## LOCAL ISSUES ADDRESSED DURING THE QUARTER

The following are local issues of concern to the community. Programs that addressed these issues during this reporting period are listed as follows.

<b>Local Issue/Concern</b>	<b>Brief description of local issue or concern</b>
Health	The coronavirus pandemic continues to impact the United States and in our communities in Mississippi and Alabama. But other health issues existed before and have grown from the harm caused by the pandemic. WTOK is committed to serving its largely rural and economically disadvantaged audience with information to help them be safer and healthier.
Economy	Inflation and higher prices are being felt by everyone, regardless of their level of income. State and federal legislative actions affect people across our viewing area. People want to be informed of what is happening in Washington, Jackson and Montgomery.
Crime	Crime continues to be a problem in Meridian. The city and police department are addressing the issue, but is it enough? What's being done to lower the crime rate and to stop violent crimes? WTOK is holding local officials accountable. WTOK is also focusing on domestic violence/abuse awareness and prevention.
Weather/Environment	WTOK is the local weather authority in our market. We take breaking weather/severe weather seriously and the weather stories we cover are informative and can save lives. We also cover environmental stories that impact our audience.
Drug Epidemic	Drug crimes and drug addiction are serious problems in Mississippi and Alabama. Prescription drug abuse (opioids) continues to reach crisis levels and some communities are now dealing with cocaine and heroin problems. We're tackling the problem by talking to drug and mental health experts and to law enforcement.
Social Services	WTOK's coverage area has some of the most economically disadvantaged populations in Mississippi and Alabama, which are often impacted the most by problems of crime, mental illness, homelessness, lack of an educated workforce and lack of available health care. It also has some of the most generous and caring people. WTOK highlights these issues and the solutions and potential solutions made possible by the people who live here.

### **First Divorced Then Dead**

On the morning of July 18, 2014, beloved FSU law professor and father of two young children, Dan Markel, pulled into his driveway and was approached by an unknown man who shot him twice in the head at point-blank range. Detectives found no clues about the perpetrators at the crime scene; they had only one lead to work with — a neighbor who gave a loose description of a Prius speeding out of Dan's driveway. Through a series of interviews and with aid from the FBI, police were able to uncover the travels of the Prius through a web of surveillance footage and toll booth data, which finally led to the arrest of the hitmen responsible for his death. But the question remained: Who hired the hitmen? With reporting from ABC News chief national correspondent Matt Gutman, "20/20" documents how prosecutors used newly enhanced audio as the final link to charge Dan's ex-wife's brother, Charlie Adelson, with the crime. The two-hour program features an

exclusive interview with June Umchinda, Charlie Adelson's ex-girlfriend, and additional interviews with Ruth and Phil Markel, Dan's parents, and Michael Weinstein, a former family friend.

In a new "20/20," ABC News correspondent John Quiñones reports on the investigation that ultimately led to one of their own, border patrol supervisor Juan David Ortiz, who was assisting on the case.
