedom of speech, instead of the "first freedom." In a legal sense, living by millennia-old biblical precepts is treated as the constitutional equivalent of creating sexually explicit material. The late Antonin Scalia is considered a giant among justices, and rightly so. While he may not have intended to create this legal confusion, especially in such a vulnerable cultural moment as ours, that's what happened. It's past time to revisit and overturn *Employment Division v. Smith*. Religious freedom is just too important to rest on such shaky ground.

**Issue/Event:** "Helping Family Members"

**Date:** Tuesday, March 10, 2020, 12:05 pm

**Description of Program:** “Moneywise” (25:00)

It happens to most of us sooner or later: a family member asks for financial help. If your first thought is to write a check, then put down the pen a minute and ask yourself, “Is this helping or hurting?” Consider the circumstances that led this person to ask you for money. **Issue/Event:** "Nuts"

**Date:** Tuesday, March 10, 2020, 4:58 pm

**Description of Program:** “License to Parent Daily” (1:00)

Working in the field of mental health and just watching the news in the recent years, I am more convinced than ever that mental illness is now systemic to our culture. The pace we keep and the priorities we value are indicative of it. But be encouraged, you are not Nuts!

Our society is nuts and it’s trying to make your kids nuts too. Why wouldn’t our society be nuts when our education and mental health professionals prioritize feelings over facts. Facts do not care about your feelings. Have the conversation with your kids, because they don’t think the masses could ever be wrong. But they are wrong all the time whether it’s human slavery or genocide. God’s word, however, is never wrong.

**Issue/Event:** “The Isolation of the Elderly”

**Date:** Wednesday, March 11, 2020, 7:22 am & 6:26 pm

**Description of Program:** Breakpoint (4:00)

According to the last census, nearly 11 million Americans over 65 live alone. Another California study found that 43% of all seniors surveyed suffered from loneliness, whether or not they lived alone. Loneliness is especially hard on seniors. The body of Christ has what the larger world needs if it to find a way to care for its aging population: the *knowledge* that all life is beautiful and valuable, even if it's vulnerable. We'll have to say that over and over, and we'll have to live it too: There shouldn't be a nursing home in the country not flooded with Christian neighbors during visiting hours. On that foundation, we can develop plans for our aging parents that hold them as integral members of our families, not distant obligations. We must innovate ever better palliative care, and the Church must become *the leading place in our world* where multi-generational relationships are both fostered and celebrated.

**Issue/Event:** "Asia Bib, the Nigerian Elders, and the Radical Nature of Christian Forgiveness"

**Date:** Thursday, March 12, 2020, 7:22 am & 6:26 pm

**Description of Program:** Breakpoint (4:00)

Christianity grounds a respect for all human life, but so do other religions such as Jainism and Wicca. Christianity has a robust moral framework that holds all of us to a high standard of behavior, but so do Orthodox Judaism and Islam, especially when it comes to human sexuality. But what about *forgiveness*? Jesus' radical command to not only forgive, but to forgive "seventy times seven," has no equivalent in any other faith. Add that to the command to love, bless, and pray for our enemies and those who persecute us, and now we have something that only Christianity offers the world—something the world would desperately miss if it ever lost it. After all, when Christians forgive as we are instructed to do, the world can't help but take notice.

**Issue/Event:** "5 Steps to Paying Off Debt"

**Date:** Thursday, March 12, 2020, 12:05 pm

**Description of Program:** "Moneywise" (25:00)

The rules for getting out of debt are pretty simple: stop charging things and start paying it off—not a difficult thing to grasp. But like so many things in life, "simple" doesn't always equate to "easy." It's a question we get a lot, "I have \$10,000 or more in debt. How do I pay it off?" Financial planner, and teacher Rob West tells you how to make that happen.

**Issue/Event:** "Lying"

**Date:** Thursday, March 12, 2020, 4:58 pm

God wants us to tell the truth, so much so that he wrote it into the Ten Commandments. If our children break this Commandment, what consequences should there be? Should the consequence differ according to the lie?

**Issue/Event:** "Abortion Isn't Healthcare: Answering Pro-Death PR"

**Date:** Tuesday, March 17, 2020, 7:22 am & 6:26 pm

**Description of Program:** Breakpoint (4:00)

Euphemisms for abortion abound: "a woman's right to choose," "reproductive freedom," and "a private decision between a woman and her doctor." The latest euphemism, one being increasingly used in political discourse, is "access to essential healthcare." Labeling abortion as "healthcare" subverts the very essence of medicine, and it uses words to dodge the reality of what abortion is and does. One step in making abortion illegal and unthinkable is unmasking the verbal tricks that obscure reality. It's time to make abortion advocates tell the truth, and that begins with refusing to play the language game.

**Date:** Tuesday, March 17, 2020, 7:27 am, 1:31 pm, and 11:29 pm

Hi, I'm Joni Eareckson Tada. When we think of disabilities and chronic disorders, we often assume it's weaker or less stable people who struggle with these things. But statistics show that virtually all of us will, at some time or another, suffer from a disease or a medical disorder. Because we live in a fallen world, and bad stuff will happen. So, if we, the church want to be relevant in today's world of disability, we just have to have a better handle on how we can help, how we can serve people with chronic conditions.

**Issue/Event:** "Banning 'Conversion Therapy' "

**Date:** Wednesday, March 18, 2020, 7:22 am & 6:26 pm

**Description of Program:** Breakpoint (4:00)

Last week, Democratic presidential front-runner Joe Biden unveiled his campaign commitments on these issues, and included everything on the sexual left's Christmas list: rollbacks of religious liberty protections, the passage of the so-called Equality Act, adding a "third gender" option on government forms, and of course, supporting a total ban on so-called "conversion therapy." Anyone who counsels or psychologically treats someone with unwanted same-sex attraction or

gender dysphoria, to help them bring their feelings in line with their body, is accused of conversion therapy. The newly invented standards of care now call for so-called gender “affirming” therapy, which instead tries to bring the body in line with feelings, often through lifelong doses of cross-sex hormones and mutilating “sex-change” operations. A 2013 Dutch study found that over 60% of children who expressed gender dysphoria spontaneously desisted after puberty and began identifying with their birth sex. Still the affirmation-only push continues, and if bans on “conversion therapy” succeed, anyone hoping to check out of the LGBTQ movement will be told they can never leave.

In just a few weeks’ time, we find ourselves in a whole new world. Many of us are working from home. Churches are closed. Like everyone else, all of my scheduled speaking events are cancelled. College students are back home, and schools are closed. (Or, as Oprah might say, “You get to homeschool, and you get to homeschool, and you get to homeschool!”) While it’s not clear how long these new arrangements will last, it does make Paul’s admonition in Ephesians 5 quite relevant: “Make the most of time, because the days are evil.”

**Description of Program:** “License to Parent Daily” (1:00)

In our culture today, it seems parents are bribing their kids just to do simple daily chores. I can’t stress enough, the effect of baiting your kids with rewards in order to get them to do what you have told them to do, especially when, what you have told them to do is a responsibility, common to any healthy family, like cleaning their room or taking out the trash. Not only do we retard their character, but we retard ours too.
