|------------|--|-----------------------------------|---|--|
| 10/6/2022 | Capt. Kaley Behl | 9:00:00 AM until 9:15:00 AM | Disaster relief and scams | Yesterday was the Coffee with a Cop event, how'd it go? Great! Had some fantastic conversations with the public. |
| 10/8/2022 | Public Info Officer Alachua Co. Sheriff's Office | 6:00:00 AM until 6:15:00 AM | | IAN did lots of damage, you've been sending officers to help. We had 102 calls in Alachua County. We've sent both officers and communication staff plus communication equipment. Right now our teams are working the midnight shift. You've changed vendors again with food services. Trinity is the new vendor both jail and food services. What's the new scam to be aware of? Phone calls telling people that it's the police and they need to pay on the phone to not be arrested. |
| 10/10/2022 | Mike Balken | 8:00:00 AM until 8:15:00 AM | Disaster impact, crime and domestic violence | You've been busy after Ian..even though you didn't take a direct hit. Yes, we've been helping Hardee county along with Marion County Sheriff's Office. We helped with search and rescue. |
| 10/15/2022 | Ocala Police Chief | 6:00:00 AM until 6:15:00 AM | | This past Saturday you raised funds at the 4th Annual Cops & Cars. Over \$5k raised for the United Way. October is Domestic Violence Month. It's a National event since it's a National problem. You'll have a meet & greet event this Wednesday. The public is invited. |
| 10/11/2022 | Bobby Schultz | 8:00:00 AM until 8:15:00 AM | Disaster relief, public safety, first reponders | Is there any follow up from last week you'd like to mention today? Except for Lee County, many responders are being sent home. Things are getting better. Rain might be in the forecast however. |
| 10/15/2022 | Gilchrist County Sheriff | 6:30:00 AM until 6:45:00 AM | | Halloween is coming...any suggestions? We want everyone to be extra careful of when hours are utilized in your area. Also know where you're going and check the bags as usual. And make yourself aware of any sexual predators in your neighborhood. The Florida Legislature may put Amendment 13 on the ballot. It would be advantageous to law enforcement for instance. Are you supporting this? While I don't like taxes, it might help bring in teachers and first responders to our state. The Florida Sheriffs Association is getting behind a bill that would help first responders at retirement. |

| 10/20/2022 | Capt. Kaley Behl | 9:00:00 AM until 9:15:00 AM | Schools, drug, youth and firearm safety | Oct 18th ACS system released a video about school safety. It was put together in conjunction with area law enforcement and the school system. We just want families to be safe in homes that choose to have firearms. |
| 10/22/2022 | Public Info Officer Alachua Co. Sheriff's Office | 6:00:00 AM until 6:15:00 AM | | How's recovery work going as you assist other agencies after Ian? Most of our Deputies are home now, but we did a lot to give their local officers relief. You had a conference where residents could ask the Sheriff questions. Students enjoyed coming up with questions for him. The DEA drug takeback program is coming up. So we hope residents will turn in old medications for proper disposal. Halloween is almost here, so we want parents and kids to be safe on the streets. |
| 11/2/2022 | Rep. Kat Camack | 8:00:00 AM until 8:30:00 AM | Foreign policy, economy, immigration | North Korea firing missiles, Russia in Ukraine and of course China. Under Biden it seems the world isn't concerned about him. True. It was much quieter during the Trump years. |
| 11/5/2022 | FL 3rd Dist. US House Congresswoman | 6:00:00 AM until 6:30:00 AM | | We may see fuel/oil shortage in the NE thanks to Biden policies. We need to see big wins in the midterms and again in 2024. How does he defend the SE border/drug issue when 70k Americans are dying due to drugs coming in. Makes no sense of course. It has to be their goal of an open border. It ties in to HR1 which allows non citizens to vote. It would also Federalize elections. |
| 11/3/2022 | Capt. Kaley Behl Public Info Officer Alachua County Sheriff's Office | 9:00:00 AM until 9:15:00 AM until | Youth driving safety, youth violence | Looks like law enforcement is working to promote good driving for students. It's a one day, 8 hour course. It exposes them to lots of things that happen on the road. Two December classes still have openings. Veterans Day is coming, so to recognize their sacrifices, we have three events coming up that residents may want to get involved in. Complete info is on the ACSO website. The Sheriffs Assoc is also working on programs to help our youth. The Florida Sheriffs Youth Ranch is one of those. We also met with GPD and local groups to look for ways to address youth violence. Our recruitment team is still active looking to fill openings in the Sheriff's Office. |

| | | | | |
|------------|--|-----------------------------------|--|---|
| 11/8/2022 | Bobby Schultz | 8:00:00 AM until 8:15:00 AM | Storm Preparation, law enforcement support | We have this storm coming...what are you doing in your community? Well, we expect some heavy winds, getting lose items and getting prepared for possible power outage. |
| 11/12/2022 | Gilchrist County Sheriff | 6:00:00 AM until 6:15:00 AM | | You had an inmate get away the other day, but it turned out ok. Yes..we had him back within a couple answers. With judges on the ballot...how can you know how to vote? You can look at their work and decisions in the past to help make your decision. To law enforcement, you want those that support the law. You know both of those running in Gilchrist County, does that make it difficult? They're both good men, but I think if you look at Sean Brewers work you might lean that way. What about elections in other states? It still affects us, like the elections in GA. How they make decisions in DC affects us too. |
| 11/14/2022 | Mike Balken | 8:00:00 AM until 8:15:00 AM | Panhandling, homelessness and scammers | Most agencies across the country are in real need of staff, although Ocala is doing pretty well. Yes, we're doing well in our community but the commission has offered pay for some additional positions. Point is, we're hiring in Ocala. |
| 11/19/2022 | Ocala Police Chief | 6:00:00 AM until 6:15:00 AM | | Pan handling has been an issue in Gainesville, and everyone knows it. But it's becoming an issue in Ocala as well. How are you taking care of that? While people want to give out cash to someone, we should direct those people to area organizations that can help. Most are scammers and actually have cars, homes etc. Many just use the cash for their addictions. |
| 11/17/2022 | Capt. Kaley Behl | 9:00:00 AM until 9:15:00 AM | Law Enforcement raises and Holiday theft | You had an in person career fair recently, but now an upcoming ZOOM or virtual career fair is coming. Yes, we have more info on our website. |
| 11/19/2022 | Public Info Officer Alachua Co. Sheriff's Office | 6:30:00 AM until 6:45:00 AM | | It's a great way for officers in other parts of the country see if perhaps Florida is a better...and warmer..place to do the job they love. It's also good to see that the Sheriff has moved forward on pay raises for the deputies. Thanksgiving is coming...but while it's a great day, it's a busy time for law enforcement. Travel is up and that makes for more accidents. We hope people will be safe and arrive safely. It also kicks off the shopping season for Christmas. Please don't leave packages exposed in your cars. Criminals are shopping too! Lock your vehicles and be aware of who is around you. Watch for scams and in your area, porch pirates. |

| | | | | |
|------------|---|-----------------------------------|---|---|
| 12/1/2022 | Jake Rush | 9:00:00 AM until 9:15:00 AM | Crime, public and law enforcement safety | We see so many DA's around the country, how do we fair locally? Well, we do work together everyday, so I don't want to be critical of our partners in keeping everyone safe. |
| 12/3/2022 | General Counsel- Alachua Co. Sheriff's Office | 6:30:00 AM until 6:45:00 AM | | We're seeing a swing away from the anti police movement over the past couple years. Now we're getting more support and our local Deputies are finally seeing salary increases. A local story made national news this week, when our local Deputies were helping grab a man that had attacked a woman with an axe. Sadly she did not survive. |
| 12/8/2022 | Carl Zalak | 8:00:00 AM until 8:15:00 AM | Holiday food drive and activities, crime, traffic | Bring the Harvest Home event was success...over \$17k donated and lots of food donated. It will do so much to help our community. Trinity Catholic Celtics are heading to the state championship. |
| 12/10/2022 | Marion County Commissioner | 6:15:00 AM until 6:30:00 AM | | Saturday is the annual Christmas parade in Ocala. Everyone is getting ready for the 5:30 start, but get there early to get a good seat. Roads close at 3p. This time of year we see an increase in crime. As always, make sure you're aware of your surroundings. Keep doors locked and hide your items in your car. Be aware of scams as well this time of year. Six counts of human trafficking are hitting the headlines. Sadly it's a big issue, in particular in Florida. Also, be extra careful over the holiday season if drinking at events then driving. Plan ahead for a safe drive home. What will you do for Marion County in 2023? Working on some new traffic/interception timing. Also to bring swimming back to the Springs. |
| 12/12/2022 | Mike Balken | 8:00:00 AM until 8:15:00 AM | Holiday events and crime | One of your officers is leaving....for XFL football! That's exciting news. He had a background in football when he came to our department. So, we're proud of him, and he can always come back if and when he wants. |
| 12/17/2022 | Ocala Police Chief | 6:00:00 AM until 6:15:00 AM | | Shop with a Cop was a big deal for your department in Ocala. Over 30 kids were paired with an officer and sent shopping to our local Walmart. They shopped for themselves and their families. We also remind residents to be aware of where you are and your surroundings. We want it to be a safe season. Hold on to wallets and purses, don't leave those items in your cart. Be careful on the lots. Make sure neighbors are taking care of things with your home. Leave lights or radios on, have someone put up trash cans. One thing we're working on as well is the pan handling issues in our communities. That tends to rise in winter as people come from other areas. |

| | | | | |
|------------|------------------------------------|-----------------------------------|--|--|
| 12/14/2022 | FL US House Rep. Kat Cammack | 8:00:00 AM until 8:15:00 AM | Gay marriage, federal budget, financial and border | You've been accused of supporting gay marriage due to the new bill signed by the president. What it really does is require states to honor the marriages from other states. It was misleading since it also included interracial and other groups. Will Kevin McCarthy be the new Speaker? Yes. He's not happy with a new omnibus bill that will be voted on by people that won't even be in office come January. What about this person that ran the failed FTX crypto issue. Will Congress have any oversight so this kind of thing doesn't happen again? It was simply embezzlement. It happened due to agencies not doing their job. The border is still not secure. Meanwhile Biden is letting in another 65K visas for blue collar jobs. |
| 12/17/2022 | Local Congresswoman | 6:45:00 AM until 7:00:00 AM | | |
| 12/15/2022 | DETECTIVE LANCE YEAGER | 8:00:00 AM until 8:15:00 AM | Local crime investigations | You had quite an impressive military career including being an Airborne Ranger. Now you're in law enforcement. You are in the CID unit...what's that really mean? Basically it involves helping all areas of crime investigation. We've also had great success lately with the drug unit, many lots of drugs have been taken off the street. With cash seizures we were able to use those funds to buy equipment and narcan for our agency. We are seeing so many cases where drugs are being used that, unknown to the victim, contain fentanyl which is deadly. In 2021 we had a huge rash of bomb threats and shooting threats...and a couple this year. But we were able to make another arrest recently in this area. What's the biggest difference you've seen in your career? The CSI affect...when in court they want to see scientific evidence like they see on tv. |
| 12/17/2022 | Alachua County Sheriff's Office | 6:30:00 AM until 6:45:00 AM | | |

| | J. Christian Adams | until | Election integrity | How is it that literally hundreds of elections ended in a tie? Yeah, it's crazy. Some of them were settled by lottery...or basically a coin toss. And one determined who would control the VA House! It left a tie in the chamber, so they drew pieces of paper from a bowl to determine a winner. 349,000 dead people are still on voter rolls...and sometimes vote. All around the country people stay on rolls, especially if a person passed out of the state they're registered. And then some states are sending ballots via mail to dead people. We know Hillary Clinton claimed she won and called Trump illegitimate. Yet when anyone on the right side might say something was wrong with an election, they're ridiculed. The 1st Amendment gives us the right to question things. |
| 12/31/2022 | PUBLIC INTEREST LEGAL FOUNDATION | 6:00:00 AM until 6:15:00 AM | | |

| | | | | |
|------------|---------------------------------|---|---|--|
| | FL US House Rep. Mike Waltz | until | Election, Veterans, Economy, Foreign Policy | You have to be excited about a Red Wave today. You bet. So excited to see Nancy Pelosi give up the gavel. What are some plans for the next session if we win? There's a list: Covid, Hunter Biden and of course the Middle East which is an area I have personal experience. We've got many Veterans running and we're hoping for wins where we'd have leadership that understand the world stage. Energy policy is also an area that needs fixing. We also have to always know that we need to be aware of Putin/Russia, N. Korea and China. |
| 12/31/2022 | Local area Congressman | 6:30:00 AM until 6:45:00 AM | | |
| | Busy Shires | until | Roads projects and protecting Equine Industry | How can we protect the horse farms and still let FDOT address road issues in the community? Yes, we are trying to work with work/road projects but still take care of the preservation area. Highway 75 already runs through the area, and additional lanes will likely be added. The new interchange is not in the preservation area. They also want to add an East/West road at that interchange. It's important to have the roads that will support the horse industry. Even before WEC, the industry had a 2 billion dollar annual impact on the area. We'll continue to watch any possible projects that would impact our horse farms in the Marion County community |
| 12/31/2022 | Florida Horse Farms Forever | 6:15:00 AM until 6:30:00 AM | | |
| 10/5/2022 | FL US House Rep. Kat Cammack | 8:00:00 AM until | Foreign Policy and Oil | President Biden will visit Florida later today following Ian. What can he say to help? Not much...he has to show up. But can always lean to climate change etc...they'll want him to stick to his talking points and not stray. Even in our District, in Putnam County we have homes under water. He's not a fan of fossil fuel, yet takes credit when prices drop. But now OPEC may cut production...he has to be worried. He'll find some way to deflect price increases...all while having decreased our reserves. Not good following a major disaster like Ian. North Korea fired a test rocket...concerned? It's a testing of the waters, going into an election season. Wanting to see what Biden will do. The media continue to ignore our SW border issues and drugs coming across. How can they get away with it? It's almost criminal...at least you and the SKY DO cover it. |
| 10/8/2022 | Local Congresswoman | 8:15:00 AM 6:45:00 AM until 7:00:00 AM | | |

| | | | | |
|------------|---|---|---|--|
| 10/6/2022 | Carl Zalak | 8:00:00 AM until | Disaster relief and healthcare | <p>Ian really hit SW Florida, but how did Marion County fare? Not too bad. At some point a few thousand residents had power issues for a while but crews were on it quick. It looked like the path was originally going to come straight through Marion and Alachua county. Not knowing where it would go, we had to be prepared no matter what.</p> <p>Lee County is really struggling so we're trying to help. We've sent Fire Rescue and Deputies from our entire community doing what they can to help out. I-75 was covered down South. An FHP trooper was even involved in a bridge collapse. If we'd gotten the rain, the "prarie" would be a mess.</p> <p>October is Breast Cancer Awareness Month. We really want our residents to take advantage of exams that are available. Rates are higher in Marion County vs the state. We're told it's really about early detection for women over 40. We need to get the word out.</p> |
| 10/8/2022 | Marion County Commissioner | 8:15:00 AM 6:15:00 AM until 6:30:00 AM | | |
| | | | | |
| 10/6/2022 | Lee Givens | 8:30:00 AM until | Why blacks shouldn't blindly follow Democrats | <p>My goal writing the book, was to let the black community why they shouldn't blindly follow the Democrat party.</p> <p>You really did your homework. Lincoln was a Republican and fought the KKK made up of Dems. Also most blacks don't know that MLK Jr. was a Republican.</p> <p>Despite the War on Poverty, after all the trillions of dollars spent...the poverty level in the black community stays the same now as then.</p> <p>Until 1933, 98% of blacks were Republican. That prompted the democrat attack on our people.</p> |
| | Author | 8:45:00 AM until | | |
| 10/7/2022 | Ed Book | 7:30:00 AM until | Gainesville economy and public safety | <p>What can be done about the night GRU rates? The workers are great, but leadership from the city is the issue. It's all about budget. And the city can't use it as a cash cow.</p> <p>But there are things that need to be done...like roads. A core service is transportation. And roads are a big issue. Let's fix the ones we have first, then possibly expand.</p> <p>Public Safety is a big deal...and for 40 years you've been in law enforcement. So you understand the importance of first responders.</p> <p>Can we get enough voter turnout to make a difference in Gainesville? It's rare for a republican to hold office here. It's about good decisions, not party. Not having an agenda..and listen to the people is what's important.</p> |
| | Gainesville City Commission candidate | 7:45:00 AM until | | |
| 10/11/2022 | Ed Braddy | 8:30:00 AM until | Taxes, infrastructure improvements | <p>Why go back into a possible political office? There's always room for improvement, just like back in 2013 when I became mayor.</p> <p>Some things still need addressed just like back then. Like infrastructure. I'd ask how much of the gas tax is actually used for roads, sidewalks etc. It's not getting spent correctly.</p> <p>We need a dose of common sense on the commission.</p> |
| 10/15/2022 | Former Gainesville Mayor & County Comm. Candidate | 8:45:00 AM 6:15:00 AM until 6:30:00 AM | | |

| | | | | |
|------------|---|--|---|---|
| 10/20/2022 | FL 3rd Dist US House Rep. Kat Cammack | 8:15:00 AM until 8:30:00 AM | Foreign policy, oil, and US-Mexico border | We hear China has more gas in reserve than we do! Yet President Biden is lowering our reserve, likely to get votes. Sadly it won't drop fuel prices. He's just looking for votes in the mid terms. |
| 10/22/2022 | Local Congresswoman | 6:45:00 AM until 7:00:00 AM | | We saw an exchange between Russia and Ukraine. And despite all our own budget issues, we keep sending them money. Biden says our Southern border is secure, but drugs keep coming across. We know Biden won't do anything, but you've been there multiple times. A DOD call for volunteers has been put out. The processing centers are so overwhelmed, they're wanting our military to do menial duties. Paper work, cleaning etc. The "left" has stopped our bill 8 times that would go after smugglers and prevent drugs crossing the border. If we win in the mid terms, we'll immediately get oil production up and running. |
| 10/21/2022 | FL US House Rep. Greg Stuebe SW Florida Congressman | 8:30:00 AM until 8:45:00 AM until | Hurricane recovery and disaster relief | Your district took a huge hit from Ian. How are you doing? We're doing what we can to get through. Three weeks after, we have some streets still with high water. Many roofs still covered in blue tarps. Do you think most people in your district actually thought you'd take the direct hit that it did? No, not at all. Two days out it was still thought that the panhandle...then Tampa...would be the target. But as we now know it hit South. It's always difficult to really know where these things will hit. |
| 10/24/2022 | Ed Braddy Former Gainesville Mayor and Co. Comm. Candidate | 8:00:00 AM until 8:15:00 AM until | Firearms, free speech and local economy | First congrats on the annual Black Tie/Blue Jeans with the Governor attending! Nearly 1100 people were there. And to get him two weeks before the election was a win. That helps other local candidates. While Mr. DeSantis is a 2A supporter, why were there firearms allowed in the building. 4 days before the event, the Governors security team let us know that CC would not be allowed. It wasn't Mr. DeSantis or his direct team that made the decision. We tried to make the case but it was the only way for him to appear. What about the person arrested? He refused to use the protest area that was set aside. We leased the property but allowed an area for protest. |

|------------|---|--|--|--|
| 10/24/2022 | Rep. Daniel Perez | 9:00:00 AM until 9:15:00 AM until | Disaster relief, insurance reform and FL economy | <p>I spent a couple days in SW Florida after Ian rolled through, and it was so good to see how fast the state moved to help the local residents.</p> <p>Somehow Charlie Crist says the Governor was slow to respond. If Crist was there, there is no way that Mr. Crist could come to that conclusion. The governor was there as well as teams of workers working hard to restore power and begin the cleanup.</p> <p>Insurance has been an issue in our state. Thoughts? Especially hits local senior citizens on fixed incomes, who sometimes become victims of construction fraud. Florida's Legislature had a special session about 5 months ago to begin looking at the issues and find ways to firm up the industry in our state. It's safe to say, the first thing we'll address after the elections, is problems with that.</p> <p>UF says the storm caused huge agriculture losses. That will affect residents across the state.</p> <p>The governor is making sure that residents will be able to vote easily despite the storm.</p> |
| | Fla. House of Representatives | | | |
| 10/25/2022 | Wilton Simpson | 8:00:00 AM until 8:15:00 AM until | Election, economy and local agriculture | <p>Agriculture is big in our state but your job would cover many things.</p> <p>Citrus greening is one issue. It's really affecting the state..and smaller farmers may not make it. We'll be trying to get funding that would help our farmers.</p> <p>We are filing a bill to help curb the attempt by the Chinese and other countries, attempting to buy up land in Florida.</p> <p>Marion County's horse farms need protection from development and infrastructure projects.</p> <p>What about programs to help small/new farmers get into the industry. We need to look at removing burdens that prevent them from that opportunity.</p> <p>Ag is also a National Security issue to be protected.</p> |
| | Florida Agriculture Commissioner | | | |
| 10/25/2022 | REP. BLAISE INGOGLIA | 9:00:00 AM until 9:15:00 AM until | Election integrity, disaster relief, economy | <p>You were at the debate last night, thoughts? The crowd was interesting. The DeSantis side were in suits and very professional. The Crist crowd were in t shirts and jeans, and were disruptive. We found out they were actually bussed in to be that way.</p> <p>The governor did follow rules throughout the debate, Mr. Crist did not.</p> <p>This Governor is concentrating on important things. Like recovery from Ian.</p> <p>How could Crist doubt the response to Covid and Ian? Both were crazy.</p> |
| | Florida House in Sumter and Marion Counties | | | |

|------------|--|-----------------------------------|---|---|
| 10/26/2022 | Rep. Tom Fabricio | 8:30:00 AM until 8:45:00 AM | Property Insurance crisis | Florida was in insurance crisis for a while now. Over 6 companies have pulled out of the state. Litigation is part of the problem. Now Ian. While we have a small percent of damage claims, we have a majority of litigation cases. Can you actually make changes at the state level that can help? Yes, we see the need and I think that we can make it happen. The weather is still one thing we will always deal with, but if we can change other elements that could help. We want to make it so more companies want to be here and can compete for clients. The person that created our issue is Charlie Crist. He created the Florida fund that competes with the insurance companies. |
| 10/29/2022 | Fla. House of Representatives | 6:00:00 AM until 6:15:00 AM | | |
| 10/27/2022 | RAEMI EAGLE- GLENN | 8:30:00 AM until 8:45:00 AM | Reelection, County infrastructure and economy | You have a political background, and were appointed to the County Commission by the Governor. Why do you want to run for the position? After seeing the culture of local politics, I have a duty to run. They want to spend all our money on social programs and public places, but not on roads and things that benefit the general public. They will raise taxes for roads and schools..but spend it on their own projects. Now they want to raise them again. The problem is priority not lack of funds. Single member districts is one of the most important issues right now. Right now voting is “at large”, so the city of Gainesville determines who’s on the County Commission. With single district voting, each area can determine who represents them specifically. The current board is on mission of climate change and their decisions show that. They promote “affordable housing” but don’t let them be built. |
| 10/29/2022 | ALACHUA COUNTY COMMISSIONER | 6:15:00 AM until 6:30:00 AM | | |
| 10/27/2022 | ED BIELARSKI | 9:00:00 AM until 9:15:00 AM | Economy, taxes and Gainesville City Budget | You had a debate with Harvey Ward...and you pressed him on the city budget which has grown 50%! Most people don’t know that. I asked where he’d reduced expenses. He had no answer. Of the 50% increase, 80% is culture and recreation. Not safety, like police and fire. Safety is only up 20%. The city runs GRU and that puts pressure on residents. So the city needs to stop taking all the income from GRU. They want to add layers of staff. And as we know, once they’re in the budget, they don’t go away. We can’t spend more than we earn. If a government is to do good, it must have a balanced budget. |
| 10/29/2022 | FORMER GRU GEN. MANAGER AND CANDIDATE FOR MAYOR | 6:45:00 AM until 7:00:00 AM | | |

| 11/2/2022 | Rep. Kat Camack | 8:00:00 AM until 8:30:00 AM | Foreign policy, economy, immigration | North Korea firing missiles, Russia in Ukraine and of course China. Under Biden it seems the world isn't concerned about him. True. It was much quieter during the Trump years. We may see fuel/oil shortage in the NE thanks to Biden policies. We need to see big wins in the midterms and again in 2024. How does he defend the SE border/drug issue when 70k Americans are dying due to drugs coming in. Makes no sense of course. It has to be their goal of an open border. It ties in to HR1 which allows non citizens to vote. It would also Federalize elections. |

| 11/3/2022 | Carl Zalak Marion County Commissioner | 8:00:00 AM until 8:15:00 AM until | Food for poor, veterans' outreach, youth support | Marion County "Bring the Harvest Home" event has been great in the past and this year should be good as well, especially with all the needs in South Florida after Ian. So with Thanksgiving coming, times are tough for everyone. So it will really help local residents in Marion County. Donations are accepted and pickup sites are on the Marion County website. You have a lot of Veterans in Marion County. You recognized all the Veterans that actually work for Marion County. They were presented with a letter and challenge coin. Through some of the grants during Covid, we were able to support some of the homes that help shelter kids and young people. This weekend is the chili cook off. Over 5,000 attend. It's been a big event since the 80's. |
| 11/8/2022 | Ed Book Santa Fe College Police Chief and Commission Cand. | 7:00:00 AM until 7:15:00 AM until | Public Safety, Infrastructure, Gainesville Budget | First question related to your position as the Police Chief at Santa Fe College. Any prep for today and the storm coming. Basically making sure that the campus is secure. You've never run for office, and have a great community job. What make you want to run for the Commission? I feel I can still do more for our community. What's on top of the list? Treat people as I should, listen to them and understand their needs. Then of course, good roads, parks etc. And meeting the needs of the poor in our area. Affordable living/housing is important. Utilities are affordable and access to fresh food. How do we pay for these things? It's about budget and proper financial decisions. We can do it without raising taxes. Working with non profits would also help. Public safety is an issue. And getting new officers is difficult. How would you help with that in the city? How you back the first responders as a start makes a big difference. And showing them you do. |

| 11/8/2022 | Wilton Simpson Florida Agriculture Commissioner | 7:30:00 AM until 7:45:00 AM until | Election, agriculture and 2nd amendment | Farming is a big deal in our state. Good leadership is important and making sure that farmers have the support they need to do their job. At the top of importance of National Security, food supply is up there. We can't have our state and country have food supply issues. We were hit by Ian this year and now we're working to see what we need to do to help citrus and other farmers with financial support from the state. We need to get good planting, since it takes up to three years to recover. Will you support Constitutional Carry in our state? Yes. We need a serious look at it and get it passed. |
| 11/8/2022 | FL US House Rep. Mike Waltz | 8:30:00 AM until 8:45:00 AM | Election, Veterans, Economy, Foreign Policy | You have to be excited about a Red Wave today. You bet. So excited to see Nancy Pelosi give up the gavel. What are some plans for the next session if we win? There's a list: Covid, Hunter Biden and of course the Middle East which is an area I have personal experience. We've got many Veterans running and we're hoping for wins where we'd have leadership that understand the world stage. Energy policy is also an area that needs fixing. We also have to always know that we need to be aware of Putin/Russia, N. Korea and China. |

| 11/14/2022 | Mike Balken | 8:00:00 AM until 8:15:00 AM | Panhandling, homelessness and scammers | Most agencies across the country are in real need of staff, although Ocala is doing pretty well. Yes, we're doing well in our community but the commission has offered pay for some additional positions. Point is, we're hiring in Ocala. |
| 11/19/2022 | Ocala Police Chief | 6:00:00 AM until 6:15:00 AM | | Pan handling has been an issue in Gainesville, and everyone knows it. But it's becoming an issue in Ocala as well. How are you taking care of that? While people want to give out cash to someone, we should direct those people to area organizations that can help. Most are scammers and actually have cars, homes etc. Many just use the cash for their addictions. |
| 11/16/2022 | Carl Zalak Marion County Commissioner | 8:00:00 AM until 8:15:00 AM until | Horse Farms, development and roads projects | Horse farm owners are concerned about new highways or toll roads coming through Marion County. What's up with that? We had a roads summit last week and we're looking at options. We had guests show some options and answer questions about residents' concerns. There was a shooting death of a local teen. What's going on with that? First, we're saddened by the loss to the family. Law Enforcement are still in progress on the investigation. As your county grows, there are always concerns about the community. In our most recent report, we're seeing more jobs come our way. Over 11 thousand in the past few years. We're also a safe community overall. We're also working on land development. That affects our Springs and the horse farm protection area. Our anti-litter campaign is also under way. Light Up Ocala is this weekend! It's the 38th anniversary of the event, kicking off Christmas. |

| 11/17/2022 | Busy Shires | 8:30:00 AM until 8:45:00 AM | Roads projects and protecting Equine Industry | How can we protect the horse farms and still let FDOT address road issues in the community? Yes, we are trying to work with work/road projects but still take care of the preservation area. |
| 11/19/2022 | Florida Horse Farms Forever | 6:15:00 AM until 6:30:00 AM | | Highway 75 already runs through the area, and additional lanes will likely be added. The new interchange is not in the preservation area. They also want to add an East/West road at that interchange. It's important to have the roads that will support the horse industry. Even before WEC, the industry had a 2 billion dollar annual impact on the area. We'll continue to watch any possible projects that would impact our horse farms in the Marion County community |
| 11/17/2022 | Capt. Kaley Behl | 9:00:00 AM until 9:15:00 AM | Law Enforcement raises and Holiday theft | You had an in person career fair recently, but now an upcoming ZOOM or virtual career fair is coming. Yes, we have more info on our website. |
| 11/19/2022 | Public Info Officer Alachua Co. Sheriff's Office | 6:30:00 AM until 6:45:00 AM | | It's a great way for officers in other parts of the country see if perhaps Florida is a better...and warmer...place to do the job they love. It's also good to see that the Sheriff has moved forward on pay raises for the deputies. Thanksgiving is coming...but while it's a great day, it's a busy time for law enforcement. Travel is up and that makes for more accidents. We hope people will be safe and arrive safely. It also kicks off the shopping season for Christmas. Please don't leave packages exposed in your cars. Criminals are shopping too! Lock your vehicles and be aware of who is around you. Watch for scams and in your area, porch pirates. |
| 11/18/2022 | Jenny Korn | 8:30:00 AM until 8:45:00 AM | Election impact and integrity | Congrats to Florida with the Governor getting the win by 20% vs .05% last time. Texas also had some wins, and a few bright spots in Arizona. |
| 11/19/2022 | Former Deputy Asst. to Pres. Trump | 6:45:00 AM until 7:00:00 AM | | Kemp won in Georgia, yet Walker was part of a split ticket. And Arizona gets worse the longer they count. Governors are closer to the people and I think that makes a difference. Republicans also need to address early voting. What were you thinking when Mr. Trump was throwing shots at DeSantis? My advice is stay positive. He should just run on his record. Polls showed that over 70% of Americans say we're on the wrong track...then Dems picked up wins at election day. Many people just weren't feeling confident enough that Republicans would do the right thing. Should the GOP go after the Biden "family" business? We do need oversight. |

| 11/22/2022 | FL Sen. Keith Perry | 9:00:00 AM until 9:30:00 AM | Alachua County Single member Districts | Perry was directly involved in the recently passed voter referendum to make voting for the Alachua County Commission representatives from county-wide to single member districts. Many county voters felt commissioners more represented Gainesville than suburban and rural areas of the county. The referendum passed on election day, and Perry outlined potential changes in candidates, issues and impact of the change in districts. |
| 11/26/2022 | Local State Senator | 6:00:00 AM until 6:30:00 AM | | |
| 11/30/2022 | FL US House Rep. Kat Cammack | 8:00:00 AM until 8:15:00 AM | Elections, economy, taxes and foreign policy | Is there potential undermining of Kevin McCarthy for Speaker? Yes, one member is talking about working with Dems on keeping him from getting the position. We're also busy with the rules of the new House. It will determine how things run. What about a potential rail strike? It would cost billions per day to our economy. This should have been fixed months back with President Biden said he fixed it. And while we look at this rail bill, the Fed is talking about raising rates again. This will continue to hurt our economy. Will we ever stop spending money on Ukraine? We don't have any oversight on where it's all going and needs to be addressed. We're also setting up the rules that will be in effect for the next two years. Everything from how much time we have to read a bill or how things are presented. It makes a difference. And single issue bills are important to have. |
| 12/3/2022 | Local Congresswoman | 6:15:00 AM until 6:30:00 AM | | |
| 11/30/2022 | FL Sen. Dennis Baxley | 9:00:00 AM until 9:15:00 AM | State Budget, disaster, housing, education | We had a Red Wave in Florida, if not the country, so how's it going? The big win was picking up four Senate seats, giving us a majority to keep our conservative agenda moving forward. What do you hope to get done short term? Since we're fiscally sound, that will help with recovery post Ian. Insurance reform needs to be addressed. In the big picture, affordable housing and first responder housing are a couple of things we need to help with. Veteran housing is another. The wildlife corridor is also on the table. Education is a big issue, giving families control over the schools and taking out radical agendas. |

| 12/8/2022 | Carl Zalak | 8:00:00 AM until 8:15:00 AM | Holiday food drive and activities, crime, traffic | Bring the Harvest Home event was success...over \$17k donated and lots of food donated. It will do so much to help our community. Trinity Catholic Celtics are heading to the state championship. |
| 12/10/2022 | Marion County Commissioner | 6:15:00 AM until 6:30:00 AM | | Saturday is the annual Christmas parade in Ocala. Everyone is getting ready for the 5:30 start, but get there early to get a good seat. Roads close at 3p. This time of year we see an increase in crime. As always, make sure you're aware of your surroundings. Keep doors locked and hide your items in your car. Be aware of scams as well this time of year. Six counts of human trafficking are hitting the headlines. Sadly it's a big issue, in particular in Florida. Also, be extra careful over the holiday season if drinking at events then driving. Plan ahead for a safe drive home. What will you do for Marion County in 2023? Working on some new traffic/interrection timing. Also to bring swimming back to the Springs. |
| 12/14/2022 | FL US House Rep. Kat Cammack | 8:00:00 AM until 8:15:00 AM | Gay marriage, federal budget, financial and border | You've been accused of supporting gay marriage due to the new bill signed by the president. What it really does is require states to honor the marriages from other states. It was misleading since it also included interracial and other groups. |
| 12/17/2022 | Local Congresswoman | 6:45:00 AM until 7:00:00 AM | | Will Kevin McCarthy be the new Speaker? Yes. He's not happy with a new omnibus bill that will be voted on by people that won't even be in office come January. What about this person that ran the failed FTX crypto issue. Will Congress have any oversight so this kind of thing doesn't happen again? It was simply embezzlement. It happened due to agencies not doing their job. The border is still not secure. Meanwhile Biden is letting in another 65K visas for blue collar jobs. |
| 12/15/2022 | Jeanette Nunez | 9:00:00 AM until 9:15:00 AM | COVID-19 vaccines investigation, budget | The Governor is wanting a panel, and petitioned the State Supreme Court to look at possible liability on the part of the vaccine manufacturers. We want to look at all the processes that went into the manufacture of the MRNA vax and their affects. The public has less confidence in the vaccines and boosters than ever before. |
| 12/17/2022 | Florida Lieutenant Governor | 6:15:00 AM until 6:30:00 AM | | Florida's budget is healthier than at any time in history, as the state's economy has recovered faster from the pandemic than most all states. The Legislature and Governor have invested in unprecedented retention efforts for law enforcement, first responders and public school teachers. |

| 12/19/2022 | RYAN CHAMBERLIN | 9:00:00 AM until 9:15:00 AM | Special election to replace resigning House rep | Joe Harding recently stepped down from his seat due to issues regarding Covid funds. You live in the district already so it was a perfect fit. Yes, I had been looking at options for the future, so this seemed like the right time. The Governor and the leadership in the Capitol are trying to fix issues in our state regarding the insurance crisis. There's certainly a lot to get fixed for the average resident. You've got a business background...how do you see it for businesses in our state. Good, but we need to continue to lower both taxes red tape. There is always room for improvement in our school systems across the state. Some might call it a crisis when text books are including content that is far beyond the age of our kids. It's hard to imagine that such content was pushed through into our schools. |
| 12/24/2022 | CANDIDATE FOR FL. HOUSE | 6:30:00 AM until 6:45:00 AM | | |
| 12/21/2022 | Sen. Rick Scott | 9:00:00 AM until 9:30:00 AM | Inflation and huge Omnibus Spending bill | The new bill would spend 1.7 trillion dollars. Yet the bill is so full earmarks for various projects. It's three times longer than the Bible. The money in the bill for borders...is for Egypt, not America. |
| 12/24/2022 | Florida US Senator | 6:00:00 AM until 6:30:00 AM | | The Dems want to push this bill, along with a few Republicans have personal interest in the bill. We seem to keep seeing the same people elected and not getting rid of the problems we have. What are we doing wrong? We need to be active in races and know who we're voting for. |

| | J. Christian Adams | until | Election integrity | How is it that literally hundreds of elections ended in a tie? Yeah, it's crazy. Some of them were settled by lottery...or basically a coin toss. And one determined who would control the VA House! It left a tie in the chamber, so they drew pieces of paper from a bowl to determine a winner. |
| 12/31/2022 | PUBLIC INTEREST LEGAL FOUNDATION | 6:00:00 AM until 6:15:00 AM | | 349,000 dead people are still on voter rolls...and sometimes vote. All around the country people stay on rolls, especially if a person passed out of the state they're registered. And then some states are sending ballots via mail to dead people. We know Hillary Clinton claimed she won and called Trump illegitimate. Yet when anyone on the right side might say something was wrong with an election, they're ridiculed. The 1st Amendment gives us the right to question things. |

He lost his 17-year-old son, Mac, in 2020 after a struggle with mental illness and depression. Parkman has become an advocate for concussion and CTE research and awareness.</p> <p>We've heard how the NFL has tried to hide just how bad concussions can be for our kids. Your son had multiple hits and that affected his thinking and that caused impulsive behavior. That led to his shortened life. We really want to raise the age of kids in contact sports. These hits actually affect the kids more since their brain is still developing.</p> <p>Certain areas of the brain are just starting to develop at 15. With kids having these injuries, that's likely to lead to multiple kinds of issues in the way they think. True mental illness can become a problem, leading to bad decisions and potential violence.</p> <p>How's the medical arena responding? They don't know what questions ask about kids being involved in contact sports. So we don't treat them as a psychological patient when we should.</p> <p>It's hard to get kids out of some sports, knowing they want to pursue college and professional sports later in life.</p> |

Lincoln was a Republican and fought the KKK made up of Dems. Also most blacks don't know that MLK Jr. was a Republican.</p> <p>Despite the War on Poverty, after all the trillions of dollars spent...the poverty level in the black community stays the same now as then.</p> <p>Until 1933, 98% of blacks were Republican. That prompted the democrat attack on our people.</p> |

It was put together in conjunction with area law enforcement and the school system. We just want families to be safe in homes that choose to have firearms. How's recovery work going as you assist other agencies after Ian? Most of our Deputies are home now, but we did a lot to give their local officers relief. You had a conference where residents could ask the Sheriff questions. Students enjoyed coming up with questions for him. The DEA drug takeback program is coming up. So we hope residents will turn in old medications for proper disposal. Halloween is almost here, so we want parents and kids to be safe on the streets. |
| 10/27/2022 | RAEMI EAGLE- GLENN | 8:30:00 AM until 8:45:00 AM | Reelection, County infrastructure and economy | You have a political background, and were appointed to the County Commission by the Governor. Why do you want to run for the position? After seeing the culture of local politics, I have a duty to run. They want to spend all our money on social programs and public places, but not on roads and things that benefit the general public. They will raise taxes for roads and schools..but spend it on their own projects. Now they want to raise them again. The problem is priority not lack of funds. Single member districts is one of the most important issues right now. Right now voting is "at large", so the city of Gainesville determines who's on the County Commission. With single district voting, each area can determine who represents them specifically. The current board is on mission of climate change and their decisions show that. They promote "affordable housing" but don't let them be built. |

Veterans Day is coming, so to recognize their sacrifices, we have three events coming up that residents may want to get involved in. Complete info is on the ACSO website. The Sheriffs Assoc is also working on programs to help our youth. The Florida Sheriffs Youth Ranch is one of those. We also met with GPD and local groups to look for ways to address youth violence. Our recruitment team is still active looking to fill openings in the Sheriff's Office. |

| 10/24/2022 | Rep. Daniel Perez Fla. House of Representatives | 9:00:00 AM until 9:15:00 AM until | Disaster relief, insurance reform and FL economy | I spent a couple days in SW Florida after Ian rolled through, and it was so good to see how fast the state moved to help the local residents. Somehow Charlie Crist says the Governor was slow to respond. If Crist was there, there is no way that Mr. Crist could come to that conclusion. The governor was there as well as teams of workers working hard to restore power and begin the cleanup. Insurance has been an issue in our state. Thoughts? Especially hits local senior citizens on fixed incomes, who sometimes become victims of construction fraud. Florida's Legislature had a special session about 5 months ago to begin looking at the issues and find ways to firm up the industry in our state. It's safe to say, the first thing we'll address after the elections, is problems with that. UF says the storm caused huge agriculture losses. That will affect residents across the state. The governor is making sure that residents will be able to vote easily despite the storm. |

| 11/17/2022 | Busy Shires | 8:30:00 AM until 8:45:00 AM | Roads projects and protecting Equine Industry | How can we protect the horse farms and still let FDOT address road issues in the community? Yes, we are trying to work with work/road projects but still take care of the preservation area. Highway 75 already runs through the area, and additional lanes will likely be added. The new interchange is not in the preservation area. They also want to add an East/West road at that interchange. It's important to have the roads that will support the horse industry. Even before WEC, the industry had a 2 billion dollar annual impact on the area. We'll continue to watch any possible projects that would impact our horse farms in the Marion County community |

| 11/22/2022 | FL Sen. Keith Perry | 9:00:00 AM until 9:30:00 AM | Alachua County Single member Districts | Perry was directly involved in the recently passed voter referendum to make voting for the Alachua County Commission representatives from county-wide to single member districts. Many county voters felt commissioners more represented Gainesville than suburban and rural areas of the county. The referendum passed on election day, and Perry outlined potential changes in candidates, issues and impact of the change in districts. |

| 12/21/2022 | Sen. Rick Scott | 9:00:00 AM until 9:30:00 AM | Inflation and huge Omnibus Spending bill | The new bill would spend 1.7 trillion dollars. Yet the bill is so full earmarks for various projects. It's three times longer than the Bible. The money in the bill for borders....is for Egypt, not America. |
| 12/24/2022 | Florida US Senator | 6:00:00 AM until 6:30:00 AM | | The Dems want to push this bill, along with a few Republicans have personal interest in the bill. We seem to keep seeing the same people elected and not getting rid of the problems we have. What are we doing wrong? We need to be active in races and know who we're voting for. |

Government/Political

| Date | Guest/Title | Time | Topic Discussed | Summary |
|------------|--|-----------------------------------|--------------------|---|
| | J. Christian Adams | until | Election integrity | How is it that literally hundreds of elections ended in a tie? Yeah, it's crazy. Some of them were settled by lottery...or basically a coin toss. And one determined who would control the VA House! It left a tie in the chamber, so they drew pieces of paper from a bowl to determine a winner. |
| 12/31/2022 | PUBLIC INTEREST LEGAL FOUNDATION | 6:00:00 AM until 6:15:00 AM | | 349,000 dead people are still on voter rolls...and sometimes vote. All around the country people stay on rolls, especially if a person passed out of the state they're registered. And then some states are sending ballots via mail to dead people. We know Hillary Clinton claimed she won and called Trump illegitimate. Yet when anyone on the right side might say something was wrong with an election, they're ridiculed. The 1st Amendment gives us the right to question things. |

| | FL US House Rep. Mike Waltz | until | Election, Veterans, Economy, Foreign Policy | You have to be excited about a Red Wave today. You bet. So excited to see Nancy Pelosi give up the gavel. What are some plans for the next session if we win? There's a list: Covid, Hunter Biden and of course the Middle East which is an area I have personal experience. We've got many Veterans running and we're hoping for wins where we'd have leadership that understand the world stage. Energy policy is also an area that needs fixing. We also have to always know that we need to be aware of Putin/Russia, N. Korea and China. |

| 10/5/2022 | FL US House Rep. Kat Cammack | 8:00:00 AM until | Foreign Policy and Oil | President Biden will visit Florida later today following Ian. What can he say to help? Not much...he has to show up. But can always lean to climate change etc...they'll want him to stick to his talking points and not stray. Even in our District, in Putnam County we have homes under water. He's not a fan of fossil fuel, yet takes credit when prices drop. But now OPEC may cut production...he has to be worried. He'll find some way to deflect price increases...all while having decreased our reserves. Not good following a major disaster like Ian. North Korea fired a test rocket...concerned? It's a testing of the waters, going into an election season. Wanting to see what Biden will do. The media continue to ignore our SW border issues and drugs coming across. How can they get away with it? It's almost criminal...at least you and the SKY DO cover it. |

| 10/6/2022 | Lee Givens | 8:30:00 AM until 8:45:00 AM until | Why blacks shouldn't blindly follow Democrats | My goal writing the book, was to let the black community why they shouldn't blindly follow the Democrat party. You really did your homework. Lincoln was a Republican and fought the KKK made up of Dems. Also most blacks don't know that MLK Jr. was a Republican. Despite the War on Poverty, after all the trillions of dollars spent...the poverty level in the black community stays the same now as then. Until 1933, 98% of blacks were Republican. That prompted the democrat attack on our people. |

| 10/7/2022 | Ed Book | 7:30:00 AM until 7:45:00 AM until | Gainesville economy and public safety | What can be done about the night GRU rates? The workers are great, but leadership from the city is the issue. It's all about budget. And the city can't use it as a cash cow. But there are things that need to be done...like roads. A core service is transportation. And roads are a big issue. Let's fix the ones we have first, then possibly expand. Public Safety is a big deal...and for 40 years you've been in law enforcement. So you understand the importance of first responders. Can we get enough voter turnout to make a difference in Gainesville? It's rare for a republican to hold office here. It's about good decisions, not party. Not having an agenda..and listen to the people is what's important. |
| | Gainesville City Commission candidate | | | |
| 10/11/2022 | Bobby Schultz | 8:00:00 AM until 8:15:00 AM | Disaster relief, public safety, first responders | Is there any follow up from last week you'd like to mention today? Except for Lee County, many responders are being sent home. Things are getting better. Rain might be in the forecast however. |
| 10/15/2022 | Gilchrist County Sheriff | 6:30:00 AM until 6:45:00 AM | | Halloween is coming...any suggestions? We want everyone to be extra careful of when hours are utilized in your area. Also know where you're going and check the bags as usual. And make yourself aware of any sexual predators in your neighborhood. The Florida Legislature may put Amendment 13 on the ballot. It would be advantageous to law enforcement for instance. Are you supporting this? While I don't like taxes, it might help bring in teachers and first responders to our state. The Florida Sheriffs Association is getting behind a bill that would help first responders at retirement. |
| 10/11/2022 | Ed Braddy | 8:30:00 AM until 8:45:00 AM | Taxes, infrastructure improvements | Why go back into a possible political office? There's always room for improvement, just like back in 2013 when I became mayor. Some things still need addressed just like back then. |
| 10/15/2022 | Former Gainesville Mayor & County Comm. Candidate | 6:15:00 AM until 6:30:00 AM | | Like infrastructure. I'd ask how much of the gas tax is actually used for roads, sidewalks etc. It's not getting spent correctly. We need a dose of common sense on the commission. |

| 10/20/2022 | FL 3rd Dist US House Rep. Kat Cammack | 8:15:00 AM until 8:30:00 AM | Foreign policy, oil, and US-Mexico border | We hear China has more gas in reserve than we do! Yet President Biden is lowering our reserve, likely to get votes. Sadly it won't drop fuel prices. He's just looking for votes in the mid terms. |
| 10/22/2022 | Local Congresswoman | 6:45:00 AM until 7:00:00 AM | | We saw an exchange between Russia and Ukraine. And despite all our own budget issues, we keep sending them money. Biden says our Southern border is secure, but drugs keep coming across. We know Biden won't do anything, but you've been there multiple times. A DOD call for volunteers has been put out. The processing centers are so overwhelmed, they're wanting our military to do menial duties. Paper work, cleaning etc. The "left" has stopped our bill 8 times that would go after smugglers and prevent drugs crossing the border. If we win in the mid terms, we'll immediately get oil production up and running. |
| 10/20/2022 | Carl Zalak Marion County Commissioner | 8:30:00 AM until 8:45:00 AM until | Disaster relief, public safety | You were fortunate that Ian didn't do much damage to Marion County, but you are helping others. Yes, we're collecting supplies to take to those in need in Lee County. Super Dave has been working with the school systems over 30 years, but has had some tough times. He lost his wife, then his home burned. It was such a loss, but through HUD we were able to assist with a new mobile home. His previous one was older and could not get insurance coverage, so we were able to help. Fire Rescue and the Chief gave an award to members at the rec center that were able to save a residents life. Trunk or Treat is coming up October 29th at 4. It's always a fun and free event for our community kids. |
| 10/24/2022 | Ed Braddy Former Gainesville Mayor and Co. Comm. Candidate | 8:00:00 AM until 8:15:00 AM until | Firearms, free speech and local economy | First congrats on the annual Black Tie/Blue Jeans with the Governor attending! Nearly 1100 people were there. And to get him two weeks before the election was a win. That helps other local candidates. While Mr. DeSantis is a 2A supporter, why were there firearms allowed in the building. 4 days before the event, the Governors security team let us know that CC would not be allowed. It wasn't Mr. DeSantis or his direct team that made the decision. We tried to make the case but it was the only way for him to appear. What about the person arrested? He refused to use the protest area that was set aside. We leased the property but allowed an area for protest. |

| 10/25/2022 | Wilton Simpson Florida Agriculture Commissioner | 8:00:00 AM until 8:15:00 AM until | Election, economy and local agriculture | Agriculture is big in our state but your job would cover many things. Citrus greening is one issue. It's really affecting the state..and smaller farmers may not make it. We'll be trying to get funding that would help our farmers. We are filing a bill to help curb the attempt by the Chinese and other countries, attempting to buy up land in Florida. Marion County's horse farms need protection from development and infrastructure projects. What about programs to help small/new farmers get into the industry. We need to look at removing burdens that prevent them from that opportunity. Ag is also a National Security issue to be protected. |
| 10/25/2022 | REP. BLAISE INGOGLIA Florida House in Sumter and Marion Counties | 9:00:00 AM until 9:15:00 AM until | Election integrity, disaster relief, economy | You were at the debate last night, thoughts? The crowd was interesting. The DeSantis side were in suits and very professional. The Crist crowd were in t shirts and jeans, and were disruptive. We found out they were actually bussed in to be that way. The governor did follow rules throughout the debate, Mr. Crist did not. This Governor is concentrating on important things. Like recovery from Ian. How could Crist doubt the response to Covid and Ian? Both were crazy. |
| 10/26/2022 | Rep. Tom Fabricio | 8:30:00 AM until 8:45:00 AM | Property Insurance crisis | Florida was in insurance crisis for a while now. Over 6 companies have pulled out of the state. Litigation is part of the problem. Now Ian. While we have a small percent of damage claims, we have a majority of litigation cases. |
| 10/29/2022 | Fla. House of Representatives | 6:00:00 AM until 6:15:00 AM | | Can you actually make changes at the state level that can help? Yes, we see the need and I think that we can make it happen. The weather is still one thing we will always deal with, but if we can change other elements that could help. We want to make it so more companies want to be here and can compete for clients. The person that created our issue is Charlie Crist. He created the Florida fund that competes with the insurance companies. |

| 10/27/2022 | J. Christian Adams | 8:00:00 AM until 8:15:00 AM | Election integrity | How is it that literally hundreds of elections ended in a tie? Yeah, it's crazy. Some of them were settled by lottery...or basically a coin toss. And one determined who would control the VA House! It left a tie in the chamber, so they drew pieces of paper from a bowl to determine a winner. 349,000 dead people are still on voter rolls...and sometimes vote. | 10/27/2022 | RAEMI EAGLE- GLENN | 8:30:00 AM until 8:45:00 AM | Reelection, County infrastructure and economy | You have a political background, and were appointed to the County Commission by the Governor. Why do you want to run for the position? After seeing the culture of local politics, I have a duty to run. They want to spend all our money on social programs and public places, but not on roads and things that benefit the general public. They will raise taxes for roads and schools..but spend it on their own projects. Now they want to raise them again. The problem is priority not lack of funds. Single member districts is one of the most important issues right now. Right now voting is "at large", so the city of Gainesville determines who's on the County Commission. With single district voting, each area can determine who represents them specifically. The current board is on mission of climate change and their decisions show that. They promote "affordable housing" but don't let them be built. |
| 10/29/2022 | ALACHUA COUNTY COMMISSIONER | 6:15:00 AM until 6:30:00 AM | | |
| 10/27/2022 | ED BIELARSKI | 9:00:00 AM until 9:15:00 AM | Economy, taxes and Gainesville City Budget | You had a debate with Harvey Ward...and you pressed him on the city budget which has grown 50%! Most people don't know that. I asked where he'd reduced expenses. He had no answer. Of the 50% increase, 80% is culture and recreation. Not safety, like police and fire. Safety is only up 20%. The city runs GRU and that puts pressure on residents. So the city needs to stop taking all the income from GRU. They want to add layers of staff. And as we know, once they're in the budget, they don't go away. We can't spend more than we earn. If a government is to do good, it must have a balanced budget. |

| 10/28/2022 | DR. LARRY SMITH | 8:30:00 AM until 8:45:00 AM | Local election issue | What is single member district and what makes it different. What we've had before is each member is elected by everyone county or city wide. Called "at large". It makes an area led by mob rule. It actually oppresses votes. Odd thing is, some people that voted FOR it city wide, are AGAINST it for the county. A good example is why our country is not a Democracy. What's good for one area may be bad for another. |
| | Alachua County Single Member Districts | until | | |
| 10/31/2022 | FL Sen. Keith Perry | 8:45:00 AM until 9:00:00 AM | Alachua County Single Member Districts | Single member districts is the biggest issue we'll deal with in a long time. This makes sure that residents ONLY vote on representation that affects their area. It makes sure that each commission member is on the hot seat for the people they represent. |
| 11/5/2022 | Local State Senator | 6:45:00 AM until 7:00:00 AM | | |
| 11/1/2022 | Rep. Chuck Clemmons | 8:30:00 AM until 8:45:00 AM | Alachua County Single Member Districts | Single member districts is one of the biggest items on the ballot right now. With "at large" voting, groups aren't individually represented. It seems that people that voted FOR it at the city level in Gainesville, are now opposed to it. Seems inconsistent. During the first two committee stops, it passed by both parties. Somehow at the third, the Dems voted against it. Why would they change their vote? The current county commission want to keep their power the way it is. |
| 11/5/2022 | Local Florida House Representative | 6:30:00 AM until 6:45:00 AM | | |
| 11/2/2022 | Rep. Kat Camack | 8:00:00 AM until 8:30:00 AM | Foreign policy, economy, immigration | North Korea firing missiles, Russia in Ukraine and of course China. Under Biden it seems the world isn't concerned about him. True. It was much quieter during the Trump years. We may see fuel/oil shortage in the NE thanks to Biden policies. We need to see big wins in the midterms and again in 2024. How does he defend the SE border/drug issue when 70k Americans are dying due to drugs coming in. Makes no sense of course. It has to be their goal of an open border. It ties in to HR1 which allows non citizens to vote. It would also Federalize elections. |
| 11/5/2022 | FL 3rd Dist. US House Congresswoman | 6:00:00 AM until 6:30:00 AM | | |
| 11/2/2022 | Stafford Jones | 8:30:00 AM until 8:45:00 AM | Alachua County Single Member Districts | This is the one way to make sure that residents in any area are actually represented by those that run for office as county commission. Right now certain areas and groups are not represented. Nationally the NAACP states it's the only fair way. And that "at large" voting is not. We've even been told locally by the NAACP not to promote their view or use their logo. Yet they've already made it public. Seems they've given in to local county pressure. |

| 11/8/2022 | Ed Book | 7:00:00 AM until 7:15:00 AM until | Public Safety, Infrastructure, Gainesville Budget | <p>First question related to your position as the Police Chief at Santa Fe College. Any prep for today and the storm coming. Basically making sure that the campus is secure. You've never run for office, and have a great community job. What make you want to run for the Commission? I feel I can still do more for our community.</p> <p>What's on top of the list? Treat people as I should, listen to them and understand their needs. Then of course, good roads, parks etc. And meeting the needs of the poor in our area. Affordable living/housing is important. Utilities are affordable and access to fresh food.</p> <p>How do we pay for these things? It's about budget and proper financial decisions. We can do it without raising taxes.</p> <p>Working with non profits would also help.</p> <p>Public safety is an issue. And getting new officers is difficult. How would you help with that in the city?</p> <p>How you back the first responders as a start makes a big difference. And showing them you do.</p> |
| | Santa Fe College Police Chief and Commission Cand. | | | |
| 11/8/2022 | Wilton Simpson | 7:30:00 AM until 7:45:00 AM until | Election, agriculture and 2nd amendment | <p>Farming is a big deal in our state. Good leadership is important and making sure that farmers have the support they need to do their job. At the top of importance of National Security, food supply is up there. We can't have our state and country have food supply issues.</p> <p>We were hit by Ian this year and now we're working to see what we need to do to help citrus and other farmers with financial support from the state. We need to get good planting, since it takes up to three years to recover. Will you support Constitutional Carry in our state?</p> <p>Yes. We need a serious look at it and get it passed.</p> |
| | Florida Agriculture Commissioner | | | |
| 11/8/2022 | Bobby Schultz | 8:00:00 AM until 8:15:00 AM | Storm Preparation, law enforcement support | <p>We have this storm coming...what are you doing in your community? Well, we expect some heavy winds, getting lose items and getting prepared for possible power outage.</p> |
| 11/12/2022 | Gilchrist County Sheriff | 6:00:00 AM until 6:15:00 AM | | <p>You had an inmate get away the other day, but it turned out ok. Yes..we had him back within a couple answers. With judges on the ballot...how can you know how to vote? You can look at their work and decisions in the past to help make your decision.</p> <p>To law enforcement, you want those that support the law. You know both of those running in Gilchrist County, does that make it difficult? They're both good men, but I think if you look at Sean Brewers work you might lean that way.</p> <p>What about elections in other states? It still affects us, like the elections in GA. How they make decisions in DC affects us too.</p> |

| 11/9/2022 | FL US House Rep. Kat Cammack | 8:00:00 AM until 8:15:00 AM | Election results and impact | Big win for you last night. Congrats! It was a big day for the state overall, despite Alachua County. Looks like seats in Florida and NY will keep the House. We didn't see the Red Wave some expected. To the credit of DeSantis, he was in every county in the state. The people that really hit the streets picked up wins. Some around the country spent a lot of money, like Stacey Abrahms, but didn't get the win. And how did Fetterman beat Oz? That's just scary. |
| 11/12/2022 | Local 3rd Dist. Congresswoman | 6:45:00 AM until 7:00:00 AM | | |
| 11/9/2022 | FL Rep. Chuck Clemmons | 8:30:00 AM until 8:45:00 AM | Election impact, Single member Districts | Why do you think Florida went red unlike other lock down states? I think people in our state voted with their wallets. We now have a super majority in the state. With that super majority, and that the new Commissioner of Ag support constitutional carry, will that move faster on track? I think so. Single Member Districts did pass, yet Alachua County didn't get enough voters for Republicans. This move will help get some more center/right thinking candidates pick up a win. Gov. DeSantis was a big winner. Will he run for the Presidency? I think he will and we still have a very capable Lt. Governor that could move up. |

What's up with that? We had a roads summit last week and we're looking at options. We had guests show some options and answer questions about residents' concerns. There was a shooting death of a local teen. What's going on with that? First, we're saddened by the loss to the family. Law Enforcement are still in progress on the investigation. As your county grows, there are always concerns about the community. In our most recent report, we're seeing more jobs come our way. Over 11 thousand in the past few years. We're also a safe community overall. We're also working on land development. That affects our Springs and the horse farm protection area. Our anti-litter campaign is also under way. Light Up Ocala is this weekend! It's the 38th anniversary of the event, kicking off Christmas. |

Sheriff's Office | 6:30:00 AM until 6:45:00 AM | | It's a great way for officers in other parts of the country see if perhaps Florida is a better...and warmer..place to do the job they love. It's also good to see that the Sheriff has moved forward on pay raises for the deputies. Thanksgiving is coming...but while it's a great day, it's a busy time for law enforcement. Travel is up and that makes for more accidents. We hope people will be safe and arrive safely. It also kicks off the shopping season for Christmas. Please don't leave packages exposed in your cars. Criminals are shopping too! Lock your vehicles and be aware of who is around you. Watch for scams and in your area, porch pirates. |
| 11/18/2022 | Jenny Korn | 8:30:00 AM until 8:45:00 AM | Election impact and integrity | Congrats to Florida with the Governor getting the win by 20% vs .05% last time. Texas also had some wins, and a few bright spots in Arizona. |
| 11/19/2022 | Former Deputy Asst. to Pres. Trump | 6:45:00 AM until 7:00:00 AM | | Kemp won in Georgia, yet Walker was part of a split ticket. And Arizona gets worse the longer they count. Governors are closer to the people and I think that makes a difference. Republicans also need to address early voting. What were you thinking when Mr. Trump was throwing shots at DeSantis? My advice is stay positive. He should just run on his record. Polls showed that over 70% of Americans say we're on the wrong track...then Dems picked up wins at election day. Many people just weren't feeling confident enough that Republicans would do the right thing. Should the GOP go after the Biden "family" business? We do need oversight. |

| 11/22/2022 | FL Sen. Keith Perry | 9:00:00 AM until 9:30:00 AM | Alachua County Single member Districts | Perry was directly involved in the recently passed voter referendum to make voting for the Alachua County Commission representatives from county-wide to single member districts. Many county voters felt commissioners more represented Gainesville than suburban and rural areas of the county. The referendum passed on election day, and Perry outlined potential changes in candidates, issues and impact of the change in districts. |
| 11/26/2022 | Local State Senator | 6:00:00 AM until 6:30:00 AM | | |
| 11/30/2022 | FL US House Rep. Kat Cammack | 8:00:00 AM until 8:15:00 AM | Elections, economy, taxes and foreign policy | Is there potential undermining of Kevin McCarthy for Speaker? Yes, one member is talking about working with Dems on keeping him from getting the position. We're also busy with the rules of the new House. It will determine how things run. What about a potential rail strike? It would cost billions per day to our economy. This should have been fixed months back with President Biden said he fixed it. And while we look at this rail bill, the Fed is talking about raising rates again. This will continue to hurt our economy. Will we ever stop spending money on Ukraine? We don't have any oversight on where it's all going and needs to be addressed. We're also setting up the rules that will be in effect for the next two years. Everything from how much time we have to read a bill or how things are presented. It makes a difference. And single issue bills are important to have. |
| 12/3/2022 | Local Congresswoman | 6:15:00 AM until 6:30:00 AM | | |
| 11/30/2022 | FL Sen. Dennis Baxley | 9:00:00 AM until 9:15:00 AM | State Budget, disaster, housing, education | We had a Red Wave in Florida, if not the country, so how's it going? The big win was picking up four Senate seats, giving us a majority to keep our conservative agenda moving forward. What do you hope to get done short term? Since we're fiscally sound, that will help with recovery post Ian. Insurance reform needs to be addressed. In the big picture, affordable housing and first responder housing are a couple of things we need to help with. Veteran housing is another. The wildlife corridor is also on the table. Education is a big issue, giving families control over the schools and taking out radical agendas. |

| 12/8/2022 | Carl Zalak | 8:00:00 AM until 8:15:00 AM | Holiday food drive and activities, crime, traffic | Bring the Harvest Home event was success...over \$17k donated and lots of food donated. It will do so much to help our community. Trinity Catholic Celtics are heading to the state championship. |
| 12/10/2022 | Marion County Commissioner | 6:15:00 AM until 6:30:00 AM | | Saturday is the annual Christmas parade in Ocala. Everyone is getting ready for the 5:30 start, but get there early to get a good seat. Roads close at 3p. This time of year we see an increase in crime. As always, make sure you're aware of your surroundings. Keep doors locked and hide your items in your car. Be aware of scams as well this time of year. Six counts of human trafficking are hitting the headlines. Sadly it's a big issue, in particular in Florida. Also, be extra careful over the holiday season if drinking at events then driving. Plan ahead for a safe drive home. What will you do for Marion County in 2023? Working on some new traffic/intercection timing. Also to bring swimming back to the Springs. |
| 12/14/2022 | FL US House Rep. Kat Cammack | 8:00:00 AM until 8:15:00 AM | Gay marriage, federal budget, financial and border | You've been accused of supporting gay marriage due to the new bill signed by the president. What it really does is require states to honor the marriages from other states. It was misleading since it also included interracial and other groups. |
| 12/17/2022 | Local Congresswoman | 6:45:00 AM until 7:00:00 AM | | Will Kevin McCarthy be the new Speaker? Yes. He's not happy with a new omnibus bill that will be voted on by people that won't even be in office come January. What about this person that ran the failed FTX crypto issue. Will Congress have any oversight so this kind of thing doesn't happen again? It was simply embezzlement. It happened due to agencies not doing their job. The border is still not secure. Meanwhile Biden is letting in another 65K visas for blue collar jobs. |
| 12/15/2022 | Jeanette Nunez | 9:00:00 AM until 9:15:00 AM | COVID-19 vaccines investigation, budget | The Governor is wanting a panel, and petitioned the State Supreme Court to look at possible liability on the part of the vaccine manufacturers. We want to look at all the processes that went into the manufacture of the MRNA vax and their affects. The public has less confidence in the vaccines and boosters than ever before. |
| 12/17/2022 | Florida Lieutenant Governor | 6:15:00 AM until 6:30:00 AM | | Florida's budget is healthier than at any time in history, as the state's economy has recovered faster from the pandemic than most all states. The Legislature and Governor have invested in unprecedented retention efforts for law enforcement, first responders and public school teachers. |

|------------|----------------------------|-----------------------------------|---|--|
| 12/19/2022 | RYAN CHAMBERLIN | 9:00:00 AM until 9:15:00 AM | Special election to replace resigning House rep | Joe Harding recently stepped down from his seat due to issues regarding Covid funds. You live in the district already so it was a perfect fit. Yes, I had been looking at options for the future, so this seemed like the right time. The Governor and the leadership in the Capitol are trying to fix issues in our state regarding the insurance crisis. There's certainly a lot to get fixed for the average resident. You've got a business background...how do you see it for businesses in our state. Good, but we need to continue to lower both taxes red tape. There is always room for improvement in our school systems across the state. Some might call it a crisis when text books are including content that is far beyond the age of our kids. It's hard to imagine that such content was pushed through into our schools. |
| 12/24/2022 | CANDIDATE FOR FL. HOUSE | 6:30:00 AM until 6:45:00 AM | | |
| 12/21/2022 | Sen. Rick Scott | 9:00:00 AM until 9:30:00 AM | Inflation and huge Omnibus Spending bill | The new bill would spend 1.7 trillion dollars. Yet the bill is so full earmarks for various projects. It's three times longer than the Bible. The money in the bill for borders...is for Egypt, not America. |
| 12/24/2022 | Florida US Senator | 6:00:00 AM until 6:30:00 AM | | The Dems want to push this bill, along with a few Republicans have personal interest in the bill. We seem to keep seeing the same people elected and not getting rid of the problems we have. What are we doing wrong? We need to be active in races and know who we're voting for. |

| | FL US House Rep. Mike Waltz | until | Election, Veterans, Economy, Foreign Policy | You have to be excited about a Red Wave today. You bet. So excited to see Nancy Pelosi give up the gavel. What are some plans for the next session if we win? There's a list: Covid, Hunter Biden and of course the Middle East which is an area I have personal experience. We've got many Veterans running and we're hoping for wins where we'd have leadership that understand the world stage. Energy policy is also an area that needs fixing. We also have to always know that we need to be aware of Putin/Russia, N. Korea and China. |

Some areas are seeing the increase, but locally it's not been as bad. Kids do respond to medication and can be handled. Other colds and viruses are spreading. |
| 12/31/2022 | Physician and infectious disease expert | 6:45:00 AM | | Stay hydrated is top advice, plus broth based liquids. Vitamin C, D and Zinc are important. If you have lung problems, prednisone can help. |
| | | until | | Strep A is spreading in Europe, it's what causes Strep Throat. It's easily treated. |
| | | 7:00:00 AM | | It's really driving people to get vaccines. The CDC is talking about masks again. And in LA they promoting it. Only the high quality masks work anyway. Wearing masks can contribute to those with breathing issues already. |
| | DR. JOHN LITTELL | until | COVID PANDEMIC AND MONKEYPOX | So, Biden says the pandemic is over. Thoughts? It's good unless you're investing pharma. And some that want to keep pushing the agenda of masks etc... |
| 10/1/2022 | PHYSICIAN, COVID AND VACCINES EXPERT | 6:30:00 AM | | Now we're dealing with variants that have been around before. Stop testing. It doesn't really accomplish anything. Stay hydrated and worse case antibiotics help. Ivermectin is still an option. Some doctors still aren't allowed to prescribe it. It's still a control issue. |
| | | until | | What about "long haulers"? Long term fatigue, tremors etc? We are seeing that, depending on when they might have had Covid OR the shot. |
| | | 6:45:00 AM | | Is Monkey pox an issue? Not for most people. It's still primarily an STD in the gay community. It's concerning that parts of the medical community still promote certain sexual activity that spreads these things. |

| 10/1/2022 | BRUCE PARKMAN Concussion Legacy Foundation | until 6:00:00 AM until 6:15:00 AM | CONCUSSIVE DAMAGE, SUICIDE, YOUTH SPORTS | <p>Parkman is CEO of MainNerve, served 21 years in the Army, including 18 years as a Green Beret. He lost his 17-year-old son, Mac, in 2020 after a struggle with mental illness and depression. Parkman has become an advocate for concussion and CTE research and awareness.</p> <p>We've heard how the NFL has tried to hide just how bad concussions can be for our kids. Your son had multiple hits and that affected his thinking and that caused impulsive behavior. That led to his shortened life. We really want to raise the age of kids in contact sports. These hits actually affect the kids more since their brain is still developing.</p> <p>Certain areas of the brain are just starting to develop at 15. With kids having these injuries, that's likely to lead to multiple kinds of issues in the way they think. True mental illness can become a problem, leading to bad decisions and potential violence.</p> <p>How's the medical arena responding? They don't know what questions ask about kids being involved in contact sports. So we don't treat them as a psychological patient when we should.</p> <p>It's hard to get kids out of some sports, knowing they want to pursue college and professional sports later in life.</p> |
| 10/3/2022 | Dr. John Littel | 8:00:00 AM until 8:15:00 AM | COVID & MONKEYPOX | <p>We hear that Monkey Pox is here forever. That true? People forget that it's been around for a long time. Typically in rodents in Africa, then started spreading in the bathhouses of Europe. So, while it may be around, it can be prevented based on gay sexual activity or to those living in homes of gay residents.</p> <p>Should we be concerned about illness after Ian? Water spread risks are always possible but should do pretty well.</p> <p>We still see people getting a Covid test every time they have a sneeze or cough.</p> <p>Sweden is now saying not to vax young kids for Covid. You've been saying this all along. Correct. In Denmark they say no one under 50 needs to be vaxed. At some point a few thousand residents had power issues for a while but crews were on it quick. It looked like the path was originally going to come straight through Marion and Alachua county. Not knowing where it would go, we had to be prepared no matter what.</p> <p>Lee County is really struggling so we're trying to help. We've sent Fire Rescue and Deputies from our entire community doing what they can to help out.</p> <p>I-75 was covered down South. An FHP trooper was even involved in a bridge collapse. If we'd gotten the rain, the "prarie" would be a mess.</p> <p>October is Breast Cancer Awareness Month. We really want our residents to take advantage of exams that are available. Rates are higher in Marion County vs the state. We're told it's really about early detection for women over 40. We need to get the word out.</p> |

The DeSantis side were in suits and very professional. The Crist crowd were in t shirts and jeans, and were disruptive. We found out they were actually bussed in to be that way. The governor did follow rules throughout the debate, Mr. Crist did not. This Governor is concentrating on important things. Like recovery from Ian. How could Crist doubt the response to Covid and Ian? Both were crazy. |

So with Thanksgiving coming, times are tough for everyone. So it will really help local residents in Marion County. Donations are accepted and pickup sites are on the Marion County website. You have a lot of Veterans in Marion County. You recognized all the Veterans that actually work for Marion County. They were presented with a letter and challenge coin. Through some of the grants during Covid, we were able to support some of the homes that help shelter kids and young people. This weekend is the chili cook off. Over 5,000 attend. It's been a big event since the 80's. |

Yes, we're doing well in our community but the commission has offered pay for some additional positions. Point is, we're hiring in Ocala. |
| 11/19/2022 | Ocala Police Chief | 8:15:00 AM 6:00:00 AM until 6:15:00 AM | | Pan handling has been an issue in Gainesville, and everyone knows it. But it's becoming an issue in Ocala as well. How are you taking care of that? While people want to give out cash to someone, we should direct those people to area organizations that can help. Most are scammers and actually have cars, homes etc. Many just use the cash for their addictions. |
| 11/21/2022 | Dr. John Littel | 7:00:00 AM until | RSV spread, fall flu and COVID-19 | Surges flu and RSV in colder areas of the US are impacting children and seniors, and are expected to spread through Florida. | 11/26/2022 | Physician and infectious disease expert | 7:30:00 AM 6:30:00 AM until 7:00:00 AM | | RSV is hitting children, but doesn't seem to be more severe than normal years. | 12/3/2022 | Pres. Soldiers' Freedom Outdoorss | 6:00:00 AM until 6:15:00 AM | | Bring the family for \$20 per carload. Free hay rides as well around the farm. The facility is dedicated to our Vets. Well, for the past two years the CDC basically said nothing is the flu, and it was all Covid. So, this year, we'll see viral infections that are usually cold like symptoms. Now the President is sending out more Covid tests which prompts more fear. If you want to stay well, push the Vitamins..D, C Zinc etc. Then if you have symptoms, treat those. Don't assume need a covid test or go to the ER. Don't be part of the panic. Our Governor has also put together an integrity board that will make sure that policies put in affect are |

| 10/6/2022 | Lee Givens Author | 8:30:00 AM until 8:45:00 AM until | Why blacks shouldn't blindly follow Democrats | My goal writing the book, was to let the black community why they shouldn't blindly follow the Democrat party. You really did your homework. Lincoln was a Republican and fought the KKK made up of Dems. Also most blacks don't know that MLK Jr. was a Republican. Despite the War on Poverty, after all the trillions of dollars spent...the poverty level in the black community stays the same now as then. Until 1933, 98% of blacks were Republican. That prompted the democrat attack on our people. |

| 10/27/2022 | RAEMI EAGLE- GLENN | 8:30:00 AM until 8:45:00 AM | Reelection, County infrastructure and economy | You have a political background, and were appointed to the County Commission by the Governor. Why do you want to run for the position? After seeing the culture of local politics, I have a duty to run. They want to spend all our money on social programs and public places, but not on roads and things that benefit the general public. They will raise taxes for roads and schools..but spend it on their own projects. Now they want to raise them again. The problem is priority not lack of funds. |
| 10/29/2022 | ALACHUA COUNTY COMMISSIONER | 6:15:00 AM until 6:30:00 AM | | Single member districts is one of the most important issues right now. Right now voting is "at large", so the city of Gainesville determines who's on the County Commission. With single district voting, each area can determine who represents them specifically. The current board is on mission of climate change and their decisions show that. They promote "affordable housing" but don't let them be built. |

We need to see big wins in the midterms and again in 2024. How does he defend the SE border/drug issue when 70k Americans are dying due to drugs coming in. Makes no sense of course. It has to be their goal of an open border. It ties in to HR1 which allows non citizens to vote. It would also Federalize elections. |

| 11/3/2022 | Carl Zalak | 8:00:00 AM until 8:15:00 AM | Food for poor, veterans' outreach, youth support | Marion County "Bring the Harvest Home" event has been great in the past and this year should be good as well, especially with all the needs in South Florida after Ian. So with Thanksgiving coming, times are tough for everyone. So it will really help local residents in Marion County. Donations are accepted and pickup sites are on the Marion County website. You have a lot of Veterans in Marion County. You recognized all the Veterans that actually work for Marion County. They were presented with a letter and challenge coin. Through some of the grants during Covid, we were able to support some of the homes that help shelter kids and young people. This weekend is the chili cook off. Over 5,000 attend. It's been a big event since the 80's. |
| | Marion County Commissioner | until | | |
| 11/30/2022 | FL Sen. Dennis Baxley | 9:00:00 AM until 9:15:00 AM | State Budget, disaster, housing, education | We had a Red Wave in Florida, if not the country, so how's it going? The big win was picking up four Senate seats, giving us a majority to keep our conservative agenda moving forward. |
| 12/3/2022 | Local State Senator | 6:45:00 AM until 7:00:00 AM | | What do you hope to get done short term? Since we're fiscally sound, that will help with recovery post Ian. Insurance reform needs to be addressed. In the big picture, affordable housing and first responder housing are a couple of things we need to help with. Veteran housing is another. The wildlife corridor is also on the table. Education is a big issue, giving families control over the schools and taking out radical agendas. |

| 10/6/2022 | Carl Zalak | 8:00:00 AM until 8:15:00 AM | Disaster relief and healthcare | Ian really hit SW Florida, but how did Marion County fare? Not too bad. At some point a few thousand residents had power issues for a while but crews were on it quick. It looked like the path was originally going to come straight through Marion and Alachua county. Not knowing where it would go, we had to be prepared no matter what. |
| 10/8/2022 | Marion County Commissioner | 6:15:00 AM until 6:30:00 AM | | Lee County is really struggling so we're trying to help. We've sent Fire Rescue and Deputies from our entire community doing what they can to help out. I-75 was covered down South. An FHP trooper was even involved in a bridge collapse. If we'd gotten the rain, the "prarie" would be a mess. October is Breast Cancer Awareness Month. We really want our residents to take advantage of exams that are available. Rates are higher in Marion County vs the state. We're told it's really about early detection for women over 40. We need to get the word out. |

| | | | | |
|------------|---|--|--|---|
| 10/6/2022 | Capt. Kaley Behl | 9:00:00 AM until 9:15:00 AM | Disaster relief and scams | Yesterday was the Coffee with a Cop event, how'd it go? Great! Had some fantastic conversations with the public. |
| 10/8/2022 | Public Info Officer Alachua Co. Sheriff's Office | 6:00:00 AM until 6:15:00 AM | | IAN did lots of damage, you've been sending officers to help. We had 102 calls in Alachua County. We've sent both officers and communication staff plus communication equipment. Right now our teams are working the midnight shift. You've changed vendors again with food services. Trinity is the new vendor both jail and food services. What's the new scam to be aware of? Phone calls telling people that it's the police and they need to pay on the phone to not be arrested. |
| 10/7/2022 | Ed Book Gainesville City Commission candidate | 7:30:00 AM until 7:45:00 AM until | Gainesville economy and public safety | What can be done about the night GRU rates? The workers are great, but leadership from the city is the issue. It's all about budget. And the city can't use it as a cash cow. But there are things that need to be done...like roads. A core service is transportation. And roads are a big issue. Let's fix the ones we have first, then possibly expand. Public Safety is a big deal...and for 40 years you've been in law enforcement. So you understand the importance of first responders. Can we get enough voter turnout to make a difference in Gainesville? It's rare for a republican to hold office here. It's about good decisions, not party. Not having an agenda..and listen to the people is what's important. |
| 10/10/2022 | Mike Balken | 8:00:00 AM until 8:15:00 AM | Disaster impact, crime and domestic violence | You've been busy after Ian..even though you didn't take a direct hit. Yes, we've been helping Hardee county along with Marion County Sheriff's Office. We helped with search and rescue. |
| 10/15/2022 | Ocala Police Chief | 6:00:00 AM until 6:15:00 AM | | This past Saturday you raised funds at the 4th Annual Cops & Cars. Over \$5k raised for the United Way. October is Domestic Violence Month. It's a National event since it's a National problem. You'll have a meet & greet event this Wednesday. The public is invited. |

| 10/11/2022 | Bobby Schultz | 8:00:00 AM until 8:15:00 AM | Disaster relief, public safety, first reponders | Is there any follow up from last week you'd like to mention today? Except for Lee County, many responders are being sent home. Things are getting better. Rain might be in the forecast however. |
| 10/15/2022 | Gilchrist County Sheriff | 6:30:00 AM until 6:45:00 AM | | Halloween is coming...any suggestions? We want everyone to be extra careful of when hours are utilized in your area. Also know where you're going and check the bags as usual. And make yourself aware of any sexual predators in your neighborhood. The Florida Legislature may put Amendment 13 on the ballot. It would be advantageous to law enforcement for instance. Are you supporting this? While I don't like taxes, it might help bring in teachers and first responders to our state. The Florida Sheriffs Association is getting behind a bill that would help first responders at retirement. |
| 10/11/2022 | Ed Braddy | 8:30:00 AM until 8:45:00 AM | Taxes, infrastructure improvements | Why go back into a possible political office? There's always room for improvement, just like back in 2013 when I became mayor. Some things still need addressed just like back then. |
| 10/15/2022 | Former Gainesville Mayor & County Comm. Candidate | 6:15:00 AM until 6:30:00 AM | | Like infrastructure. I'd ask how much of the gas tax is actually used for roads, sidewalks etc. It's not getting spent correctly. We need a dose of common sense on the commission. |
| 10/20/2022 | FL 3rd Dist US House Rep. Kat Cammack | 8:15:00 AM until 8:30:00 AM | Foreign policy, oil, and US-Mexico border | We hear China has more gas in reserve than we do! Yet President Biden is lowering our reserve, likely to get votes. Sadly it won't drop fuel prices. He's just looking for votes in the mid terms. |
| 10/22/2022 | Local Congresswoman | 6:45:00 AM until 7:00:00 AM | | We saw an exchange between Russia and Ukraine. And despite all our own budget issues, we keep sending them money. Biden says our Southern border is secure, but drugs keep coming across. We know Biden won't do anything, but you've been there multiple times. A DOD call for volunteers has been put out. The processing centers are so overwhelmed, they're wanting our military to do menial duties. Paper work, cleaning etc. The "left" has stopped our bill 8 times that would go after smugglers and prevent drugs crossing the border. If we win in the mid terms, we'll immediately get oil production up and running. |

| 10/20/2022 | Carl Zalak Marion County Commissioner | 8:30:00 AM until 8:45:00 AM until | Disaster relief, public safety | You were fortunate that Ian didn't do much damage to Marion County, but you are helping others. Yes, we're collecting supplies to take to those in need in Lee County. Super Dave has been working with the school systems over 30 years, but has had some tough times. He lost his wife, then his home burned. It was such a loss, but through HUD we were able to assist with a new mobile home. His previous one was older and could not get insurance coverage, so we were able to help. Fire Rescue and the Chief gave an award to members at the rec center that were able to save a residents life. Trunk or Treat is coming up October 29th at 4. It's always a fun and free event for our community kids. |
| 10/20/2022 | Capt. Kaley Behl | 9:00:00 AM until 9:15:00 AM | Schools, drug, youth and firearm safety | Oct 18th ACS system released a video about school safety. It was put together in conjunction with area law enforcement and the school system. We just want families to be safe in homes that choose to have firearms. |
| 10/22/2022 | Public Info Officer Alachua Co. Sheriff's Office | 6:00:00 AM until 6:15:00 AM | | How's recovery work going as you assist other agencies after Ian? Most of our Deputies are home now, but we did a lot to give their local officers relief. You had a conference where residents could ask the Sheriff questions. Students enjoyed coming up with questions for him. The DEA drug takeback program is coming up. So we hope residents will turn in old medications for proper disposal. Halloween is almost here, so we want parents and kids to be safe on the streets. |
| 10/21/2022 | FL US House Rep. Greg Stuebe SW Florida Congressman | 8:30:00 AM until 8:45:00 AM until | Hurricane recovery and disaster relief | Your district took a huge hit from Ian. How are you doing? We're doing what we can to get through. Three weeks after, we have some streets still with high water. Many roofs still covered in blue tarps. Do you think most people in your district actually thought you'd take the direct hit that it did? No, not at all. Two days out it was still thought that the panhandle...then Tampa...would be the target. But as we now know it hit South. It's always difficult to really know where these things will hit. |

| 10/24/2022 | Ed Braddy Former Gainesville Mayor and Co. Comm. Candidate | 8:00:00 AM until 8:15:00 AM until | Firearms, free speech and local economy | <p>First congrats on the annual Black Tie/Blue Jeans with the Governor attending! Nearly 1100 people were there. And to get him two weeks before the election was a win. That helps other local candidates.</p> <p>While Mr. DeSantis is a 2A supporter, why were there firearms allowed in the building. 4 days before the event, the Governors security team let us know that CC would not be allowed. It wasn't Mr. DeSantis or his direct team that made the decision.</p> <p>We tried to make the case but it was the only way for him to appear.</p> <p>What about the person arrested? He refused to use the protest area that was set aside. We leased the property but allowed an area for protest.</p> |
| 10/24/2022 | Rep. Daniel Perez Fla. House of Representatives | 9:00:00 AM until 9:15:00 AM until | Disaster relief, insurance reform and FL economy | <p>I spent a couple days in SW Florida after Ian rolled through, and it was so good to see how fast the state moved to help the local residents.</p> <p>Somehow Charlie Crist says the Governor was slow to respond. If Crist was there, there is no way that Mr. Crist could come to that conclusion. The governor was there as well as teams of workers working hard to restore power and begin the cleanup.</p> <p>Insurance has been an issue in our state. Thoughts? Especially hits local senior citizens on fixed incomes, who sometimes become victims of construction fraud.</p> <p>Florida's Legislature had a special session about 5 months ago to begin looking at the issues and find ways to firm up the industry in our state. It's safe to say, the first thing we'll address after the elections, is problems with that.</p> <p>UF says the storm caused huge agriculture losses. That will affect residents across the state.</p> <p>The governor is making sure that residents will be able to vote easily despite the storm.</p> |
| 10/25/2022 | REP. BLAISE INGOGLIA Florida House in Sumter and Marion Counties | 9:00:00 AM until 9:15:00 AM until | Election integrity, disaster relief, economy | <p>You were at the debate last night, thoughts? The crowd was interesting. The DeSantis side were in suits and very professional. The Crist crowd were in t shirts and jeans, and were disruptive. We found out they were actually bussed in to be that way.</p> <p>The governor did follow rules throughout the debate, Mr. Crist did not.</p> <p>This Governor is concentrating on important things. Like recovery from Ian.</p> <p>How could Crist doubt the response to Covid and Ian? Both were crazy.</p> |

| 11/3/2022 | Capt. Kaley Behl Public Info Officer Alachua County Sheriff's Office | 9:00:00 AM until 9:15:00 AM until | Youth driving safety, youth violence | Looks like law enforcement is working to promote good driving for students. It's a one day, 8 hour course. It exposes them to lots of things that happen on the road. Two December classes still have openings. Veterans Day is coming, so to recognize their sacrifices, we have three events coming up that residents may want to get involved in. Complete info is on the ACSO website. The Sheriffs Assoc is also working on programs to help our youth. The Florida Sheriffs Youth Ranch is one of those. We also met with GPD and local groups to look for ways to address youth violence. Our recruitment team is still active looking to fill openings in the Sheriff's Office. |
| 11/8/2022 | Ed Book Santa Fe College Police Chief and Commission Cand. | 7:00:00 AM until 7:15:00 AM until | Public Safety, Infrastructure, Gainesville Budget | First question related to your position as the Police Chief at Santa Fe College. Any prep for today and the storm coming. Basically making sure that the campus is secure. You've never run for office, and have a great community job. What make you want to run for the Commission? I feel I can still do more for our community. What's on top of the list? Treat people as I should, listen to them and understand their needs. Then of course, good roads, parks etc. And meeting the needs of the poor in our area. Affordable living/housing is important. Utilities are affordable and access to fresh food. How do we pay for these things? It's about budget and proper financial decisions. We can do it without raising taxes. Working with non profits would also help. Public safety is an issue. And getting new officers is difficult. How would you help with that in the city? How you back the first responders as a start makes a big difference. And showing them you do. |
| 11/8/2022 | Bobby Schultz | 8:00:00 AM until 8:15:00 AM | Storm Preparation, law enforcement support | We have this storm coming...what are you doing in your community? Well, we expect some heavy winds, getting lose items and getting prepared for possible power outage. |
| 11/12/2022 | Gilchrist County Sheriff | 6:00:00 AM until 6:15:00 AM | | You had an inmate get away the other day, but it turned out ok. Yes..we had him back within a couple answers. With judges on the ballot...how can you know how to vote? You can look at their work and decisions in the past to help make your decision. To law enforcement, you want those that support the law. You know both of those running in Gilchrist County, does that make it difficult? They're both good men, but I think if you look at Sean Brewers work you might lean that way. What about elections in other states? It still affects us, like the elections in GA. How they make decisions in DC affects us too. |

| | | | | |
|------------|--|-----------------------------------|--|---|
| 11/14/2022 | Mike Balken | 8:00:00 AM until 8:15:00 AM | Panhandling, homelessness and scammers | Most agencies across the country are in real need of staff, although Ocala is doing pretty well. Yes, we're doing well in our community but the commission has offered pay for some additional positions. Point is, we're hiring in Ocala. Pan handling has been an issue in Gainesville, and everyone knows it. But it's becoming an issue in Ocala as well. How are you taking care of that? While people want to give out cash to someone, we should direct those people to area organizations that can help. Most are scammers and actually have cars, homes etc. Many just use the cash for their addictions. |
| 11/19/2022 | Ocala Police Chief | 6:00:00 AM until 6:15:00 AM | | |
| 11/17/2022 | Capt. Kaley Behl | 9:00:00 AM until 9:15:00 AM | Law Enforcement raises and Holiday theft | You had an in person career fair recently, but now an upcoming ZOOM or virtual career fair is coming. Yes, we have more info on our website. It's a great way for officers in other parts of the country see if perhaps Florida is a better...and warmer..place to do the job they love. It's also good to see that the Sheriff has moved forward on pay raises for the deputies. Thanksgiving is coming...but while it's a great day, it's a busy time for law enforcement. Travel is up and that makes for more accidents. We hope people will be safe and arrive safely. It also kicks off the shopping season for Christmas. Please don't leave packages exposed in your cars. Criminals are shopping too! Lock your vehicles and be aware of who is around you. Watch for scams and in your area, porch pirates. |
| 11/19/2022 | Public Info Officer Alachua Co. Sheriff's Office | 6:30:00 AM until 6:45:00 AM | | |
| 11/22/2022 | FL Sen. Keith Perry | 9:00:00 AM until 9:30:00 AM | Alachua County Single member Districts | Perry was directly involved in the recently passed voter referendum to make voting for the Alachua County Commission representatives from county-wide to single member districts. Many county voters felt commissioners more represented Gainesville than suburban and rural areas of the county. The referendum passed on election day, and Perry outlined potential changes in candidates, issues and impact of the change in districts. |
| 11/26/2022 | Local State Senator | 6:00:00 AM until 6:30:00 AM | | |
| 12/1/2022 | Jake Rush | 9:00:00 AM until 9:15:00 AM | Crime, public and law enforcement safety | We see so many DA's around the country, how do we fair locally? Well, we do work together everyday, so I don't want to be critical of our partners in keeping everyone safe. We're seeing a swing away from the anti police movement over the past couple years. Now we're getting more support and our local Deputies are finally seeing salary increases. A local story made national news this week, when our local Deputies were helping grab a man that had attacked a woman with an axe. Sadly she did not survive. |

| 12/7/2022 | ANYA McMURRAY | 7:00:00 AM until 7:15:00 AM | Resettling allied refugees | Tell us what Welcome.us is. It was founded last year to meet the challenge of resettling thousands of allies fleeing the Russian attack on their country. How can people get involved? They can of course support us financially. Or offer homes for refugees. The settlement system that our government is doing isn't enough. So everyday Americans are taking on the challenge on their own. We've built an online tool that Americans can learn more about sponsoring a refugee. Listeners can go to our website to learn more. |
| 12/10/2022 | Chief Operating Officer of WELCOME.US | 6:00:00 AM until 6:15:00 AM | | |
| 12/8/2022 | Carl Zalak | 8:00:00 AM until 8:15:00 AM | Holiday food drive and activities, crime, traffic | Bring the Harvest Home event was success...over \$17k donated and lots of food donated. It will do so much to help our community. Trinity Catholic Celtics are heading to the state championship. Saturday is the annual Christmas parade in Ocala. Everyone is getting ready for the 5:30 start, but get there early to get a good seat. Roads close at 3p. This time of year we see an increase in crime. As always, make sure you're aware of your surroundings. Keep doors locked and hide your items in your car. Be aware of scams as well this time of year. Six counts of human trafficking are hitting the headlines. Sadly it's a big issue, in particular in Florida. Also, be extra careful over the holiday season if drinking at events then driving. Plan ahead for a safe drive home. What will you do for Marion County in 2023? Working on some new traffic/intercession timing. Also to bring swimming back to the Springs. |
| 12/10/2022 | Marion County Commissioner | 6:15:00 AM until 6:30:00 AM | | |
| 12/12/2022 | Mike Balken | 8:00:00 AM until 8:15:00 AM | Holiday events and crime | One of your officers is leaving....for XFL football! That's exciting news. He had a background in football when he came to our department. So, we're proud of him, and he can always come back if and when he wants. Shop with a Cop was a big deal for your department in Ocala. Over 30 kids were paired with an officer and sent shopping to our local Walmart. They shopped for themselves and their families. We also remind residents to be aware of where you are and your surroundings. We want it to be a safe season. Hold on to wallets and purses, don't leave those items in your cart. Be careful on the lots. Make sure neighbors are taking care of things with your home. Leave lights or radios on, have someone put up trash cans. One thing we're working on as well is the pan handling issues in our communities. That tends to rise in winter as people come from other areas. |
| 12/17/2022 | Ocala Police Chief | 6:00:00 AM until 6:15:00 AM | | |

|------------|------------------------------------|-----------------------------------|--|--|
| 12/14/2022 | FL US House Rep. Kat Cammack | 8:00:00 AM until 8:15:00 AM | Gay marriage, federal budget, financial and border | You've been accused of supporting gay marriage due to the new bill signed by the president. What it really does is require states to honor the marriages from other states. It was misleading since it also included interracial and other groups. Will Kevin McCarthy be the new Speaker? Yes. He's not happy with a new omnibus bill that will be voted on by people that won't even be in office come January. What about this person that ran the failed FTX crypto issue. Will Congress have any oversight so this kind of thing doesn't happen again? It was simply embezzlement. It happened due to agencies not doing their job. The border is still not secure. Meanwhile Biden is letting in another 65K visas for blue collar jobs. |
| 12/17/2022 | Local Congresswoman | 6:45:00 AM until 7:00:00 AM | | |
| 12/15/2022 | DETECTIVE LANCE YEAGER | 8:00:00 AM until 8:15:00 AM | Local crime investigations | You had quite an impressive military career including being an Airborne Ranger. Now you're in law enforcement. You are in the CID unit...what's that really mean? Basically it involves helping all areas of crime investigation. We've also had great success lately with the drug unit, many lots of drugs have been taken off the street. With cash seizures we were able to use those funds to buy equipment and narcan for our agency. We are seeing so many cases where drugs are being used that, unknown to the victim, contain fentanyl which is deadly. In 2021 we had a huge rash of bomb threats and shooting threats...and a couple this year. But we were able to make another arrest recently in this area. What's the biggest difference you've seen in your career? The CSI affect...when in court they want to see scientific evidence like they see on tv. |

| | DR. JOHN LITTELL | until | COVID PANDEMIC AND MONKEYPOX | So, Biden says the pandemic is over. Thoughts? It's good unless you're investing pharma. And some that want to keep pushing the agenda of masks etc... Now we're dealing with variants that have been around before. Stop testing. It doesn't really accomplish anything. Stay hydrated and worse case antibiotics help. Ivermectin is still an option. Some doctors still aren't allowed to prescribe it. It's still a control issue. What about "long haulers"? Long term fatigue, tremors etc? We are seeing that, depending on when they might have had Covid OR the shot. Is Monkey pox an issue? Not for most people. It's still primarily an STD in the gay community. It's concerning that parts of the medical community still promote certain sexual activity that spreads these things. |

| | Dr. John Littel | | RSV spread, worry | RSV is spreading around the country, especially with kids. It's more common is kids that were preemies. Some areas are seeing the increase, but locally it's not been as bad. Kids do respond to medication and can be handled. Other colds and viruses are spreading. Stay hydrated is top advice, plus broth based liquids. Vitamin C, D and Zinc are important. If you have lung problems, prednisone can help. Strep A is spreading in Europe, it's what causes Strep Throat. It's easily treated. It's really driving people to get vaccines. The CDC is talking about masks again. And in LA they promoting it. Only the high quality masks work anyway. Wearing masks can contribute to those with breathing issues already. |

| 10/3/2022 | Dr. John Littel | 8:00:00 AM until 8:15:00 AM | COVID & MONKEYPOX | We hear that Monkey Pox is here forever. That true? People forget that it's been around for a long time. Typically in rodents in Africa, then started spreading in the bathhouses of Europe. So, while it may be around, it can be prevented based on gay sexual activity or to those living in homes of gay residents. Should we be concerned about illness after Ian? Water spread risks are always possible but should do pretty well. We still see people getting a Covid test every time they have a sneeze or cough. Sweden is now saying not to vax young kids for Covid. You've been saying this all along. Correct. In Denmark they say no one under 50 needs to be vaxed. These countries did not shut down and did very well. You have an event to pass along to our listeners for October 22nd. John to prescribetruth.com and the info is there for the event in The Villages. |

Yet he gets attacked and even had his post on FB removed. What's going on? It's all about the agenda. Many countries have actually looked at the data a NOT promoted the vax for younger people. Promoting the vax is one thing, yet forcing it is another. A Pfizer employee has finally said that the shot does nothing to prevent spreading of Covid. You also have an event coming up, tell us about it. It's October 22. Go to prescribetruth.com to learn more. |

| 11/21/2022 | Dr. John Littel | 7:00:00 AM until 7:30:00 AM | RSV spread, fall flu and COVID-19 | Surges flu and RSV in colder areas of the US are impacting children and seniors, and are expected to spread through Florida. Littel says with reduced cases of flu during the pandemic, spread looks to be normal. RSV is hitting children, but doesn't seem to be more severe than normal years. He says media and government officials are creating more fear than necessary, and urges calm and normal flu precautions and treatments. |

The big win was picking up four Senate seats, giving us a majority to keep our conservative agenda moving forward. What do you hope to get done short term? Since we're fiscally sound, that will help with recovery post Ian. Insurance reform needs to be addressed. In the big picture, affordable housing and first responder housing are a couple of things we need to help with. Veteran housing is another. The wildlife corridor is also on the table. Education is a big issue, giving families control over the schools and taking out radical agendas. |

| 12/7/2022 | Dr. John Littel | 8:00:00 AM until 8:15:00 AM | RSV spread, worry | RSV is spreading around the country, especially with kids. It's more common is kids that were preemies. Some areas are seeing the increase, but locally it's not been as bad. Kids do respond to medication and can be handled. Other colds and viruses are spreading. Stay hydrated is top advice, plus broth based liquids. Vitamin C, D and Zinc are important. If you have lung problems, prednisone can help. Strep A is spreading in Europe, it's what causes Strep Throat. It's easily treated. It's really driving people to get vaccines. The CDC is talking about masks again. And in LA they promoting it. Only the high quality masks work anyway. Wearing masks can contribute to those with breathing issues already. |

He's not happy with a new omnibus bill that will be voted on by people that won't even be in office come January. What about this person that ran the failed FTX crypto issue. Will Congress have any oversight so this kind of thing doesn't happen again? It was simply embezzlement. It happened due to agencies not doing their job. The border is still not secure. Meanwhile Biden is letting in another 65K visas for blue collar jobs. |

| 12/17/2022 | Florida Lieutenant Goverenor | 6:15:00 AM until 6:30:00 AM | | Florida's budget is healthier than at any time in history, as the state's economy has recovered faster from the pandemic than most all states. The Legislature and Governor have invested in unprecedented retention efforts for law enforcement, first responders and public school teachers. |

Now the President is sending out more Covid tests which prompts more fear. If you want to stay well, push the Vitamins..D, C Zinc etc. Then if you have symptoms, treat those. | | DR. JOHN LITTELL | until | COVID PANDEMIC AND MONKEYPOX | So, Biden says the pandemic is over. Thoughts? It's good unless you're investing pharma. And some that want to keep pushing the agenda of masks etc... Now we're dealing with variants that have been around before. Stop testing. It doesn't really accomplish anything. Stay hydrated and worse case antibiotics help. Ivermectin is still an option. Some doctors still aren't allowed to prescribe it. It's still a control issue. What about "long haulers"? Long term fatigue, tremors etc? We are seeing that, depending on when they might have had Covid OR the shot. Is Monkey pox an issue? Not for most people. It's still primarily an STD in the gay community. It's concerning that parts of the medical community still promote certain sexual activity that spreads these things. |

Last year we sold over 2k pumpkins. Many local charities benefit plus we feed hungry kids in Central America. We'll also help florida residents hurt by the hurricane. |

| | BRUCE PARKMAN | until | CONCUSSIVE DAMAGE, SUICIDE, YOUTH SPORTS | Parkman is CEO of MainNerve, served 21 years in the Army, including 18 years as a Green Beret. He lost his 17-year-old son, Mac, in 2020 after a struggle with mental illness and depression. Parkman has become an advocate for concussion and CTE research and awareness. We've heard how the NFL has tried to hide just how bad concussions can be for our kids. Your son had multiple hits and that affected his thinking and that caused impulsive behavior. That led to his shortened life. We really want to raise the age of kids in contact sports. These hits actually affect the kids more since their brain is still developing. Certain areas of the brain are just starting to develop at 15. With kids having these injuries, that's likely to lead to multiple kinds of issues in the way they think. True mental illness can become a problem, leading to bad decisions and potential violence. How's the medical arena responding? They don't know what questions ask about kids being involved in contact sports. So we don't treat them as a psychological patient when we should. It's hard to get kids out of some sports, knowing they want to pursue college and professional sports later in life. |

| 10/3/2022 | Dr. John Littel | 8:00:00 AM until 8:15:00 AM | COVID & MONKEYPOX | We hear that Monkey Pox is here forever. That true? People forget that it's been around for a long time. Typically in rodents in Africa, then started spreading in the bathhouses of Europe. So, while it may be around, it can be prevented based on gay sexual activity or to those living in homes of gay residents. |
| 10/8/2022 | Physician and Infectious Disease Expert | 6:30:00 AM until 6:45:00 AM | | Should we be concerned about illness after Ian? Water spread risks are always possible but should do pretty well. We still see people getting a Covid test every time they have a sneeze or cough. Sweden is now saying not to vax young kids for Covid. You've been saying this all along. Correct. In Denmark they say no one under 50 needs to be vaxed. These countries did not shut down and did very well. You have an event to pass along to our listeners for October 22nd. John to prescribetruth.com and the info is there for the event in The Villages. |
| 10/6/2022 | Capt. Kaley Behl | 9:00:00 AM until 9:15:00 AM | Disaster relief and scams | Yesterday was the Coffee with a Cop event, how'd it go? Great! Had some fantastic conversations with the public. |
| 10/8/2022 | Public Info Officer Alachua Co. Sheriff's Office | 6:00:00 AM until 6:15:00 AM | | IAN did lots of damage, you've been sending officers to help. We had 102 calls in Alachua County. We've sent both officers and communication staff plus communication equipment. Right now our teams are working the midnight shift. You've changed vendors again with food services. Trinity is the new vendor both jail and food services. What's the new scam to be aware of? Phone calls telling people that it's the police and they need to pay on the phone to not be arrested. |
| 10/11/2022 | Bobby Schultz | 8:00:00 AM until 8:15:00 AM | Disaster relief, public safety, first reponders | Is there any follow up from last week you'd like to mention today? | 10/15/2022 | Gilchrist County Sheriff | 6:30:00 AM until 6:45:00 AM | | Halloween is coming...any suggestions? We want everyone to be extra careful of when hours are utilized in your area. Also know where you're going and check the bags as usual. And make yourself aware of any sexual predators in your neighborhood. The Florida Legislature may put Amendment 13 on the ballot. It would be advantageous to law enforcement for instance. Are you supporting this? While I don't like taxes, it might help bring in teachers and first responders to our state. The Florida Sheriffs Association is getting behind a bill that would help first responders at retirement. |

| 10/12/2022 | Dr. John Littel | 7:30:00 AM until 7:45:00 AM | Vaccines and COVID 19 | Our Florida Surgeon General revealed that there's risk for mine 18-40 if they take the vax. Yet he gets attacked and even had his post on FB removed. What's going on? It's all about the agenda. Many countries have actually looked at the data a NOT promoted the vax for younger people. Promoting the vax is one thing, yet forcing it is another. A Pfizer employee has finally said that the shot does nothing to prevent spreading of Covid. You also have an event coming up, tell us about it. It's October 22. Go to prescribetruth.com to learn more. |

The economic burden to these families is substantial, while children spend long times away from home. |
| 10/22/2022 | Ronald McDonald House in Gainesville | 6:15:00 AM until 6:30:00 AM | | The Annual Oktoberfest is this Saturday. It's at Audi Gainesville on Main. Plenty of authentic beer, food and a band flying in from Germany.. It's all to benefit the work of the Ronald Mcdonald House in Gainesville. |
| 10/20/2022 | Carl Zalak Marion County Commissioner | 8:30:00 AM until 8:45:00 AM until | Disaster relief, public safety | You were fortunate that Ian didn't do much damage to Marion County, but you are helping others. Yes, we're collecting supplies to take to those in need in Lee County. Super Dave has been working with the school systems over 30 years, but has had some tough times. He lost his wife, then his home burned. It was such a loss, but through HUD we were able to assist with a new mobile home. His previous one was older and could not get insurance coverage, so we were able to help. Fire Rescue and the Chief gave an award to members at the rec center that were able to save a residents life. Trunk or Treat is coming up October 29th at 4. It's always a fun and free event for our community kids. |
| 10/20/2022 | Capt. Kaley Behl | 9:00:00 AM until 9:15:00 AM | Schools, drug, youth and firearm safety | Oct 18th ACS system released a video about school safety. It was put together in conjunction with area law enforcement and the school system. We just want families to be safe in homes that choose to have firearms. |
| 10/22/2022 | Public Info Officer Alachua Co. Sheriff's Office | 6:00:00 AM until 6:15:00 AM | | How's recovery work going as you assist other agencies after Ian? Most of our Deputies are home now, but we did a lot to give their local officers relief. You had a conference where residents could ask the Sheriff questions. Students enjoyed coming up with questions for him. The DEA drug takeback program is coming up. So we hope residents will turn in old medications for proper disposal. Halloween is almost here, so we want parents and kids to be safe on the streets. |

| 10/27/2022 | RAEMI EAGLE- GLENN | 8:30:00 AM until 8:45:00 AM | Reelection, County infrastructure and economy | <p>You have a political background, and were appointed to the County Commission by the Governor. Why do you want to run for the position? After seeing the culture of local politics, I have a duty to run. They want to spend all our money on social programs and public places, but not on roads and things that benefit the general public. They will raise taxes for roads and schools..but spend it on their own projects. Now they want to raise them again. The problem is priority not lack of funds. Single member districts is one of the most important issues right now. Right now voting is “at large”, so the city of Gainesville determines who’s on the County Commission. With single district voting, each area can determine who represents them specifically. The current board is on mission of climate change and their decisions show that. They promote “affordable housing” but don’t let them be built.</p> |

So it will really help local residents in Marion County.</p> <p>Donations are accepted and pickup sites are on the Marion County website.</p> <p>You have a lot of Veterans in Marion County. You recognized all the Veterans that actually work for Marion County. They were presented with a letter and challenge coin.</p> <p>Through some of the grants during Covid, we were able to support some of the homes that help shelter kids and young people.</p> <p>This weekend is the chili cook off. Over 5,000 attend. It’s been a big event since the 80’s.</p> |
| 11/3/2022 | Capt. Kaley Behl Public Info Officer Alachua County Sheriff's Offic | 9:00:00 AM until 9:15:00 AM until | Youth driving safety, youth violence | <p>Looks like law enforcement is working to promote good driving for students. It’s a one day, 8 hour course. It exposes them to lots of things that happen on the road. Two December classes still have openings.</p> <p>Veterans Day is coming, so to recognize their sacrifices, we have three events coming up that residents may want to get involved in. Complete info is on the ACSO website.</p> <p>The Sheriffs Assoc is also working on programs to help our youth. The Florida Sheriffs Youth Ranch is one of those.</p> <p>We also met with GPD and local groups to look for ways to address youth violence.</p> <p>Our recruitment team is still active looking to fill openings in the Sheriff’s Office.</p> |

Many county voters felt commissioners more represented Gainesville than suburban and rural areas of the county. The referendum passed on election day, and Perry outlined potential changes in candidates, issues and impact of the change in districts. |

| 12/12/2022 | Mike Balken | 8:00:00 AM until 8:15:00 AM | Holiday events and crime | One of your officers is leaving....for XFL football! That's exciting news. He had a background in football when he came to our department. So, we're proud of him, and he can always come back if and when he wants. |
| 12/17/2022 | Ocala Police Chief | 6:00:00 AM until 6:15:00 AM | | Shop with a Cop was a big deal for your department in Ocala. Over 30 kids were paired with an officer and sent shopping to our local Walmart. They shopped for themselves and their families. We also remind residents to be aware of where you are and your surroundings. We want it to be a safe season. Hold on to wallets and purses, don't leave those items in your cart. Be careful on the lots. Make sure neighbors are taking care of things with your home. Leave lights or radios on, have someone put up trash cans. One thing we're working on as well is the pan handling issues in our communities. That tends to rise in winter as people come from other areas. |
| 12/15/2022 | DETECTIVE LANCE YEAGER | 8:00:00 AM until 8:15:00 AM | Local crime investigations | You had quite an impressive military career including being an Airborne Ranger. Now you're in law enforcement. |
| 12/17/2022 | Alachua County Sheriff's Office | 6:30:00 AM until 6:45:00 AM | | You are in the CID unit...what's that really mean? Basically it involves helping all areas of crime investigation. We've also had great success lately with the drug unit, many lots of drugs have been taken off the street. With cash seizures we were able to use those funds to buy equipment and narcan for our agency. We are seeing so many cases where drugs are being used that, unknown to the victim, contain fentanyl which is deadly. In 2021 we had a huge rash of bomb threats and shooting threats...and a couple this year. But we were able to make another arrest recently in this area. What's the biggest difference you've seen in your career? The CSI affect...when in court they want to see scientific evidence like they see on tv. |
