Re:KVII

Dear Sirs,

About a year ago, we received a letter from DirecTV informing us of DirecTV's intent to launch the local stations in the Amarillo, Texas DMA. Since then we have been trying to secure permission from KVII (DirecTV's receive point for local signals) to install equipment to get our KPTF-DT signal to you. For some reason, KVII's corporate office (Barrington Corp. in Hoffman Estates, IL) has been "dragging their feet" concerning this situation. All we need is written permission from Barrington granting us access, and we can have KPTF-DT's signal ready for your system in a couple of days. We will continue to try and secure permission from KVII but it might be helpful if someone from DirecTV could possibly contact Warren Spector with Barrington at 847-884-1877 and inquire about this situation.

Thank you very much for your help and cooperation.
