KHTS-FM  
Quarterly Issues/Programs List

---

KHTS-FM provides its listeners with programming and public service announcements that address issues of concern to our local community. Among the issues determined to be of most concern to the community during the preceding calendar quarter were:

- **BIG BROTHERS BIG SISTERS OF SAN DIEGO COUNTY:** Joining Jeremy Pfouts on Community Connection is Louie Evans, Big Brothers Big Sisters Recruitment Specialist, Matt May, Big Brother, and Robert, Matt's Little Brother. In each of our lives, we can look back and point to a few special relationships early on that made a big impact in our lives. It could be that teacher who took extra time with us or that one uncle who took us to the movies. For some kids, it could be the person they were matched with through Big Brothers Big Sisters of San Diego County. The organization right now is in need of San Diegans who want to volunteer their time; to spend time with a boy or girl and mentor them through some of life's challenges. We're going to talk about what it takes to be a Big Brother or Big Sister.
- **CALIFORNIA INNOCENCE PROJECT:** Cliff Albert talked with Alex Simpson, Associate Director of the California Innocence Project, and Jamal, student at California Western School of Law who is involved in the Project. Michael Hanline had spent 36 years in prison in California, the longest wrongful incarceration case in California history. Michael Hanline claimed for 36 years that he was innocent, and his case had a lot of circumstantial evidence. He was sentenced to life without the possibility of parole, and the California Innocence Project had been working on his case for 10 years before Michael was finally released. Michael Hanline is 68 years old. The California Innocence Project has been around since 1999. They review over 2,000 claims of innocence from California inmates each year. They use DNA technology to free those who are wrongfully convicted of a crime. Website:  
[www.californiainnocenceproject.org](http://www.californiainnocenceproject.org)
- **CHILD VACCINATIONS:** Vaccinations have saved the lives of millions worldwide, and have prevented diseases such as polio, tetanus, measles, mumps, and many other diseases. However, controversy has grown over the years about vaccinations, which has led to what were once unthinkable actions a few short years ago - parents deciding to prohibit their children from accepting the required vaccines. We'll discuss that and much more on how to keep your children healthy, with Dr. Mark Sawyer. Why do kids need immunizations? Are they safe? What immunizations do young children need as they go back to school? Top 5 fears:  
[www.kansascity.com](http://www.kansascity.com) (from [www.thebump.com](http://www.thebump.com)) Side effects, Autism panic, too many shots, "stuff" in the shots, are vaccines useless? January is

Cervical Health Awareness Month! HPV Vaccines prevent cervical cancer. Also discussed: some school districts are "hot spots" for lack of immunizations. These are areas (no specific places mentioned) which doctors are concerned about. Information is available online. Websites: [www.cdc.org](http://www.cdc.org) ; [www.aapca3.org](http://www.aapca3.org) ; [www.vaccinse.gov](http://www.vaccinse.gov) ; [www.healthychildren.org](http://www.healthychildren.org)

- **CIRCULATE SAN DIEGO:** Jim Stone, Executive Director and Kathleen Ferrier, Director of Advocacy of Circulate San Diego, join Cliff Albert on Community Connection. Circulate San Diego is a local organization working to find ways to encourage people to leave their cars parked and use an alternative method to get to where you're going, like walking, mass transit, bicycling, etc. They talked about ways to help people slow down while getting healthy, eliminating cars on the freeways, and helping keep the environment cleaner. How to improve the triple bottom line - health, environment, and the economy - making it easier to get around with positive results. Vision Zero: the City works on eliminating traffic fatalities within 10 years - streets safer by building safer streets, more education on how to be safe on our streets, and police to target bad behavior. Website: [www.circulatesd.org](http://www.circulatesd.org)
- **FISHER HOUSE FOUNDATION:** Cliff Albert talked with Brian Gawne, VP of Operations and Kerri Childress, VP of Communications, Fisher House Foundation. They discussed who the Fisher House Foundation helps, what services the Fisher House Foundation offers, and locations of the Fisher Houses throughout the world. Website: [www.fisherhouse.org](http://www.fisherhouse.org)
- **HOLOCAUST SURVIVOR:** Dr. Geller and her family were taken prisoner by Hitler's troops in Nazi Germany when she was 4 years old. Her family didn't survive. Dr. Geller did survive the Holocaust and has been sharing her story of life in Germany's concentration camps for many years, especially to youth groups.
- **HUMAN TRAFFICKING:** San Diego District Attorney, Bonnie Dumanis recently announced the formation of a new local Task Force to fight human trafficking, comprised of local, state and federal law enforcement agencies: San Diego Violent Human Trafficking and Child Exploitation Task Force. According to Dumanis, the FBI has ranked San Diego as the 9th highest area for child prostitution in the nation. The program is an encore presentation featuring a number of key players in the fight against Human Trafficking. You'll also hear the story of a woman who was a victim of modern day slavery. You may have spotted some billboards around the county with some very strong messages on the subject of human trafficking. It's a public awareness campaign to educate people on the issue of human trafficking and the sexual exploitation of children. A lot of people may be surprised to find out that this is even a problem in San Diego. We've seen stories in other countries but in addition to being a worldwide problem, it's happening in cities throughout the United States and it's on the rise here locally. I'm Cliff Albert, and joining us to talk about the steps being taken to fight this crime are San Diego County Supervisor Chairwoman Diane Jacob, San Diego District Attorney Bonnie Dumanis, Dr. Susan Tschirn, Vice Chair of the City of San Diego's Human Relations Commission, and Tiffany Mester, who was a victim who was able to escape her ordeal and is going to tell us her story. Discussion included: -

What exactly is human trafficking? - How do victims get caught up in it? - Who are the typical victims? - Resources, help for victims - Law enforcement angle - Prosecution angle - Billboards, with iHeartMedia's involvement/messages The Victims ... Tiffany talked about her story and Hidden Treasures. She is the Survivor Voice. She is soon to graduate from San Diego State University and is involved with Hidden Treasures, an organization that helps victims. Website: [www.protecsandiegokids.org](http://www.protecsandiegokids.org)

- **LAW ENFORCEMENT IN SD COUNTY / LIVE WELL SAN DIEGO:** SEGMENT 1 - Cliff Albert talks with Sheriff Bill Gore to discuss law enforcement and the crime rate going down, bodycams that police officers will start wearing, and recruitment and how to become a law enforcement officer. Issues they discussed: - The state of law enforcement in San Diego County. - Body cameras on police officers. - Recruitment Website: [www.joinsdsheriff.net](http://www.joinsdsheriff.net) Phone: (858) 974-2000 \_\_\_\_\_ SEGMENT 2 - Mark Zegan talks with Marie Brown-Mercadel, Deputy Director, HHS Agency in San Diego, and Katie Judd, Community Health Program Specialist about Live Well San Diego. In 2010, the Board of Supervisors voted to adopt a comprehensive, innovative strategy on wellness known as Live Well San Diego, a long-term strategy (10-years) to help all county residents to live healthy and safe, and thrive. More than half of San Diego County residents die of preventable chronic reason diseases. The Live Well initiative focuses on 3/4/50: 3 Behaviors (lack of physical activity, poor diet, and tobacco use) that lead to 4 Chronic Diseases (cancer, heart disease/strokes, Type 2 diabetes, and respiratory diseases) that results in over 50 percent of the deaths in San Diego County. The direct medical costs result in over 4 billion dollars. Website: [www.livewellsd.org](http://www.livewellsd.org)
- **NATIONAL SECURITY / FEEDING THE NEEDY:** SEGMENT 1 - Retired NYFD Lt. Joe Torillo related his story of being buried alive TWICE during the fall of the World Trade Center Twin Towers on 9-11-01. He recovered from critical injury, and has become a motivational speaker. He related his terrifying story and talked about his transition to a new career, where he travels the country to hopefully inspire his audiences. Joe related that he has been chosen by the Federal government to testify at the trial of the 9-11 defendants at Guantanamo Bay. Joe decided to tell his story after hearing the oral histories of Pearl Harbor survivors. He then realized he had to follow the lead of those individuals. Website: [www.joetorillo.com](http://www.joetorillo.com) SEGMENT 2 - The new public service organization, "Fish.Food.Feel Good" (F3G) collects unwanted fish from sport fishermen and distributes them to partnering charities for free. F3G feeds over 80,000 through San Diego charities and food banks. F3G is exclusive to San Diego, but founder Todd Bluechel hopes he can take the concept nationwide. Website: [www.f3g.org](http://www.f3g.org)
- **PREVENTING BULLYING:** We have heard the term "bullying" so much today, and the issue seems worse than ever. We do know that bullying means a form of aggressive behavior that is intentional, hurtful, threatening, and persistent. It's in the classroom. It's in the workplace. It's in the locker room. It's in cyberspace. Bullying seems to be everywhere. Some statistics: every 7 minutes a child is bullied. This year, some 13 million American children will be bullied. I'm not including adult bullying in these statistics. Bonny Forrest, Psychologist and Attorney, is here to hopefully help make some sense of this. Bonny is also a published author, dynamic speaker, and a thoughtful blogger. Bonny is

working on her first major book: *Is That Normal?: A guide to understanding your child's behavior*. More on that later ... Where and when does this type of bullying take place? [www.bullyfree.com](http://www.bullyfree.com) Why is this kept a secret by the person who is bullied? Are there different types of victims? What are the warning signs? And now, cyber bullying ... it's on the rise. [www.huffingtonpost.com](http://www.huffingtonpost.com) (Cyberbullying apps) Anonymous - easy to be cruel? Social combat is on the rise. Local example from 2012: Katie Uffens/Westview High School, Torrey Highlands. She was 16 at the time, the KKK (Kill Katie Klub) taunted her and she had to leave the school. Comments on Facebook, twitter, and threatening phone calls. Even after she left this continued. Two bullies were arrested. [www.abcnews.com/US/taunted-san-diego-teen-dropped-alleged-bullying-continued/print](http://www.abcnews.com/US/taunted-san-diego-teen-dropped-alleged-bullying-continued/print)

- **RAISING HEALTHY KIDS:** Cliff Albert talks with Dr. Bonnie Forest, Psychologist and author of book, "Will My Kid Grow Out Of It? A Child Psychologist's Guide to Understanding Worrisome Behavior." Issues addressed included children's mental health, school shootings, etc. The book covers questions/issues: - Who's to blame? - How do we fix this? - Working with parents, schools, policy-makers - Long-term solutions - Getting/keeping children in psychiatric treatment - Identifying anxiety/depression in children - Gap between mental health experts and legal systems - What is worrisome behavior? How to identify? - Choosing the correct mental-health provider: questions to ask, how to assess, etc.
  - **SUPPORTING FIRST RESPONDERS:** Cliff Albert talked with Lt. Dan Willis, Retired Police Detective and Author of "Bullet Proof Spirit", a book about Lt. Willis' journey of emotional healing that he hopes will help other first responders. The book is an emotional survival guidebook that offers wellness strategies that will help protect, heal, and nurture the spirit of First Responders so they won't suffer in service. It is a positive book filled with hope. First Responders include Police Officers, Firefighters, Paramedics, EMTs, etc., and all have to deal with an emotional stress that can affect their non-working lives. Websites: [www.firstresponderwellness.com](http://www.firstresponderwellness.com) [www.EMDR.org](http://www.EMDR.org) (referrals to therapists)
  - **YMCA MLK BREAKFAST AT JACKIE ROBINSON FAMILY YMCA:** Cliff Albert talked with Michael Brunner, CEO Jackie Robinson Family YMCA and Dee Sanford, YMCA Board Member about the upcoming 30th Annual Martin Luther King Day Human Dignity Award Breakfast on Friday, January 16th. They discussed the event that was sold out, and that has grown more than ever imagined. They talked about the scheduled guests and the program. Website: [www.jackierobinson.ymca.org](http://www.jackierobinson.ymca.org)
