KUNA, IDAHO

QUARTERLY ISSUES/PROGRAM LIST

July 1, 2021 – September 30, 2021

COMPILED BY

Tammy Penley

DATE LIST PLACED IN LOCAL PUBLIC FILE:

Requirements: Section 73.3526(e)(12) of the FCC's rules require that every three months each commercial radio broadcast station prepare a listing of programs that have been provided by the station to address and treat the most significant community issues during the preceding three months period. The list for each calendar quarter is to be filed by the tenth (10th) day of the succeeding calendar quarter (*e.g.*, January 10 for the quarter October through December, April 10th for the quarter January through March, *etc.*).

Retention Requirements: The lists described in the paragraph shall be retained in the public files *until final action has been taken on the station's next license renewal application.*

I. Minority Groups

A. *Joy in Living*

A program designed to encourage and disciple ladies in the faith. Topical lessons and in-depth Bible studies are taught by mature women who love the lord. This fifteen-minute program airs at the following times:

Host:	Mrs. Mina Oglesby/Dr. Beka Horton
Saturday	2:30 a.m. -2:45 a.m.
Sunday	11:30 p.m. – 11:45 p.m.

B. *Joy in the Morning*

A hosted broadcast with inspirational music and timely comments to help families face each new day. *Joy in the Morning* airs at the following time:

Host:	Miss Rhonda Autrey
Monday-Friday	7:05 a.m.-9:00 a.m.

II. The Family

A. *Family Prayer Time*

A time set aside to encourage listeners to pray for various aspects of life each day. The host shares a thought and then leads the listeners in prayer about a particular subject. Many listeners are able to take a part through prayer and receive a blessing by developing a stronger prayer life. *Family Prayer Time* airs at the following time:

Host:	Dr. Dan Rushing
Monday-Friday	1:05 p.m.-1:15 p.m. 8:30 p.m.-8:40 p.m.

B. *Drive Time*

A hosted broadcast with delightful inspirational music and timely comments to help families as they return home in the evenings. *Drive Time* airs at the following time:

Host:	Mr. John Collier
Monday-Friday	4:00 p.m.-6:00 p.m.

C. *Adventures in Odyssey*

A children's program featuring stories illustrating Biblical principles. *Adventures in Odyssey* airs at the following time:

Monday - Friday	7:15 p.m. – 7:45 p.m.
Saturday	3:15 a.m. – 3:45 a.m. 9:00 a.m. – 9:30 a.m. 7:00 p.m. – 7:30 p.m.

D. Lamplighter Theater

This children’s program offers life-transforming character-building stories adapted from rare literary treasures that are founded on biblical truth.

Saturday

8:00 a.m. -8:30 a.m.

8:00 p.m. – 8:30 p.m.

F. Family Health Checkup

A daily one-minute radio program focused on sorting through the noise of the world’s advice, and provide valuable, upbeat insights on nutrition, fitness, seasonal health, safety, money-saving tips, kids’ health and much more from a Christian perspective!

Host

Doug Chamberlain

Monday-Friday

7:30 – 7:31 a.m.

4:15 – 4:16 p.m.

J. *Crosstalk*

A live one-hour national call-in program, *Crosstalk* covers the issues that affect our world, our nation, our families and the Christian church from a perspective centered in the Word of God. *Crosstalk* airs at the following time:

Monday-Friday

11:05 p.m. – 12:00 p.m.

Issues covered during this quarter:

Date	Issues	Speaker(s)	Description
7/1	John Lewis Voting Rights Advancement Act	Jim Schneider / Matt Staver	<p>Despite being defeated on HR1, S1 and S2093, the attempts by the federal government to take over elections yet another piece of legislation known as the John Lewis Voting Rights Advancement Act. According to Mat Staver from Liberty Counsel, the tenets of this legislation are actually worse than what Mat Staver is the founder & chairman of Liberty Counsel. Mat has over 300 published legal opinions and scholarly law review publications. He is host of <i>Faith & Freedom</i> and <i>Freedom's Call</i> and has argued twice before the U.S. Supreme Court.</p> <p>Before discussing the main topic, Jim had Mat comment on the following rulings that came down from the court this morning:</p> <ul style="list-style-type: none"> • In a case out of California, a 6-3 ruling protects the confidentiality of donors to charities. • A second 6-3 ruling dealt with voting rules that were established in the state of Arizona. <p>The John Lewis Voting Rights Advancement Act failed and now Democrats want it back. This is the Joe from West Virginia) compromise but it's anything but that. Mat believes it's actually worse than HR1/S1 allow the content of those bills to come to pass and more.</p> <p>This act provides for nationwide preclearance (prior approval). This prior approval would come from the State, Department of Justice. This means the DOJ would have complete control over every aspect of every election there's a voting rights division within the DOJ and it's dominated by pro-ACLU, pro-Southern Poverty Law Center, Raza and pro-Democrat policy individuals, do you think they can be trusted to provide an atmosphere of fairness for elections?</p> <p>There's much more to hear on this issue, as well as discussion concerning the pressure being put on Supreme Court Justice Stephen Breyer to resign. Hear it all, including feedback from listeners, when you review this edition of <i>Crosstalk</i>.</p>
7/2	News Roundup & Comment	Jim Schneider	<p>Here is a sample of the many stories Jim covered this week:</p> <p>–Regarding the Florida condo tower tragedy, President Biden pledged to have the federal government cover the rescue and cleanup operations for a limited time for the county and state.</p> <p>–On Tuesday, an anchor at CNN, along with President Biden's Secretary of Energy Jennifer Granholm, said</p>

			<p>change might be responsible for the tragic collapse of the condo unit in Florida.</p> <ul style="list-style-type: none"> -Trump CFO Allen Weisselberg pleaded not guilty to charges of fraud and tax crimes. -China's leader, Xi Jinping, has vowed to bash the heads of foreign bullies. -Law enforcement officials identified a foreign national in the U.S. on a student visa who attempted to leak carrying sensitive military intelligence. -President Biden sought to assure Israel that he would not tolerate a nuclear Iran as he met with outgoing Reuven Rivlin on Monday. -The World Health Organization is warning the progress we've made against COVID-19 is not enough due to the Delta variant. -The World Economic Forum is proposing psychological plans to help people overcome vaccine hesitancy. -A Pittsburgh man who died weeks after receiving his second dose of the Moderna COVID-19 vaccine appeared to have symptoms that met the criteria for a rare, serious blood clot disorder previously only reported in recipients of AstraZeneca vaccines. -A new study of U.S. service members found higher than expected rates of heart inflammation following COVID-19 vaccine. -South Dakota Governor Kristi Noem is blasting the Biden administration over its decision to ban 4th of July events at Mount Rushmore claiming this was political. -Gas prices at a 7 year high. -Former Secretary of Defense Donald Rumsfeld has died. -First Lady Jill Biden will be representing the U.S. at the Tokyo Olympics. -Hammer thrower, Gwen Berry, turned away from the U.S. flag during the national anthem at Olympic trials.
7/5	Thomas Jefferson: Accuracy vs. Revisionism	Jim Schneider / Dr. Catherine Millard	<p>Some communist goals were written into the Congressional Record on January 10th, 1963. Here are just a few:</p> <ul style="list-style-type: none"> • Get control of the schools. • Discredit the American Founding Fathers and present them as selfish aristocrats who had no regard for the common man. • Belittle all forms of American culture and discourage the teaching of American history and patriotism, which was only a minor part of the big picture. <p>This kind of revisionism is taking place today and one point of interest for those behind such efforts is for the sake of Thomas Jefferson. Jefferson was the 3rd president of the United States and author of the Declaration of Independence. Joining Jim to separate truth from fiction concerning Jefferson was Dr. Catherine Millard. Dr. Millard is the Executive Director of Heritage Ministries. She has a Doctor of Ministry degree in the area of Christian Education. She's the recipient of the Washington Honor Medal sponsored by the Freedoms Foundation at Valley Forge for excellence in patriotic education, achievement and the Faith and Freedom Religious Heritage of America Award for significant contribution to the church in strengthening the biblical principles in American life. She's the author of numerous books and has taught on the subject in college, universities and schools throughout the nation and abroad. She's author of <i>Thomas Jefferson: A Revisionist's Expose</i>.</p> <p>According to Dr. Millard, attacks against Thomas Jefferson have been going on since the 1930's when the revisionist movement began. Why does he receive so much attention in this regard? Dr. Millard believes it's because he wrote the Declaration of Independence as well as the Statute for Religious Freedom in Virginia, documents that were the first of their kind. Such documents provided our nation with its civil and religious liberties and it's his pen that stood up against the British for the first time in world history.</p> <p>What do we know about his early life? What impact did Christianity and religion have on his life and work? How did Jefferson view the separation of church and state? What do the Council on Foreign Relations and Karl Marx have to say about Jefferson?</p> <p>As Dr. Millard addresses these and other questions, you'll see how this information stacks up against the revisionist narrative. Crosstalk listeners were given an opportunity to present their questions and opinions as well.</p>
7/6/	Have We Been Given Over?	Jim Schneider	<p>We have just come through a very tumultuous time, not just in our nation, but our world. It's Pride Month, a time when people do that which is right in their own eyes. It began with a week, that was expanded to a week. Now it's a month, but in some places they're saying it's not enough.</p> <p>Beginning with Romans 1:18-32 as the context, Jim showed why it's possible that we've been given over. For example:</p> <ul style="list-style-type: none"> • Last month the Department of Education had a notice of interpretation that for the purposes of Title IX, the department will define sex as including declared sexual orientation and gender identity. • The U.S. Supreme Court announced that it won't consider the appeal of a ruling that a biologically female former student had a constitutional right to use restrooms at a Virginia high school. • While religious schools will continue to enjoy a religious exemption from the implementation of the regulations of Title IX, that too is being challenged. • A ruling to allow gender confused individuals to decide whether their child is male or female. • A presidential executive order on diversity, equity, inclusion and access in the federal workforce. It groups people not only according to racial background but also according to sex, sexual orientation and gender identity including lesbian, gay, bisexual, and transgender, queer, gender non-conforming and non-binary individuals. <p>This is just the information from the first quarter hour. There's much more that Jim and the listeners from across the nation contributed their thoughts as well.</p>
7/7	"Vaccine Hesitant" Targeted with Door-to-Door Campaign	Jim Schneider	<p>According to various news accounts, 48% of Americans are fully vaccinated, while the number of those who have received one shot stands at 64%. President Joe Biden wanted to see a 70% COVID-19 vaccination rate by July 4th. In response, yesterday afternoon the White House launched an outreach program to get remaining Americans vaccinated. They provided them the information needed regarding how safe and accessible the COVID-19 vaccine is.</p> <p>Part of this broadcast involved a pair of audio clips featuring Press Secretary Jen Psaki and President Biden. The focus was on the idea of the government implementing this targeted, community by community, door to door outreach program. The move away from mass vaccination sites to emphasizing ways to get the shots more conveniently and closer to home, places people are already familiar with, such as places of worship.</p>

			<p>Jim also reviewed FDA and CDC data from a recent press conference put on by Senator Ron Johnson of presenting up-to-date vaccine related information from other news sources. Crosstalk listeners joined the program to present their views as well. White House Comment Line 202-456-1111</p>
7/8	Unidentified	Jim Schneider . Rich Christiano	<p>The American public has had a fascination with unidentified flying objects (UFO's) for decades. More re concerning UFO's has greatly increased, with sightings going from joke to national security worry for ou Washington, D.C. For the Christian, this is a great opportunity for evangelism. You may ask, "What makes the subject of UFO's a great stepping stone for communication of the Gospel the answer was Rich Christiano. Rich is a film writer, director, producer and distributor. For decades, Ri in film production. He's the writer, director and producer of such films as <i>The Appointment</i>, <i>Time Chang</i>, <i>Jonathan Sperry</i>, <i>A Matter of Faith</i>, <i>Play the Flute</i> and the movie spotlighted here called, <i>Unidentified</i>. Rich began by giving listeners a brief testimony. This included some personal history of how he came to as well as his film-making philosophy. From there, Rich went on to describe what it was that compelled him, as a Christian, to address the issue the end, Rich sees <i>Unidentified</i> as the most evangelistic movie he's done. Jim proves the point as he play movie, with Rich offering commentary of the kind that only the producer himself could provide. Review this edition of Crosstalk and perhaps you'll discover that <i>Unidentified</i> is the unique tool you've b reach certain people that the Lord has put on your heart.</p>
7/9	News Roundup & Comment	Jim Schneider	<p>Here's your weekly sample from the list of stories Jim presented on this edition of Crosstalk: -Pfizer is about to seek U.S. authorization for a third dose of the COVID-19 shot saying that another shot could dramatically boost immunity. -Federal health authorities say that individuals who are fully vaccinated against COVID-19 do not need a time. -Executives for the Tokyo Olympics have now banned spectators from attending the event after a declare due to COVID-19 concerns. -The San Francisco Bay Zoo is inoculating its bears, cats and ferrets against COVID-19. -Of the 700 physicians responding to an internet survey by the Association of American Physicians and S said that they were not fully vaccinated against COVID-19. -The U.S. military is preparing to mandate COVID-19 vaccines for all personnel as soon as September 1 -Science does not support masks for children. -Anthony Fauci being honored by the American Humanists Association. -Michigan's top government oversight officials investigating the number of residents who died from CO homes as a result of a controversial public health policy mandated by Governor Gretchen Whitmer. -The Bill and Melinda Gates Foundation is planning to spend another 1.4 billion dollars over the next five families from having children. -Chemical abortions via the abortion pill are increasing rapidly in the U.S. -U.C. San Francisco is harvesting the genitals of aborted babies and other organs for research according t by pro-life advocates. -Haitian police say they have killed 4 suspects and detained two others late Wednesday amid an ongoing mercenaries involved in the assassination of their president. -2 U.S. missionaries were killed in Haiti when their small plane crashed. -President Biden says the U.S. military mission in Afghanistan will conclude August 31st.</p>
7/12	Microbiology Points to Creation	Jim Schneider / Dr. Kevin Anderson	<p>One of the mantras we hear in society today is "Follow the Science that you will hear a plethora of ideas that come forth on a wide va such as so-called man-made global climate change, responses to C COVID shot, and many others. Yet science is often denied when v politically correct topics such as gender and whether one is biolog female. In these cases it's "okay" to defy science. Another issue that is influenced is the matter of origins. There are advocate that one must be an evolutionist if they truly follow the s Of course our guest on the program, Dr. Kevin Anderson, takes ex this claim. He joined the program to go into detail about what scie is, how science fits in with creation, and how his expertise in micr supports creation. MidwestCreationFellowship.org CreationResearch.org</p>
7/13	Homosexual Agenda Exposed	Jim Schneider	<p>Last week on Crosstalk, Jim asked the question, "Have we been given over?" On the read from Romans 1, while also reviewing some of the events that had occurred dur Pride Month. Within 24 hours of the airing of that program, a disgusting video went viral from the Gay Men's Chorus. (According to the Western Journal, some members appear to be pedophiles.) Although alleging to be tongue-in-cheek, the video boasted that the LC would convert children of conservative parents and they are coming for them. The men's chorus received immediate backlash. As a result, the group removed the its channel. Then they released a statement attacking far-right conservative media lyrics to the song. As this broadcast moved along, Jim presented the following:</p> <ul style="list-style-type: none"> • Audio from 2018 when a self-proclaimed drag queen named Dylan Po concerning drag queen story hours. • Homosexual related news from Wisconsin. • 2 homosexual authors and their desire to see a conversion of the emo

			<p>will of the average American on the issue of homosexuality via a plan attack.</p> <ul style="list-style-type: none"> • How queer creators pushed the LGBT agenda in kids cartoons. • A gay activist group has convinced Hollywood to increase LGBT representation shows. • A reading from the Congressional Record in 1987 that includes a public gay revolutionary Michael Swift. <p>Listeners from across America presented their comments to round out this broadcast.</p>
7/14	TX Legislators Flee State/Biden Addresses "Voting Rights"	Jim Schneider / Rick Green	<p>On Monday, several dozen Texas Democrats fled the state. These legislators abandoned their responsibilities and left their constituents hanging without representation. It's reported that the majority of the members flew on private jets chartered for the occasion.</p> <p>Joining Jim to discuss this issue was Rick Green. Rick is an attorney, constitutional expert, a former Texas legislator and founder of the leadership group, Patriot Academy.</p> <p>Rick believes this is about stopping free, fair and accurate elections. He indicated this is nothing new for Texas. In 1870 to stop blacks from voting, they did it to keep the chaos going in the streets of Texas during Reconstruction. It has been known to hide out in a room of the capitol. They did it in 1970, 1981, 1991 and 2003. For Rick, the problem is when they don't have the votes to win the day, instead of going back to the people of Texas and offering a fair campaign and winning more votes and members of the legislature, they shut down the republic and prevent legislation from being passed for the people. In this case the legislation (House Bill 3/Senate Bill 1) makes it easier to vote and yet Democrats are against it.</p> <p>Rick commented on numerous aspects of this topic such as the specifics of the legislation, the reality of politics and more. He also responded to audio clips from Texas Representative Rhetta Bowers, Chuck Schumer and others. Listeners brought their input to the discussion as well.</p>
7/15	Doses to Doors	Jim Schneider / Mat Staver	<p>Mat Staver is the founder & chairman of Liberty Counsel. Mat has over 300 published legal opinions and numerous scholarly law review publications. He's the host of <i>Faith & Freedom</i> and <i>Freedom's Call</i> and has argued cases before the U.S. Supreme Court.</p> <p>Last week Crosstalk reported on statements made by White House Press Secretary Jen Psaki as well as the Biden administration. These statements announced a door-to-door campaign promoting the COVID-19 shots. Since that time, many states and counties have been activated and executing the program. This includes taking the shots directly to residents' homes. Doses to Doors.</p> <p>There has been push-back with some believing this isn't the government's business, yet the Health and Human Services Secretary, Xavier Becerra, says that it's absolutely the government's business.</p> <p>Mat questions the Doses to Doors program, comparing it to the Swine Flu epidemic of the 1970's under President Carter. That effort ended up being a fast-track failed experiment because of adverse reactions and 53 deaths.</p> <p>Mat presented more statistics to make his case, there's audio from Anthony Fauci on the issue of COVID-19. Mat's insights into the door-to-door visits, why he feels there's a larger agenda at work here, and input from listeners.</p>
7/16	News Roundup & Comment	Jim Schneider	<p>Here's a glimpse at some of the stories Jim brought to the attention of Crosstalk listeners this week:</p> <ul style="list-style-type: none"> -Thousands of Cubans have taken part in rare protests against the communist government. -Cuban police are allegedly beefing up patrols at the behest of the Cuban president who has made clear his support for democracy movements with force. -The Biden administration says Cuban refugees will not be allowed into the U.S. -Texas Democrats, who were determined to avoid having to sit in the legislative chamber while Republican reform, are being partially funded by Willie Nelson and former Democrat representative Beto O'Rourke. -Mat Staver of Liberty Counsel reports that Amazon, Google, Microsoft and Nestle are among the 166 companies that have signed onto a letter urging Congress to pass the John Lewis Voting Rights Act. -Google hit with fines from both Germany and France this week totaling nearly 600 million dollars. -White House Press Secretary Jen Psaki explained how the White House and federal government are working to address Facebook which they see as being problematic. -Multiple parents have filed lawsuits against Washington, D.C., for allowing children to receive vaccines without parental knowledge or consent. -Ohio Governor Mike DeWine signed a bill that will prevent public schools and universities from mandating COVID-19 vaccines for students and staff until they receive full approval from federal officials. -The Food and Drug Administration is adding a new warning for Americans who get the Johnson & Johnson COVID-19 vaccine based upon reports of a rare nerve disease. -Statistics out of Israel indicate that the immune response of those individuals who've recovered from COVID-19 is approximately 6.72 times greater than those who accept the experimental, COVID-19, gene therapy injection. -Senator Rand Paul of Kentucky introduced legislation to repeal the current mask mandate on America's schools. -Dr. Anthony Fauci believes children as young as 3 years old should be wearing masks. -Communist Chinese authorities are now mandating COVID-19 shots. -Multiple nations have enacted strict COVID-19 vaccine mandates including France, Australia, Greece, India, and others.
7/19	Divided Nation	Jim Schneider / Ken Ham	<p>Today we are seeing great divisions in politics where bills are often the result of great party line splits. There are also provocateurs that are causing great turmoil based upon the idea of skin color. Neighbors are rising up against each other. There's a great divide within our educational institutions and also the church.</p> <p>Why is this happening to the culture and the church? As believers in Christ, how can we become engaged in the culture, erasing the division?</p> <p>Tackling this critical issue was Ken Ham. Ken is the president, CEO and founder of Answers in Genesis, a nationally-acclaimed Creation Museum, and the world-renowned Ark Encounter. Ken is one of the most in-demand speakers in North America and is author of numerous works including his latest book, <i>Divided Nation: Cultures in Conflict</i>.</p> <p>For years Ken, along with researchers like George Barna, have been communicating that we've been losing our younger generations from the church. Ken in particular has been warning the church that if they don't stand on God's Word, the next generations how to defend the Christian faith against the attacks of today, and that Genesis is the foundation of our faith. Concerning marriage, gender, etc., we will continue to lose younger generations. Absent the teachings of the Bible, the world will become increasingly secularized. That will result in more antagonism toward Christianity.</p> <p>Ken believes the church has become reliant upon entertainment and a feelings based approach to keeping people interested. Music in particular has become the centerpiece, God's Word has been watered down and we're losing our younger generations from the church. So overall, Ken blames the church for the current problems we're seeing in our culture. So how does he believe we are to handle issues like gender or gay marriage? Many people believe those are the symptoms when actually they're symptoms of a larger problem. It's the idea that people no longer build their thinking on God's Word, instead look to man's word.</p>

			<p>When did this exodus from the truth begin? Are people hungry for the truth? How many generations does this culture? Are non-Christians really worldview-neutral or does the Bible say otherwise? These and other questions as Ken digs deep to reveal why America is so divided today</p>
7/20	Sports Wokeness and One-World Government	Jim Schneider / Dr. Duke Pesta	<p>The sports world is being assaulted by wokeness. While many use sports as an opportunity to get away from the pressures of the day, spectators are being bombarded with social justice messaging and virtue signaling. It appears to be fed up and the ratings prove it. Even the upcoming Olympics are being affected. While social media is forbidden, athletes are being promised legal support by a global union if they do protest.</p> <p>Dr. Duke Pesta believes that not only is such wokeness ruining professional sports, its dangers go beyond that. It is being used to fulfill a globalist ideology and the erasure of national borders. Dr. Pesta is academic director of the American Academy, host of the Dr. Duke Show, a tenured professor of English at the University of Wisconsin-Oshkosh, a contributing journalist and writer for various publications. He's one of the nation's foremost authorities on education, Common Core and the federal takeover of education.</p> <p>How did we get to this point so fast? Dr. Pesta communicated that the problem is education. For 3 generations we've miseducated children through what he sees as the biggest scam in America today: public education. At the same time, spending more on education than ever before, yet the literacy rate is poor. He noted that as a college English major, freshmen students have about a 7th grade reading level.</p> <p>Instead what's happening is that students are being given various ideological and political positions. This is leading to a divide between students and their parents; Christianity, independence, freedom and liberty are being castigated, and lies about the history of America.</p> <p>The result is that 3 generations of this teaching has finally caught up with us which means the generation born in the 35-40s sees the world in a very different way.</p> <p>So how does this affect sports? As the program moved along, Dr. Pesta looked at the following:</p> <ul style="list-style-type: none"> • Since sports in America is minority dominated, it's tying itself to causes like Black Lives Matter and a business model. • The men's and women's national soccer teams and the tie-in to critical race theory. • How American sports is becoming part of the larger globalist agenda as it concerns issues like gender equality and COVID-19. <p>Crosstalk listeners offer their views as well.</p>
7/21	Socialism: Lessons from Cuba	Jim Schneider / William J. Federer	<p>William Federer is a nationally known speaker, historian, author, and president of Amerisearch, Inc, a public history company dedicated to researching America's noble heritage. He's the speaker on <i>The American Minute</i> daily broadcast and numerous books including, <i>America's God and Country Encyclopedia of Quotations</i>, <i>Who is the King in the North</i>, <i>America?</i> and <i>Socialism: The Real History From Plato to the Present</i> in which he analyzes how the Deep State uses crises to consolidate control.</p> <p>Cuba was once quite prosperous. It was a Spanish possession. We had done away with slavery in America. Eventually Cuba went from prosperous to corrupt. Then came Fidel Castro who claimed he was going to liberate Cuba (Same slogan used by President Obama.) as he gathered support against the corrupt Batista. Raphael Cruz, told William that as Castro was organizing these young people, he warned them of communist infiltration. Castro was initiating psychological projection where you look everywhere else except at the one who's guilty. Castro was the communist!</p> <p>So whether it's proletariat vs. the bourgeoisie (working class vs. business owners), whether it's blacks against Christians, Catholics against Protestants or Hutus against the Tutsis; you break the nation down into winners, losers, victims and oppressors, orchestrate protests and riots to destabilize the country, and then in the panic, promising to fix the problem when in fact, all you're doing is setting up a dictatorship.</p> <p>Whenever you have a dictator or king you have a pyramid structure. The leader is at the top. Moving down is the deep-state ruling class that enforces the will of the dictator while everyone at the bottom is equal because they're all oppressed. This concept goes all the way back to Plato.</p> <p>According to William, what we're seeing now is the people of Cuba saying that they've had enough and want to leave. Why is Black Lives Matter blaming the U.S. for the problems in Cuba? Why has President Biden opened the border with Mexico and is lifting sanctions on the export of gas to Venezuela yet threatening Cubans about the lessons should we draw from Cuba? These are just a few of the questions William tackles on this edition.</p>
7/22	Cashless Society, Forced Vax & Big Tech Censorship	Jim Schneider / Gary Kah	<p>We seem to be on the cusp of greater government control as we see a multi-pronged effort advancing us into a cashless society. What's behind this and what's propelling it?</p> <p>Joining Jim to discuss this was Gary Kah. Gary is the founder and director of Hope For the World. Gary is a Middle East Trade Specialist for the Indiana State Government.</p> <p>We're being told that cash is "dirty" due to COVID concerns and we must move on. Gary believes the push for cashless is coming down from the World Health Organization (WHO). Since March of 2020, the WHO has been pushing for a contact-less point of sales. He communicated that if you were trying to force this agenda on the world, the WHO would be in the name of public health.</p> <p>The central banks of the world have been preparing for a switch-over. He believes they've been ready for this for years and that the coming global currency system will make use of digital technology and may take the form of a new monetary unit. What he's not sure of is whether initially this emerging economic system will still utilize physical currencies and give them differing values while still being electronic or will there be one currency for the world. The international banks have already been using a common currency to settle some accounts. This is known as the Special Drawing Rights or SDR.</p> <p>Why would people embrace a new worldwide currency system, especially one that's cashless, if they don't see the need for it? If the current system is working fine there's no reason to change. So Gary believes that part of the strategy of the World Economic Forum and their allies, involves invoking a scenario that will most easily cause people to accept a new system means the current economic system has to be collapsed or there needs to be such a major threat of collapse that people claim something has to be done.</p> <p>As Gary continued he looked at the following:</p> <ul style="list-style-type: none"> • The newly tested digital currency of China. • Are the pandemic and the vaccines the pathway to a mandatory digital I.D. that will be required to buy and sell? • The government's censorship rooted in their view that any narrative other than theirs is misinformation.

			Listeners from around the nation provided input to round out the broadcast.
7/23	News Roundup & Comment	Jim Schneider	<p>COVID-19 and the related vaccines highlighted this week's broadcast. Here's a sample of stories that we</p> <p>-Jim presented audio of a very intense Senate hearing exchange between Senator Rand Paul and Dr. Anthony Fauci regarding the issue of gain of function research.</p> <p>-President Biden claims that the unvaccinated are killing others.</p> <p>-A lawsuit has been filed in U.S. District Court for the Middle District of Florida alleging that Facebook and Twitter have pressured the White House to censor opinions that they find problematic, especially when it comes to the COVID-19 pandemic.</p> <p>-Amy Klobuchar has introduced new legislation to hold social media platforms accountable for health related issues during public health emergencies.</p> <p>-The President himself gave out misinformation at a town hall event on July 21st. He stated that you can't get COVID-19 if you've been vaccinated.</p> <p>-Jim presented a compilation of audio clips of President Biden and VP Kamala Harris showing how they have contributed to the originated vaccine hesitancy.</p> <p>-A physicians group believes the home vaccine visits to encourage people to get the vaccines are unconstitutional.</p> <p>-The inventor of MRNA technology behind at least two of the vaccines expressed grave concern regarding the safety of the most vaccinated nations in the world are experiencing surges in COVID-19 cases while the least vaccinated nations are not.</p> <p>-L.A. County Sheriff says his department will not be enforcing the county's indoor mask mandate which was implemented a week after a surge in COVID-19 cases.</p> <p>-The American Academy of Pediatrics recommended that all children over the age of 2 should be wearing masks when they go back to school regardless of vaccination status.</p> <p>-Fed up New York parents are demanding no masks in the classroom when school reopens, calling the current mask mandate and detrimental to learning.</p> <p>-America's Frontline Doctors filed a motion July 19th seeking immediate injunctive relief to stop the emergency use authorization of COVID-19 vaccines for 3 groups of Americans.</p> <p>-Pfizer, the only company with an improved COVID-19 shot for people ages 12-17 in the U.S., announced that they have requested emergency use authorization to vaccinate children under 12.</p> <p>-A father of 3 young children has been denied a kidney transplant by UMass Memorial Health Center until he has received COVID-19 shots before the surgery.</p> <p>-Beto O'Rourke raises money for Democrats who fled from their responsibilities on the House floor in Texas.</p>
7/26	A Nation in Crises: What Do We Do?	Jim Schneider / Paul Benjamin, Sr.	<p>Our nation is going through many serious challenges. Crime and violence are out of control. Cities are falling apart. There are those fanning the flames of hatred between people of different shades of skin color. Drug overdoses are off the charts. Suicides are skyrocketing. Law enforcement is being tainted as being racist, corrupt, and out of control. Morals have been thrown out the window. The family unit is just a shadow of what it once was and is taking a backseat to the demands of the culture. We are told the solution lies with teaching critical race theory, reparations, decriminalizing certain acts or behaviors, and establishing universal basic income standards.</p> <p>When did all of this start? Why are 80% of black babies born to single moms? Why are black males arrested at a rate 3 times that of white males? Why are many young black men angry and rebellious towards male authority and police officers? Why are we fanning the flames of division? What should the church be doing? What is the solution? Is it too late?</p> <p>Paul Benjamin, Sr., joined the program to address these issues and bring to light the answers to these questions. His new book titled "<i>No Child Without a Dad</i>."</p>
7/27	Infrastructure Bill Would Collapse Freedom	Jim Schneider / Tom DeWeese	<p>Tom DeWeese is the president of American Policy Center. Tom is one of the nation's leading advocates for free enterprise, private property rights, personal privacy, back-to-basics education and American sovereignty and protecting our Constitutionally-guaranteed rights. He's the author of <i>Sustainable: The War on Free Enterprise</i>, <i>Property and Individuals</i> and <i>Erase</i> a political novel.</p> <p>As Congress gets ready for their August recess, there's an all-out effort being made to pass the so-called infrastructure legislation before the break. This is a budget resolution that hasn't been fully drafted and legislators are being pressured to pass it. It's a bill that Senator Lindsey Graham called a "power grab" and also believes it will "...lead to the breakdown of the social order beyond what you see today." Others warn that it will absorb suburbs into cities.</p> <p>Jim sees this as something that will help collapse the infrastructure of the freedoms of America. Tom said, "The bill is creating is an infrastructure for a new top-down control." Part of the problem is the aspects of "human infrastructure" that we talk about adding amnesty, the Green New Deal, federally controlled universal pre-school, taxpayer subsidized housing, community college and low income housing.</p> <p>What's the "bait" in all of this? It's known as free money for states. However, with that money comes federal control. Tom noted, one of the main targets of this restructure plan is private property rights. For example, the zoning laws for single family homes has been a target. Oregon was the first state to pass legislation to eliminate such zoning provisions. Minneapolis called zoning for single family homes racist.</p> <p>Another factor in all of this is what Tom described as environmental racism. This has to do with the idea that poor neighborhoods are often in areas where there are factories and industry and some feel it's not fair for people to live there.</p> <p>On this broadcast you'll learn:</p> <ul style="list-style-type: none"> • What is "The Temple of Understanding" and who's behind it? • What is the adult education curriculum that is being produced by the National Council on Adult Education? • How did listeners respond? <p>Get the answers you need when you review this edition of Crosstalk.</p>
7/28	Border Crisis Report	Jim Schneider / Mark Kirkorian	<p>Director of Center for Immigration Studies. They are an independent, non-partisan research organization that is critically critiquing the impact of immigration on the United States. He's testified numerous times before Congress and published articles in many outlets.</p> <p>So what are the current numbers concerning those crossing the border illegally as opposed to how many have been returned? According to Mark, since President Biden was inaugurated, we've had between 150,000 to 200,000 immigrants arrested at the border. Some of them have been arrested several times.</p> <p>The adult males were turned around and sent home. Then there are those who are released into the U.S. and then the adults who bring children with them. These minors (most of them teenagers) had their parents with them when they were smuggled to the border. At that point they cross on their own and therefore are listed as unaccompanied minors. Mark said they're not really sure, but the number of those formally released into the U.S. stands at around 100,000 this year. Most will not get asylum and will simply become illegal aliens.</p> <p>There was a report this week that about 50,000 individuals were released by the Biden administration without receiving a court date. They were released with a piece of paper asking them to turn themselves in to Immigration and Customs Enforcement (I.C.E.) when they'd get to their destination. Mark indicated that around 85% of those released have become so crazy that this administration was actually hoping that the numbers would</p>

			<p>temperatures went up. Instead, the numbers went up in June so there's no reason to think that the J lower.</p> <p>Believe it or not, it gets worse. After an illegal alien obtains their notice-to- appear, if they don't show up, they're ordered that they be deported. However, if they're found, they don't need to go back to court. They're in the ICE system and that they've been deported. The problem is that if they aren't given a court date, and they don't show up, ICE has to find them (Mark says they're not even allowed to look for them now) and give them a court date. Then when they don't show up, ICE has to find them again to throw them out!</p> <p>This is just a small portion of an information-packed broadcast that will get you up to speed on this week's news, more, including what listeners had to say, when you review this edition of Crosstalk.</p>
7/29	COVID, the Variant, and the Jab	Jim Schneider / Dr. Jane Orient	<p>The rhetoric and political statements pertaining to COVID and the COVID shot are heightening and being directed around the world. Just a week ago we aired an audio clip of Chris Hipkins, the Minister of Health in New Zealand, who spoke of chasing people down by the end of the year to get the jab. The President of the Philippines is now saying that Filipinos who've refused to get vaccinated should not be allowed to enter the country. The police should escort those back home who try to leave. He said people who are without the jab are the spreaders. Here at home, President Biden just stated that we have a pandemic because of the unvaccinated. They're sowing enormous confusion. Also speaking on MSNBC, New York City Mayor Bill de Blasio said the voluntary phase is over." All this while mask mandates are being re-instituted around the country.</p> <p>Appearing on Crosstalk to bring her perspective on this issue was Dr. Jane Orient. Dr. Orient is a pediatrician and executive director of the Association of American Physicians and Surgeons, a non-partisan professional organization of physicians in all types of practices and specialties across the country. They are dedicated to the high standards of the Oath of Hippocrates and to preserving the sanctity of the patient-physician relationship and the integrity of the medical profession. She obtained her undergraduate degrees in chemistry and mathematics from the University of Arizona and her M.D. from Columbia University College of Physicians and Surgeons. She completed her pediatric medicine residency at Parkland Memorial Hospital and University of Arizona Affiliated Hospitals and was an Instructor at the University of Arizona College of Medicine and a staff physician at the Tucson Veterans Affairs Medical Center Hospital. She's been in solo private practice since 1981. In addition to AAPS, she is managing editor of <i>Disaster Preparedness</i> and managing editor of the <i>Journal of American Physicians and Surgeons</i>.</p> <p>Dr. Orient began by noting that we didn't have variants before we began vaccinating. So she wondered if we were acting like antibiotics and selecting out new strains that are less susceptible to the antibiotic or in this case, the vaccine. What about those contracting COVID who've been vaccinated? Jim mentioned a Daily Mail report that unvaccinated individuals in Britain make up almost half of the COVID cases in that nation. Dr. Orient said that's the opposite in the mainstream media, but if you look outside America, it looks as though those who are unvaccinated hit just as hard.</p> <p>Jim then played an audio clip from President Biden where he said, "...but if you're not vaccinated, you're not as smart as I thought you were." He went on to say, "We have a pandemic because the unvaccinated, they're sowing enormous confusion."</p> <p>Dr. Orient then asked why, with half the nation vaccinated, we supposedly have more COVID cases than we do. "breakthrough" cases and in addition, 30 million Americans have recovered from COVID. They have developed immunity, antibodies and T-cells. She also communicated that there are studies showing that if you're not vaccinated you're no more likely to get infected than if you've received a vaccine.</p> <p>How does Dr. Orient feel about hydroxychloroquine and ivermectin? Should there be a concern over the safety of people who've received one of the vaccines? What about vaccination passports and identifiers for those who are not to receive the vaccines? These are just a few of the questions you'll get answers to when you review this edition of Crosstalk.</p>
7/30	News Roundup & Comment	Jim Schneider	<p>Here's a brief list of headlines from the "Round-Up" broadcast for this week. Review the program for more details as well as comments from listeners.</p> <ul style="list-style-type: none"> -Speaking from the White House yesterday afternoon, President Biden announced the new COVID testing requirements for all federal employees. -States and cities are being asked to use federal rescue funds to provide \$100 payments to individuals as well as those vaccinated against COVID-19. -Jim provided audio from the Deputy White House Press Secretary who was asked if the nation is going to get the jab. -The mayor of one Philippine city issued a new executive order that bans those who have not received a COVID-19 jab from supermarkets, department stores and convenience stores effective August 25. -Anti-vaccine passport protests erupt across Europe. -A union that endorsed Biden in the last election is furious about his vaccine mandate. -3 House Republicans filed a lawsuit against Speaker Nancy Pelosi after she enforced the mask mandate. -The Super Bowl champion Tampa Bay Buccaneers opened their training camp with a new protocol designed to protect players who have yet to receive the COVID-19 vaccine. -Former Secretary of State Mike Pompeo is escalating his attacks on Dr. Anthony Fauci. -The founder of "Shake Shack" said that his Union Square Hospitality Group will require indoor diners at its restaurants to show that they've been vaccinated against COVID-19. -Americans with long COVID symptoms might qualify for disability benefits. -Jim provided audio from a Maryland pastor who is using the COVID-19 shot as a metaphor for the Holy Spirit. -Illinois Governor J.B. Pritzker signed a bill making them the second state to repeal HIV criminalization laws. -The Republican head of the Wisconsin Assembly Elections Committee said Monday that she will ensure a comprehensive forensic examination of ballots cast in the 2020 presidential election at the same time the state's election audit bureau conducts a review. -Auditors in Arizona's largest county on Wednesday finished a third count of ballots and will shift to counting ballots on the audit results.
8/2	How to Respond When Our Faith Is Challenged?	Jim Schneider / Carl Kerby	<p>There are many challenges to our faith today, and these challenges are only intensifying. How do we maintain our faith in these times? How do we live out our faith when our faith is being tested and targeted constantly?</p> <p>Carl Kerby, the President and Founder of <i>Reasons for Hope</i>, joined Crosstalk to share how we can "stay by our faith" in adversity.</p> <p>Carl was peppered with several questions: What is the greatest challenge facing teens today? Do adults face the same challenges? What can we do if our faith is being attacked from within the church? How can we encourage others to stay in this fight?</p>
8/3	Nationwide Push for COVID Shot	Jim Schneider / Barbara Loe	<p>Materializing before our very eyes is a nationwide push for individuals to receive the Covid jab. It's being pushed by a number of corporations, educational institutions, and even the government.</p> <p>As a matter of fact, last Thursday President Biden said he would like to see states, companies and schools</p>

		Fisher	<p>just hours ago today, the New York City Mayor, Bill de Blasio, announced that New York City residents required to show proof of vaccination for indoor dining, gyms and shows. He is calling this vaccine passport "Pass." It is being launched August 16th and will be enforced starting September 13th.</p> <p>Why is there such a push for this shot when health officials in Los Angeles County said over 25% of new those who have been fully vaccinated? And last Friday, CNBC reported a study from the CDC that shows infected in a Massachusetts Covid outbreak were fully vaccinated. What's going on?</p> <p>Barbara Loe Fisher, President of the National Vaccine Information Center, joined Crosstalk to passionately nationwide push for the shot. She addressed several points, such as:</p> <ul style="list-style-type: none"> • One-sided reports from mainstream media • What we can know about adverse reactions since VAERS is not keeping the numbers up • "Follow the science..." – What is science telling us? • New York City leading the charge to institute a vaccine passport for multiple venues • What happened to HIPPA?
8/04	The Threat of Communist China	Jim Schneider / Alex Newman	<p>There is much we are dealing with as a nation. We are swiftly becoming a totalitarian state with lockdown imminent shot mandates. Corporate America and educational establishments, backed by the Biden Administration, succumbing to these mandates.</p> <p>It is currently being suggested that parents wear masks in their own homes around their children. Using the example of Francis, the Catholic Archdiocese of New York has now instructed its priests to refuse signing religious certificates submitted by Catholics who object to taking the COVID-19 jabs.</p> <p>While that issue continues to unfold, so do issues at our border. During July, the Department of Homeland Security reported 210,000 encounters with illegal aliens at our southern border. This represents the highest monthly figure in history. Of those, more than 19,000 were unaccompanied minors, which is also a record number.</p> <p>Meanwhile the LGBT agenda is being pushed down the throats of Americans on so many fronts. Even <i>Mad Men</i> towards very young children, features Gonzo as a crossdresser. The attacks on Biblical morality and Biblical history are of a gigantic proportion.</p> <p>There is quite an avalanche of issues, but while all of this is happening on our homefront, there is another issue which is not getting coverage that you need to know about. That is the threat of Communist China.</p> <p>A frequent guest on Crosstalk, Alex Newman began by defining communism and the connection between communism and socialism. He then answered several questions on the topic of China in regards to military, ports, chips, cyberspace, monetary system, education and health.</p>
8/5	COVID-19 Shot Mandates	Jim Schneider / Mat Staver	<p>During July of this year, the legal counsel for the U.S. Department of Justice issued their opinion: public employees must receive a vaccine mandate for their employees even if the vaccines are only authorized for emergency use. Soon thereafter the Department of Veterans Affairs announced they would require many of their government workers to get the shot. We learned that the Department of Defense will be ordering active duty troops to receive the shot. Also during the week, Judge issued his opinion that students at Indiana University will have to comply with the school's Covid-19 vaccine mandate. Now corporations, hospitals and medical groups across the country are issuing mandates or else employees will lose their jobs elsewhere. On top of this, there are institutions that are refusing to do business with those who have not received the shot. Is this legal? What do you do if you receive such a mandate?</p> <p>Constitutional Attorney Mat Staver joined Crosstalk to illuminate this topic and provide concrete courses of action for those affected by these mandates. Mat stated plainly that, yes, it is illegal to mandate the Covid "vaccine." He provided several websites listed below.</p> <p>Listen for more details, share the program. and PRAY!</p> <p>LC.org LC.org/vaccine WalkOutWednesday.net MyFreeDoctor.com</p>
8/6	News Roundup & Comment	Jim Schneider	<p>We could do a News Roundup every day and we still could not keep up with all of the news out there! Here are some headlines from today's program:</p> <ul style="list-style-type: none"> • CDC discusses confinement, internment camps for those at high risk of China virus • CNN fires three unvaccinated employees • HCQ doctor sues CNN, Anderson Cooper for \$100 million • Former Pfizer VP warns childbearing-age women: Do not accept these vaccines • Renowned German pathologist urges more autopsies of vaccinated people due to high number of deaths • Things to know about Senate's \$1.1 trillion infrastructure bill • Democrats advance plot to allow illegal aliens to work in the U.S. Congress • Biden wants to cut funding for border security assets and infrastructure by 96% • Thousands of Covid-positive migrants have inundated just 1 Texas city • Kamala Harris: We can't secure the border until we transform central America into a police state • Omar proposes support act to send monthly checks to Americans • Biden announces executive order designed to make gas vehicles a relic of the past • Study: Democrats' capital gains tax hike could cost more than 745,000 jobs • Bacon may disappear in California as pig welfare rules take effect • Biden, Pelosi and Schumer all call for New York Governor Andrew Cuomo to resign • Apple to scan U.S. iPhones for images of child sexual abuse

			<ul style="list-style-type: none"> • China has stolen enough data to compile a dossier on every American • American Medical Association calls for sex to be removed from birth certificates • Government calls for national list of homeschooled children <p>“Prayer is the key,” stated several times on today’s Crosstalk.</p>
8/09	What God Cannot Do	Jim Schneider / Mike Gendron	<p>God is able to do exceeding abundantly above all that we could ever ask or think. He’s omnipotent and the guest on this edition of Crosstalk says there are things God cannot do. In fact, he rejoices in those things. Although this may seem like a contradiction, Mike Gendron uses Scripture to show why it’s not. He’s the author of <i>Proclaiming the Gospel Ministry</i>. Mike was a devout Roman Catholic for over 3 decades and was taught the authority of the church above all else. He searched the Scriptures and was amazed to find that what he read contradicted the teaching and tradition of the church he had been a part of for so long. He trusted Jesus as the Bible has become his sole authority in all matters of faith. Mike is the author of the books, <i>Preparing for Eternity</i> and <i>Contending for the Gospel</i> and has produced numerous videos with warnings concerning false truth of the Scriptures.</p> <p>Mike doesn’t deny the omnipotence of God. In fact, he describes God as incomprehensible. More specifically, God is all-knowing, all-wise, all-powerful, sovereign over all His creation, omnipresent and transcendent. That, there are some things He cannot do.</p> <p>The reason why there are some things God cannot do is because He cannot violate His holy character/nature consistent with who He is and all that He’s revealed in His Word. He’s absolutely incapable of unrighteous or unjust acts.</p> <p>The fact that God will never go against His Holy character should give us great confidence. Want to know more? Listen to the broadcast and you’ll hear Mike explain from Scripture how God cannot:</p> <ul style="list-style-type: none"> • stop existing • lie • change/learn/forget anything • break His promises • allow sin to go unpunished • condemn those He has justified
8/11	COVID Update: Shots, Masks, Etc.	Jim Schneider / Twila Brase	<p>Twila Brase is the president and co-founder of Citizens’ Council for Health Freedom. Twila is a registered public health nurse, and author of <i>Big Brother in the Exam Room: The Dangerous Truth About Electronic Surveillance</i>. She’s the speaker on the daily <i>Health Freedom Minute</i> heard on stations across the nation. School board meetings, city council meetings and state legislative bodies are seeing citizens making their voices heard. The result of a nation in turmoil as the battle over whether or not to mandate COVID masks and vaccines is being fought. This topic is multi-faceted and it takes an expert to help sort through it all. Twila did just that and here’s what she covered:</p> <ul style="list-style-type: none"> • An executive order in Tennessee issued by the Republican governor that contains 21 points of greatest concern deals with temporary quarantine and isolation facilities. • How is the Delta variant affecting death rates? Is it as terrible as we’ve been led to believe? • What are we to make of the statistics concerning deaths from COVID and adverse reactions? • Why are we having a surge during summer when Vitamin D exposure is at its highest? • What about students, employees and military members who are concerned about having to get vaccinated? • A Norman, Oklahoma, school board member claims that students could commit murder. <p>Crosstalk listeners cap off this very informative broadcast with their comments.</p>
8/12	Cyber Symposium	Jim Schneider / Brandon House	<p>Brannon Howe is the president of WWV Broadcast Network and Host of Worldview Weekend Radio and Weekend Hour Television Program. He’s an avid researcher, author of several books including <i>Marxism in America</i>, <i>Reich</i>, <i>Twisted Scripture Twisted Theology</i>, <i>Grave Influence</i> and numerous others. He is producer of the documentaries, <i>Siege</i> and <i>Sabatoge</i>.</p> <p>Brannon joined Jim while providing technical services as a production company for Mike Lindell’s cyber security. The Military Alliance Center in Sioux Falls, South Dakota. Mike has been using the symposium to release evidence of voter fraud that he, along with a team of forensic experts, have amassed since the November 2020 election. On Tuesday morning when the event began, Brannon began getting “404” errors. This indicated that the website was contracted with for content delivery was under attack. That feed was shut down and they moved to another host “on the fly” with a backup company. Then they flipped back to the company who they have a long-term contract with and they were hit again. In fact, as he was on the air before Crosstalk, he was notified that they were under attack they’ve seen in the 3 days of the symposium.</p> <p>Much was covered on this edition of Crosstalk, but two other highlights mentioned include a nearly 23 minute video featuring retired U.S. Army Colonel Phil Waldron called, <i>Your Wakeup Call</i>. It shows the connection between the U.S. and China. This can be downloaded at frankspeech.com.</p> <p>The second highlight deals with a “whistle-blower” that came in from Colorado. She’s a county clerk who was on the symposium on a private plane. While enroute, the secretary of state along with a district attorney raided her home something with the computer system.</p> <p>If the idea of a stolen election is just “science fiction” or “buffoonery”, then what’s the point in conducting an office raid? Is this actually designed to prevent the information from getting to the public or to discredit the information much more to help you answer that question, while Crosstalk listeners brought their views to the discussion.</p>
8/13	News Roundup	Jim Schneider	<p>Here’s a sample of stories from the Crosstalk news desk that made the cut for this edition of the “Roundup”:</p> <ul style="list-style-type: none"> –Jim reported on the Democrats 3.5 trillion dollar package of climate and social initiatives. –Rashida Tlaib introduced a 40 billion dollar Maintaining Access to Essential Services Act which would require utilities to cease shut-offs, restore services and cancel utility, power, broadband and water debt by providing loans that they wouldn’t have to repay. –The U.S. Department of Education gave another pause in the repayment on student loan payments until the end of the year. –A new Fox poll showed that more Democrats are favoring socialism over capitalism. –Mat Staver from Liberty Counsel reports that when the vote was taking place for the 3.5 trillion dollar bill, on Eastern Time on Wednesday, Chuck Schumer attempted to slip the so-called “For the People Act” to the floor for debate.

			<p>–Scientists want people fitted with euthanasia chip that kills you at the first sign of dementia.</p> <p>–The CDC is urging all pregnant women to get the COVID-19 vaccine.</p> <p>–Controversial comments from Bill Gates concerning saving lives/reducing the population.</p> <p>–Vaccines appear to be ineffective against the COVID Lambda variant.</p> <p>–Transportation Secretary Pete Buttigieg on Tuesday announced that all active duty military members are received a COVID vaccine by September 15th.</p> <p>–U.S. military service members will be allowed to seek an exemption from the soon-to-be mandated COVID shot.</p> <p>–California Governor Gavin Newsome announced that teachers and other school staff will be required to get a COVID shot.</p> <p>–Some employers are beginning to tack on a \$20-\$50 monthly surcharge to their unvaccinated workers.</p> <p>–Amazon is requiring employees to wear masks.</p> <p>–Senator Rand Paul has been temporarily “sidelined” by YouTube.</p>
8/16	Critical Issues Impacting the Nation	Jim Schneider / Congressman Glenn Grothman	<p>Jim began this edition of Crosstalk with news that prophecy scholar Dr. Jimmy DeYoung, who spoke at VCY courses are available online in our VCY Bible Institute (vcybible.org), passed away this weekend.</p> <p>Joining Jim in the studio was Congressman Glenn Grothman. He represents Wisconsin’s 6th Congressional district, presently serving his 4th term. He serves on the House Committee on Education and Labor, the House Committee on Small Business and Reform, where he serves as Ranking Member of the Subcommittee on National Security, and the House Committee on the Budget.</p> <p>Jim kicked off the main topic by playing comments from President Biden last month concerning how secure our government and military allegedly were. According to the congressman, the experts had assured Congress that the Afghan army would be able to hold out against the Taliban for 3 or 4 years after we left. So why are we seeing just the opposite of that prediction after having spent billions of dollars in the effort? <i>Why years? Why does it seem that the Afghan people have little desire to fight to keep the Taliban out?</i></p> <p><i>The congressman placed</i> the blame on the “...educated classes in our country who don’t know why we have been in Afghanistan. He noted how you’d think that after 20 years of our involvement, the average Afghan person would say that the Taliban is a Western nation that’s based on the principles we live by. For him it comes down to the inability to educate the people. Why do we have a great country; that if our people don’t know that, they aren’t going to be able to “put those people in Afghanistan.”</p> <p>Congressman Grothman also went into detail concerning the situation at our southern border, critical race theory, legislation, preschool child care, community college, the Hyde Amendment, vaccines and more.</p>
8/17	Taliban Takes Afghanistan	Jim Schneider / Usama Dakdok	<p>Despite what President Biden declared concerning Afghanistan in recent weeks, the American public is not aware of the collapse of everything our troops fought for there. Adding insult to injury, extensive amounts of military equipment and tax dollars paid for, are now in the hands of the Taliban. In addition, Afghan women and children are at risk and the persecution of Christians is escalating.</p> <p>Appearing on Crosstalk to present his perspective on the situation, Jim welcomed back Usama Dakdok. Usama is a member of the Straight Way of Grace Ministry. He’s the speaker on the daily radio broadcast, <i>Revealing the Truth About Afghanistan</i>. He is fluent in Arabic and has translated the Qur’an into English. He is the author of <i>Exposing the Truth about the Taliban</i> and <i>the Truth About Jihad</i>.</p> <p>According to Usama, in 1994, Saudi Arabia, under the direction of the U.S. government, established the Taliban. The Taliban were trained because we needed someone to help fight a war for us. In this case it was against the Russian invasion of Afghanistan. Ignorance of Islam and its various ideologies, we didn’t realize we were actually creating a larger problem. Why did we send our troops there 20 years ago under President George W. Bush? It began with the attack on 9/11. We thought we could go to war in Afghanistan and Iraq to kill Osama bin Laden and that would end the war. Instead, the Taliban refused to give us bin Laden claiming we didn’t give them enough evidence to prove that he was Osama bin Laden. Eventually we found out he wasn’t being protected by the Taliban in Afghanistan but rather was being protected by the U.S. Usama believes this is not a physical war that can be won with bullets. Instead, this is a spiritual war against the Taliban and Sharia law which today is much greater than it was at the time of 9/11.</p> <p>Other discussion points from this program included:</p> <ul style="list-style-type: none"> • Is democracy compatible with Islam? • News of the Taliban going door-to-door forcibly taking little girls to be sex slaves as stated in the Qur’an. • Are Muslim prisoners being released in Afghanistan? • Muslim Afghans coming to Texas and Wisconsin. Could some of them be militants? <p>Callers from across America brought their questions and opinions to the discussion as well.</p>
8/18	A Panoramic Prophetic Prospective	Dalton Windsor / Dr. Jimmy DeYoung	<p>Dr. Jimmy DeYoung appeared at a VCY America rally in September. His presentation, A Panoramic Prospective on Revelation was a teaching on the entire book of Revelation in one evening.</p> <p>Beginning in Revelation, Dr. DeYoung explained to the audience that this book is from God to Jesus who is the angel who would give and dictate to John the Revelator what He (God the Father) and his son Jesus wanted John to write ultimately what He wanted us to know.</p> <p>When you study Revelation, you’ll recognize 3 main events:</p> <p>–The Rapture of the Church—This is the next main event on God’s calendar of activities. This is first taking place. After the rapture and before Christ’s return, you have 16 chapters that deal with details concerning a 7 year period and one half years into that 7 year period you have ...</p> <p>–The Rebellion—Chapter 11:1-2 of Revelation tells us there will be a temple on the Temple Mount in Jerusalem. The anti-Christ will come out of Rome, go into Jerusalem and walk into the temple (1 Thessalonians 2:4), defile the temple, and claim to be God.</p> <p>–The Return—This is where Christ mounts a white horse and we mount ours. Dr. DeYoung noted that Jesus is the one (1 John 2). He’s currently at the right hand of the Father and not on the throne. He doesn’t receive the title of Lord of Lords’ until His return (Revelation 19).</p> <p>Does this have your curiosity piqued? Keep in mind, Dr. DeYoung doesn’t teach the book of Revelation chronologically. You’ll find out how important that is when you obtain a copy of this edition of Revelation. Securing a copy of the entire rally.</p>
8/20	DHS New Warning: Domestic Violent Extremists	Jim Schneider / Mat Staver	<p>Last Friday, the Department of Homeland Security issued a national terrorism advisory bulletin. It implies that if the government question and challenge the COVID shot mandates, they are considered potential domestic violent extremists. Those making claims of election fraud are also suspected of being domestic terrorists.</p> <p>What’s so unusual about this is that while the government is so concerned with labeling those concerned with the COVID shot</p>

			<p>process and those who don't want a COVID shot as potential extremists, there seems to be much less concern about those crossing our borders illegally, about those adhering to Sharia law who enter America, or those targeting local agencies.</p> <p>Returning to Crosstalk to discuss this issue was Mat Staver. Mat is the founder and chairman of Liberty Counsel. Mat laid out his views concerning the bulletin from the DHS, the National Terrorism Advisory System, the August 13. Jim noted it mentions the 20th anniversary of 9/11 but it's not against Islamic terrorism, just bin Laden, Qaeda and no mention of Hamas or the Taliban. However, don't question the election, mandated vaccine rollout, saying.</p> <p>Mat went on to describe how the bulletin warns about threats "...posed by domestic terrorists, individuals and groups in grievance-based violence. Such threats are also exacerbated by impacts of the ongoing global pandemic and the need for over public health safety measures and perceived government restrictions."</p> <p>This program highlighted the contrast between the pro-vax push and the historic Nuremberg Code, how the Code is affecting people in various industries, the Bill Gates factor, opinions from callers and much more.</p>
8/20	News Roundup & Comment	Jim Schneider	<p>The ongoing news out of Afghanistan highlighted the week's edition of the "Roundup". However, there is a brief sample:</p> <ul style="list-style-type: none"> -In an ABC News video, President Biden said no one's been killed in Afghanistan despite reports of thousands of deaths. -Former Vice President Mike Pence said Biden broke our deal with the Taliban. -President Joe Biden said there may be about 15,000 Americans stuck in Afghanistan. -Twitter's standards are called into question after users pointed out that a key Taliban spokesman was on the platform to give updates about the group's advance within the country, while former President Trump's account remains permanently suspended. -The Biden administration moved in June to dismantle a system designed to protect American citizens living abroad just months before the Taliban took over Afghanistan, stranding thousands of Americans there. -Sharia law is triumphant and democracy is dead in Afghanistan. -Afghan Christians reportedly fleeing to the mountains in a desperate attempt to escape the Taliban's door-to-door trying to kill them. -The Taliban is rifling through people's phones and if they find a downloaded Bible, they will kill them. -President Biden could have and should have evacuated American civilians before withdrawing troops. -The Biden administration continues to tell fleeing Americans to pay their way out of Afghanistan. -Reports from Afghanistan have revealed that the Taliban has been confiscating privately held land and other grounds that people don't need them for safety. Sound familiar? -One of the five Taliban leaders released by President Obama in 2014 in exchange for U.S. Army Sgt. Bowe Bergdahl is the mastermind of the Taliban takeover of Afghanistan. -Palestinians erected a flaming Star of David with swastikas inside telling Israeli's, "We want to be free." -China has dispatched warships, ASW aircraft and fighter jets off the coast of Taiwan. -China could now have access to oil, copper and rare earth minerals in Afghanistan.
8/23	Millions Missing: What Just Happened?	Jim Schneider / Dr. Ed Hindson	<p>Dr. Ed Hindson is the founding dean of the School of Divinity and Distinguished Professor of Religion at Liberty University. He's the speaker on The King is Coming broadcast, an active conference speaker and has served as the editor of the study Bibles. He's the author, co-author or general editor of over 40 books, many on the topic of Bible prophecy. His latest book is 'Can We Still Believe in the Rapture?' and '15 Future Events That Will Shake the World'.</p> <p>What is that future event that many Christians talk about that will cause many to become missing from the earth? Dr. Hindson, the general term is 'the rapture'. It's sometimes translated as 'caught up' or 'caught away'.</p> <p>In 1 Thessalonians 4, Paul talks about a time when Christ will descend in the clouds. At that time the dead in Christ (the resurrection of believers) and the living believers will be caught up. In the Greek it's 'Harpazo' which means 'caught away' or 'caught up'.</p> <p>Dr. Hindson believes the rapture will be an instantaneous event, the last trumpet for the church age to call the church to heaven.</p> <p>As this program progresses, Dr. Hindson comments on the following:</p> <ul style="list-style-type: none"> -What evidence does the Bible give concerning the timing of this event? -Will there be any warnings? -Is the idea of a pre-tribulation rapture a relatively new doctrine? -Will there be a literal opening of graves? -What is the common denominator among all those who are gone? <p>...and much more including answers to questions from Crosstalk listeners.</p>
8/24	Millions Missing: What Happens Next?	Jim Schneider / Ed Hindson	<p>Dr. Ed Hindson is the founding dean of the School of Divinity and Distinguished Professor of Religion at Liberty University. He's the speaker on The King is Coming broadcast, an active conference speaker and has served as the editor of the study Bibles. He's the author, co-author or general editor of over 40 books, many on the topic of Bible prophecy. His latest book is 'Can We Still Believe in the Rapture?' and '15 Future Events That Will Shake the World'.</p> <p>What awaits the believer after the rapture? According to Dr. Hindson, Paul was looking forward to the resurrection of the dead (the blessed hope as described in the book of Titus). Paul was emphasizing that those who are loving and obedient to the appearance of Christ will ultimately receive a crown of righteousness.</p> <p>So with the rapture, believers will be caught up into the Lord's presence and taken to the Father's house in heaven (John 14). They move on to the Judgment Seat of Christ (2 Corinthians 5:10). This is where they will receive their reward (thereof) and their entire lives are evaluated by the Lord (The Bema Seat judgment). From there believers will go to the Supper of the Lamb. (Revelation 19).</p> <p>After the marriage and believers have received white robes (the gift of righteousness from the Lord himself) they will be in heaven with Christ where he defeats the antichrist and sets up His millennial kingdom (thousand year rule) on earth. Beyond this there's the new heaven, the new earth and the new Jerusalem, the latter being the eternal city where God dwells with God for believers forever. The saved are there in a glorified body and a glorified spiritual state in a glorified city. Believers will include busyness and service to the Lord in peace and security in the vast universe He's created. But what about the unbeliever? What are they to make of the rapture with so many people gone? That leads to the questions answered by Dr. Hindson:</p> <ul style="list-style-type: none"> -Is the rapture the event that brings about the appearance of the antichrist? -Will the U.S. be a superpower after the rapture? -What is the mark of the beast? -Will there be nuclear destruction? -Will some people follow Satan when he's released after the millennium? -What eventually happens to Satan? -What is the Great White Throne judgment? -Is the lake of fire eternal?

8/25	Taking an Honest Look at Marijuana	Jim Schneider / Dr. James Avery	<p>–What about those who say they want nothing to do with the God of the Bible if he’s going to</p> <p>The topic on the use of marijuana continues as a major debate item. A number of states are seeking the approval of the medicinal use of marijuana. Others are advancing medicinal use while others are pushing for decriminalization. What exactly is marijuana, what is its impact and does the Bible condone its usage?</p> <p>Appearing on Crosstalk to discuss this issue was Dr. James Avery. Dr. Avery is the Medical Director For Diversicare Healthcare, and a Visiting Assistant Professor of Medicine at Virginia’s School of Medicine. He’s a Fellow in the American Academy of Hospice and Palliative Medicine. He was named ‘One of the 50 Most Influential Physician Executives’ by <i>Modern Physician</i> magazine and was also nominated as ‘One of the 100 Most Influential People in Healthcare’ by <i>Modern Healthcare</i> Magazine. He’s the author of <i>Marijuana: An Honest Look at the Misunderstood Weed</i>.</p> <p>You can’t get into the specifics on this issue without first defining certain terms that would include hemp, cannabis and marijuana.</p> <p>When people use the term, marijuana, they can be referring either to the plant or to its chemicals, THC or to CBD.</p> <p>Hemp has a very defined definition. It’s a plant that has to have less than 0.3% THC content.</p> <p>Cannabis is the scientific name for the entire genus. So if someone mentions marijuana, it could be referring to hemp or marijuana.</p> <p>With that basis established, Dr. Avery went on to discuss THC (Tetrahydrocannabinol) for which marijuana is grown. THC is one of the cannabinoids (chemicals) within the cannabis plant. It’s one of the most common cannabinoids along with CBD.</p> <p>As this program moved along, Jim had Dr. Avery answer the following questions:</p> <ul style="list-style-type: none"> • How can THC be taken into the body and what is the impact on the brain? • How does marijuana affect those under age 18. • What exactly is CBD, its connection to THC, and just how safe is it? • Is marijuana legitimate medicine? • Does the obtainable tax revenue from marijuana justify the social costs? <p>These and other questions were answered as this broadcast looked at this important issue. Crosstalk listeners from around the nation added their input as well.</p>
8/26	Cashless Society, Forced Vax & Big Tech Censorship	Jim Schneider / Gary Kah	<p>We seem to be on the cusp of greater government control as we see a multi-pronged effort advancing us into a cashless society. What’s behind this and what’s propelling it?</p> <p>Joining Jim to discuss this was Gary Kah. Gary is the founder and director of Hope For the World. Gary is also a former Middle East Trade Specialist for the Indiana State Government.</p> <p>We’re being told that cash is “dirty” due to COVID concerns and we must move on. Gary believes the push for a cashless society is coming down from the World Health Organization (WHO). Since March of 2020, the WHO has been pushing for a contact-less point of sales. He communicated that if you were trying to force this agenda on the world, the WHO would be in the name of public health.</p> <p>The central banks of the world have been preparing for a switch-over. He believes they’ve been ready for decades and that the coming global currency system will make use of digital technology and may take the form of a new monetary unit. What he’s not sure of is whether initially this emerging economic system will still utilize national currencies and give them differing values while still being electronic or will there be one currency for the world. The international banks have already been using a common currency to settle some accounts. This is known as Special Drawing Rights or SDR.</p> <p>Why would people embrace a new worldwide currency system, especially one that’s cashless, if they don’t see a need for it? If the current system is working fine there’s no reason to change. So Gary believes that part of the push for a cashless society, World Economic Forum and their allies, involves invoking a scenario that will most easily cause people to accept a new system means the current economic system has to be collapsed or there needs to be such a major threat of collapse that people claim something has to be done.</p> <p>As Gary continued he looked at the following:</p> <ul style="list-style-type: none"> • The newly tested digital currency of China. • Are the pandemic and the vaccines the pathway to a mandatory digital I.D. that will be required to buy and sell? • The government’s censorship rooted in their view that any narrative other than theirs is misinformation. <p>Listeners from around the nation provided input to round out the broadcast.</p>
8/27	News Roundup & Comment	Dalton Windsor	<p>–Dalton presented audio from July when President Joe Biden addressed a press conference concerning Afghanistan. His comments are an amazing contrast compared to what’s taken place this past week, including the 13 service members killed in a suicide bombing at the Kabul airport.</p> <p>–Senator Josh Hawley of Missouri was among a number of Republican lawmakers who have called on President Biden to resign after Thursday’s deadly attacks.</p> <p>–Ex-Trump aide lays out the Afghan withdrawal plan that Biden scrapped.</p> <p>–U.S. troops on the ground in Kabul are turning away from the airport some Afghan collaborators and instead are supporting America during our 2 decade occupation of the territory.</p> <p>–On Wednesday, Secretary of State Antony Blinken announced that there are only roughly 500 American citizens in Afghanistan who wish to be evacuated.</p> <p>–U.S. officials handed over names of American citizens and Afghan allies who assisted the U.S. to the Taliban. The terrorist group would help evacuate the country.</p> <p>–Singapore offered the U.S. help with evacuation efforts but the offer was rejected by Kamala Harris.</p> <p>–A group of veterans, thousands of miles away, is working to help secure the safety of their former translators.</p> <p>–The government agency responsible for defense contractors is telling personnel to wash their hands as much as possible out of fear of germs, but of any official involvement with friends and former colleagues who are stuck in Afghanistan.</p> <p>–AOC urged President Joe Biden to set a floor of 200,000 visas for Afghans to be evacuated and brought to the U.S.</p>

			<p>permanent resettlement and U.S. citizenship.</p> <p>–Our weapons left behind in Afghanistan have turned the Taliban into a major U.S. arms dealer for the Taliban now controls 75,000 U.S. military vehicles.</p> <p>–Airbnb has pledged to provide free housing for 20,000 Afghan refugees.</p> <p>–Radio host Glenn Beck has raised 30 million dollars to rescue Christians and others at risk in Afghanistan.</p>
8/30	COVID Shot: FDA Bait & Switch?	Jim Schneider / Mat Staver	<p>On August 23, 2021, the U.S. Food and Drug Administration issued a press release in which they announce the first COVID-19 vaccine. Their press release said the vaccine has been known as the <i>Pfizer-BioNTech</i> and will now be marketed as <i>Comirnaty</i> for the prevention of COVID-19 disease in individuals 16 years of age. Mat Staver, the founder and chairman of Liberty Counsel, believes this is nothing more than bait and switch. Mat explained what’s taking place here in five steps:</p> <p>#1—All existing Pfizer vials remain under the Federal Emergency Use Authorization (EUA). People still have the option to accept or refuse them.</p> <p>#2—The third are booster shots Pfizer has that are identical to the above and remains under EUA for people in certain categories.</p> <p>#3—BioNTech received FDA approval for people ages 16 and older under the name, <i>Comirnaty</i>. No <i>Comirnaty</i> dose available in the U.S.</p> <p>#4—There is currently no FDA approved COVID-19 injection available anywhere in the U.S. The only shot in America remains under EUA law and people have the right to accept or refuse.</p> <p>#5—Even when FDA approval of COVID-19 shots does become available, individuals are still subject to federal law (and many state laws as well) from being forced to get the vaccines based upon religious beliefs or conscience objections.</p> <p>Jim summarized by noting that what we have here are two legally distinct but otherwise identical products. He added that what we have here is one vaccine called <i>Pfizer</i> (currently in existence in the U.S. under EUA) and another called <i>Comirnaty</i> (currently not in the U.S. so there is no availability of this as an approved FDA COVID-19 vaccine). Get informed on the latest vaccine news, and hear what listeners had to say as well, when you review this edition of Crosstalk.</p>
8/31	God at Work in Afghanistan	Jim Schneider / Michael Germi & Yakub Kuznetsov	<p>When you hear “Afghanistan”, what comes to mind? You may think of the Taliban taking over the country, Christian persecution, Americans that are left behind, the tragic loss of life of brave service members and you may be wondering how anything related to Afghanistan can be positive. Actually, in spite of all that’s taking place, God is at work in that nation.</p> <p>Joining Jim to discuss this issue was Michael Germi. Michael is a former Muslim. Born in Iran into a Shia Muslim, he found faith in Jesus Christ and now proclaims the Gospel to Islamic nations.</p> <p>The broadcast began with Michael giving a description of who/what the Taliban is, as well as the Islamic (Sharia) law, which is the law that they follow and seek to one day impart upon the entire world. This law is that is radical. For example, Michael noted how in Islam, fighting is obligatory and the taking of slave girls is allowed. In other words, there is no such thing as radicalized Islam. It’s very nature is radical.</p> <p>Michael went on to describe how he’s receiving at least 50 phone calls and text messages every day from people who are desperate to flee Afghanistan. This includes everyone from Christians to Shia Muslims. He shared the names of some individuals, which included conversions to Christianity. Conference calls are also one of the common ways to reach those seeking freedom that need to hear the Gospel of Christ.</p> <p>Yakub Kuznetsov joined the conversation at the half-way point. He credited American soldiers for doing a tremendous job of preparing that ground for the Gospel to be received.”</p> <p>Yakub noted that the people in Afghanistan are sick of terrorism, bloodshed, war, rules and Islam. They want the truth. He advocated for the use of social media to get them the Gospel and in some cases we don’t even have to use social language to get the job done. This is so important because as he also noted, some people are betraying faith for their own lives as the Taliban seeks to find out where the Christians are.</p> <p>There’s much more to take in from this program, including input from listeners nationwide.</p>
9/1	Immorality Abounds	Jim Schneider / Peter LaBarbera	<p>One news item that never seems to take a break is the LGBTQ+ agenda. Returning to comment on the latest news to this topic was Peter LaBarbera. Peter is the founder and president of Americans for Truth.</p> <p>Stories discussed included:</p> <ul style="list-style-type: none"> • Harvard Law Today posted an article about alumni and current students fighting for the right to practice polyamory. • The Centers for Disease Control come out with preferred terms for select population groups. • The Netflix propaganda documentary called <i>Pray Away</i> focuses on ex-gays that became leaders and now have fallen back to the sin of their old lifestyle. • Peter believes President Joe Biden will go back to his radical base and the largest part of the LGBTQ+ movement. • The Daily Caller reports that the nation’s largest LGBTQ rights advocacy group is investigating President Alphonso David’s role in helping Governor Andrew Cuomo discredit accusers. • Congressman Chris Pappas of New Hampshire has introduced a bill to establish an LGBTQ+ advisory committee at the Department of Veterans Affairs. • A lawsuit being brought against President Biden by medical professionals over his mandating that doctors perform transgender surgeries. • DC Comics to kill off the Clark Kent character from Superman. Jonathan Kent will take over the role. To a number of media sources, Jonathan will come out as homosexual. This is after DC announced that Batwoman is a lesbian and Robin the Boy Wonder is bisexual. • A teacher allegedly tells students to pledge allegiance to a gay pride flag. <p>This is just some of the material from the first half of the broadcast. Hear much more, including what listeners had to say, in this edition of Crosstalk.</p>
9/3	Afghanistan Exit Catastrophe	Jim Schneider / Alex Newman	<p>The story of the U.S. exit from Afghanistan becomes more horrific with each passing day. The deception, and death along with the abandonment of an arsenal that will now equip the Taliban, as well as the loss of the U.S. and our interests.</p> <p>Alex Newman returned to fill listeners in with details on this continuing story. Alex is an award-winning international freelance journalist, author, researcher, educator and consultant. He is senior editor for <i>The American Conservative</i> and contributes to other publications as well. Alex has authored or co-authored several books such as <i>Crimes Against America</i>, <i>Educators</i> and <i>Deep State: The Invisible Government Behind the Scenes</i>. He is founder of Liberty Sentinel.</p> <p>Alex believes this exit was not an accident. It was carefully calculated, not by President Biden but by the handlers and those he believes are handling the federal government. This includes those in the highest levels of the government.</p>

			<p>Secretary of Defense, the Chairman of the Joint Chiefs of Staff and others. The idea here was to humiliate the world that no one should ever trust us or rely on us, that America's allies will be betrayed and that our emboldened.</p> <p>By now you may have heard that President Biden touted how the Afghan army was well equipped and the Taliban under control. Yet it's been revealed that he received a cable in June from State Department officials that the likelihood that the Taliban would take over rapidly once the U.S. pulled out.</p> <p>Now there's a transcript of a July 23rd phone call with President Biden and the former Afghan president who tried to pressure him to change the perception of what was taking place there. In other words, President Biden was collapsing and what he told the American people was a lie.</p> <p>Alex believes President Biden had two options. He could have continued the war indefinitely, but that would have been a mistake. On the other hand, he could have prepared a sensible plan where we don't abandon Bagr the middle of the night and where we don't leave approximately 85 billion dollars worth of weaponry behind. In the end, Alex believes that as humiliating as this is, it was a carefully orchestrated event that signals the beginning of a new world order described as the <i>unipolar</i> world order where the most powerful, single entity (the U.S. government) dominates. We're moving into the era of what the globalists refer to as the <i>multi-polar</i> world order and one of those powers is China as they come onto the scene in Afghanistan.</p> <p>Should charges be brought against President Biden over the way the exit proceeded? Is this still the best path for Kamala Harris to transition into the presidency? Are there Americans still left behind in Afghanistan? Who helped the U.S. in the war effort? Why were people left behind while dogs and cats were rescued? Why did the Defense know who the suicide bomber was ahead of time?</p> <p>Alex Newman tackled these and other questions, as once again Crosstalk seeks to bring you the most current on another vital issue confronting our nation.</p>
9/3	News Roundup & Giant Statues	Jim Schneider	<p>-The Biden administration wants employers to require that their workers get the COVID vaccine.</p> <p>-2 senior Food and Drug Administration officials have resigned after the Biden administration and the CDC recommendations for a 3rd coronavirus booster shot before the agency issued an official approval.</p> <p>-Congressman Tom Massie of Kentucky, who has proposed a bill to block federal funding of the U.S. military, hosted the conference call with troops who warned the mandate could harm military readiness.</p> <p>-2 active duty members of the U.S. armed forces on August 17 filed a lawsuit against the U.S. Department of Defense and HHS on behalf of themselves and other active service members who are being forced to get the vaccine for COVID and also having acquired natural immunity.</p> <p>-President Joe Biden's chief medical advisor, Dr. Fauci, told CNN on Wednesday that he is hopeful there will be a vaccine use authorization to vaccinate children under the age of 12 in the coming weeks.</p> <p>-Dr. Michael Yeadon, former Pfizer vice president and chief scientist for allergy and respiratory, issued a statement from the UK with school children between 12 and 15 that the government is planning to inject experimental gene-edited vaccines into them with or without parental consent beginning next week.</p> <p>-Ohio nurses are pushing back against hospitals requiring them to take the vaccine.</p> <p>-An Ohio judge has ruled that a hospital must treat a COVID-19 patient on a ventilator with Ivermectin.</p> <p>-A judge has reversed his own order taking custody rights away from a mother who had not taken the COVID-19 vaccine.</p> <p>-Bus drivers are quitting over the vaccine mandate in Chicago.</p> <p>-The Department of Education announced Monday that it had opened civil rights investigations into 50 school districts over mask mandates in schools to determine if such bans discriminate against students with health conditions.</p> <p>-A new report from the World Health Organization calls for worldwide transition to digital certification of COVID-19, the implementation strategies from member states.</p> <p>-Costco is bringing back temporary purchase limits on some items as the Delta variant continues to sweep the country.</p> <p>-California and Los Angeles County are each paying \$400,000 to end litigation by Grace Community Church over COVID-19 restrictions on in-person worship infringed on its constitutional right to religious freedom.</p> <p>-Harvard, originally a seminary that trained people to enter ministry, has a new chief chaplain and he's an atheist.</p> <p>-A company from Ireland is proposing "The Giant", the world's tallest moving statue that will stand over 100 feet tall. Its arms and head will move to a diversity of positions and will have a patented skin which is a matrix of millions of tiny LED pixels. This will give it the ability to instantly take the form of any man or woman, boy or girl, from any of the stars of today.</p>
9/6	Why Socialism is Not Biblical	Jim Schneider / Pastor David Brown	<p>The roars of socialism are growing louder. We hear of equality and even more recently we hear of justice for all to be and have the same. We hear the rich need to pay their fair share. Those who have much are required to give to those who don't have what they have. There's the growing 'social justice movement' and even steps toward communism. Month after month this roar grows louder and louder. You can see it increasing in a legislative agenda pushing progressivism and shunning conservative values.</p> <p>Joining Jim to examine this phenomenon was Dr. David Brown. Dr. Brown is the pastor of the First Baptist Church in Oak Creek, has a Masters in Theology and PhD in History – specializing in the history of the English Bible. In the study of the English Bible, he's also president of Logos Communication Consortium which operates Logos Ministries.</p> <p>Dr. Brown began by explaining why biblical Christianity is disappearing in America. He noted that the first governor of Jamestown, who had to get the people to realize that if a man doesn't work, neither shall he eat (1 Peter 3:10).</p> <p>Move forward in time to the formation of the U.S. and you can see our nation was based on the principle of biblical ethic. While they never separated God from state, our founders separated church from state because Christianity was not a national religion. In other words, they didn't want a national religion for the country as was the case in places such as England.</p> <p>Our founders believed that rights came from God and that He's the founder of liberty. Dr. Brown noted that the first indicating that the signers of the Declaration of Independence spoke of the Lord 4 times:</p> <ul style="list-style-type: none"> • '...the Laws of Nature and of Nature's God...' • '...they are endowed by their Creator...' • '...to the Supreme Judge of the world...' • '...with a firm reliance on the protection of Divine Providence...' <p>Then on the Liberty Bell we read:</p> <p>'Proclaim liberty throughout all the land unto all the inhabitants thereof.'</p> <p>With that basis set, Dr. Brown communicated how he fears America is in the same position as the Founding Fathers referenced in Isaiah 59. He referenced some items from our history since the 1960's to prove the point:</p> <ul style="list-style-type: none"> • Prayer and Bible reading banned in public school in the the early 60's. • Abortion legalized in 1973. • Ten Commandments removed from public schools in 1980. • Same-sex marriage legalized in 2015. <p>We can see from this how God has been systematically removed from American culture and socialism is</p>

9/7	TX Heartbeat Law Stands	Jim Schneider / Brad Mattes	<p>Why isn't it biblical? Find out the specifics when you listen to this Crosstalk broadcast.</p> <p>Recently a new anti-abortion law in Texas passed through the legislature, was signed by the governor, and allowed to go into law by the U.S. Supreme Court.</p> <p>Joining Jim to discuss this issue was Brad Mattes. Brad is the president of Life Issues Institute, the pro-life organization of the Susan B. Anthony List Education Fund. Life Issues Institute was founded in 1991 to serve the educational needs of the life movement. He's the host of Life Issues, a daily radio commentary.</p> <p>This new legislation is called the "Heartbeat Act". This act would stop any abortion once a machine can detect a heartbeat in the office of a doctor. Brad noted that this is at the six week mark and certainly by 8 weeks.</p> <p>Brad described how Texas legislators had seen last year how district attorneys across the nation were threatening publicly that they would refuse to enforce pro-life laws if they passed. So these legislators knew they needed to do something that would usurp this dereliction of duty by DA's nationwide.</p> <p>The result is this new law that contains no criminal penalties. Instead, the average citizen can sue anyone against anyone who violates the law. This would include primarily the abortionist, the staff of the abortion clinic, giving the woman a ride to the abortion facility, or someone who pressured or coerced her to have the abortion.</p> <p>If found guilty, such individuals would have to pay at least \$10,000 plus court costs. In this way, the abortion industry where it hurts them the most, in the pocketbook, while at the same time circumventing the law, the abortion industry would pursue to tie-up pro-life laws for many years.</p> <p>Brad revealed that according to the Texas abortion industry, about 85-90% of abortions are done before 10 weeks. This means that about 130-150 pre-born children per day will be saved in Texas by this new law.</p> <p>Will this cause a lawsuit "free-for-all"? No, this is false because Brad indicated the law has been written so that it can't be abused.</p> <p>Find out more, including how the pro-abortion side is reacting, the conclusive proof that life begins at conception, and how listeners responded, when you listen to this edition of Crosstalk.</p>
9/8	Equipping Students with a Biblical Worldview	Jim Schneider / Russ Miller	<p>Christians are increasingly being challenged over their faith. Mockery of God is OK, just don't mock the Bible, socialism or evolution. In addition, the biblical worldview I.Q. of people appears to be getting smaller and smaller.</p> <p>Appearing on this edition of Crosstalk to discuss equipping students with a biblical worldview was Russ Miller. Russ is the founder of Creation, Evolution, and Science Ministries. He's the author of five creation-oriented books, including the new book, <i>COST: Creation, Original Sin, Separation, Redemption</i>. He has also developed numerous PowerPoints, including Grand Canyon Rim, Raft & Grand Staircase Tours, speaks on college campuses and national conferences, and has a young earth creation course for public school students for purposes of training and equipping.</p> <p>At one time Russ was a theistic evolutionist. Theistic evolution is just one method that attempts to fit the fossil record of the years of time leading to mankind within the framework of God's Word. In other words, this worldview claims that billions of millions of years of death and suffering to slowly evolve us.</p> <p>Once he discovered what a fraud Darwin truly was, he began to examine that foundation of billions of years of evolution. He discovered that if there was a global flood, it wipes out every old earth belief.</p> <p>Why does this matter? The old earth beliefs place death before Adam. Once you teach that, you can't preach the biblical foundation of the Gospel that it was man's sin that brought death into the world, separating us from God and our redemption through Jesus. In other words, the old earth viewpoints undermine people's faith in the Bible and the reason for Christ's sacrificial death on the cross.</p> <p>As this program moved along, Russ looked at much more including the following:</p> <ul style="list-style-type: none"> • Did Christianity have anything to do with the founding of the many branches of modern science? • What percentage of Christian young people are able to defend a biblical worldview? • Why should we keep a biblical worldview at home? • What is a Grand Canyon, Grand Staircase Tour? • Is there a creation science/biblical worldview course for high school students with credit that is available to public high schools?
9/9	Never Forget 9/11: 20 Years Later	Jim Schneider / Usama Dakdok	<p>It was a Tuesday morning, September 11, 2001. People across America got up to get ready for a normal day. All of this was interrupted by Islamic terror as planes crashed into the Twin Towers and the Pentagon. Another plane, another plane that was hijacked and headed for Washington, DC, never made it as heroic plane as it was from taking place. That plane crashed in Pennsylvania.</p> <p>In all, 2,977 were killed as 19 Muslim hijackers committed murder-suicide. Thousands were injured and millions across the nation impacted.</p> <p>In the aftermath there were marquee signs that said "God Bless America" and "In God We Trust". That evening the President of Congress went on the Capitol steps to sing "God Bless America". Churches were filled to capacity with people praising our nation. We said we'd never forget, but have we forgotten the premise of Islam as well as the God of the Bible?</p> <p>Joining Jim with some sobering reminders about this important day in our nation's history was Usama Dakdok. He is the founder of the Straight Way of Grace Ministry. He's the speaker on the daily radio broadcast, <i>Revealing the Truth About Islam</i>. He speaks fluent Arabic and has translated the Qur'an into English. He is the author of <i>Exposing the Truth About Islam</i>, <i>Qur'an</i> and <i>Exposing the Truth About Jihad</i>.</p> <p>Some try to excuse Islam by claiming 9/11 was an example of "radical" Islam but Usama explained why Islam is not radical at all. They're simply true Muslim believers.</p> <p>So why are some schools taking students on trips to mosques, teaching students the Islamic confession of faith, and asking students to hold Muslim emphasis days?</p> <p>In answer to that, Usama had listeners consider what took place 4 days after 9/11. President George W. Bush asked Muslims to take over America when he entered a mosque near ground zero. With Muslim jihadi membership increasing, a nation that Islam is a loving and peaceful religion and that what happened was the work of radical extremists. President Bush also warned the public not to engage in retaliation because that's not the spirit of America.</p> <p>Obviously President Bush did not come to the same conclusion about Islam that President John F. Kennedy did. More Muslims came to America after 9/11 than before, the number of mosques quadrupled, and the number of Muslims in government positions increased as well. That last fact is very telling when you consider that the Bible teaches the destruction of America (the infidels).</p> <p>What else should we consider on this topic as we look over the last 20 years since 9/11? What does the future hold? Decide when you review this edition of Crosstalk.</p>
9/10	News Roundup & Comment	Jim Schneider	<p>Here's a selection of stories from this week's edition of the "Round-Up":</p> <ul style="list-style-type: none"> -After saying in December of last year that masks and vaccines should not be made mandatory, President Trump has now unveiled several new executive orders and other directives aimed at increasing the number of people that is vaccinated at businesses across America. -The CDC has changed their definition of "vaccine" over time. It originally meant prevention of a disease by producing immunity to a specific disease and is now being defined as the act of that which produces protective immunity to a disease. -President Biden said if governors won't help beat the pandemic, he'll use his power as president to get them to.

			<p>–Mat Staver of Liberty Counsel says the federal government cannot mandate COVID-19 vaccines under emergency use. He contends there is no FDA approved COVID-19 vaccine available in the U.S. He also cannot be mandatory under Title VII.</p> <p>–A Las Vegas mother became infuriated after discovering that a substitute teacher from her son’s 4th grad child’s mask to his face in front of the class.</p> <p>–Professor Vinay Prasad, who teaches epidemiology, says the cost of masking children outweighs any benefit.</p> <p>–The Department of Homeland Security says they will increase the range of civil penalties that may be imposed on individuals violating the federal mask mandate at airports, on commercial aircraft and in various modes of transportation.</p> <p>–The Republican National Committee is planning to sue President Biden over his vaccine mandate.</p> <p>–Wisconsin Senator Ron Johnson said the Biden administration’s decision to mandate vaccines for workers recognizing natural immunity and making exceptions for it, is an outrageous trampling of civil liberties.</p> <p>–Firefighters and police officers in Los Angeles are positioning themselves on the front lines in the battle against COVID-19 vaccine mandates, joining together to demand freedom from forced inoculation in a monument to our liberties.</p> <p>–United Airlines employees, who are granted a medical and religious exemption, have been informed that they will be automatically placed on unpaid leave.</p> <p>–Arizona tells the city of Tucson to end the vaccine mandate or lose millions in funding.</p> <p>–A Rutgers University student is locked out from virtual classes because he’s not vaccinated.</p> <p>–A 6 week old breastfeeding baby became ill with a high fever after his mother received a COVID-19 vaccine weeks later with blood clots and severely inflamed arteries.</p> <p>–A new COVID-19 variant has now been found in 49 states that’s even more transmissible than the Delta variant.</p>
9/13	The COVID shot vs. Alternative Treatment	Jim Schneider / Dr Vladimir Zelenko	<p>Recently President Biden mandated that all employers with more than 100 employees receive the COVID-19 vaccine. One will be released and mandated for children. Absent from the President’s remarks are the numbers detailing the adverse effects from receiving the vaccines.</p> <p>Sadly, every effort to promote alternatives has been shot down by the Biden administration and social media, also being mocked by the media.</p> <p>Appearing on Crosstalk to present his views on this issue was Dr. Vladimir Zelenko. Dr. Zelenko is a board certified physician with over 20 years of experience. He is published in top peer reviewed journals with world renown. He’s the first in the world to develop therapeutics against COVID. He is the doctor who recommended Pr. hydroxychloroquine. He has provided counsel to White House personnel, multiple governments, hospitals, and other public figures. He has been nominated for the Nobel Peace Prize and has been recognized as a hero at a U.S. Homeland Security committee hearing.</p> <p>Dr. Zelenko covered a great deal of vaccine related information from technology concerns to safety and efficacy. He contends that there’s a patent that was recently filed and approved for technology that’s already in the vaccine. This technology can be used to track location as well as measure internal physiological parameters such as your heart rate and other factors.</p> <p>Concerning safety, in 1976 the Swine Flu vaccine program was scrapped after 26 people died. The government estimates we’re now up to over 14,000 deaths on the VAERS system.</p> <p>From the moment of injection out to about 3 months, people are dying from blood clots and we know why. The Scripps Institute in San Diego published a paper 3 months ago explaining the mechanism which involves spike protein binding to the inner lining of your blood vessels and how this results in blood clots. If this occurs in the heart it results in a heart attack. If it occurs in the brain, this leads to a stroke.</p> <p>There’s a concern regarding heart inflammation (myocarditis) which has a death rate of 1 in 50 percent of children getting this at a very high rate.</p> <p>Also, preliminary data hints at an increase in miscarriages by a factor of 8 if the mother gets vaccinated in the first trimester. If you look at the long-term concerns, there’s evidence that the mRNA vaccines cause cancer. This was supported by a Kettering paper that indicated mRNA suppresses tumor-suppressor genes.</p> <p>In conclusion, Dr. Zelenko believes these vaccines are a “...weapon of eugenics... a weapon of mass murder... a genocide.”</p>
9/14	The Rise of the Tyrant and the Quest for Global Power	Jim Schneider / William Federer	<p>The Greek philosopher Plato predicted democracy would degenerate into anarchy once people lost their virtue and a tyrant would arise.</p> <p>How do democracies and republics get taken over? Haven’t systems been put in place to prevent this from happening? The best way to answer that is to look at history and perhaps no one tells it better than William J. Federer, a nationally known speaker, historian, author, and president of Amerisearch, Inc, a publishing company dedicated to preserving America’s noble heritage. He’s the speaker on <i>The American Minute</i> daily broadcast. He has authored numerous books including, <i>America’s God and Country Encyclopedia of Quotations</i>, <i>Rise of the Tyrant</i>, <i>Who is the King in the Sky</i>, <i>America? and Socialism: The Real History From Plato to the Present</i>.</p> <p>According to William, the first writing was Sumerian cuneiform on clay tablets from the Mesopotamian region. He noted Nimrod and the Tower of Babel, 2,000 years of Egyptian pharaohs, Nebuchadnezzar, Alexander the Great, Caesar, Attila the Hun, etc.</p> <p>His point? Although the titles may differ such as Pharaoh, Caesar, Kaiser, Sultan, Czar, Chairman, etc, the common thread of government is the king where power gravitates into the hands of one person. It’s the “default setting” of government. As centuries moved along these kings got bigger and bigger because of military and technological advancement. The King of England became so big that people said the sun never set on the British empire.</p> <p>Eventually America’s founders decided to break away, not just from the King of England, but from having a king. They flipped the concept and made the people the king.</p> <p>In the end, William views history as a long categorizing of how to limit the power of a king, but how do you do it in the modern era when certain powerful individuals seemingly want to take away the rights of the people? William says that history isn’t prophetic, but it is predictive. In other words, past behavior is the best indicator of future behavior. He answers this question by steering listeners through world history, on this edition of Crosstalk.</p>
9/15	What in the World?	Jim Schneider	<p>What in the world? What are they thinking? How can that be? These are questions that may be answered by the presented details on these and other stories on this edition of Crosstalk:</p> <p>–A former U.S. special forces soldier (a male fighting in mixed martial arts as a woman) beat a woman and her submission and people are cheering for him.</p> <p>–Twelve Apostles Evangelical Church in Berlin recently hosted a leather fetish service for homosexuals.</p> <p>–At the Met Gala in New York, U.S. soccer star Megan Rapinoe wore a red, white and blue patterned clutch purse. On that purse it said, “In gay we trust”.</p> <p>–A Wyoming public library contains books for children and teens that are inappropriate, some of which are pornographic.</p> <p>–A professor charged with assault after allegedly bloodying the face of a student who engaged in a peaceful demonstration against the idea of a vaccine mandate on the campus.</p> <p>–The Israeli health minister caught on a “hot microphone” disclosing the real reason for imposing a vaccine mandate.</p>

			<p>vaccine passport for certain venues.</p> <p>–A Navy football coach fired for refusing to get vaccinated.</p> <p>–The chief executive of a hospital in Texas warned that his facility faces closure after President announcement last week that most healthcare workers get the COVID-19 vaccine.</p> <p>–A leaked Zoom conference call reveals a doctor questioning how to increase the count of COVID numbers on his hospital's dashboard report.</p>
9/16	COVID Agenda and Mark of the Beast Technology	Jim Schneider / Gary Kah	<p>COVID is making its impact around the world. There is a battle being waged for forced vaccinations, vaccines and vaccination passports. You may have heard the interview we conducted with Dr. Vladimir Zelenko warning regarding this matter. Though many medical doctors have attested to the effectiveness of Ivermectin and Hydroxychloroquine, these inexpensive drugs have come under great attack from political leaders, from the media and from the controllers of social media. Is there good reason to believe there's an agenda? Joining Jim to provide answers was Gary Kah. Gary is the founder and director of Hope For the World. <i>Hope for the World Update</i>, a former government trade specialist, author, as well as former Europe & Middle East Editor of the Indiana State Government.</p> <p>Gary recently completed his Fall edition of the <i>Hope for the World Update</i>. It's titled: <i>The COVID Agenda: The Mark of the Beast Technology</i>.</p> <p>Who are the "masterminds" behind this agenda? Gary pointed to major figures involved in the World Economic Forum includes people like Bill Gates. Then there's the Vatican, the Council on Foreign Relations, The Trilateral Commission and others that favor the idea of world government. Gary believes these people and organizations see the COVID-19 as an opportunity to halt the economy of the world so that they can introduce their new global system.</p> <p>How does he see the COVID vaccines relating to all of this? He sees the vaccines and the pandemic as the beginning of a mandatory digital I.D. This I.D. will contain your vaccination record/passport and other personal information that will be required to buy, sell or move about freely.</p> <p>On the technology/delivery end of things, Gary discussed the Quantum Dot Method. He believes this is the most popular way of planting this on most people. In other words, the technology is moving from digital implants on smartphones to getting the technology onto people themselves.</p> <p>Overall, Gary described the numerous factors involved in this agenda that includes the creation of a global government and the introduction of a worldwide cashless economy utilizing digital currency. The goal is to control every individual on the planet. Find out how this is all coming about when you review this edition of <i>The COVID Agenda: The Mark of the Beast Technology</i>.</p>
9/17	News Roundup & Comment	Jim Schneider	<p>COVID is making its impact around the world. There is a battle being waged for forced vaccinations, vaccines and vaccination passports. You may have heard the interview we conducted with Dr. Vladimir Zelenko warning regarding this matter. Though many medical doctors have attested to the effectiveness of Ivermectin and Hydroxychloroquine, these inexpensive drugs have come under great attack from political leaders, from the media and from the controllers of social media. 9/20	Future Glory	Jim Schneider/ Dr. Ed Hindson	<p>It's easy for people to become so fixated on the temporal that they lose sight of the eternal.</p> <p>The Apostle Paul wrote "But as it is written, Eye hath not seen, nor ear heard, neither have entered into the heart of man, the things which God hath prepared for them that love him." (1 Corinthians 2:9)</p> <p>What are these things and what benefit is involved in understanding them? The answer was provided on the Crosstalk by Dr. Ed Hindson. Dr. Hindson is the founding Dean of the School of Divinity and Distinguishing Theology at Liberty University. He's the speaker on <i>The King is Coming</i> broadcast. For decades he's been a speaker and has served as the editor of five major Study Bibles. He is the author, co-author or general editor of many on the topic of Bible prophecy. Today we're discussing his latest release: <i>Future Glory: Living in the Rapture, Heaven, and Eternity</i>.</p> <p>Dr. Hindson explained to listeners that regardless of your age, there are 7 prophetic promises that God gives to believers. So if you're a believer, these things are in your future! Discussion points included:</p> <p>The rapture, when the dead in Christ are raised and the living are caught up.</p> <p>The difference between the first, second and third heaven.</p> <p>Believers taken to the Father's house to the Judgment Seat of Christ. What will we do with these rewards?</p> <p>The Marriage Supper of the Lamb. (Revelation 19) When does this occur?</p> <p>Believers returning with Jesus in his triumphant return. Where will that return take place?</p> <p>Believers reigning with Christ on earth during his millennial kingdom. Who will be evangelizing? Who will be ruling?</p> <p>The new heavens and the new earth (The destruction of the old and the creation of the new).</p>
9/21	Critical Race Theory	Jim Schneider/ Pastor Curtis McMiller	<p>Joining Jim to break down this theory and its implications was Pastor Curtis McMiller. Pastor McMiller is the pastor of Heritage Baptist Church in Kenosha, WI, for 20 years. A passionate soul winner, he's the speaker on the radio show <i>The Call</i> which airs on WVCY-FM, Milwaukee.</p> <p>What exactly is CRT? Pastor McMiller defined it in a couple of ways, one being "...an ideology that divides society into the oppressed groups and their oppressors in an effort to liberate the oppressed."</p> <p>3 individuals in particular were instrumental in forming Critical Race Theory. They include Richard Delgado, a professor at the University of Alabama, Derrick Bell, one of the first black men to receive tenure from Harvard Law School, and Charles L. Williams Crenshaw, a lawyer and civil rights activist.</p> <p>Pastor McMiller described CRT as a theory that borrows concepts from classic Marxism. According to Karl Marx, the various working class people including those involved in industry and those over it. From that perspective, the common worker, you were part of the lower ranking class as opposed to those who own manufacturing companies. CRT considered this latter group to be the oppressors.</p>

			<p>CRT theorists believe that the concept of absolute truth is something to be rejected. They contend that so evolving, therefore they view the Bible as consisting of outdated customs and teachings that are no longer relevant. What does CRT mean when it refers to “systemic racism” in the U.S.? What does the term “woke” mean? What question God’s authority? What are some of the institutions that are catering to CRT? Pastor McMiller answers these questions on this timely edition of Crosstalk.</p>
9/22	Babylon: The Bookends of Prophetic History	Jim Schneider/ Dr. Andy Woods	<p>Babylon is repeatedly referenced in the Bible. Daniel and his friends were taken captive to Babylon so what place but does it have a future as well? Are the scriptural references figurative? Could they be literal meaning a future place where the anti-Christ will rule?</p> <p>Taking a detailed look at this issue was Dr. Andy Woods. Dr. Woods is the president of Chafer Theological Seminary, senior pastor of Sugar Land Bible Church. He has contributed to numerous theological journals and Christian magazines. He has spoken on a variety of topics at Christian conferences. He’s author of <i>The Middle East Meltdown</i>, <i>The Fall of the West</i>, and other books. He appeared with Jim to discuss, <i>Babylon: The Bookends of Prophetic History</i>.</p> <p>In Zechariah, after Babylon fell to the Persians, it talks about a woman who’s put in a basket. In the timing of the end times, to build a house (temple) and she builds it in the land of Shinar. Is this an event that is still in the future for us or did this already take place?</p> <p>First of all we need to look back to see when we’re first introduced to Babylon. Babylon comes into the picture in Genesis 10 and 11. Chapter 11 in particular is where Shinar (Mesopotamia—modern day Iraq) is mentioned. The Tower of Babel project took shape and was man’s attempt at world government.</p> <p>Dr. Woods believes that Satan has always wanted the Tower of Babel project back. Revelation 17 and 18 describe that wish only to be thwarted by the second coming of Christ.</p> <p>Nimrod is also part of this discussion. He’s mentioned in Genesis 10 and his name in Hebrew means “rebel.” He orchestrated the Tower of Babel project. So Dr. Woods sees him as the ultimate pre-figurement of the coming of the anti-Christ. He was attempting to establish that which excludes a true knowledge of God in the land of Shinar. That evil is reincarnated in the end times.</p> <p>As the discussion moved along, the following points were covered:</p> <ul style="list-style-type: none"> Was the Garden of Eden in Babylon? What was the religious system at the Tower of Babel? What does Dr. Woods mean when he references the “mother-child cult”? What kind of harlotry is Dr. Wood referring to in relation to Babylon? What can we learn from the prophecies of Babylon in Isaiah and Jeremiah? What evidence is there for a futurist Babylon? <p>This is an overview of just the first quarter hour of this broadcast that is jam-packed with information. His notebook and Bible handy as Dr. Woods takes you on a fascinating study on this edition of Crosstalk.</p>
9/23	COVID Shot Mandates, Boosters & Adverse Effects	Jim Schneider/ Barbara Loe Fisher	<p>Jim Schneider and Barbara Loe Fisher unpacked a lot in today’s program! Shot mandates are traveling all over the country and it’s happening on so many fronts. With the promise of an executive order, President Biden has ordered companies with 100 or more employees to receive the job. Previously, the President had ordered the same for federal employees and contractors.</p> <p>Recently a Florida mother was shocked when she learned that to renew her lease at her apartment complex she had to show proof of vaccination. This mandate has even gone to the military. It’s reported that as many as a quarter of the Navy SEALs do not want the jab and as such, can put our military readiness in jeopardy. Hundreds of employees at a North Carolina hospital system have been suspended because they refused the jab.</p> <p>Meanwhile the death toll and the severe injury toll is escalating from those who have received the jab. Both are gaining approval for those age 65 or older, and those considered high risk. Now Pfizer is saying that their vaccine is safe and effective for children ages 5-11 at one-third the dose.</p> <p>Barbara Loe Fisher is president of the National Vaccine Information Center (NVIC). She has researched, written, and articulated the major issues involving the science, policy, law, ethics, and politics of vaccination to become a leading non-medical, consumer advocacy experts on the subject.</p>
9/24	New Roundup & Comment	Jim Schneider	<p>Here’s a selection of stories that Jim brought to the attention of listeners to wrap up the week:</p> <ul style="list-style-type: none"> –The U.S. House passed a radical pro-abortion bill (Women’s Health Protection Act-HR 3755) that would legalize the killing of unborn babies via abortion without limits up to birth nationwide. –At her weekly press briefing, House Speaker Nancy Pelosi addressed the issue of her Catholic faith in connection with the so-called Women’s Health Protection Act. –The U.S. Supreme Court will be hearing oral arguments December 1st concerning a Mississippi law that prohibits abortion if a baby is 15 weeks old. In response, more than 500 female athletes and groups of athletes, including professional athletes, signed an amicus brief that urged the court to reject Mississippi’s law. –Apple is outraged about Texas passing the Heartbeat Bill into law and will pay for their Texas employees to travel outside the state. –More than 60 companies have signed a letter protesting the Texas “heartbeat” law. –Texas Governor Greg Abbott signed into law a bill prohibiting physicians or health care providers from performing an abortion inducing drug after 7 weeks of pregnancy. –Webster Barnaby, a Republican lawmaker in Florida, has introduced a pro-life bill (House Bill 167) in the Florida legislature that mirrors that of the Texas law prohibiting abortion after a heartbeat is detected. –The U.S. Supreme Court has set the date (December 1st) for the major abortion case that could overturn Roe v. Wade. –Almost 65 members of Congress have called for an investigation into allegations that aborted babies and their organs harvested for scientific research through a taxpayer funded project at the University of Pennsylvania. –The Biden administration has used the COVID relief package to give tens of millions of dollars to Planned Parenthood. –On Tuesday, Representative Bob Gibbs of Ohio, introduced 3 articles of impeachment against President Biden. He argued the president is not capable of being commander in chief due to his handling of Afghanistan, immigration, and the federal eviction moratorium. –President Biden made his first address to the United Nation’s General Assembly. –The White House Press Pool has filed a formal complaint against President Joe Biden for refusing to answer questions in American media about the multiple crises that have erupted under his regime. –President Biden may have improperly avoided paying Medicare taxes before he took office and could owe \$500,000 according to a Congressional Research Service report. –Brandon Judd, president of the National Border Patrol Council told Fox News on Thursday night that if Joe Biden is not president, he would arrest him for “aiding and abetting.”
9/27	Covid and the New World Order	Jim Schneider/ Alex Newman	<p>Alex Newman is an award-winning international freelance journalist, author, researcher, educator and editor for The New American and contributes to other publications as well. Alex has authored or co-authored several books such as <i>Crimes of the Educators</i> and <i>Deep State: The Invisible Government Behind the Scenes</i>. He is founder of the New American Sentinel.</p>

			<p>According to Alex, the term “New World Order” has a long history. In the current context, the first time attention of the American people was by George H.W. Bush in the early 1990’s in a speech on national television where the rule of law would govern the conduct of nations. He also pointed to the U.N.’s peace-keeping implement the vision of the U.N.’s founders.</p> <p>Alex noted that those involved believe they will be successful in this endeavor because right now they are an overwhelming majority of our children to accept this. He indicated that the U.N. is open about how they want to live under this new world order through the public school system as put forth in Agenda 21 which was implemented in addition to an audio clip of President H.W. Bush, you’ll also hear from President Clinton, former Secretary of State Henry Kissinger and current President Joe Biden as they too reference a new world order.</p> <p>That brings us to today as the broadcast switched its focus to Australia. Citizens there are under COVID-19. In a severe, Jim described them as “draconian,” while Alex described the situation as a “totalitarian, biomedically controlled society. Find out more, and hear what listeners had to say, on this edition of Crosstalk.</p>
9/28	From Border Control to Border Chaos	Jim Schneider/ Todd Bensman	<p>Jim began by noting how it’s been amazing to see the collapse of our nation’s border security in less than a year from all over the world are entering the U.S. through our southwest border. As that happens, it’s not crime that is being vilified, but instead it’s our own border agents who are coming under great scrutiny, even from President Trump. Todd Bensman has recently been at the border and he joined Jim to report on this matter absent the political correctness of the mainstream media. He’s senior national security fellow with the Center for Immigration Studies. He’s author of <i>America’s Covert Border War: The Untold Story of the Nation’s Battle to Prevent Jihadist Infiltration</i>.</p> <p>During the last year of the Trump presidency, and before the pandemic-related border closures, the number of border crossings ran around 20,000 to 30,000 per month. While still high, that’s nothing compared to the 250,000 crossings present time under President Biden.</p> <p>Since the inauguration, Todd has spent time at various parts of the border. His last trip was to the Del Rio area that formed around September 12th. He described it as something rather unusual in American history because a large crowd gathered in one area. The visual image of that became a “political canker sore” for the current administration and was quickly eliminated because, according to Todd, it looked like a third-world nation.</p> <p>When this is discussed we hear about Haitians. How do they get to our border? Todd indicated that immigrants from 120-130 nations have access to migration routes through South and Central America on up to our southern border. One of the misconceptions is that they’re coming from Haiti when in fact, none of them are. They have better living and prosperity (compared to Haiti) in Chile and Brazil for between 3 to 7 years with residency permits and work permits provided by these governments. They were riding out the Trump order, waiting for Democrats to get into office. Individuals told Todd that they saw how President Biden was opening the border and the smuggling money was flowing off. Todd described it as a time for them to upgrade their already pretty good lives in Chile and Brazil for the U.S. They want to apply for asylum on the grounds that they can’t be returned to Haiti. So they dump their belongings on the Mexican side of the river so that they aren’t “outed” as having been domiciled in a safe third country.</p> <p>As the broadcast moved along, Todd described how the Biden administration has dealt with the Haitian exodus. He said why some buses full of Haitians were hijacked, what really took place with the border agents on horseback and the border agents, what this means for Biden’s polling numbers and much more.</p>
9/29	Educational Alternatives	Jim Schneider/ Michael Benjamin	<p>Battles are being waged in classrooms across America. Much of it centers around curriculum, practices and standards, sometimes over matters such as political correctness. Sadly, oftentimes students are caught in the crosshairs of the pawns on a chessboard. As a result, they are the ones that end up being victimized by the system.</p> <p>Fortunately there’s a growing chorus of parents that are rising up and pushing for the ability to make educational choices that are best for their child.</p> <p>Appearing with Jim to discuss this issue was Rev. Michael Benjamin. Michael served as the National Director of the Advocacy and Mobilization for the American Federation for Children and led a team that oversaw the grassroots mobilization efforts, which maintained and cultivated an extensive advocacy base on behalf of our nation’s children. The most need of equitable educational opportunity and access. Michael now serves as AFC’s Senior Advisor for grassroots leadership engagement, grassroots advocacy and mobilization efforts.</p> <p>Michael has worked in the educational choice field since 2000 and has established a national reputation for recruiting, organizing, train and mobilize supporters of educational choice. In 2001, he co-founded Step Up For Students and oversees the Florida Tax Credit Scholarship for low-income students and helped convince the legislature to create it. The program now serves over 100,000 low-income students in over 1,800 schools throughout Florida.</p> <p>For several years he’s also served on the national board of the Black Alliance of Educational Options.</p> <p>Michael began by stating the following: “The mandate is to educate the public. It is not to sustain a system that went on to note that in order to do this, there are many avenues one can take to get there and to put educational choice on the educational ‘menu’ and leave it up to the parents to decide what’s best for their children.</p> <p>He sees the pandemic as having exacerbated these issues where in some situations, parents have had to educate their children at home as a result, they’re finding out what their children know and don’t know.</p> <p>When asked about the state of education in America today, he indicated that we’re in trouble. Children are not being educated and not functioning at a level that will allow them to meet their hopes and dreams.</p> <p>Perhaps the most shocking thing he mentioned that’s an outgrowth of this is that if you’re not reading on a 3rd grade level, they’re already building a prison cell for that individual and with the privatization of prison cell construction, they’re building customers in order to build their revenue. If you look at the demographics of who’s already there, it would be, as he noted, an “uncoordinated, haphazard situation.”</p> <p>The discussion continued by providing Christian parents with options that can help them and their children. With that focus in mind, Jim had Michael comment on alternative programs such as home schooling, charter schools, education savings account programs and scholarship tax credit programs.</p> <p>Comments from listeners round out this very informative program.</p>
9/30	US Murder Rate Skyrockets	Jim Scheider/ Michael A. Letts	<p>The FBI reported September 27, 2021, that murders across the United States in 2020 rose by 29.4% compared to 2019. 4,901 more murders were committed in 2020 than in 2019. It’s reportedly one of the largest single-year increases recorded since records began in the U.S. in the year 1960. This at a time when police departments across the country are vilified, morale is tanking and leftist legislators combined with activist groups are calling for defunding the police. Wonder why the murder rate is seeing a sharp increase?</p> <p>Joining Jim to address this issue was Michael A. Letts. Michael is the founder and president of In-Vest U.S., a grassroots, non-profit organization that is helping hundreds of communities provide thousands of bullet-proof vests to police forces through educational, public relations, sponsorship and fundraising programs.</p> <p>The staggering increase in U.S. murders is bad enough, but Michael began by noting that if you look at the increase in the murder rate was almost 60%. He noted this is ironic because a lot of it’s been caused by Antifa and Black Lives Matter. In other words, these groups are hurting the very people they claim to be supporting.</p> <p>Also interesting is that the murder rate is higher in cities with smaller populations between 10,000 and 250,000. Michael believes it’s due to the concerted effort by leftists, Marxists and socialists over the past 15 years to destroy the police. He believes to do that in order to remove local and state law enforcement as well as our military.</p> <p>Michael believes that Black Lives Matter riots and protests are just the first stage in destroying our first responders. This occurred under President Obama where we began to see the vilification of such individuals.</p>

			<p>racist. At first it backfired when black officers refused to go along with it. When that didn't work, they moved next to not funding protective gear, then to defunding police, to creating regulations that would make it difficult for those who protect us to do their jobs, and on to mandated vaccination. What Michael discovered is that the FBI and the Justice Department's own statistics show that within 3 years enough first responders to answer 9-11 calls. So we're quickly headed for a time that when you call 9-11 they're asking for your name, number and the nature of your emergency, at which point they'll tell you they'll respond if you can.</p> <p>Don't local municipalities provide protective gear for law enforcement? In 1993, when Michael started in America's law enforcement officers did not have protective vests. They were able to reduce that to 28%. Concealable vests will only stop a sidearm but won't stop a rifle round and criminals were beginning to use them. This means new technology had to be developed utilizing titanium plates to stop rifle rounds. Unfortunately, a lot of officers around the nation do not have active shooter vests.</p> <p>Michael's organization helps raise funds for providing officers with active shooter vests. Learn more, including what you can do to help, and hear what listeners had to say, on this edition of Crossroads.</p>
