Bicycle Coalition
Guest: Gene Dalbey

Issue: #7 Community
Service Organizations

Gene Dalbey president of the board for the Yuma Regional Bicycle Coalition joined Cody Beeson and he was able to share the latest information regarding the bicycle coalition's progress in the Yuma community. This includes the development and planning for bicycle roads bicycle paths and bicycle lanes in and around Yuma County. Gene encourages everybody to safely take advantage of the bike opportunities in and around Yuma. Biking to work or for recreation helps improve our physical conditions as well as our mental state of mine as well. There are many reasons to use a bicycle as a daily part of our lives and Gene loves to promote the opportunities to use a bicycle specifically in Yuma. For more information visit the Yuma Regional Bicycle Coalition Facebook page.

TOPIC OF THIS SHOW: Fire Prevention Week
Guest: Michael Erfert

Issue: #5 Government

Michael Erfert, Public Information Officer with the City of Yuma Fire Department joined Cody Beeson to share information about Fire Prevention Week. The 2021 theme for Fire Prevention Week is "Learn the Sounds of Fire Safety" reminding us to learn the sounds of smoke alarms, because "Smoke alarms save lives". To further mark this week, each day we will be highlighting a different aspect of fire prevention. According to National Fire Protection Association (NFPA), U.S. fire departments responded to 1.3 million fires in 2019. These fires resulted in roughly 3,700 civilian fire fatalities, 16,600 civilian injuries and \$14.8 billion in damages. On average, 7 people per day die in U.S. home fires. TOPIC OF THIS SHOW: AWC Judo Classes
Guest: Joe Murk

Issue: #3 Education

Joe Murk Judo and Jujitsu professor at Arizona Western College called in to discuss with Cody Beeson the judo and jujitsu program offered at AWC. This program is open to anyone middle school age and up. The students would receive college credit in addition to advancing in their respective belt color/level. Joe wanted to share the importance of a gentle martial art like Judo and how it can have an impact on the bullying epidemic that society has been seeing across the country. The more confident somebody is to handle the situation the better the outcome will be and the more prepared they will be. The classes are known to fill up, so Joe suggests signing up as soon as possible. For more information visit the AWC website at AZWestern.EDU.

Fire Information
Guest: Michael Erfert

Issue: #5 Government

Michael Erfert, Public Information Officer for the City of Yuma Fire Department came on the radio with Cody Beeson to share information about fires during the Thanksgiving holiday. Yuma regularly sees cooking related fires. Several of these caused significant damage to homes, but even where damage was minimal, they do serve as reminders to "Watch what you Heat" and never leave things on the stovetop cooking unattended. As we head into the holiday season, remember that Thanksgiving is the peak day for home cooking fires, followed by Christmas Day, Christmas Eve, and the day before Thanksgiving. In 2018 there were 1630 home cooking fires on Thanksgiving Day alone. QUARTERLY ISSUES REPORT, OCTOBER-DECEMBER, 2021

Show # 2021-40

Date aired: 10/2/21 Time Aired: 6:30AM

Jack Kosakowski, President and CEO, Junior Achievement USA

Mr. Kosakowski discussed a Junior Achievement USA survey that found that 77 percent of parents are concerned about their children's ability to have a successful job or career as adults, in light of global competition and automation. He talked about the rapidly changing career environment, and how Junior Achievement is adapting to today's tech environment to help teenagers.

Issues covered:

Length: 8:04

**Youth Concerns
Careers
Parenting**

Dale Bredesen, MD, NIH Postdoctoral Fellow at the University of California, San Francisco, author of "*The End of Alzheimer's: The First Program to Prevent and Reverse Cognitive Decline*"

Dr. Bredesen said his research has determined that Alzheimer's disease is not a single condition, but three similar ones--each with a different cause. He said new research is giving hope that the disease can be prevented and, under certain circumstances, even reversed. He said every American should get a cognitive and genetic test at age 45, to determine their likelihood of developing Alzheimer's.

Issues covered:

Length: 9:15

**Alzheimer's Disease
Aging**

Craig Gunderson, PhD, Soybean Industry Endowed Professor in Agricultural Strategy, Professor in the College of Agricultural, Consumer and Environmental Sciences Department of Agricultural and Consumer Economics at the University of Illinois

Dr. Gunderson led a study that found that 5.4 million people age 60 or older in the U.S., or 8.1 percent, did not have enough food for an active, healthy lifestyle. He explained how food insecurity adversely affects a senior citizen's health, and why many low-income seniors fail to take advantage of government programs available to them.

Show # 2021-41

Date aired: 10/9/21 Time Aired: 6:30AM

Roby Greenwald, PhD, Assistant Professor from the School of Public Health, Georgia State University

Traffic pollution research has traditionally been conducted with outdoor roadside sensors. Dr. Greenwald led a study with sensors mounted inside the passenger compartments of cars, and found that interior pollution levels were twice as high as previously thought. He talked about the various forms of pollution he found and their potential health effects.

Issues covered:
Pollution
Personal Health

Length: 8:54

Rebekah H. Nagler, PhD, Assistant Professor in the Hubbard School of Journalism & Mass Communication, University of Minnesota

Dr. Nagler led a study that found that most American women aren't aware of the risks of overdiagnosis and overtreatment in regards to breast cancer screening. She discussed the challenges of educating women about these risks so they can make informed decisions about mammograms and breast cancer screening.

Issues covered:
Cancer
Women's Issues

Length: 8:18

David Rabiner, PhD, Senior Research Scientist in the Department of Psychology & Neuroscience at Duke University

The use of "study drugs" -- prescription medications used illegally by college students improve their academic performance--is on the rise. Dr. Rabiner said the drugs of choice are those typically used to treat ADHD. He discussed the question of whether the practice is a form of academic cheating. He added that students who use these medications without a prescription typically have higher rates of drug and alcohol abuse, perform worse academically and are more stressed out about their grades.

Issues covered:
Substance Abuse
Education

Length: 4:57

Show # 2021-42

Date aired: 10/16/21 Time Aired: 6:30AM

David Mazer, MD, anesthesiologist at St. Michael's Hospital and Professor in the Departments of Anesthesia and Physiology at the University of Toronto

Dr. Mazer was the co-author of a study that found that adults under 45 years old, who consumed cannabis within the last 30 days, suffered from nearly double the number of heart attacks than adults who didn't use the drug. He said the trend was evident whether cannabis was smoked, vaped or eaten as an edible. He outlined the lessons that can be learned from the research.

Issues covered:
Drug Abuse
Personal Health

Length: 7:00

Joanna Quinn, M.Ed., former middle school teacher, founder of Super Empowered One, an organization dedicated to building confidence in kids, author of "*Greta Grace*," a book focused on bullying and self-esteem

According to StopBullying.gov, one in five kids between the ages of 12 and 18 have experienced bullying. Ms. Quinn outlined the typical signs of bullying and what parents should do if their child is either a victim or a bully. She talked about the increasing role that schools play in the prevention of bullying.

Issues covered:

Show # 2021-43

Date aired: 10/23/31 Time Aired: 6:30AM

Manny Centeno, Program Manager of the Integrated Public Alert and Warning System, part of the Federal Emergency Management Agency

Mr. Centeno outlined what the public needs to know about the Emergency Alert System, and provided real-life examples to illustrate why EAS is so important to public safety. He also discussed the purpose of "Primary Entry Point" radio stations and details of the all-hazards upgrades at those 77 stations, to add special air scrubbing for chemical, biological and radiological protection, EMP resistance and emergency power generation. He also mentioned the role played by satellite, cable systems and the internet via desktop and mobile phone alerts.

Issues covered:

Length: 9:27

**Disaster Preparedness
Public Safety
Government**

Amanda Paluch, PhD, Physical Activity Epidemiologist at the University of Massachusetts, Amherst

Prof. Paluch led a study that found that walking at least 7,000 steps a day--about 3-4 miles--reduced middle-aged people's risk of premature death from all causes by 50% to 70%, compared to those who took fewer daily steps. She found that 7000-10,000 steps range was the "sweet spot," because walking more than 10,000 steps per day, or walking faster, did not further reduce the risk.

Issues covered:

Length: 7:47

**Personal Health
Physical Fitness**

Vanessa Bohns, PhD, Associate Professor in the Department of Organizational Behavior at the New York State School of Industrial and Labor Relations at Cornell University

Work emails are sent at all hours of the day and night now, and are a tremendous source of stress, whether someone works in an office or remotely. Prof. Bohns said people can limit the negative impact of email, by not necessarily sending less email, but by sending better emails that clearly define how urgently they expect a response.

Issues covered:
