WKOW-TV,

I am watching WKOW from Madison, Wisconsin. I am using a TV with an outside antenna.

I have written and called about my concerns in the past. On June 7th, 2008, I was watching and notice that you have some words on the screen, but a large number of warning and safety details about the weather is not provided as text. By doing this, you are excluding my family and friends, as well as the rest of the hearing impaired community, from this information.

At 1:35pm on channel 27 there was a sighting of a tornado in Sauk County. The weather anchor indicated that people should seek shelter, stay away from windows, should not be camping and should find a sturdy structure to seek protection under. This warning information was not in closed captioning, nor were the words provided on the screen for the hearing impaired community.

Again at 1:39pm, a warning to northern Grant County that a possible tornado warning was not written on the screen, nor provided in closed captioning.

At 1:41pm specific descriptions of where the the storm was headed was not provided in written text.

Also, specific locations and roads and the campgrounds including Lake Campground, were the tornado was heading.

1:45pm Instructions of how to protect oneself if no structure is available.

1:48pm "Threat to life and property" not captioned or provided as text. "Golf ball sized hail, 80mph winds"

1:55 Possibility of trees and power lines down- this was not indicated in text.

1:57 Tennis ball hail in green lake county and 90 to 100 mph straight lined winds in Green Lake County- "threat to life and property, you need to be inside now!". "You need to be in the interior or your home or your basement now!" None of this information was captioned, nor provided as text.

1:59pm "If that hits you on the head, you will be in a lot of trouble". "Do not want to drive." A warning to high profile vehicles do not want to be on the road was not in text. A warning to abandon mobile homes was not in text.

2:06pm- There was a warning not to go outside and take pictures in the storms. This was not provided in text nor as closed captioning.

2:08 Tornado spotted on the ground in Woodman by law enforcement. This was not

provided in text nor as closed captioning

2:37pm- Traffic cam showed the rain, and the anchor explained that you should not be driving. This was not provided to the hearing community

2:41pm- There was a list of cities where the storm was headed that were read off, but not written in any way on the screen, and therefore not provided to the hearing impaired community.

The inability of this station to provide equal accessibility to safety information is in violation of _____.
