X-Ploration SciQ Saturday 7:00-7:30am

SciQ is a science-based educational program produced for children aged 13-16 years old. The purpose of this series is to educate, inform, as well as entertain children in this age group. Each episode in this series embarks upon various science topics including Biology, Outer Space, Natural History, Geology, Planet, and Technology. This series is packed with lots of science facts and inquiry, using a question/answer trivia format as it explores various science topics that has both educational value and piques viewer interest in children of this age range. Each episode begins by immediately grabbing the viewer's attention and engaging him or her by asking a few science trivia questions to set the purpose for watching and learning. This is achieved by the narrator posing several

Quarterly Issues and Program List

science questions for students to answer which have a multiple choice, true/false, or open-ended format. This allows children to utilize their prior knowledge to answer questions. This helps build their schema as it establishes a connection for upcoming information in the episode. During the episodes, children are given various opportunities to engage in critical thinking skills, based on Bloom's Taxonomy, such as identification and recall of knowledge, comprehension and organization of information, application, analysis, synthesis, and finally evaluation/creation. This series certainly lends to exploration of science topics beyond the end of each episode to extend further learning.

X-Ploration DIY Science Saturday 7:30-8:00am

Produced primarily for the 13-16 target audience, Xploration DIY Sci will inspire and educate audiences of all ages. Host, science educator, and leader in the field of professional educational training - Steve Spangler encourages the discovery of scientific concepts through experiments viewers can do at home. With a fun, relaxed attitude, Steve will take viewers through step-by-step demonstrations of do-it-yourself experiments that amaze but which also relate back to solid principles of science.

Biz Kids Saturday 8:00-8:30am

Biz Kids serves the educational and informational needs of children 13 to 16 years of age with its principles. The series features teens starting their own businesses, actively solving problems and developing important life skills.

Animal Rescue Saturday 8:30-9:00am

Animal Rescue furthers the educational and informational needs of children 13-16 of age with its programming content, including safety tips and information about various animals and their habitats. The programs also show real life in-the-field experiences of professional and ordinary people taking care of, treating and helping various animals, as well as exhibiting good social responsibility and promoting strong personal and community values.

America's Heartland Saturday 9:00-9:30am

America's Heartland serves the educational and informational need of children 13 to 16 years of age with its program content, including the importance of learning about farming and feeding the world. Teenage students are presented with fascinating stories and introduced to exceptional individuals who operate family farms through America's heartland.

Live Life and Win! Saturday 9:30-10:00am

Live Life And Win! is a weekly, curriculum-blended, Education/Informational (E/I), nationally syndicated magazine series highlighting inspirational teen success stories. Segments feature a focus on arts, school, sports, community and teen entrepreneurship, while promoting social responsibility, perseverance, leadership, academic achievement and volunteerism. The goal is to encourage the teen audience (13-16) to discover and

Quarterly Issues and Program List

learn strategies to achieve personal dreams, explore volunteerism, build character and uncover personal passions.
