Re: Children's Television Act Report Form 398
ABC-TV Network Fourth Quarter 2008 Program Information

Today we are sending the FCC Children's Television Act Report Form 398, filled in with the ABC-TV Network information for the fourth quarter of 2008. We have entered on this form information concerning ABC-TV Network programs that were scheduled for broadcast during the fourth quarter of 2008, and which in our judgment are "specifically designed" to serve the educational and informational needs of children within the meaning of the Children's Television Act of 1990, as amended. We have also answered Question 14 concerning planned educational programming for next quarter as it relates to network programming. Stations may use this document to complete their Form 398 for electronic filing with the FCC.

Because the various live network feeds and preemption patterns differ substantially among the time zones, we are continuing to prepare individual reports for stations in each of the four time zones.

Completing the Form

Because this form reflects broadcast of network programming in live clearance periods, you must tailor it to your individual station schedule, if different, and add any local and syndicated children's educational programming that you air on your analog and main digital program stream as well as your digital multicast program streams. To complete the revised version of the form, you will need to:

- a. Fill in the general station information in Question 1; the average number of hours of core programming aired on your analog channel in Question 2; and the efforts to notify publishers of program guides about your analog core programs and their target age groups in Question 3. In Question 3(b), you should identify the publishers to which you send information about your educational children's programs, including the programs' target age group. If you wish, you may also indicate that the ABC Television Network on your behalf sent this program information to TV Guide (for publication in both the United States and Canada) and the Tribune.
- b. Revise and complete the analog "core" and analog "non-core" program information within Questions 4 and 5 and the "Preemption Report" boxes within Question 4 to reflect (a) any local preemptions or out-of-pattern rescheduling of network programs (eliminating a program entry entirely if

your station did not clear the program during the quarter) and (b) any additional non-network programs for which you are claiming core or non-core educational and informational credit on your analog channel. Also in Question 4, unless you somehow removed or obscured the network-provided E/I icon, check "Yes" in the box that reads: "E/I Symbol Used as Required."

- c. Respond to Question 6, regarding any core programming that you sponsored for airing on another analog station.
- d. Respond to Questions 7 through 12 regarding programming on your main digital programming stream and your digital multicast program streams.
- e. Respond to Question 13, regarding any core programming that you sponsored for airing on another digital station.
- f. Revise and supplement the information that the network provided in response to Question 14, regarding core programming planned for next quarter, to reflect any deviations from the network schedule as well as any non-network core programming that you intend to air on either your analog or digital multicast channels next quarter.
- g. Complete Questions 15-17; sign and date.

This form is designed to furnish you information concerning network children's programs to enable you to meet the record keeping requirements of the Children's Television Act. The completed form should be transmitted electronically to the FCC, and placed in your station's public inspection file in a location set aside exclusively for your station's Children's Television Programming Reports, by ten days following the end of the calendar quarter to which it pertains.
