	DESPIERTA AMERICA	8/7/2017	8:00AM	:22	General Motors has some very unfortunate news for the owners of roughly 700,000 of its pickup trucks: it's going to need you to go ahead and return those as soon as you possibly can. The vehicles are now the subject of an extremely large recall related to their power steering systems, so unless you're a fan of losing control of car as you cruise around town, it's probably a good idea to get that fixed sooner rather than later. The defect, which is present in many 2014 Chevrolet Silverado and 2014 GMC Sierra pickups, can cause the trucks to lose their electric power steering for just a second, but that can be enough to cause some serious headaches when we're talking about a two ton hunk of metal.
