09/23/23: 8:00 – 8:30 am • Eagle Watch News—Alan Tucker • Program time this week was given to the recent summit in India where plans were devised to bring a digital identification system for all United Nations members. This has significant Biblical meaning for the end time. This will include mandatory lockdowns and will be forced under the heading of climate change. One Future is the name of this plan and is now in the process. Proof that the CIA is in on this came with the discovery of a manual in the CIA library called Spike 2030, which is the year that this is all to be in place. Time was given to the recent interview with the lead Saudi prince who is demanding that the cost for Israel's peace will mean their acceptance of the plan that the Palestinians must be given land that is now Israel's. Our president mentioned the same in his speech to the UN this week. Scripture mentions this plan and that it will trigger a Divine reaction against those nations that attempt to force the issue. Other items were mentioned including the Maui fires and a recent event in Wisconsin where families were invited to summon up demons in order to get to know them better. Of course, the Christian's proper reaction to all of this was included in the program's consideration.
