

# Issues Programs List

## Quarterly Issues Programs List

Station:

**KWKH, KTUX, KVKI-FM, KRUF, KXKS-FM**

**July 1<sup>st</sup>, 2019 through September 30<sup>th</sup>, 2019**

### Section I. Issues

The station has identified the following topics as significant issues facing our community in this quarter:

- **Municipal Finances:** There is a massive Bond Proposal coming up for vote in the City of Shreveport. It involves multiple levels of city government, including roads, sewage, police & fire departments, and more. We spoke to multiple people from all angles of the Bond Proposal. The Caddo Parish Commission also ran into budget issues this quarter as well.
- **Public Safety:** Shreveport prepared to hire a new Police Chief during this quarter, which was a big story, with a lot of local interest. We also covered how the Bond Proposal could impact local public safety departments, and some of the other issues our local first responders are dealing with in our area.
- **Local Gaming Revenue:** One of the biggest pieces of the economy in Shreveport and Bossier City is the casino industry. For the last couple years, the revenue in the industry has been going down in our area. We track the numbers, and talk to the people who know what they mean.
- **City Technology:** Updating the technology in the Shreveport and Bossier areas have become a focus of both local and state government. We hear about some of those updates and upgrades.
- **Weather Safety:** Hurricane Barry created a lot of concern in our state and region. The storm was expected to bring devastating flooding throughout the state. We covered it in-depth leading up to the storm, but ultimately it didn't produce the kind of damage expected.

### Section II. Responsive Programs
