Re: **Children's Programming Certification**

---

As a cable operator airing children's programming, Grande Communications must maintain records sufficient to verify compliance with §76.225 (commercial limits in children's programming) and make such records available to the public.

This memo will serve as written notice requesting that children's programming certifications for each quarter of 2015 and all future quarterly certifications be sent to [janet.mccann@mygrande.com](mailto:janet.mccann@mygrande.com) or mailed to the following address:

Grande Communications Networks LLC  
401 Carlson Circle  
San Marcos, TX 78666  
Attn: President's Office

Please specify all channels for which you are filing your certificate of compliance.

If your company currently does not offer children's programming, Grande Communications requests that you forward a letter containing a statement to that affect, as Grande Communications is required to keep a complete and accurate public record file. Once such statement is received, Grande Communications will consider such notification to be sufficient and will not require future quarterly certifications unless otherwise notified by you in writing.

Thank you for your adherence to these rules and regulations.
