

WXCR
Third Quarter, 2021
Mid Ohio Valley Now

Produced by Seven Ranges Radio news director Eric Little. The program airs Sundays at 6:30 A.M. on WXCR, New Martinsville, WV.

July 4th, 2021 - Documentary Highlights New Martinsville's Regatta History (Originally broadcast June 6th, 2021)

The New Martinsville Vintage Regatta is a throwback to the heyday of similar regatta events in New Martinsville during the 1930's, 40's and 50's. These exhibitions feature many of the same boats from yesteryear, but restored to run like new. Dave Kappel owns three of those boats. He joins with cousin Gary Kappel, an historian emeritus at Bethany College, to talk about a documentary project with the goal of preserving the history of the New Martinsville event.

July 11th, 2021-- MyRecoveryLink.org: A Valuable Resource Against Addiction

(Original air date April 4, 2021) The Buckeye Hills Regional Council continues to manage the grant-funded MyRecoveryLink.org website as a collection point of resources for those battling addiction. Brandi Beaver of Buckeye Hills joins to discuss the success of the program and how it's been able to continue as a resource against addiction.

July 18th, 2021- - Local Senior Center Adapts to Provide Services During COVID

(Original air date April 11, 2021) Washington County's O'Neill Senior Center is one of a number of local nonprofits that had to find new ways to provide services to customers and/or clients during the pandemic. Erin O'Neill with the O'Neill Center joins to discuss how their organization stepped up to serve Washington County's seniors during COVID-19.

July 25th, 2021- - Local Teen Begins Career as Novelist

(Original air date of May 23rd, 2021) Abby Farnsworth is a 17-year-old junior at Parkersburg South High School. Her first novel, EverGreen is a work of Young Adult romantic paranormal fiction. Abby has already held signing events locally in support of her book. She joins to talk about the process of writing a full-length novel while still in high school and about the challenges involved with starting a fiction series.

August 8th, 2021- Entrepreneurship Expo Returns In-Person in 2021

Marietta College's Entrepreneurship Expo returns as an in-person event in September after being delivered as an online series in 2020. Dr. Jacqueline Khorassani of Marietta College's Entrepreneurship Program joins to share details of this year's event and why it's important for entrepreneurs to return to in-person events and business networking.

August 15th, 2021 - Statewide Organization Advocates for West Virginia's Kids

Think Kids is a non-profit advocating for the needs of West Virginia's children. Executive Director Kelli Caseman joins to discuss their mission and current initiatives.

August 22nd, 2021- Relay for Life Wood County 2021

Relay for Life returns to Wood County later this month in a traditional format, after the pandemic caused changes to last year's event. Carmen Hathaway from the American Cancer Society joins to discuss this year's Relay and how the pandemic has impacted the organization's fundraising efforts.

August 29th, 2021 - National Group Seeks to Help Parents of Those Addicted

PAL Group is a national, faith-based organization designed to provide support for parents of addicted loved ones. Christine Merrill is the facilitator of a group that's starting this month in Ritchie County and joins to discuss the organization and how it aims to help parents of people battling addiction.

September 5th, 2021- Red Cross Needs Help to Meet Area/National Needs

Fall is an active time for the American Red Cross and this year is no different. The Red Cross is currently seeking both blood donors and volunteers to respond to disasters locally and nationally. Sharon Kesselring from the local chapter of the Red Cross joins to discuss.

September 12th, 2021 - Walk Raises Awareness for Alzheimer's Disease

The annual Walk to End Alzheimer's is coming up. Tammie Johnson and Tim Kern are the event committee's co-chairs. They join us to discuss their event and the continued importance of raising awareness and funds for Alzheimer's research.

September 19th, 2021- - West Virginia Rates Poorly in State of Obesity Report

The numbers are in, and they aren't good for West Virginia when it comes to obesity rates in the state. Dr. Jeanette Kowalik joins to discuss this year's report and its implications on public health in the region.

September 26th, 2021- - ArtBeat Studio Preparing for Busy Holiday Season

The Wood County Society's ArtBeat Studio launched the Art from the Heart Shop a couple years ago to highlight the work of their ArtBeat Studio artists. As the holiday season approaches, Wood County Society Executive Director Brandon Gress joins to discuss the organization's holiday plans for their retail space, and to share details about other ArtBeat studios located throughout the city of Parkersburg.

Weekly Public Affairs Program

Call Letters: WXCR

QUARTERLY ISSUES REPORT,
JULY-SEPTEMBER, 2021

Show # 2021-27

Date aired: July 4, 2021 Time Aired: 6:00 AM

Gregory Plemmons, PhD, Associate Professor of Pediatrics at Monroe Carell Jr. Children's Hospital at Vanderbilt University

Dr. Plemmons led a study that found the percentage of younger children and teens hospitalized for suicidal thoughts or actions in the United States has doubled over the past decade. He talked about the possible reasons for such a steep increase, what ages are at the greatest risk, and how parents can recognize signs of suicidal thoughts in their children.

Issues covered:

7:46 Teen Suicide Parenting

Length:

Jeff Stalnaker, President and Co-Founder of First Orion, a provider of data and phone call transparency solutions

Mr. Stalnaker's company commissioned a survey that found that Millennials are more likely than any other generation to give away personal information to scammers over the phone.

He said nearly 40 percent of those surveyed have been contacted by someone impersonating the IRS. He talked about other current scams, and offered advice on how to avoid falling prey to scammers.

Issues covered:

9:17 Consumer Matters Crime

Length:

Kara Lusk-Dudley, Public Affairs Manager, Biomedical Communications, American Red Cross

Summertime is one of the most challenging times of the year for blood donations. Ms. Lusk-Dudley explained why, and outlined the process that a new blood donor can expect. She explained how to locate a donation center or blood drive nearby. She noted that the Red Cross is also in greater need of organizations to host blood drives during the summer months.

Issues covered:

5:10 Blood Donation Personal Health

Length:

Show # 2021-28

Date aired: July 11th, 2021

Time Aired: 6:00 AM

Darrin Grondel, Vice President of Traffic Safety and Government Relations for the Foundation for Advancing Alcohol Responsibility

Although there were far fewer vehicles on the roads during the pandemic, traffic deaths rose more than 7% in 2020 to a 13-year high. Mr. Grondel discussed grants awarded by the Governors Highway Safety Association and the Foundation for Advancing Alcohol Responsibility to help states keep Americans safe from alcohol- and drug-impaired drivers.

Issues covered:

**Drunk/Drugged
Driving Traffic Safety**

Length:

8:58

Marshall Allen, reporter for ProPublica, where he covers the health care industry, author of *“Never Pay the First Bill: And Other Ways to Fight the Health Care System and Win”*

Americans pay about twice as much per person for healthcare than the citizens of other developed nations, and about 1 in 6 of has medical debt in collections. Mr. Allen advised consumers to make sure each medical bill is itemized, and to check the billing codes to make sure the bill is accurate and priced fairly, before paying it. He also explained how doctors are incentivized to perform many treatments and tests whether they are needed or not.

Issues covered:

**Consumer Matters
Personal Health**

Length:

8:11

David Rabadi, mental health advocate, National Speaker for the National Alliance on Mental Illness, author of *“How I Lost My Mind and Found Myself”*

41 percent of Americans reported anxiety and depression symptoms in 2020, up from 11 percent in 2019. Mr. Rabadi explained why many people struggling with mental illness try to hide it from others. He offered encouragement to seek help.

Issues covered:

**Mental Illness
Suicide**

Length:

5:07

Show # 2021-29

Date aired: July 18th, 2021

Time Aired: 6:00 AM

Carmen Piernas, MSc, PhD, University Research Lecturer at the Nuffield Department of Primary Care Health Sciences at the University of Oxford

Dr. Piernas was part of a group of British researchers that examined the strong connection between COVID 19 and obesity. She said they found that younger people with a Body Mass Index of 30 or more, which is considered obese, are at a significantly higher risk of being hospitalized or dying of COVID-19, while those with a BMI of 23 are at the lowest risk. Interestingly, they found that obesity made no difference at all in COVID risks for the elderly.

Issues covered:

**COVID-19
Obesity Public
Health Length:**

9:17

Rebecca Johnson, PhD, Co-Director of Citizen Science and Research Associate in the Department of Invertebrate Zoology and Geology at the California Academy of Sciences

In recent years, community science--also known as citizen science--has become a global phenomenon, as millions of amateurs with an interest in science contribute unparalleled amounts of data on the natural world. Ms. Johnson said community science data remains widely underutilized by the scientific community due to its perception as being less reliable than expert-collected data. She said community science may be the only practical way to answer important questions about our planet's biodiversity and how it is changing.

Issues covered:
Science
Climate
Change

Length:
7:58

Shannon M. Robson, PhD, MPH, RD, Assistant Professor in the Department of Behavioral Health and Nutrition, Principal Investigator of the Energy Balance and Nutrition Laboratory at the University of Delaware

89% of Americans believe it's important for families to have as many family meals as possible each week. Dr. Robson led a study that showed that more frequent family meals were associated with better dietary outcomes and improved family relationships. She offered suggestions for families to overcome obstacles to gathering for dinner.

Issues covered:
Nutrition
Parenting

Length:
4:38

Show # 2021-30

Date aired: July 25th, 2021

Time Aired: 6:00 AM

Elizabeth Rosenthal, MD, former reporter and senior writer at The New York Times, Editor in Chief of Kaiser Health News, former ER physician, author of "*An American Sickness: How Healthcare Became Big Business and How You Can Take It Back*"

Dr. Rosenthal discussed the rapidly rising costs of healthcare in the past few decades and the reasons behind them. She gave examples of some of the more egregious differences in healthcare costs in the US, compared to other countries. She explained how healthcare consumers can learn to negotiate with hospitals and doctors.

Issues covered:
Personal Health
Consumer Matters

Length:
8:39

Jodie Plumert, PhD, Professor in the Department of Psychological and Brain Sciences at the University of Iowa

For adults, crossing the street by foot seems easy. Yet it is anything but simple for a child. Dr. Plumert led a study that found that perceptual judgment and motor skills are not fully developed in most kids until age 14. She explained what parents can do to help children learn these life and death skills as early as possible.

Issues covered:
Traffic Safety
Parenting
Children's Issues
Length: 8:27

Adriana Zuniga-Teran, architect, postdoctoral research associate in the University of Arizona's Udall Center for Studies in Public Policy.

Ms. Zuniga-Teran conducted a study that examined how the design of a neighborhood can affect health and wellness. She found that those who live in traditional neighborhoods do the most walking, while those who live in suburban developments report the highest levels of mental well-being.

Issues covered:

Mental Health
Personal Health
Community Issues

Length:

5:02

Show # 2021-31

Date aired: August 1st, 2021

Time Aired: 6:00 AM

Sally Erny, National Stakeholder Engagement Officer of the National Court Appointed Special Advocate Association

Ms. Erny explained how court-appointed special advocates (CASAs) look out for the interests of abused or neglected children. She discussed how CASA volunteers work with attorneys and other court officers to ensure the youngsters are in safe and healthy foster care, and eventually, permanent homes. She also outlined the training that these volunteers receive, and how someone can volunteer.

Issues

covered: Child
Abuse Foster
Care
Volunteerism

Length:

8:26

Clint Emerson, retired Navy Seal, author of "*100 Deadly Skills: Survival Edition: The SEAL Operative's Guide to Surviving in the Wild and Being Prepared for Any Disaster*"

Mr. Emerson offered numerous tips on how to crime-proof a house and how to avoid becoming a victim of crime in other environments, as well. He explained the importance of being aware of your environment, in order to react to dangerous situations or avoid them in the first place. He also talked about the options available to people caught in active shooter incidents or terrorist attacks.

Issues covered:

Crime Prevention
Terrorism

Length:

8:46

Tracy Mehan, Manager of Translational Research for the Center for Injury Research and Policy at the Research Institute at Nationwide Children's Hospital in Columbus, Ohio

On an average day in the US, 13 children receive emergency treatment for a lawn mower-related injury. Ms. Mehan talked about the most common injuries and how they typically vary, depending on the age of the child. She offered suggestions for parents on how to prevent lawn mower-related injuries.

Issues

covered: Child
Safety Product
Safety
Parenting

Length: 5:02

Show # 2021-32

Date aired: August 8th, 2021 Time Aired: 6:00 AM

Helen Horyza, career coach, founder of the Career Coach Entrepreneur Academy certificate programs, author of *"Elevate Your Career: Live a Life You're Truly Proud Of"*

Nearly 60% of middle-income workers are asking the question: Am I really where I want to be? Ms. Horyza explained why so many people stay in unrewarding careers and how to find a happier path. She shared real-world examples of people who found their true passion in life and created a career that perfectly suited their interests and talents.

Issues covered:

**Career
Unemployment**

Length:
7:50

Maria J. Prados, PhD, Economist at the University of Southern California's Center for Economic and Social Research

Social Security benefits are a critical component in planning and saving for retirement. Prof. Prados co-authored a study that found that the average American overestimates their future monthly Social Security check by more than \$300. She explained why this is a serious problem and how consumers can find out how much their future Social Security benefit will be.

Issues covered:

**Retirement Planning
Personal Finance**

Length:
9:19

David Finkelhor, Director of the University of New Hampshire's Crimes against Children Research Center

Mr. Finkelhor shared the results of a recent study from the University of New Hampshire that found that close to 1.5 million children each year visit a doctor, emergency room or medical facility as a result of an assault, abuse, crime or other form of violence. This is four times higher than previous estimates. He outlined the most common types of abuse.

Issues covered:

Show # 2021-33

Date aired: August 15th, 2021 Time Aired: 6:00 AM

Loretta Alkalay, former FAA eastern regional counsel, Adjunct Professor at Vaughn College of Aeronautics & Technology, a private college in East Elmhurst, New York, specializing in aviation and engineering education

Incidents of violence at airports and during flights have been on the rise in recent months. Prof. Alkalay discussed the problem and how the increasingly stressful experience of flying has fueled it. When an aircraft's doors are closed, any criminal activity falls under federal jurisdiction, but she believes changes are needed to allow local authorities to make arrests and prosecute.

Issues covered:

**Transportation
Law
Enforcement**

**Mental
Health**

Length: 8:53

Jenn Donahue, leadership coach, engineer, entrepreneur

The leadership gender gap in American business is glaring; even today, women fill just 6% of CEO positions at Fortune 500 companies. Ms. Donahue explained how those women who have broken the glass ceiling can determine their leadership style, and also seek ways to bring other women up through mentoring.

Issues covered:

**Women's
Concerns Career**

Length:

8:26

John G. Boyle, patient and health advocate who relies on plasma-derived therapies, former CEO & President of the Immune Deficiency Foundation

The national blood shortage has been widely reported, but Mr. Boyle talked about another life-threatening donation crisis. He said the critical need for plasma donors right now in the U.S. will have lasting consequences if it isn't addressed. He explained what sorts of patients are in dire need of plasma donations, and how to make a donation.

Issues covered:

5:09

Show # 2021-34

Date aired: August 22nd, 2021 Time Aired: 6:00 AM

Clifford Bassett, M.D., FACAAl, FAAAAI, Founder and Medical Director of Allergy and Asthma Care of New York, author of "*The New Allergy Solution: Supercharge Resistance, Slash Medication, Stop Suffering*"

Allergies are on the rise. Dr. Bassett explained why the problem and its underlying causes are quite complex. He believes in many cases, allergic reactions can be prevented, with proper medical advice that examines the interplay of diet, mindset, and environment.

**Issues
covered:**

**Personal
Health**

Length:

7:28

Cornelius N. Grove, Ed.D., education expert, author of "*The Drive to Learn: What the East Asian Experience Tells Us About Raising Students Who Excel*"

American students are currently ranked #25 in education globally, significantly behind countries such as Singapore, China and Japan. He believes that American children are less receptive to classroom learning, compared to East Asian children. He said a different approach to parenting is a major factor.

**Issues
covered:**

**Education
Parenting**

Length: 9:51

Laurence J. Kotlikoff, PhD, William Fairfield Warren Distinguished Professor, Professor of Economics at Boston University, President of Economic Security Planning, Inc, author/co-author of 16 books on retirement planning, economics and personal finance

Dr. Kotlikoff has developed the first retirement planning software built by economists. He explained how the "Economist Approach" differs from traditional retirement advice.

He said the new approach can help consumers determine the highest level of spending their household can sustain over time, in order to live within their means for the remainder of their lives.

Issues covered:
Retirement Planning
Senior Citizens

Length:
4:56

Show # 2021-35

Date aired: August 29th, 2021 Time Aired: 6:00 AM

Gal Wettstein, PhD, Senior Research Economist at the Center for Retirement Research at Boston College

Dr. Wettstein co-authored a report entitled "*Are Older Workers Capable of Working Longer?*" He explained why recent worsening health trends raise the question of how long people will be able to work, and why it matters. He noted that gains in "working life expectancy" have slowed in the past 15 years. He said many black workers, as well as whites with less education, may not be capable of working to Social Security's full retirement age of 67.

Issues covered:
Retirement Planning
Poverty

Length:
7:49

Glenn N Levine, MD, Master Clinician and Professor of Medicine at Baylor College of Medicine, Chief of the cardiology section at the Michael E. DeBakey VA Medical Center, both in Houston

Dr. Levine was chair of the writing committee for a new American Heart Association Scientific Statement, entitled "*Psychological Health, Well-Being, and the Mind-Heart-Body Connection.*" He outlined the latest research that examines why and how psychological health can positively or negatively impact a person's physical health, and risk factors for heart disease and stroke.

Issues covered:
Mental Health
Personal Health

Length:
9:22

Catherine Athans, PhD, Certified Trauma Therapist, Licensed Marriage and Family Therapist for more than 25 years with Doctorate Degrees in both Clinical and Health Psychology, along with a Master's Degree in Clinical Community Psychology

It's not going to be a normal fall, as both students and parents must deal with a second school year of uncertainty and concerns connected to the pandemic. Dr. Athans discussed the array of challenges faced by students and explained how parents can help. She said it is crucial for parents to recognize and deal with their own anxieties.

Issues covered:
Mental Health
Parenting
Length: 5:06

Show # 2021-36

Date aired: September 5th, 2021 Time Aired: 6:00 AM

Rachael Stickland, Co-Founder and Co-Chair of the Parent Coalition for Student Privacy

Schools and third-party vendors collect and share an astonishing amount of personal data on nearly every student in America. Ms. Stickland explained why parents should be concerned and what they can do about it. She believes laws protecting student privacy need to be strengthened.

Issues covered:
Parenting Privacy
Concerns
Education

Length:
8:56

Vijay R. Varma, PhD, researcher and post-doctoral fellow at the National Institute on Aging, part of the National Institutes of Health

Dr. Varma recently co-authored a study that found an alarming decrease in physical activity in youngsters at every age. 19 year olds now get as much exercise and activity as 60 year olds. Dr. Varma explained why this is a major problem. He offered suggestions of ways to encourage both younger and older Americans to become more physically active.

Issues covered:
Physical Fitness
Personal Health
Aging

Length:
8:02

Jim Hedlund, consultant for the Governors Highway Safety Association, former researcher for 22 years at the National Highway Traffic Safety Administration

Mr. Hedlund conducted a study for the Governors Highway Safety Administration that found that for the first time, more drivers who were tested after fatal crashes had drugs in their system than had alcohol. He discussed the role that the increasing legalization of marijuana may play in this trend. He also explained why laws targeting drivers under the influence of alcohol cannot easily be amended to include drug users.

Issues covered:
Impaired Driving
Substance Abuse
Government
Legislation

Length:
5:09

Show # 2021-37

Date aired: September 12th, 2021

Time Aired: 6:00 AM

Susan Stark, PhD, Associate Professor of Occupational Therapy, of Neurology and of Social Work at Washington University School of Medicine in St Louis

Falls are the leading cause of injury, accidental death and premature placement in a nursing home among older adults in the United States. Dr. Stark shared the results of her study that suggested that in-home falls can be reduced by nearly 40% with a community-based program that helps older adults make modifications to their homes such as adding grab bars, shower seating and slip-resistant surfaces in the bathroom.

Issues covered: Elder
Care Aging
Length: 8:23

Frank Pega, PhD, epidemiologist, health economist, Technical Officer in the Environment, Climate Change and Health Department at the World Health Organization in Geneva, Switzerland

Long working hours are killing 745,000 people a year, according to a new report from the World Health Organization. Dr. Pega was the lead author of the study, which found that working more than 55 hours a week is a health hazard that leads to stroke and heart disease. He said the pandemic may have accelerated this trend.

Issues covered:

Date aired: September 19th. 2021

Time Aired: 6:00 AM

Benjamin H. Barton, Helen and Charles Lockett Distinguished Professor of Law at the University of Tennessee, author of "*Rebooting Justice: More Technology, Fewer Lawyers, and the Future of Law*"

Professor Barton discussed what he sees are longstanding problems in our judicial system. He said that laws are too complex and legal advice is far more expensive than necessary.

He outlined a series of reforms which he believes would make the courts much fairer and more accessible for poor and middle-class Americans.

Issues covered: Legal
Reform
Poverty

Length:
8:31

Steve Casner, PhD, research psychologist, NASA scientist, author of "*Careful: A User's Guide to Our Injury-Prone Minds*"

Dr. Casner has devoted his career to studying the psychology of safety. He said after a hundred years of steady decline, the rate at which people are being injured or killed in everyday accidents, such as car crashes, pedestrian fatalities, home-improvement projects gone wrong, medical mistakes and home fires, is increasing. He explained why few of us are as careful as we think we are, and what we can do about it.

Issues covered:
Accident
Prevention
Personal Health
Length: 8:36

Robin Behrstock, entrepreneur, author of "*Adventures Of Women Entrepreneurs: Stories That Inspire*"

Dr. Behrstock shared some inspiring examples of women who overcame both personal and professional setbacks to turn their dreams of starting their own business into reality. She offered advice for aspiring entrepreneurs who are reluctant to take that first step.

Issues covered:
Women's

Policies Economy**

Length:

8:17

Nora Volkow, MD, Director of the National Institute on Drug Abuse, part of the National Institutes of Health

Marijuana use continued to rise among college students over the past five years, and remained at historically high levels even among same-aged peers who were not in college, according to survey results from the 2020 Monitoring the Future panel study. Dr. Volkow, who has led the National Institute on Drug Abuse since 2003, discussed the potential reasons for the trend. She added that the survey found that there was also a significant increase in the annual use of hallucinogens such as LSD, and a significant drop in current alcohol use among college students.

Issues covered:

**Substance Abuse
Government
Policies**

Length:

9:01

Sangeetha Abdu Jyothi, PhD, Assistant Professor in the Department of Computer Science at the University of California, Irvine

Prof. Jyothi said a severe solar storm could plunge the world into an "internet apocalypse" that keeps large swaths of society offline for weeks or months at a time, by damaging long undersea internet cables that connect continents. She said that although coronal mass ejections are relatively rare, the global internet infrastructure is relatively new, and its vulnerabilities remain largely unstudied.
