

**PROGRAM ISSUES REPORT  
FOR KSKN-TV**

**3<sup>rd</sup> Quarter 2023**

**July - September**

**DESCRIPTION OF PROGRAMS PROVIDING  
THE MOST SIGNIFICANT TREATMENT OF COMMUNITY ISSUES**

**COMMUNITY ISSUES:**

This quarter's focus on seven areas: **Education/Youth/Teen Issues/STEM** - As education opportunities adapt to our changing workforce the need for consistent reporting and marketing grows. **Health**- The Inland Northwest continues to grow as a medical hub. This includes both health and wellness, mental health issues, and medical/business growth within the community. **Environment** - Locally, businesses, schools and individuals are working to reduce waste, strengthen our waterways and provide a healthier environment. **Social Struggles** - The Inland Northwest continues to work on social struggles that are both reflected in our national social issues and locally. This includes poverty, race-related issues such as discrimination, homelessness, drug use, etc. **Economy/Business**- Economic growth and development is key to an overall healthy community. Creating a strong business environment/culture is top of mind for business leaders. **Political / Government / Military** - This category supports our ever-changing political landscape (both locally/nationally). With a large employer being Fairchild AFB. **Crime/Violence** - As our region grows, so too, does crime and violence. As a community, we are looking for and learning ways to battle the increase in drugs, crime and violence that affect us every day.

In our efforts to serve the public, KSKN-TV wanted to accomplish this through several methods: Explain trends and events that may have affected our viewers and our region. Examine key subjects for new insight and understanding that the viewer deserves to know. Provoke thought and response through editorials and viewer opinion. Initiate results through tangible changes that improve life for our viewers as a result of the station's efforts.

## 1) EDUCATION / YOUTH / TEEN ISSUES / STEM

As education opportunities adapt to our changing workforce the need for consistent reporting and marketing grows. The concerns in our community in relation to education include K-12 basics, early learning, continued education, alternatives, non-traditional schooling, trades, teacher salary negotiations, and other education-based issues. STEM (or STEAM) continues to grow within our community. Education and business is closely working together to create a strong labor force within our communities.

Programs providing the most significant treatment of Education / Youth / Teen Issues / STEM related topics and issues:

**PROGRAMS:**

**7/7/23 – Dr. Phil, 6pm, 1 hour – “Dumbing Down America”:** Sadly, interest in becoming a teacher or remaining a teacher is reportedly the worst in our nation’s history. Dr. Phil tackles the teacher shortage, the “Great Resignation” of teachers, low student standards, teacher frustrations, and new laws in states like Arizona that put teachers with non-traditional backgrounds in classrooms. Other states are pushing universities to expedite teacher certifications, and some districts are hiring student teachers who are still enrolled in college to be full-time first year teachers. Dr. Phil and his panel of guests also discuss possible solutions to the country’s falling student performance in math, science and reading according to OECD’s PISA 2018 international world ranking of developed nations.

**7/10/23 – Dr. Phil, 6pm, 1 hour – “Flavor Chasing: The Teen Vaping Crisis”:** Not only is vaping physically damaging, but it’s become a real point of contention within families of teen users – with some parents saying they being driven “crazy” trying to catch their children in the act. With vape devices being so easy to conceal, teens are vaping in plain sight in school and in their homes.

**8/2/23 – Dr. Phil, 6pm, 1 hour – “Growing up Digital: Are Your Kids Addicted?”:** From social media and gaming to scrolling endlessly online, today’s youth are more plugged in when it comes to digital devices. In fact, 50% of teenagers admit they are addicted to their devices. And, Dr. Nicholas Kardaras, who is widely considered the foremost digital addiction expert, explains how screen time can seriously affect the development of a child’s brain.

## 2) HEALTH

The Inland Northwest continues to grow as a medical hub. This includes both health and wellness, mental health issues, and medical/business growth within the community. The continuing fluctuation of healthcare cost, access to healthcare providers, and insurance all remain top of mind priorities for our community.

Programs providing the most significant treatment of Health-related topics and issues:

*KSKN Morning News M-F, KSKN TEN @ 10 News Monday-Friday, KSKN TEN @ 10 News Weekend- Saturday & Sunday:*

*Syndicated: Dr. Phil and Face the Nation*

*These regular programs provide a share of significant stories each quarter related to Health issues.*

**PROGRAMS:**

**7/25/23 – Dr. Phil, 6pm, 1 hour – “Triggered: Is Social Media Pushing Girls to Self-Harm”:** CeCe is a high school senior who says she became addicted to social media when she was 12 years old. She claims Instagram algorithms took her down a dark rabbit hole, which led to an eating disorder. Last year, Cece and her mother, Candance, filed a lawsuit against Met, Instagram’s parent company, accusing it of “causing and contributing to a growing mental health crisis among children and teens.” They say the big social media companies have not been held accountable for what many experts warn is a connection between heavy social media use and mental health issues in children.

**7/27/23 – Dr. Phil, 6pm, 1 hour – “Kids and ADHS Meds: Too Much Too Soon?”:** School nurses administer more daily medication for ADHD than any other chronic health condition. In December 2022, the Drug Enforcement Agency warned that over prescription of ADHD medication could be as bad as the opioid crisis. Is medicating children for ADHD a troubling trend or an appropriate response?

**8/4/23 – Dr. Phil, 6pm, 1 hour – “Dangerous Diet Crazes?”:** “Drop 20 pounds in two weeks,” “Get the perfect six-pack and muscle definition,” “Eat all you want but still lose weight!” “Take these supplements for optimal health.” These days, celebrities, professional athletes, “health” coaches and influencers make fortunes and garner millions of followers and likes touting unorthodox – and often dangerous- diets and health practices to achieve society’s ideas of perfection and/or optimal wellness, and some people follow their idols and trends blindly. Dr. David Nazarian and nutritionist Desiree Nazarian discuss extreme diets and health risks.

**8/31/23 – Dr. Phil, 6pm, 1 hour – “Generation XL”:** America’s children are facing a huge crisis – one putting their physical and mental health at terrible risk – their weight. Dr Phil discusses the epidemic of childhood obesity, a condition that affects over 14 million children and adolescents. For the first time in 15 years, the American Academy of Pediatrics released new guidelines, including recommending the use of anti-obesity medications to treat children as 12 and weight loss surgery for kids as young as 13.

**PUBLIC SERVICE ANNOUNCEMENTS:**

### 3) ENVIRONMENT

Concern with the environment grows nationally/locally. Locally, businesses, schools and individuals are working to reduce waste, strengthen our waterways and provide a healthier environment. This includes political decisions with environmental impacts, movements to increase environmental awareness, and overall 'green' initiatives.

Programs providing the most significant treatment of Environment related topics and issues:

*KSKN Morning News M-F, KSKN TEN @ 10 News Monday-Friday, KSKN TEN @ 10 News Weekend- Saturday & Sunday:*

*Syndicated: Face the Nation*

*These regular programs provide a share of significant stories each quarter related Environment related issues.*

## 4) SOCIAL STRUGGLES

The Inland Northwest continues to work on social struggles that are both reflected in our national social issues and locally. This includes poverty, race-related issues such as discrimination, homelessness, drug use, etc. Many of the schools in the INW reflect the social problems with high rates of free/reduced lunches and the need for extra family support. Our news and social outreach programs need to reflect these social struggles.

### Programs providing the most significant treatment of Social Struggles related topics and issues:

*KREM 2 News This Morning, KSKN TEN @ 10 News Monday-Friday, KSKN TEN @ 10 News Weekend- Saturday & Sunday: These regular newscasts provide a share of significant stories each quarter related to Poverty related issues.*

*Syndicated Programs: Dr. Phil*

*These regular programs provide a share of significant stories each quarter related to Social Struggle related issues.*

**PROGRAMS:**

**7/2/23 – Face the Nation, 8:30am, 1 hour – 7/2/23:** A discussion on how the University of California system ensures a diverse student body following the stat’s own ban on affirmative action decades ago.

**7/5/23 – Dr. Phil, 6pm, 1 hour – “Transgender Athletes”:** Should transgender athletes be allowed to compete with those of the gender they identify with or must they only compete with athletes who share the gender they were assigned at birth? Are laws that ban transgender women from participating in women’s sports fair? LGBTQ+ activists have described criteria limiting transgender athlete involvement in gendered sports as “discriminatory.”

**8/7/23 – Dr. Phil, 6pm, 1 hour – “Parents Obsessed with Social Media”:** We’ve been warned that social

media is designed to hook people in, and TikTok’s especially advanced algorithms may make it more addictive than other apps. But, we usually associate these dangers with children. What about parents and spouses becoming victims, too?

**8/24/23 – Dr. Phil, 6pm, 1 hour – “The Rise in Anti-Latino Hate”:** In recent years, Latino hate crimes have become a growing concern in the United States. Some research shows that the rise in hate crimes has coincided with a rise in anti-immigrant sentiment in America.

**8/25/23 – Dr. Phil, 6pm, 1 hour – “Influenced to Spend”:** Influencing has changed everything consumers thought they knew about advertising. Using the trust and loyalty they’ve built with their viewers, influencers often times use the façade of not being paid to sell products. However, over the past few years, viewers have turned on social media creators who got rich at their expense. Deinfluencing, thought to be the anti-influencing and anti-consumerist movement, is ironically led by influencers and ultimately, brands desperate to rebuild trust with their viewers. Whether it’s through influencing or deinfluencing, there is no doubt that people are being influenced to spend.

**PROGRAMS:**

**7/11/23 – Dr. Phil, 6pm, 1 hour – “Hard Working and Still Can’t Afford a Home”:** It is no secret that the housing market combined with rising cost of living has created a financial crisis for the average family. Dr. Phil speaks with Kyla and her husband, Andrew, who claim that, despite both working full time, they are now homeless and living in their van due to the rising cost of rent.

**7/18/23 – Dr. Phil, 6pm, 1 hour – “How to Survive Inflation”:** If you’re anxious because every trip to the grocery store and gas station cuts deeper into your budget, you are not alone. At 9.1 percent, inflation is at a 40-year high. With less supply and more demand for so many products, two-thirds of Americans are living paycheck to paycheck and are outraged over prices.

**7/30/23 – Face the Nation, 8:30am, 1 hour – 7/30/23:** A discussion on the bright spots on the economic front, including the assessment of no recession ahead, the resiliency of the U.S. e, as well as possible economic impacts from the extreme weather in the United States.

**9/3/23 – Face the Nation, 8:30am, 1 hour – 9/3/23:** CBS News polling indicating the administration’s economic efforts are not resonating with some Americans.

**9/17/23 – Face the Nation, 8:30am, 1 hour – 9/17/23:** Possible strikes at additional plants/ strike demands / benefits and pay disparity between workers and executives / use of non-unionized factories to make batteries for electric vehicles / the transition to electric vehicles / corporate reaction to union demands.

**PUBLIC SERVICE ANNOUNCEMENTS:**

## 7) CRIME AND VIOLENCE

Providing our viewers with information to keep them safe is important and can circle back to creating an awareness about crime/violence in our community. It's addressing the problem and discussing solutions and programs that further engages our viewership.

Programs providing the most significant treatment of Crime and Violence related topics and issues:

*KREM 2 News This Morning, KSKN TEN @ 10 News Monday-Friday, KSKN TEN @ 10 News Weekend- Saturday & Sunday*

*Syndicated Programs: Dr. Phil and Face the Nation*

*These regular programs provide a share of significant stories each quarter related to Crime and Violence related issues.*

**PROGRAMS:**

**7/3/23 – Dr. Phil, 6pm, 1 hour – “How Safe Are Our Streets?”:** Stories of innocent citizens being brutally attacked by complete strangers who have long and violent criminal histories have become all too common. Many claim these attacks are a result of soft-on-crime policies enacted by “woke” and “progressive” district attorneys and other elected officials. They claim this pro-criminal agenda emboldens criminals and allows them to stay out of jail and prison while leaving residents unsafe and victims abandoned. Others contend criminal justice reforms are needed to fix a broken and unjust criminal justice system.

**8/10/23 – Dr. Phil, 6pm, 1 hour – “My Husband Murdered His Fiancee”:** Dr. Phil delves into the psychology of

how James Addie, a husband of 23 years and father, was living a double life, which eventually led to murder of his fiancée, Molly Watson, 48 hours before their wedding day.

**8/27/23 – Face the Nation, 8:30am, 1 hour – 8/27/23:** a report from Jacksonville, FL on yesterday’s racially motivated shooting inside a Dollar General store by a lone gunman, who killed three people before taking his own life.

**9/7/23 – Dr. Phil, 6pm, 1 hour – “Murdaugh Trial”:** Personal injury attorney Alex Murdaugh, from one of the most prominent families in South Carolina, is currently on trial after being indicted on two counts of murder and two counts of possession of a weapon during the commission of a violent crime for the 2021 killings of his wife, Maggie, and youngest son, Paul.

## 8) COMMUNITY ENGAGEMENT

(specifically, community station involvement). Utilizing our multiple platforms to support the basic needs (both emergent and long term) ranks as highly important to the public. Station driven initiatives should reflect the needs of the listed categories: Education, health, environment, social struggles, business, military, and crime/violence.

### COMMUNITY EVENTS:

**August: KREM Cares tools 2 schools:**

KREM 2 and partners with MLK Center and Communities in Schools provides 2,000 stuffed backpacks with campaign. During the month of August, KREM 2 called for donations of money at area Office Depot locations and on-line donations solicited through KREm.com

**September: KREM Cares Help2NW.**

KREM 2 immediately partnered with the local American Red Cross to fundraise for local wildfire victims. The 3-hour telethon was hosted over the 4p, 5p, and 6p newscasts in September. The campaign raised over \$300k for Red Cross.

**September: Tom’s Turkey T-Shirt Contest**

for Kids is a KREM initiative to engage kids in the fight against hunger. For two weeks in September, kids are encouraged to draw or paint a KREM Cares Tom’s Turkey Drive message. The campaign helps promote our annual Thanksgiving event and supports Second Harvest Food Bank. We have commercial and promotional announcements that run during campaigns and digital and social support. Sponsored by Rosauers and Numerica

**Annual:**

**Pick of the Litter,** Each Tuesday, our non-profit animal welfare partners at Spokanimal bring an animal to the KREM 2 News Noon Show to be featured for adoption. KREM 2 utilizes this segment to elevate the needs of local shelters. Each weekly segment is approximately 2-3 minutes and is supported with commercial promotion.
