Section II. Responsive Programs

The station has dealt with the above-referenced issues in the following programming.

Special Broadcast Content: WRTI regularly invites classical and jazz artists and community music groups to the station for live broadcasts. Due to the COVID-19 pandemic all live studio sessions were put on hold. These WRTI LIVE sessions, moderated by a WRTI host, are broadcast from the station's on-site performance studio and are rebroadcast from previous sessions. The sessions typically last 25-30 minutes and also include Facebook Live videos posted on WRTI's Facebook page. Information about specific broadcasts is set forth in Section III. WRTI Special Broadcast Content.

Digital Content: WRTI offers tremendous community arts coverage on our digital platforms including our website, app, and social media. WRTI hosts announce the availability of its digital content at least once each day-part, usually over the course of a week. This digital content may include text, audio, images, and video. Information about specific digital content is set forth in Section IV. WRTI Digital Content.

Educational Outreach and Appreciation: WRTI highlighted the accomplishments of young artists in our local communities in its *Young Artist Spotlight*. More information can be found in Section V.

Community Interest Announcements: WRTI airs announcements of relevant community activities of interest to our audience such as community concerts and gatherings. Section VI, Community Interest Announcements list the dates these announcements were broadcast.

Listeners' Music Requests: Like other media, WRTI offers expanded content to listeners. WRTI listeners respond to programming and request content in diverse ways, including online through Facebook and through website feedback mechanisms. Each Wednesday from noon until 2 pm, the station opens the classical playlist to listeners' classical requests. Similarly, each Wednesday from 9 pm until midnight WRTI opens the jazz playlist to listeners' jazz requests. In both cases requests are made in advance by means of an online form, accessible on the station's website. Section VII. Listeners' Music Requests contains WRTI data relating to the number of listener requests for each genre, and the corresponding number of requests the station filled in a given week.
