PERSPECTIVES: Anna Cabeca, MD -The Hormone Fix: Burn Fat, Boost Energy and more the Keto-Green Way
What if there was a re-imagined Keto diet that didn't result in negative side effects like the "keto-flu" and was much healthier for your body? This unique approach has been developed triple board-certified, Emory-trained physician and Georgia resident, Dr. Anna Cabeca. Her new book is The Hormone Fix and her approach is being hailed by dozens of doctors and best-selling authors. Keto-Green™, the diet and lifestyle honed by Dr. Anna, focuses on ketogenic eating paired with an alkaline diet and intermittent fasting. Unlike the conventional keto diet, Keto-Green incorporates alkaline low carb foods, like green vegetables (hence the name!), that make your body more alkaline. This diet was inspired by Dr. Anna's own life experiences; she went through menopause twice, once at 38 after suffering a tragedy of losing a young child and then again went through menopause at 50. Her plan works for both men and women. Learn more about Dr. Anna Cabeca and her plan at www.drannacabeca.com

PERSPECTIVES: Qaadirah Abdur-Rahim – Ready to Step Up with Atlanta’s Future Foundation
Future Foundation is an Atlanta-based nonprofit working at the school level to break a deeply ingrained cycle of generational poverty. Their innovative model connects organizations across the community to level the playing field for the middle and high school students caught in this pervasive, pernicious trend. Future Foundation blends the art of relationships and the science of data to give high-risk youth access to education, experiences, relationships, and life skills they need to become capable, courageous adults.
