Quarterly Issues Programs List
WBCK and WBXX
Q1 2022 (Jan 1st – March 31st 2022)

Section I. Issues

The stations have identified the following issues as significant issues facing our community in this quarter:

A: **Mental Health:** Researchers estimate that around 10 million Americans suffer from season affective disorder each year, which is more prevalent in the cold, dark, winter months. The percentage of adults in Michigan who suffer from depression, as of 2021, was 19.5%. Additionally, there have been more suicides in Michigan in each of the last two years than any other time in history. Michigan continues to be above the National average in suicides since 2018.

B: **Mass Shootings:** In 2016 Southwest Michigan was shocked to the core when an Uber driver picked up customers while on a mass shooting rampage that killed six and injured two. In November 2021, a mass shooting occurred at Oxford High School in the Detroit, Michigan area. Parents of the Oxford shooter, who left four students dead and seven others injured, were charged with involuntary manslaughter.

C: **Covid-19:** Nearly 36,000 people have died of Covid-19 in Michigan leaving many children without their parents. Psychologists say deaths under circumstances are much more difficult for survivors to adjust to.

D: **Public Health:** Michigan is among the worst states in the U.S. with sleep deprivation causing a host of serious health issues. A recent study claims that Michigan residents are getting an average of 5 hours and 56 minutes of sleep per night.

E: **Traffic Safety:** In the most recent Battle Creek report published in 2020, fatal car accidents have nearly doubled from 2018 to 2019. In 2020, speeding was a contributing factor in 22,391 motor vehicle accidents, causing 190 fatalities.

Section II. Responsive Programs

| 1/2/22 | | | |
| SEGMENT 1: | HOARDING DISORDER: MORE THAN JUST TOO MUCH JUNK | Time | Duration |
| Synopsis: | Hoarding disorder affects at least five percent of Americans, and despite TV programs showing its effects, it is still widely misunderstood. Experts discuss the danger hoarding poses to others, including neighbors, children, and first responders; why those with the disorder are so attached to things; and the right and wrong ways to address the problem. | 1:50 | 12:20 |
| Host & Producer: | Reed Pence | | |
| Guests: | Dr. Carolyn Rodriguez, Associate Professor of Psychiatry and Behavioral Sciences, and Associate Dean for Academic Affairs, Stanford University School of Medicine; Elaine Birchall, social worker specializing in hoarding disorder and co-author of <i>Conquer the Clutter: Strategies to Identify, Manage and Overcome Hoarding</i> | | |

| SEGMENT 2: | DEALING WITH LIFELONG DISEASE | Time | Duration |
| Synopsis: | Life-threatening, lifelong chronic diseases from infancy are at the top of the list of medical challenges. A woman who has dealt with cystic fibrosis her entire life discusses how mindset is often the biggest factor in living a full life with such a disease, and sets out her recipe for shoring up one’s approach. Developing a chronic disease in your 30s or 40s strikes a lot of people as unfair. The deck seems stacked against someone like that. But what happens when you're diagnosed with a lifelong chronic disease almost at birth? That's what happened to Mary Elizabeth Peters, a theater artist and patient advocate in Boston. | 15:12 | 7:43 |

| SEGMENT 1: | SEGMENT 1: CAN 911 RESPOND TO MENTAL HEALTH CRISES? | Time | Duration | |
| Synopsis: | Up to 15% of calls to 911 involve people having a mental health breakdown, yet many call centers, especially in rural areas, have no one with any training on what to do or who to dispatch in those cases. Typically they send police, who may also have no training on how to handle mental health crises and may inflame the situation. Experts discuss why this happens and how communities can respond better. | 1:50 | 12:15 | |
| Host & Producer: | Reed Pence | | | |
| Guests: | Dr. Adam Vaughan, Assistant Professor of Criminal Justice and Criminology at Texas State University; Tracy Velazquez, Manager, Public Safety Research, Pew Charitable Trusts | | | |

| SEGMENT 1: | KIDS WHO'VE LOST PARENTS TO COVID | Time | Duration |
|-----------------------------|--|------|----------|
| Synopsis: | New estimates show that more than 167,000 children under 18 (a number growing rapidly) have lost a parent or major caregiver to Covid-19. Psychologists say deaths under such circumstances are also much more difficult for survivors to adjust to and will have a major impact on the US. Experts discuss how these "forgotten grieverers" are coping and what actions might help ease the impact on them and to the nation. | 1:50 | 11:23 |
| Host & Producer: | Reed Pence | | |
| Guests: | John Bridgeland, co-founder and CEO, Covid Collaborative; Dr. Dan Treglia, Associate Professor of Practice, University of Pennsylvania School of Social Policy and Practice | | |

| SEGMENT 2: | HOW WARFARE DESTROYS HEALTHCARE | Time | Duration |

Synopsis:

According to the Geneva Convention and other agreements, health facilities and workers are supposed to be protected from the violence of war. However, they're targeted much more often than most people know. A noted expert in the field discusses how this violence happens, its consequences, and how international organizations may be able to turn this trend around.

| SEGMENT 1: | PUNISHING COVID-LYING DOCTORS | Time | Duration |
| Synopsis: | There's a growing number of complaints to state medical boards regarding doctors lying about Covid-19 and vaccines. The doctors spreading misinformation are not always reprimanded by state medical boards and are allowed to continue voicing the misinformation. They cite freedom of speech as a defense, but other doctors say licensed professionals have an obligation to the truth. Experts explain the controversy. | 1:50 | 13:17 |
| Host & Producer: | Reed Pence | | |
| Guests: | Dr. Brian Castrucci, President and CEO, De Beaumont Foundation; Dr. Humayun Chaudhry, President and CEO, Federation of State Medical Boards | | |
