Quarterly Issues Program List for Stations WZOK, WXXQ, WKGL & WROK-AM

Third Quarter 2019 July 1 to September 30, 2019

Section I – Issues

The stations listed above have identified the following issues as significant issues facing the Rockford / Stateline area in this quarter:

- A. **Childhood Mental Health:** Steps to be taken to make sure that Child Bullies receive the support they need in changing their behaviors. How long term mentors may help with childhood behavior problems. *“Childhood wellness hits home with every market and region in the country, Rockford is no different. The attention to bullying at the middle school and H.S. level continues to be an important issue to highlight.”*
- B. **Agriculture:** The extraordinarily wet spring this year has resulted in late planting of both Corn and Soy. This will likely have a damping effect on the local agricultural economy with late season harvests. *“The weather last winter and spring was extremely topical. Throughout the Midwest the unseasonably cold winter and wet spring brought hardship to many of the corn and soy famers throughout the region.”*
- C. **Educational debt:** The burden of debt taken on for education is preventing many persons from moving out from their parent’s home. Review of steps to be taken in advance of seeking Collegiate financial aid. *“Much of our core audience across all brands have kids that are in, or thinking about college. This topic is very much on point.”*
- D. **Public health:** As the average age and acuity of the population increases, there is an increased need for trained medical staff. There is a tendency in healthcare to do more with less. One step to deal with this is non-traditional providers. The increasing role of Male nurses. *“Having two brands that skew more male than female and two others with a pretty close balance, this topic is also on point. Rockford has also seen a great deal of expansion in the medical filed with the opening of new hospitals and regional health facilities. These reasons make Public Health and issue that warrants our coverage.”*
- E. **Human Trafficking:** The Rockford / Stateline area has seen an ongoing problem with Human trafficking. Local law enforcement has been receiving increased training in how to deal with the problem safely for all parties involved. Both local and national non-profit groups have been increasing awareness of this issue. *“Rockford’s proximity to the larger cities of Chicago, Milwaukee and Madison makes this a very important issue for our community. It has received a great deal of attention from other media outlets as well as local law enforcement”.*

1:48 SEGMENT 1: FRIENDS OF THE CHILDREN: LONG-TERM MENTORS MAKING A DIFFERENCE 9:24

Synopsis: While some of us have fond memories of an idyllic childhood filled with joyous birthday parties and summer road trips, some children face a completely different home life. This instability can overtake a child or teen and lead them down a dangerous path. The nonprofit, Friends of the Children, understands the importance of getting to a child early on and setting a permanent mentor-child relationship that they can rely on while everything else in their life may be up in the air. We learn about the organization and how they're helping thousands of children move past these struggles to thrive.

Host: Gary Price. Guests: Patrick Kindred, graduate of Friends of the Children Portland; Dr. Ross Greene, clinical child psychologist and founding director, Lives in the Balance; Terri Sorensen, CEO of Friends of the Children
