War, deception and art come together in this astonishing true story of American G.I.s who tricked the enemy with rubber tanks, sound effects and carefully crafted illusions during WWII. This remarkable tale of a top-secret mission that was at once absurd, deadly and amazingly effective is told through the stories of the veterans,

many of whom – like Bill Blass and Ellsworth Kelly – would go on to have illustrious careers in art, design and fashion.

**Description:**

LETTERS FROM BAGHDAD is the story of a true original-Gertrude Bell-sometimes called the female "Lawrence of Arabia." More influential and famous in her day than her colleague Lawrence, Bell was an explorer, spy, archaeologist and diplomat who helped shape the Middle East after World War I and established the Iraq Museum, infamously ransacked in 2003. Advisor to Winston Churchill and outspoken critic of colonial

policies in Iraq, Bell was considered the most powerful woman in the British Empire. Voiced and executive produced by Academy award winning Tilda Swinton, the film uses stunning, never-seen-before footage of the region to immerse the viewer in Bell's world. The story is told entirely in the words of Bell and her contemporaries, excerpted from letters, private diaries, and official documents. LETTERS FROM BAGHDAD chronicles Bell's extraordinary journey into both the uncharted Arabian desert and the inner sanctum of British Colonial power. The film takes us into a past that is eerily current. Why has Bell been written out of the history she helped make?
