Below is a list of some of the significant issues responded to by WPNT, The Point, Pittsburgh, Pennsylvania, along with the most significant programming treatment of those issues for the period October 1, 2021 to December 31, 2021. This list is by no means exhaustive. The order in which the issues appear does not reflect any priority or significance. Channel 11 News on FOX 53 (Rebroadcast) Sunday-Fridays 12-1am, Saturdays 12-12:30am

Description of Issue	Program/Segment	Date	Time	Duration	Narration of Type and Description of Program/Segment
Crime Prevention	Channel 11 News on FOX53	10/13	10PM	:50	Pittsburgh International Airport is approaching a record number of firearms stopped by transportation security administration agents. Over the weekend the 29th gun was discovered in a purse at a security checkpoint. And the TSA says this is a problem seen at airports across the country. Today the TSA announced the number of firearms caught at checkpoints nationwide set a twenty-year record in just the first nine months of 2021. So far this year 4,495 weapons have been found. The previous record set in 2019 was 4,432 firearms. TSA agents in Atlanta have stopped the most firearms at 391. Dallas Fort Worth had the second highest with 232 firearms. The TSA administrator called the numbers alarming. Last week the U.S. Attorney's office announced that passengers caught with a firearm in their carry-on bag could face a fine and have their concealed carry permit revoked.
Crime Prevention	Channel 11 News on FOX53	10/19	10PM	1:43	A new report from the Treasury Department raises new warnings about cyberattacks. We're also learning who's being targeted the most. The U.S. Treasury Department gave us data for the first half of this year. They say they're already seeing more ransomware attacks and more payouts by the millions. They make it clear that ransomware attacks are an increasing threat to the U.S. financial sector, businesses, and the public. In just the first six months of this year, they say, there were 450-ransomware payments reported totaling \$590,000,000 which is an increase of 39%. These bad actors are capitalizing on a moment. Brian Linder is with the group, Check Point Research, which studies cyberattacks. They found that 1 out of every 61 organizations in the world is impacted by ransomware each week with education and research being the top target. They know that people are distracted. And that is why there's been such an amazingly huge jump in these attacks, that it's just opportunistic. On Capitol Hill government agency leaders worry not enough federal groups are working together to deal with the threat increase. And when you look closer at the data from Treasury Department the ransomware attacks are up 30% from last year.
Crime Prevention	Channel 11 News on FOX53	11/1	10PM	:27	As people begin choosing their benefits for the next year, these scammers choose their next targets. Health insurance scams spike at this time each year. To avoid being scammed, experts say you should never give your Medicare or social security numbers over the phone. Definitely put a fraud alert or credit freeze on your credit report to protect yourself from incidents of identity theft. The Better Business Bureau also suggests helping older family members recognize the red flags.
Crime Prevention	Channel 11 News on FOX53	11/4	10PM	:45	So far this year, there have been over 5,000 complaints about disruptive passengers, and the FAA just unveiled a new ad showing what can happen if you cause a disturbance on your flight. As you can see here, the ad shows a letter that can be sent to passengers which includes a hefty fine for their behavior. For the first time the FAA has sent passenger cases to the Department of Justice. 37 people could end up behind bars. The crews are there for passenger safety and this is about a behavior that's not appropriate in an aviation environment and it needs to get under control. Earlier this week federal investigators charged a California man for punching an American Airlines flight attendant in the face. He faces up to 20 years in prison.
Crime Prevention	Channel 11 News on FOX53	12/1	10PM	:26	Woodland Hills School District is teaming up with a local church to host a gun buyback program next weekend. The district announced it was launching this program as a way to help stem the violence seen in nearby communities. Next Saturday from 10am to 12pm at the Emmanuel Baptist Church in Rankin you can sell your handguns for \$50 or rifles for \$25. There's no limit on the number of firearms you can bring.
Health	Channel 11 News on FOX53	10/13	10PM	:56	According to the Health Department there are more than 5,000 new cases and 3,000 hospitalizations statewide of Covid-19 with 170 new deaths reported. And Allegheny county officials held their weekly briefing today. They while cases remain high, cases are also stable. And that's a good thing - especially with the holidays on the way. Today, the county reported more than 400 cases and 13 deaths. County health leaders are looking ahead to the next big holiday which is Halloween. They're telling people to take common-sense precautions, especially for trick-or-treating. If you have a party, they say you should do it outside. And there's a good reason for that because there were cases this week connected to weddings, family gatherings, indoor parties and many sporting events from youth to professional sporting events. The county Health Director hopes that increased vaccinations and booster shots will eventually cause cases to fall.

Health	Channel 11 News on FOX53	10/20	10PM	:59	Federal health officials are getting closer to approving a Covid-19 vaccine for young children. About a third of American parents are ready to get their children vaccinated. The Kaiser Family Foundation survey shows another third of parents plan to wait and see what happens first before getting their kids vaccinated. Meanwhile, a quarter of parents say they're not in favor of the vaccine for kids in the 5 to 11 age group. Researchers say the reasons for the hesitancy varied but one of the biggest concerns is the limited amount of information about the long-term effects of the vaccine on kids.
Health	Channel 11 News on FOX53	11/1	10PM	:26	Deadlines for military and defense civilians to get the Covid-19 vaccine are looming. The military says the vast majority of the active duty force has received one shot, but tens of thousands have not. Those who do not get vaccinated and do not have a medical, religious or administrative exemption, face transfers, travel restrictions and limits on deployments. Unvaccinated troops will also be subject to routine testing and distancing guidelines.
Health	Channel 11 News on FOX53	11/14	10PM	1:30	More children have been using screens like tablets, phones, and laptops since the Covid-19 pandemic started. In fact, a new study shows screen time for teens doubled during the pandemic. But that extra screen time, is not always healthy. This report shows young teens spent nearly 8 hours a day in front of screen during the pandemic and this doesn't include time online for school. Researchers from the University of California at San Francisco focused on 12 to 13-year-olds. The study shows some racial disparities. It shows minority teens and those from lower income families also spent more times on screens compared to white, higher income teens. Researchers say increased screen use may have some positive and negative impacts on teens. Johns Hopkins University Professor Tamar Mendelson say many teens were able to use screens to connect with their friends during the pandemic. She says developing those friendships and interactions is vital. But Mendelson says more screen time can interfere with sleeping habits—and lead to mental health risks. Screen time can increase mental health issues like depression and anxiety symptoms. It can reduce the amount of time that kids spend reading and exercising so it can hurt academics, it can be associated with increased weight gain or obesity. Doctors recommend stopping screen time at least one hour before bed.
Health	Channel 11 News on FOX53	12/9	10PM	:39	As health leaders encourage booster shots it raises the question what does fully vaccinated actually mean? Before boosters were approved it meant you had 2 doses of either Pfizer or Moderna's vaccine or one dose of the Johnson and Johnson shot. But now, that's changing. Michael Osterholm, Director, Center for Infectious Disease Research and Policy, University of Minnesota: "I fully agree with the idea that to be fully vaccinated today you need to have three doses. A two-dose prime for the J and J vaccine." Pfizer says adding a booster increases its vaccine's protection by about 25 times.
Education	Channel 11 News on FOX53	10/13	10PM	:34	A new study has ranked Pennsylvania the 21st worst state in the country for bullying in schools. The study from Wallet Hub looked at its impact and treatment and how schools handle bullying. They used data like student to counselor ratio, the number of kids who may be in fear, and students who attempted self-harm. Pennsylvania has touted the success of the state's Safe 2 Say Something school hotline. The hotline was created in 2019, as a way for students to seek help. Last year, it received more than 3600 tips about bullying, 2500 tips about suicidal thoughts and 2100 tips about self-harm.
Education	Channel 11 News on FOX53	10/19	10PM	:50	Even before the pandemic school districts struggled to get qualified teachers in the door. Lawmakers are hoping a new bill could change that. Bill 224 just passed the Senate and will allow out of state teacher candidates, who have completed student teaching, to get a certification in Pennsylvania. McKeesport Superintendent Dr. Mark Holtzman says schools face a lack of qualified teachers, both permanent and substitute. He says it puts a strain on being able to provide a good education to the students. The bill now heads to the House of Representatives. We're told it has good support from both sides. But if it does pass, it's not likely to benefit the districts until next year.

Q4 / 2021	SHOW	TITLE	SUMMARY
OCTOBER			
2	2138	Baltimore Gangs, Part II	Bishop Angel, joins Armstrong to discuss the church's role in supporting those who are often written off & forgotten in our communities - criminal offenders. He believes we need to lift up these individuals and give them a sense of hope and purpose in their lives and still contribute to society.
9	2139	DC Police Chief Robert Contee, Pt. I	A refreshing and candid discussion on policing in America in 2021 with Washington, DC Police Chief Robert Contee .
