**ABORTION & PRO-LIFE ISSUES**

**WHY CAN'T WE LOVE THEM BOTH? # 674-53**

1-20-17, 1-21-17

55 min

Dr. & Mrs. John Wilke M.D.

The heartbeat begins on the 21st day after conception. Currently, twenty weeks is considered the accepted minimum. However, this time will be reduced as medical technology continues to improve. Pregnancy from rape is extremely rare. As reasons for legalizing abortion rape and incest are nothing more than emotional screens used by those profiting from abortion. But we must approach the victim of rape or incest with great compassion. The woman has been subjected to an ugly trauma, and she needs love, support and help. But she has been the victim of one violent act. Should we now ask her to be a party to a second violent act -that of abortion? How can a girl give up her own baby for adoption and go through life never knowing what is happening to her child? Which is better to remember, "I gave my baby life. And because I loved him, I gave him into the arms of a loving couple" Or to remember, "I selfishly ended my baby's life?"

**ADOPTION, ABORTION & PRO-LIFE ISSUES**

**NEWSWATCH 01-27-17 March for Life**

01-27-17, 01-28-17

3:15 min.

CBN - Paul Strand

Vice-President Michael Pence will speak at this year's March for life. The annual march is accompanied by other activities: picketing Planned Parenthood, a teen rally, personal visits with Congressmen, etc.

**NEWSWATCH 01-27-17 Planned Parenthood**

01-27-17, 01-28-17

:50 sec.

CBN - Efreem Graham

Planned Parenthood claims it provides many services besides abortion. LiveAction called 97 clinics, asking for prenatal services, and were turned away by nearly all. One stated they only do ultrasounds to see how far along a pregnancy is in preparation for an abortion. Critics want federal dollars to go to other organizations that do provide such services.

**NEWSWATCH 01-27-17 Second chance**

01-27-17, 01-28-17

4:20 min.

CBN - Heather Sells

Dr. Matt Harrison has developed a procedure which has helped 87 women who took an abortion pill reverse the process to save their baby; another 74 are currently undergoing the process, which consists of flooding the body with progesterone to counter the effects of the RU-486 pill. It must be done before the second pill is taken and does have a 40% failure rate.

**NEWSWATCH 01-30-17 Pro-life Momentum**

01-30-17, 01-31-17

2:15 min.

CBN - Paul Strand

The pro-life movement has gained momentum since the recent election, younger and larger than ever before. What can individuals do? Pray and talk to women approaching abortion clinics, which have dropped in number from about 2200 to about 600; abortions have dropped from 1.6 million to under a million annually.

### **NEWSWATCH 02-01-17    Abortion Clinic Safety**

02-01-17, 02-02-17

2:30 min.

CBN - Paul Strand

The Supreme Court decided this past summer that abortions in abortion clinics are safe, and that laws requiring higher safety standards interfere with a woman's right to abortion. Deanna Wallace has issued a report documenting health and safety violations in many clinics. Over 400 women have died from abortions since Roe v. Wade, not to mention those permanently injured.

### **NEWSWATCH 02-03-17    Defunding Planned Parenthood**

02-03-17, 02-04-17

2:15 min.

CBN- Paul Strand

Defunding Planned Parenthood is a challenge even though Republicans control Congress, since many believe the organization is necessary to provide health services. Planned Parenthood majors in abortion; other organizations that truly major in women's health services could be funded instead.

### **NEWSWATCH 03-13-17    Pro-Life in France**

03-13-17, 03-14-17

4:00 min.

CBN - Dale Hurd

Proposed legislation in France would make illegal any website that attempts to convince a woman not to have an abortion. Violation of this "digital interference law" could bring two years in prison and a \$31,000 fine. It is expected to pass in this very pro-abortion nation.

### **NEWSWATCH 03-29-17    40 Days for Life**

03-29-17, 03-30-17

2:30 min.

CBN - Paul Strand

40 Days for Life is a pro-life group that gathers for six weeks outside selected abortion clinics in forty nations. They have saved 12,919 babies, seen 143 abortion workers quit, and 83 abortion centers closed.

### **NEWSWATCH 03-31-17**

03-31-17

1:40 min.

CBN - Mark Martin

The Senate passed a bill on a 50-50 tie vote broken by vice-president Pence, already passed by the House, which allows states to defund Planned Parenthood and divert those funds to other women's centers which do not perform abortions. Pres. Trump is expected to sign the bill into law.

### **NEWSWATCH 03-31-17    Human Coalition**

03-31-17

2:55 min.

CBN - Paul Strand

Nearly 40% of women seeking an abortion are pressured by someone else and are not provided an alternative. Brian Fisher and the Human Coalition seek to reach these women when they do an internet search by providing a website and Facebook page providing alternatives. ### ***CHILDREN'S ISSUES***

## ***WVCY-TV***

### **NEWSWATCH 01-01-17 World Without Orphans**

01-01-17, 01-02-17

7:00 min.

CBN - George Thomas

Eight million children worldwide live in orphanages, many supported by Christians, churches, and religious charities. Many are promoting a new emphasis, building families (through adoption) rather than building orphanages. Gennadiy Mokhnenko and his wife have parented 32 children over the last 18 years in Ukraine, most adopted. 450 orphan leaders recently met at the first Global Forum for a World Without Orphans in Thailand.

### **NEWSWATCH 01-04-17 Chinese Orphans**

01-04-17, 01-05-17

4:30 min.

CBN - Mengfei Li

Many Chinese children born with physical defects or health problems are abandoned by their parents. A recent report shows 50,000 special needs orphans, among 600,000 orphans nation-wide. Robin Hill and his wife used their savings to create the New Hope Foundation which, with the generous support of other believers, has grown to meet the needs of many orphans.

### **NEWSWATCH 01-23-17 Cyber-Bullying**

01-23-17, 01-24-17

4:00 min.

CBN - Charlene Aaron

Melania Trump has promised as First Lady to attack the problem of cyber-bullying: "when a child is threatened, harassed, intimidated, or embarrassed via the internet or other electronic device." Anonymous bullying through technology follows a child around; a 2011 study showed a million kids were bullied on Facebook alone. Anti-bullying programs in schools often make the problem worse. Parents are a key, teaching kindness and coping.

### **NEWSWATCH 01-25-17 School Recess**

01-25-17, 01-26-17

3:15 min.

CBN - Lorie Johnson

Recess has been shown to have both physical and mental benefits, but is being squeezed out of the schedule in many schools. Students are more attentive after recess. Unstructured play creates innovators, fostering fantasy, imagination, and creativity.

### **NEWSWATCH 03-17-17 Satan Clubs**

03-17-17, 03-18-17

:30 min.

CBN - Efrem Graham

The IRS took only ten days to grant tax-exempt approval to afterschool Satan clubs. Dozens of conservative groups waited years for IRS to grant tax-exempt status.

## ***WVCY-TV***

### **NEWSWATCH 02-16-17 Church Security**

02-16-17, 02-17,17

4:55 min.

CBN - Chuck Holton

Many churches are adopting security policies and teams to protect against attacks by angry or mentally unstable individuals. Tim Miller of Lionheart Intl. Services Group emphasizes planning for weather or fire emergencies (much more likely than attacks) and regular training for security forces. Even in a small church, one person can examine practical steps for greater security.

### **THE CHRISTIAN INSTITUTE**

2-10-17, 2-11-17

3:45

James Gillies

The Christian Institute discusses issues regarding the United Kingdom and the United States. A Church of England theological college has come under fire for holding a blasphemous service, research shows over one billion babies have been killed worldwide in the last one hundred years, and campaigners call on the Scottish Government to introduce a ban on drug-driving.

### **THE CHRISTIAN INSTITUTE**

3-17-17, 3-18-17

3:48

James Gillies

The Christian Institute discusses issues regarding the United Kingdom and the United States. Two Church of England bishops reject calls for the Church to change its doctrine on marriage, a doctors' union comes under fire as it considers proposals to weaken abortion laws and a Christian basketball star shares how he uses his talents to play for 'God's glory'.

### **MACIVER NEWS**

1-10-17, 1-11-17

1:42

Scott Walker, Robin Vos

Governor Scott Walker promised a big boost to transportation spending during his State of the State Address on Tuesday, January 10th. However, fellow Republican, Assembly Speaker Robin Vos, said the governor is not showing the full picture of the numbers behind his proposal. Vos believes all options need to be considered, including a gas tax increase. That's something Walker says is out of the question.

### **MACIVER NEWS**

2-8-17, 2-9-17

1:47

Scott Walker

After spending weeks rolling out aspects of his 2017-19 budget proposal, Governor Scott Walker delivered his budget address this afternoon in front of a joint session of the state legislature. Walker said his budget, which increases spending in a number of key areas and reduces taxes, is made possible by an improving economy and prudent fiscal management - which he calls the "Reform Dividend." He centered the speech on three main themes: student success, accountable government, and rewarding work. Walker's budget includes large investments in K-12 and higher education. It increases K-12 spending by \$649 million, reduces tuition for in-state students at UW System campuses for the first time ever, and adds \$105.2 million in state funding for UW - much of it tied to individual campuses' performance. The budget also cuts taxes by nearly \$600 million by reducing the lowest two tax rates, putting more of the earnings of a middle income family into a lower tax bracket, and eliminating the state's share of the property tax. The budget also invests more money in local road maintenance and rural broadband. In addition, the budget includes a variety of new welfare reform measures, a plan he calls "Wisconsin Works for Everyone." The plan adds new work requirements for those receiving government assistance and includes various provisions that make it easier to transition from welfare to the workforce. In the coming weeks, the Joint Committee on Finance (JFC) will begin to review the plan, the beginning of the long budgeting process in the legislature.

3-2-17, 3-3-17

2:49

Scott Walker, Jay Timmons

Governor Scott Walker broke out the shades once again on Wednesday for the Wisconsin Manufacturers and Commerce Business Day conference at Monona Terrace. Jay Timmons, National Association of Manufacturers President, told MacIver News Service that Wisconsin has good reason to be optimistic. Just the night before, President Donald Trump gave his first speech to a joint session of Congress, and on Wednesday stocks were surging to new records. Additionally, every week seems to bring a new story about a big manufacturer deciding to stay in the US or to bring back production. Timmons said this is due to the belief that the tax and regulation climate in the US is about to radically change for the better. Now states like Wisconsin are facing a problem they never could have dreamed about back in 2008, when the Great Recession started. Timmons says states across the country are looking to Wisconsin as an example of how to regain dominance in manufacturing.

### **HISTORY OF AMERICAN EDUCATION #706**

2-7-17, 2-8-17

1hr 47min

Vaughn Shatzer,

A documentary of why up to the 1960's; America had the best education system in the world. American children could Read, Add, Subtract, and understand basic Science Principles. The textbooks taught basics from Christian Ethics and a Christian Worldview. The Bible was read and memorized and the Ten Commandments were exhibited. The three top offenses were Talking, Chewing Gum, and Running in the Hallways. With the advent of 'taking God out of the Schools and dumbing down History and Reading, American kid's test scores have fallen dramatically. The much-lamented moral decline in modern American society in general stems from many factors, but perhaps none so direct and dramatic as the radical moral nosedive exhibited in our colleges, high schools, and even elementary schools over the last three decades.

### **EVOLUTION: The Grand Experiment #502**

1-3-17, 1-4-17

58 Min

Dr. Carl Werner

In his book *The Origin of the Species*, Charles Darwin admitted that "intermediate links" were "perhaps the most obvious and serious objection to the theory" of evolution. Most people are at least somewhat familiar with the theory of evolution, but few are truly knowledgeable about the theory. Even fewer are aware of new discoveries being made in science which have undermined some of the previously accepted evidence supporting evolution. Evolution has been dogma for so long, now many people consider it a foregone conclusion that life arose by random processes. In the *Evolution: The Grand Experiment* it takes the unusual step of bringing together scientists on both sides of this cultural divide to present their findings. The viewer is allowed to make up his or her mind as to which view is supported by the evidence.

Randy Hekman, Children's Court Judge and father

Randy Hekman, Children's Court Judge and father of twelve children, discussed that Parenting was a 'High Stakes' venture. Many parents fail to appreciate how much is riding on the decisions they make. The ruin of a child often begins when parents ignore a young toddler's disobedient look or rebellious words. Parents who ignore the clear directions in God's Word on discipline in favor of the world's wisdom will be sadly disappointed.

We learn about this highest form of love by understanding God's love to us. While we were yet sinners, God so loved us that he gave his only son to die on the cross for our sins – not expecting something in return. This is the perfect kind of unselfish love that we need to demonstrate to our spouses and each other too.

The Legislative Audit Committee recommended the state put more information and reporting requirements on the Wisconsin DOT after a devastating report. The auditors told the committee about the trouble they encountered collecting basic information from the DOT. The department new secretary, Dave Ross, told the committee things were already changing under his management. Democrats voiced concern about the recommendations. Rep. Sargent asked what difference new rules will make when the DOT wasn't following the old ones. Sen. Vinehout wanted to know where the Joint Committee on Finance was when DOT project costs were exploding. The committee voted unanimously to introduce a bill based on the auditors' recommendations.

### PROGRAM DESCRIPTIONS

Air Date / Week Of:	How Do We Know the Bible Is True? Scripture Under Scrutiny (Brian Edwards)
01-01 to 01-07-17	Translated into more than 420 languages, the Bible is still the world's best-selling book. But where does our Bible come from and why can we be sure that it is reliable? These and many other questions are answered in this presentation.
Air Date / Week Of:	How Do We Know the Bible Is True? Why 66? (Brian Edwards)
01-08 to 01-14-17	It has become all common for critics to dismiss the Bible's credibility. It is time for some plain and simple truth. Join us as we trace the story of the Hebrew Scriptures and the writing and acceptance of the books of the New Testament.
Air Date / Week Of:	How Do We Know the Bible Is True? Authentic Christ (Brian Edwards)
01-15 to 01-21-17	By studying the fulfillment of Old Testament prophecies and how these prophecies point to the coming of Christ, Christians will understand as never before the amazing significance of Jesus of Calvary and all that His death means for us.
Air Date / Week Of:	How Do We Know the Bible Is True? The Life of William Tyndale (Brian Edwards)
01-22 to 01-28-17	At a time when reading the Bible in English was punishable by death, William Tyndale was used mightily of God to translate and print the Scriptures into English. Giving ordinary people the opportunity to read God's Word, Tyndale's work has influenced English translations for over 400 years!

<b>Air Date / Week Of:</b>	<b>The Foundations - The Relevance of Genesis (Ken Ham)</b>
02-05 to 02-11-17	Why is Genesis so important? Ken Ham uses news stories of recent events combined with Scripture to address today's most pressing issues. Includes scores of photos and illustrations, plus a mini-interview that reveals his passion for helping Christians to truly understand the distressing impact of disregarding the authority of Scripture.
<b>Air Date / Week Of:</b>	<b>The Foundations - Revealing the Unknown God (Ken Ham)</b>
02-12 to 02-18-17	American culture has changed substantially, but our approach to evangelism has not. The key is to "de-Greekize" our families and our churches, beginning with ourselves! To truly reach today's culture we have to help them understand that God's Word is true as we spread the seed of the gospel.

## PROGRAM DESCRIPTIONS

<b>Air Date / Week Of:</b>	<b>Age of the Earth - (Andrew Snelling)</b>
03-19 to 03-25-17	We must accept what God's Word and Jesus taught about the earth's age. We should not fear the radioactive methods geologists use to position rocks as millions of years old, because their methods are based on unprovable assumptions. Many examples of inherited ages, contamination, and non-constant radioactive decay rates demonstrate these assumptions are repeatedly falsified. Instead, there are many scientific evidences of a young earth, such as crumbling comets, the earth's magnetic field losing energy, and rapid salt accumulation in the oceans. If we cannot trust the Bible about the earth's age, then we cannot trust its gospel message.
<b>Air Date / Week Of:</b>	<b>Inerrancy and the Undermining of Biblical Authority - (Terry Mortenson)</b>
03-26 to 04-01-17	Most evangelicals today say the Bible is without error in matters of theology and morality, but they doubt or deny that the earth is only about 6,000 years old, as Scripture seems to indicate. They insist that the age of the earth is an unimportant side-issue that is a matter of interpretation of Scripture, not inerrancy. Can someone believe in an inerrant Bible and believe the earth is millions of years old? Consider Dr. Mortenson's thoughts on these important questions. Discover why this issue really does matter!
<b>Air Date / Week Of:</b>	<b>Rescuing Our Kids from the Lie - (Ken Ham)</b>
04-02 to 04-08-17	This powerful presentation challenges Christians to help launch a new Reformation. Share it with your family, your friends, and your Sunday school leaders. Discover why Ken is convinced that like America, the church is under judgment, as well. Two-thirds of our children are now rejecting the faith of their parents. You can help rescue them from the faith-shattering deceptions of the Evil One!
<b>Air Date / Week Of:</b>	<b>Three Ways to Make an Ape Man - (David Menton)</b>
04-09 to 04-15-17	Only the award-winning Dr. David Menton can take a human skeleton and a table covered with skulls, and immediately make them fun for the average home-schooler. With his trademark wit, this world-class anatomist debunks popular ape-to-man skull restorations. See "hard evidence" that confirms the truth of the Bible. We are NOT evolved apes!
<b>Air Date / Week Of:</b>	<b>Evidence of Rapid Fossilization - (Andrew Snelling)</b>
04-16 to 04-22-17	Dr. Andrew Snelling graphically illustrates how fossils - the vestiges of once-living organisms - form rapidly, not over millions of years. To be preserved with the amazing detail we often see, animals and plants "locked" in the rock record had to be buried rapidly, and fossilization had to be rapid as well. Fossils are often found in huge numbers in what are called "graveyards," as demonstrated by many examples across the world. These often massive fossil beds point unmistakably to the rapid burial of living things during the global Flood cataclysm described in Genesis!
