**INTERVIEW:**

**GUESTS:** Katy and Gene Snook

**PERTINENT INFORMATION:** On February 26, 2016 9<sup>th</sup> grader Katy Snook – a student from New Leaf Academy – came to Combined Communications for a tour as part of a class project on creativity. Her father, Gene Snook, accompanied her. I took them through the building and explained the management team, the sales department and then guided them through each individual station. Jeff Howell took some time to explain what an Account Executive does. Dave Stalker was kind enough to chat with Katy about production work. We came into the 101.7 studio where Katy and her father interviewed each other over the microphones. I e-mailed them a copy of their segment, which Katy herself named “Katy’s Talk Show.” After forty minutes together, I escorted them back to the lobby.
