You have hit ice, But why does it freeze on the bridge first? The reason, the surrounding air and surface. Matt Burning, Ohio Department of Transportation "when you look at a roadway that's ovetop of soil, the soil conditions are going to allow that heat to stay in the ground longer, and that radiates up through the pavement . When you've got a bridge, the pavement, the structure is surrounded by the air temperature." With the lack of insulation underneath, the temperature of the bridge falls much faster than than the roadway. The freezing temperatures combined with an incoming weather system can cause problems. When ODOT is unable to pre-treat , it is up to drivers to change their driving to match the conditions.</p>
2.1	Politics	5PM	12/9/2022	86 Seconds	Five on 2	<p>A competitive contest for Greorgia's Senate seat is finally coming to an end. The election in November was so close that it forced Democrat Senator Raphel Warnock and Republican Candidate Herschel Walker into this runoff. Both candidates, have spent the last month trying to get voters to the polls again. The winner of this election will decide how much power democrats have here in Congress. If Senator Warnock wins it would give them two more votes than Republicans in the Senate. Those stakes are why this race has drawn National attention, and hundreds of millions of dollars in campaign spending. Walker is hoping voters reject Warnock who says he is to closely aligned with the President and is to blame for high inflation and crime. But Senator Warnock says Walker isn't a good fit for the office. And he's asking voters to send him back to the Senate to continue work he's done on issues like Healthcare and Infrastructure.</p>

2.1 Crime	11PM	12/23/2022	162 Seconds	2 NEWS @ 11PM	<p>A relieved Grandmother in celebration that her missing Grandson has been found. You see, El and Anderson were among the first officers to reach this black sedan last night where Kason Thomas, the subject of a multi-state serach, was alone, but otherwise okay. This all began on Monday in Ohio's Capital City. The mother of Kason and his twin brother Kyair, left the babies in her car as she stepped into a pizzeria. Columbus police would identify this woman, Nalah Jackson, as the suspect who stole the car, with the twins still in the back seat. An Amber Alert went out, and a day later, partial good news, Kyair was found 70-miles away, at the Dayton Airport prompting the boys' father to publicly call for Kason's return. Thanks to numerous tipsters in Indianapolis, Jackson was located here and arrested by I.M.P.D. Again, it's partial good news. As the brutal winter storm waded into Central Indiana, I-M-P-D located Kason who was later photographed in the arms of Sergeant Anderson. Back in Ohio, elation. Yes, it will be a very happy holiday reunion to remember.</p>

In the Miami Valley, drivers faced traffic slow downs, highway shutdowns caused by crashes along I-70 and I-75, and multiple jackknifing semis like this one on I-675 Northbound. In Northern Ohio, a 50 car pile up on the Ohio Turnpike turned deadly. This video from Sean McGillivray show part of the pileup which occurred at the Sundusky-Erie county line. Officials say 3 people died in the crash. Sgt. Tyler Ross with the Ohio State Highway Patrol says between 8A.M. -8P.M. Friday there were 650 crashes, 66 injury crashes, 3 fatalities and more than 2000 calls for assistance across Ohio. Meanwhile over one thousand ODOT plows on the roads across the state. Road crews are out fighting the elements, to make the roads passable, not perfect, until wintry conditions clear up. And on the Eve of Christmas Eve, ODOT and OSP are urging people to delay their holiday travel plans and stay home. But if you have to head out, slow down, give other drivers space, and go prepared.</p>

	2.1 Environment	11PM	12/26/2022	110 Seconds	2 NEWS @ 11PM	<p>Dayton Public Works crews have faced a variety of challenges since starting work last Thursday. Chief among them, frigid temperatures made worse due to dangerous wind chill conditions. They also dealt with more snow, but Public Works Director Fred Stovall says this latest snowfall shouldn't have a major impact on roads. ODOT and Triple A both also said to pay attention when you're on the roads, and to slow down as the snowfall comes. The new round of snow is also likely to stick to road surfaces due to continued cold temperatures. Stovall says the city focused more on main streets and highways to make sure people could get to their destinations. He says crews will continue working, clearing as many streets as they can until the temperatures finally warm up. Stoval " there's nothing we can really do to bust that up until we can get some warmer temperatures and the salt can really do it's work. So just be patient on these residential streets. But you can drive through as along as you again, take your time.</p>

On the Senate floor last week Republicans urged the Biden Administration to keep the policy in place to prevent a likely surge of asylum seekers at the border. Iowa Republican Senator Joni Ernst said the system simply can't handle the influx. The emergency rule was put into place by President Trump in March of 2020. Since then border patrol agents have enforced the policy and estimate 2 point 5 million times. But the Biden Administration argues there is no longer legal grounds to continue denying asylum. They say there is a plan in place for managing any potential surge of migrants.</p>

		4PM	12/29/2022	74 Seconds	First @ 4PM	<p>Health officials say people who are in the risk category are those who are elderly or severely immunocompromised. People who have heart disease or already have respiratory illnesses. There is an increased risk of getting or spreading RSV, Influenza or covid from person to person. If you're in that group or know someone who is, officials advise is to wear a mask. And by all means, if you are sick, you should not attend any events and stay home this year, for the safety of yourself and those around you.</p>
2.1	Health/Healthcare	4PM	12/30/2022	114 Seconds	First @ 4PM	<p>As countless revelers prepare to ring in the year among large crowds or New Years Eve parties, medical experts are urging communities and families to be on-guard. Across the country the triple-demic is showing no signs of easing up, and experts say all three of these airborne viruses are still highly contagious among children and adults. The City Health Department in Boston hosting a free vaccine clinic across the country in LA, the Pasadena Rose Parade cancelled in 2021 and hosted with a mask mandate in 2022 returns on Monday without any pandemic restrictions. But health officials are strongly recommending attendees mask-up. Beginning next week, the U.S. will once again start requiring negative covid test results from anyone flying from China to the states amid the latest surge in covid cases there and fears concerning a variant could emerge,</p>
