HOPE TO PARENTS OF CHILDREN WITH AUTISM

[TAKE PKG] {***PKG***} [Anchor:GREEN] <(NATS: I put a bunch of ingredients into my mixture. I'm going to make our famous mocha granola.) IT'S A SIMPLE GRANOLA RECIPE... BUT THESE WORKERS ARE EXTRAORDINARY.NOAH says "And, I'm sealing the bags that go in the box and they go to people who want them."LIBERATORE says: "And, it sounds like a Cinderella story. Wow, you're doing so great. But the fact is that we didn't do this to develop a granola sweatshop." DOCTOR LISA LIBERATORE IS THE FOUNDER AND CREATOR OF LUV MICHAEL, A GRANOLA COMPANY DEDICATED TO EMPLOYING, EDUCATING, AND TRAINING AUTISTIC ADULTS. THE COMMERCIAL KITCHEN IN THE HEART OF NEW YORK'S TRENDY TRIBECA NEIGHBORHOOD, IS A TESTAMENT TO HER DEVOTION TO HER SON MICHAEL, WHO WAS BORN WITH AUTISM.LIBERATORE says: "One of the challenges we see is how does a person who's on that spectrum have an opportunity to live an independent life beyond the lives of the parents?" WHEN MICHAEL WAS A TEENAGER, HE AND LISA VOLUNTEERED IN THEIR SOUTHAMPTON GREEK ORTHODOX CHURCH KITCHEN. THAT'S WHEN SHE DISCOVERED MICHAEL HAD INCREDIBLE SKILLS PREPARING FOODS.LIBERATORE says: "She said, Lisa, we did in one day what would normally take us three days." SHE HIRED A CHEF TO TEACH MICHAEL TO DO PREP WORK IN THEIR HOME, AS IF IN A REAL PROFESSIONAL KITCHEN. EVENTUALLY... THEY MADE GRANOLA, THEN BEGAN SELLING GRANOLA... AND THAT GREW TO A NON-PROFIT GRANOLA BUSINESS WITH SALES TO STARBUCKS AND MAJOR GROCERY STORES.(NATS: "So we all know what a rolling pin is?") THE CHURCH'S KITCHEN IS NOW THE COOKING CLASSROOM. AS WELL AS A SCHOOL -- TEACHING BASIC SOCIAL SKILLS.(NATS: "OK. Eric. You want to read the next part?") THE CHURCH IS HELPING BUILD A NETWORK OF HOMES FOR AUTISTIC ADULTS TO LIVE INDEPENDENTLY AND BUILD FRIENDSHIPS. IT'S TRANSFORMED THE ENTIRE COMMUNITY.LAZARAKIS says: "They have helped the members of this church family learn how to give those spiritual gifts of love, of acceptance, of forgiveness." THE HOPE THAT LUV MICHAEL IS BRINGING THIS HOLIDAY SEASON, IS TWOFOLD. IT'S PREPARING THOSE WITH AUTISM TO WORK IN THE WORLD. AND IT'S ALSO PREPARING THE WORLD TO WELCOME THEM. 12-30-2021 5A PUNISHED FOR PRACTICING DONUTS IN SNOW
[TAKE PKG] {***PKG***} [Anchor:BRIAN] [TAKE SOT JONNY ARGYLE] It's .. real life experience practice for them to go out and learn how to control their car when it gets a little out of hand IT'S THE SEASON WHERE PEOPLE DRIVE LIKE THIS, MAYBE FOR FUN, MAYBE TO GET USED TO SLIPPERY ROADS AGAIN. [TAKE STANDUP] So is sliding around on an empty parking lot good practice or trespass possibly reckless driving. It depends who you ask. KRISTI, WHO DOESN'T WANT HER LAST NAME USED, SAYS HER SON'S ANXIETY KICKED UP AFTER A SLIPPERY DRIVE THROUGH SARDINE CANYON... [TAKE SOT KRISTI / MOTHER OF SONS CITED FOR RECKLESS DRIVING] I had suggested him and his brother go practice driving in the snow. THE 17 AND 20 YEAR-OLD CAME TO THIS CHURCH PARKING LOT IN HYRUM. THEN THE LAW SHOWED UP. [TAKE SOT KRISTI] They don't believe the police officer even saw them doing any sliding. But they were open and honest with the police officer and cooperative. AND THEY BOTH LEFT CITED FOR RECKLESS DRIVING. [TAKE SOT CAPTAIN CURTIS HOOLEY / LOGAN POLICE] You can receive a ticket for what's called reckless driving upright or property and that's basically you're driving your vehicle in a willful and wanton disregard for people's safety or the property. IT WAS NOT LOGAN P-D THAT CITED THE BROTHERS, BUT CAPTAIN HOOLEY SAID THERE'S ALSO A TRESPASSING ISSUE. [TAKE SOT HOOLEY] as a citizen we don't have the right to disgo neutralize people's parking lots for for things such as you know doing donuts and those types of things HOOLEY SAYS DONUTS AND E-BRAKE YANKS DON'T CREATE A REAL-WORLD SIMULATION ANYWAY. JONNY ARGYLE DISAGREES, MAKING ANNUAL SLIDE SESSIONS IN HIS VINTAGE VW. [TAKE SOT ARGYLE] More of these people on the freeway is that as soon as the snow flies if they'd have done that in the parking lots they probably wouldn't have gotten accidents BOTH AGREE THAT LOOKING LIKE TRAINING, NOT THRILLS, HELPS. [TAKE SOT HOOLEY] Officers do have discretion and for me personally if I were to come across somebody that's doing donuts versus somebody that is with an adult or they are an adult and they're trying to learn how to control the car in the sides good I probably would address that differently. [TAKE SOT ARGYLE] If they pull up and you say this is an educational thing I'm helping my kids learn how to drive the answer I've always gotten it's happened 2 or 3 times the answer I've always gotten has been be careful [take sot KRISTI] I don't know how else kids are supposed to learn KRISTI SAID SHE HOPES TO GET THE CLASS B MISDEMEANOR REDUCED. [TAKE SOT KRISTI] Reckless driving is a very big deal and it can cause a lot of damage to me and my sons. [Notes:NATS] BRIAN CHAMPAGNE, FOX 13 NEWS, UTAH.

Education and preparedness can save lives." [Notes:CRAIG GORDON/UTAH AVALANCHE CENTER] Gordon at 3:45 to 4:00 "This is going to be the real deal in the backcountry. Once triggered, avalanches are going to break deep. They are going to break wide. They could take out the entire season snowpack. These are unsurvivable backcountry avalanche conditions." [Notes:broll and nats pop of them showing off gear] PAULDING AND PROCTOR SHOWED US THE GEAR THEY USE TO STAY SAFE, INCLUDING BEACONS, WHISTLES TO AN INFLATABLE AIR PACK. THEIR BEST TOOL IS KNOWING THE SNOW CONDITIONS. Proctor at 11:21:56 to 11:22:04 "But day to day and week to week, I just kind of read the avi forecast everyday and keep it in the back of my mind so that I have kind of a history when I go out and ski." Paulding at 11:19:21 to :28 "The Utah Avalanche Center does a really good job educating everyone, and a lot more people are tuned into that and you've got to give them credit." Paulding at 11:20:10 to :12 "My goal is never ever be in an avalanche." Proctor at 11:23:00 to :05 "No, you can stay safe. It's just a matter of choosing not to go places when it's dangerous." [TAKE PKG] {***PKG***} [Anchor:RICH] {***RICH***}GEM STUDIOSThe GemStudio believes in creating an environment for our local community to gather, refine and reform gems. We also work to refine and reform impoverished communities. The GemStudio's humanitarian efforts uniquely help others across the world.Over the past 5 years, we have been involved with humanitarian work in developing nations, including work on several entrepreneurship and microloan projects, planned medical outreaches and important construction projects. A portion of the profits made at The Gemstudio are used to support our orphanage in Uganda. We also sell rings made by young girls in Nepal who have been rescued from sexual violence and donate all of the proceeds back to them. Our relationship with the Ugandan orphanage was born out of a humanitarian trip for a volunteer organization based in Uganda. GemStudio founder Matt felt inspired to be there and knew he needed to find a way to leave his mark on this beautiful country. This dream came to fruition when Matt met a local Ugandan woman named Carolyn Bisikwa, who wanted to start an orphanage in her village. What started as a tin shed and a number of mud-walled classrooms on top of a hill is now a growing orphanage, home to over 60 children. These children have lost their parents due to death, abandonment, neglect, or abuse. Matt and GemStudio team members return often and work to provide a loving and safe environment for them to grow up in. Our hope is to have changed the course of these children's lives.

[TAKE PKG] {***PKG***} [Anchor:JOE] {***JOE***}<Something is happening in coal towns across the country The trains carrying coal from the mines are becoming more frequent, not less. The U.S. Dept of energy reports coal is up 22% from last year. That's the first increase in 7 years Mines like this are reopening because of demand, mainly from electric companies who still rely on coal to generate power. Coal is cheaper to burn than oil or gas. "6.57.01 I first started working in the mines in 1971" The news you might think would make this group of retired coal miners excited. They live in Appalachia. Coal defines this regions history and economy. "7.27.47 for all-intensive purposes

coal is gone and on its way out" But this group doesn't believe coal has much of a future beyond this latest boom, believing environmental concerns will inevitably prevail. No, these coal miners... "71738 we feel forgotten" Are actually upset right now..and all it has to with black lung disease A medical condition that comes from years of breathing coal dust, scaring the lungs. 7:18:43 the majority of the people don't know what coal miners are going through. Terry Steele says miners like him were promised black lung benefits, which is a government program established in 1979 to compensate miners for their dangerous work. THEIR current monthly check is around \$700 bucks. But right now the future of that is unclear The excise tax on coal companies that funds the program expires at the end of the year The build back better bill was set to extend it 4 years but right now that doesn't have the votes to pass. Ron Yates says it's already hard enough to get the benefits. He doesn't want limited funds to make it any harder. "70731 Ive been turned down 5 times for black lung" These men say Congress needs to address the issue as soon as soon possible. Over 25,000 miners across the country currently receive benefits. 72631 we aren't asking for much 73145 this was the energy center of this country for a while. In Matewan, WV I'm Joe St. George.>

WALENSKY says: "We are going to be looking for: Is it more severe if you've been vaccinated or

boosted?....The more mutations a variant has, the higher level you need your immunity to be." THE F-D-A SAYING FURTHER STUDY IS *NOT* NEEDED BEFORE AUTHORIZING BOOSTER SHOTS FOR TEENS 16 AND UP - SIGNALING THE AGENCY HAS NO MAJOR SAFETY CONCERNS FOR THAT AGE GROUP. A BIG PART OF THE PUSH TO GET SHOTS IN ARMS INCLUDES VACCINE MANDATES - BUT THAT EFFORT SUFFERED ANOTHER SETBACK IN COURT - A NEW YORK JUDGE PUTTING A HOLD ON THE CITY'S MANDATE FOR ALL PUBLIC WORKERS, INCLUDING POLICE AND FIREFIGHTERS... BUT THE CITY SAYS MORE THAN 90 PERCENT OF THOSE WORKERS HAVE ALREADY GOTTEN THEIR SHOTS - AND DEMAND FOR BOOSTERS HAS BEEN SKYROCKETING SINCE THE EMERGENCE OF OMICRON. [TAKE PKG] {***PKG***} [Anchor:MILLS] <((CHAD ON CAM)) CHAD MILLS // @CHADKMILLS "They're using new technology to figure out where cars are swerving... to more quickly find debris on roads like this one." That's the premise of the project they've been working on for more than five years now. And now, they're celebrating a milestone. USF's Center for Urban Transportation Research has been awarded a patent for the solution it developed with the help of the Tampa Hillsborough Expressway Authority. Here's how it works. Their research showed that if you add a wireless transmitter to cars, it allows those cars to communicate lots of real-time data to highway workers... that tells them where cars are swerving to get around debris. The thinking is... with that data... highway workers can get to the debris faster to clear it before there's a wreck. Researchers tested the tech on a thousand cars to very accurately find debris on the Selmon Expressway. ((TAKE SOT)) BOB FREY // TAMPA HILLSBOROUGH EXPRESSWAY AUTHORITY 11:48 "It provides actionable data. We get information that there's a potential hazard in the roadway, we're able to send people out to get it taken care of and removed and keep the road operating safer." By the way, when it comes to privacy... they tell me the transmitter wouldn't be able to track a specific driver's movements... just the overall trend in where traffic is swerving. ((CHAD ON CAM)) CHAD MILLS // @CHADKMILLS "Now, researchers are hoping auto manufacturers will embrace the technology and add it to their future designs. In Tampa, Chad Mills, ABC Action News." >

IN IT, IT ACKNOWLEDGED THESE PAST ERRORS. THE LEGISLATION INCLUDES \$1 BILLION FOR THE RECONNECTING COMMUNITIES PILOT PROGRAM THE MONEY WILL BE USED TO INVEST IN AREAS HURT THE MOST. IN SOME CASES, ROADS OR BRIDGES MAY GO AWAY IN OTHERS PERHAPS NEW BUS STOPS. <"we don't want to impose a one size fits all answer... we have to listen the community"> MINISTER SMITH ACKNOWLEDGES A BILLION DOLLARS PROBABLY ISN'T ENOUGH TO TAKE DOWN THIS ROAD AND REBUILD HOMES. BUT HE WOULD LIKE SOME MONEY USED TO IMPROVE TRANSPORTATION HERE. OR PERHAPS CREATE JOBS. <"we want to see something that benefits the community."> IN BALTIMORE, I'M JOE ST. GEORGE.

I think women, especially, have the propensity to take care of everybody else before themselves and start to feel overwhelmed and sometimes even resentful.SHE SAYS IT'S THE SAME IDEA AS WHEN PARENTS ARE INSTRUCTED ON A PLANE TO PUT THEIR OXYGEN MASK ON FIRST.2:25 We have to take care of ourselves first so that we can be better equipped and physically and mentally ready to tackle the holidays.SHE ALSO RECOMMENDS KEEPING A SCHEDULE, AND CONSISTENCY IN YOUR ROUTINE.2:56 Keeping that routine will give us some sort of control over the situations and ultimately over our emotions, too.PLAN SOME ALONE TIME.3:09 I like to call them mini-vacations. You go to a quiet place and shut your eyes and pretend you're on a beach and somewhere tropical and just rest and rejuvenate and that can really do a lot to our brains and enhance our mood.AND IF YOU DON'T FEEL SAFE YET IN LARGE GATHERINGS THIS SEASON, YOU DON'T HAVE TO ATTEND.4:55 Don't set yourself up for increasing that anxiety by putting yourself in a situation you know could make you feel awkward.REMEMBER YOU'RE IN CHARGE OF YOUR ACTIONS.6:13 It's up to us to be in control of what we do and how we think and how we respond to a situation.WHEN IT COMES TO LONELINESS DURING THE HOLIDAYS, SHE SAYS VOLUNTEERING IN YOUR COMMUNITY COULD BE A WAY TO START A NEW TRADITION THAT MAY HELP YOU CELEBRATE THE SEASON.>12-10-2021 12P TEXAS ABORTION RULING 1210

IT WAS JUST A LITTLE MORE THAN A MONTH AGO - NOVEMBER FIRST -- WHEN THE SUPREME COURT HEARD THREE HOURS OF ARGUMENTS OVER TEXAS'S UNIQUE ABORTION LAW THAT BANS THE PROCEDURE AFTER SIX WEEKS OF PREGNANCY AND EMPOWERS PRIVATE CITIZENS TO SUE ABORTION PROVIDERS FOR UP TO 10-THOUSAND DOLLARS. A TEXAS STATE JUDGE ON THURSDAY RULED THAT ENFORCEMENT SCHEME UNCONSTITUTIONAL AND SAID IT COULD OPEN PANDORA'S BOX. WHILE THE CONSTITUTIONALITY OF ROE V. WADE WAS NOT BEING ARGUED IN THIS CASE, THE LEAD PLAINTIFF LAST MONTH SAID THIS LAW IS STILL DESIGNED TO CHIP AWAY AT ABORTION RIGHTS.MILLER says: "Unfortunately this law has blocked people's ability to get access to abortion for two months in the state of Texas....People who live in Texas should have that right just as much as people who live in the surrounding states." ABORTION OPPONENTS LOOKING AHEAD TO A LANDMARK DECISION IN A MISSISSIPPI CASE THAT COULD COME DOWN THIS SPRING.TURLEY says: "That will be the case that will likely reframe the issue of reproductive rights." BENJAMIN SANCHEZ – AN ASSISTANT PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING AT THE UNIVERSITY OF UTAH – DEVELOPED THE TOOL. 2:36 "Really what it is, is making it possible to screen people that otherwise wouldn't be screened until they were at an age of 40." HE SAYS THE DEVICE IS SAFER AND LESS PAINFUL THAN A MAMMOGRAM. IT CAN BE USED MORE OFTEN IN YOUNGER WOMEN, THOSE ALREADY UNDERGOING TREATMENT FOR CANCER, AND PEOPLE WITH DENSE BREAST TISSUE THAT MAKES CANCER HARDER TO DETECT. 1:37 "Mammograms are a great tool. The only issue that they have is that they involve low doses of radiation. They are not recommended for young people. Although those people may be at risk of developing breast cancer as well." A SMALL CLINICAL STUDY SHOWS SANCHEZ'S PROCEDURE IS ABOUT 70-PERCENT EFFECTIVE AT PREDICTING WHETHER A PATIENT HAS CANCER, SO MORE TESTING IS REQUIRED. BUT HE SAYS IT'S A GOOD FIRST STEP IN THE DIAGNOSTIC PROCESS. 4:59 "Otherwise that person, the breast cancer could go unnoticed and that would be far worse." >

[TAKE :ON CAM] {***ON CAM***} [TAKE :FULLSCREEN] {***FULLSCREEN***}Salt Lake City Unveils New Mark Smith Memorial Arboretum at Salt Lake City CemeterySALT LAKE CITY – Salt Lake City's historic Cemetery now boasts a newly-accredited arboretum named after longtime Cemetery Sexton Mark Smith, who died in 2019. The Mark Smith Memorial Arboretum is a formal recognition of the City's commitment to preserving and enhancing the 122-acre site as both an active cemetery and a public open space."As a longtime champion of preserving and expanding our City's beautiful urban forest I'm thrilled our City now has an official arboretum in one of our most historic and storied public spaces," said Salt Lake City Mayor Erin Mendenhall. "To have it named in Sexton Mark Smith's honor is fitting, as he was a valued public servant who loved the cemetery and its beautiful tree canopy."An arboretum is a collection of a variety of woody plants - primarily trees - grown and maintained for educational, scientific, and ornamental purposes. The Cemetery's arboretum features 80 varieties of trees including everything from an Austrian Pine to a Zelkova. Each tree is marked with a small plaque at its base and visitors can find a map online [Notes:slc.gov] and at the sexton's office with locations for each tree.The idea for the arboretum was championed by Sexton Smith, who for 20 years was a near-constant presence at the cemetery, where he served as its 31st and longest-serving sexton. The arboretum unveiling took place this morning - his birthday - and a sign reading "Mark Smith Memorial Arboretum" was unveiled in the southwest corner of the cemetery, near the main entrance. "Over the last 170 years, generations of Salt Lake City residents have planted and cared for trees in hopes of cultivating a better quality of life. As a result of those efforts, a forest for people grew. Establishing an accredited arboretum on the Salt Lake City Cemetery grounds signifies the historical and enduring connection between trees and people in our great City," said Salt Lake City Urban Forestry Director Tony Gliot.Gliot and his team worked with Arbnet, an accrediting body, over the past year on the recognition. It's the first formally-accredited arboretum on City property.

And I like to eat good things and I define 'good things' as food that makes you smile just as much inside as it does outside; made with ingredients your great great grandmother's would easily recognize. And we just want to be a place that provides better food options.">ROSENBERG AND THE LIBERTY HEIGHTS TEAM GO TO GREAT LENGTHS TO SELL ORGANIC FOOD, MUCH OF WHICH IS GROWN IN THE COMMUNITY AND THAT HAS LITTLE TO NO CARBON FOOTPRINT. <"You know, we believe that any waste is too much. We have three of our own gardens we grow organically. We produce, gosh, a couple of tons of food this year that that we sold on our, on our shelves that had zero carbon footprint because they never rode in a vehicle to get here. And if they if they did because one of the gardens is around the corner, it was a very short ride. We vet the products very carefully and very seriously. We have some very strong opinions about certain ingredients and will not sell food that contains certain ingredients. And we've established a relationship based on trust with our customers knowing that when they come in our door, they know certain things will not be in sight any of the products on our shelves that all the products will be organically grown.">IT IS BECAUSE OF THIS DEDICATION TO ORGANIC FOODS AND HELPING TO PROTECT THE ENVIRONMENT, THAT SMITH'S FOOD AND DRUG, ALONG WITH FOX 13, IS AWARDING LIBERTY HEIGHTS FRESH WITH THIS MONTH'S ZERO HUNGER HERO AWARD. <"I think it's really awesome that you know, Kroger and Smith's and Fox 13 are recognizing steps forward to make this place more livable for everyone. 11-5-2021 9A BOOMERS IN WORKPLACE
[TAKE PKG] {***PKG***} [Anchor:STRASSER] < The most successful people are people who are dedicated to learning, dedicated to a continual quest for knowlege. stay on top of industry publications, attend industry events, learn from influencers and experts within your space, AND KEEP UP WITH TRENDS THAT IMPACT THE BROADER ENVIRONMENT. read publications like tech crunch, follow futurists, and listen, take the time to listen to the people around you. NEXT -- VOLUNTEER FOR NEW ASSIGNMENTS. The more siloed you are within your organization, the greater the risk you run of becoming obsolete. If all you are is the person who does this one specific task, what happens if that task no longer becomes relevant? by volunteering, by taking on new projects, by taking on new assignments, you're going to be able to put yourself in a position where you'll be more relevant than you were before. ADAM'S THIRD TIP -- SPEND TIME WITH YOUNGER GENERATIONS. Take the time to strike up conversations with millennials, with gen Z ears. We don't bite. We're friendly. Start off by understanding what might be an area of commonality between someone in your life, whether it's a coworker, whether it's a relative, whether it's a neighbor who's of a different generation. USE THAT COMMON INTEREST TO CREATE CONNECTIONS, BECAUSE... There's no better way to understand today's generation than by spending time with today's generation. FINALLY -- KEEP UP WITH TECHNOLOGY THROUGH ONLINE COURSE WORK. there's a whole spectrum in terms of the types of technologies that you can become expert in, whether we're talking about things like data science or even things like learning, how to become better at typing. you can take courses from ed ex, LinkedIn learning Coursera that can help you develop the skill set that will allow you to become more proficient in technology. ADAM SAYS IT'S NORMAL TO BE INTIMATED, BUT..... don't be afraid to just dive in. It doesn't matter where you are in your career. It doesn't matter where you are in your life. Just go for it. KEEPING BABY BOOMERS IN THE WORKPLACE..... IS AT THE TOP OF THE LIST. >

[TAKE PKG] {***PKG***} [Anchor:CORKE] <WITH NUMEROUS LAWSUITS PENDING OVER VACCINE MANDATES FROM GROUPS REPRESENTING TEACHERS, AIRLINE WORKERS, LAW ENFORCEMENT OFFICERS AND FIREFIGHTERS... IT IS CERTAINLY ARGUABLE THAT THERE IS A GROWING RESISTANCE TO BEING COMPELLED TO TAKE THE SHOT... WITH THOUSANDS OF AMERICANS NOW WILLING TO FIGHT AND OR WALK AWAY FROM THEIR JOBS TO PRESERVE THEIR BODILY AUTONOMY... IN FACT, TEXAS, LOUISIANA, MISSISSIPPI, SOUTH CAROLINA, AND UTAH ARE AMONG THE MORE THAN HALF OF ALL US STATES FILING OR JOINING LAWSUITS IN OPPOSITION TO THE FEDERAL RULE, WHICH WOULD REQUIRE BUSINESSES WITH MORE THAN 100 EMPLOYEES TO ENFORCE VACCINE MANDATES... AND THE RECENT CHALLENGES MAY BE TURNING THE LEGAL TIDE... CITING A RECENT COURT ORDER BY THE U.S. COURT OF APPEALS FOR THE FIFTH CIRCUIT THAT GRANTED A MOTION TO STAY THE VACCINE MANDATE, OSHA - THE OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION - HAS ANNOUNCED IT WILL TEMPORARILY STOP ITS ENFORCEMENT EFFORTS - QUOTE - "pending future developments in the litigation." THIS... AS SOME FEDERAL WORKERS ARE NOW ALSO PUSHING BACK... WITH A LAWSUIT FILED JUST THIS WEEK...ON BEHALF OF A US MILITARY MEMBER... CHARGING THAT THE GOVERNMENT'S SHOT MANDATE IS "unlawful and unconstitutional."MEYER SAYS: "We're getting ready to start kicking out our service members right now over this COVID vaccine. Does this not make us question what are the priorities of this administration? Is it national security or is it this woke movement?" BUT THE WHITE HOUSE INSISTS... MANDATORY... WORKS! NOTING THAT JUST ONE DAY AFTER ITS DEADLINE FOR COMPLIANCE, THAT SOME 92% OF THE 3.5 MILLION FEDERAL WORKERS AFFIRMED THAT THEY WERE AT LEAST PARTIALLY VACCINATED.BIDEN says: "Let's be clear, vaccination requirements should not be another issue that divides us. Every day we see more businesses implementing vaccination requirements and the mounting data shows that they work." STILL, CRITICS QUESTION THE EFFICACY OF SO-CALLED HEAVY-HANDED VACCINE MANDATES. THEY POINT TO STATES LIKE ... MICHIGAN, WHICH UP UNTIL JUNE, HAD A MASK MANDATE THAT HAD LASTED FOR SEVERAL MONTHS. AND YET NOW THE STATE LEADS THE ENTIRE NATION IN DAILY COVID CASES. THAT, OF COURSE, ALL HAPPENING, DESPITE THE FACT THAT MORE THAN 60 PERCENT OF MICHIGANDERS ARE AT LEAST PARTIALLY VACCINATED... IN WASHINGTON, KEVIN CORKE, FOX NEWS.>

THE REPORT FOCUSED ON CUOMO'S FORMER EXECUTIVE ASSISTANT BRITTANY COMMISSO, WHO IN A SEPARATE CRIMINAL ACTION, ACCUSED CUOMO OF GROPPING HER BREAST. THE INVESTIGATION WAS CONDUCTED BY A PRIVATE LAW FIRM COMMISSIONED BY THE STATE ASSEMBLY JUDICIARY COMMITTEE.LAVINE says: "He created a hostile work environment, uh, in which it was almost as if the Executive Office was a frat house and that contributed to an environment in which Andrew Cuomo, um, assaulted, uh, an employee." INVESTIGATORS ALSO FOUND CUOMO IMPROPERLY USED STATE WORKERS AND EQUIPMENT TO WRITE A MEMOIR THAT MADE HIM AT LEAST 5 MILLION DOLLARS. THE REPORT SAID CUOMO QUOTE, "Utilized state resources and property, including work by Executive Chamber Staff to write, publish and promote his Book regarding his handling of the COVID - crisis." WHILE CUOMO'S BOOK WAS A VICTORY LAP FOR HIS LEADERSHIP DURING THE PANDEMIC, THE REPORT DISPUTED SOME OF HIS CLAIMS. IT SAID CUOMO QUOTE, "Was not fully transparent regarding the number of nursing home residents who died as a result of COVID 19." A SPOKESMAN FOR CUOMO ISSUED A DETAILED STATEMENT ATTACKING ALL THE REPORT'S FINDINGS AND CONCLUDING QUOTE, "THE TRUTH WILL COME OUT." DESPITE CUOMO'S LEGAL PROBLEMS, THERE IS SPECULATION HE STILL HAS POLITICAL AMBITIONS, BUT, EVEN A FELLOW DEMOCRAT SAYS HIS DAYS IN GOVERNMENT SHOULD BE OVER.LAVINE says: "The report makes it very clear. Just be preparedRobin Saks Frankel is with Forbes Advisor.This year ... perhaps more than any she is just urging people to be patient.Airlines, like every other industry, are dealing with staffing shortages.Monday, was also the deadline for TSA employees to get vaccinated ... it's unclear how that will impact their staffing numbers. While airports typically get the most attention this time of year.They aren't actually the most popular means of holiday transportation. My dad later, later in years he said that um he couldn't fit in the drum um the body first, feet first they had to turn him and put him in head first." ERIC says: "So your father said Hoffa couldn't fit in the drum?"CAPPOLA says: "Couldn't fit in the drum feet first, couldn't get the legs to bend right, so he had to take him out and put him in head first." JIMMY HOFFA DISAPPEARED IN DETROIT IN 1975 . THE FBI WAS TOLD HIS BODY WAS TRANSPORTED IN A TRUCK IN A 55 GALLON BARREL AND LIKELY BURIED AT THE OLD MOSCATO'S DUMP RIGHT NEXT TO THE SITE. FRANK TOLD US HIS FATHER PAUL TOOK A BACKHOE DUG A 12 FOOT HOLE AND DUMPED THE BARREL WITH HOFFA'S BODY IN IT AT THE BOTTOM... BUT HE MOVED THE SPOT BECAUSE HE DID NOT WANT HOFFA'S BODY FOUND ON HIS PROPERTY. IN 2019 FOX NATION CONDUCTED THE GROUND PENETRATING RADAR SURVEY AND WE FOUND LARGE PIECES OF BURIED METAL IN HALF MOON SHAPES JUST LIKE BARRELS.ERIC says: "Is that metal?"PSIHOULES says: "Yes that's metal."ERIC says: "Yes definitely metal found several round shaped metal objects buried here - some were on top of each other which fits Frank's story exactly. And this is another spot right near the first one which is like, that's the round, roundest shape of what could be a barrel. So this could be the, this would be the spot." FBI AGENTS WERE AT THE SPOT A FEW WEEKS AGO AND THE BUREAU SAYS IN PART, QUOTE: "FBI PERSONNEL FROM THE NEWARK AND DETROIT FIELD OFFICES COMPLETED THE SURVEY AND THAT DATA IS CURRENTLY BEING ANALYZED. BECAUSE THE AFFIDAVIT IN SUPPORT OF THE SEARCH WARRANT WAS SEALED BY THE COURT, WE ARE UNABLE TO PROVIDE ANY ADDITIONAL INFORMATION."ERIC: "Do you think Jimmy Hoffa is still where your father buried him?"CAPPOLA: "99.99.99 per cent sure." THAT AFFIDAVIT IS FRANK'S STORY. AND HE'LL PUSH FOR HIS LARGER SOCIAL SPENDING PACKAGE, TOO. REPUBLICANS SAY THE ADMINISTRATION HAS MADE SUPPLY CHAIN BACKUPS EVEN WORSE.MACE says: "We're really not doing anything at all to help alleviate some of these, these pain points that we're seeing throughout the economy." 11-8-2021 5A FARMER ON TURKEY SHORTAGE THANSKIVING
[TAKE PKG] {***PKG***}< IF YOU WANT A SMALLER TURKEY THIS THANKSGIVING, GO BUY OR ORDER IT RIGHT NOW. LAST YEAR, WHEN BIG THANKSGIVING GATHERINGS WERE FEW AND FAR BETWEEN, FARMERS, KNOWING THIS, RAISED SMALLER BIRDS. THIS YEAR, WITH BIG GATHERINGS RETURNING, BIG BIRDS ARE ABUNDANT; SMALL BIRDS NOT SO MUCH.CONNAUGHTON says: "This year, we're seeing more demand for larger turkeys and multiple birds even." TARA FIRMA FARM IN PETALUMA IS A RARE FARMER-TO-CONSUMER PRODUCER OF MEATS, CHICKEN AND SEASONAL TURKEYS.CONNAUGHTON says: "We've seen feed costs go up and that's related to fuel costs going up because a lot of animal feed is still centralized in places like the Central Valley." CUSTOMERS ARE HAPPY TO PAY A PREMIUM HERE FOR LOCALLY PRODUCED, HUMANELY RAISED, HIGH QUALITY PRODUCTS THAT PAY WORKERS A LIVING WAGE. THE U.S. BUREAU OF LABOR STATISTICS SAYS, SINCE SEPTEMBER OF LAST YEAR, OVERALL FOOD PRICES HAVE INCREASED 4.6 PERCENT. THIS PRESENTS NOT ONLY A SERIOUS THREAT TO FAMILY FOOD BUDGETS, BUT TO

INFLATION PRESSURES AS WELL AS GROWING GLOBAL HUNGER PROBLEMS. CARROLL says: "All the staples stuff, I think, has gone up. I think people are feeling it in their pockets by, probably a family over a hundred dollars a month." WHEELER says: "I've been eating out a lot and I've been amazed that the restaurants have been holding their prices pretty firm; because when I go in the grocery store, I see prices going up." LABOR SHORTAGES ARE NOT THE ONLY REASON. THE RAPID RISES IN THE COST OF TRANSPORTING FOOD BY LAND, SEA AND AIR, TO PROCESSORS AND, ULTIMATELY, CONSUMERS, IS VERY REAL. A WORLDWIDE ENERGY SHORTAGE HAS FORCED MANY COMMERCIAL FOOD GREENHOUSE OPERATIONS TO SHUT OFF THE LIGHTS AND REFRIGERATORS, CRITICAL TO PLANT GROWTH AND PRESERVATION. THEN, THERE'S THE SKYROCKETING COSTS OF FERTILIZERS, ESSENTIAL IN RAISING LARGE SCALE CROP VOLUMES. FINALLY, A LOT OF BAD WEATHER AROUND THE GLOBE HAS SERIOUSLY INTERFERED WITH THE BOUNTIES OF THE HARVESTS THEMSELVES. ALL THIS ON TOP OF THE SUPPLY CHAIN DEBACLE.CARROLL says: "They don't have any control but they also weren't aware that this was gonna happen." WHEELER says: "And, I think it could be really hard being a family on a tight budget."

For over 100 years young men have been required to register. Women have not but that could changeThe United States Senate is set to take u the National Defense Authorization Act soon and in addition to addressing military ay and other benefits they are set to consider whether women should register with the selective service when they turn 18.rofessor Jen Sindel of the University of New Hamshire exlains"3:14 It really is the first moment that including women in the draft seems like it might ass"If it asses it would mean women, just like men between the ages of 18 to 25 would have to go to the selective website and submit their name address and social security information.In theory, that would be it. The United States hasn't actually used the draft since 1973, relying on volunteers to staff our military but Sindel exlains that many worse case scenerios highlight the U.S. being at a disadvantage"1:38 by excluding women from the draft, should the U.S. ever need to activate the draft, they would be missing out on a lot of skills that women bring"The ACLU has called this one of the last remaining sexist olicies by the federal government, advocating for it to change. But there is conservative oosition. Reublican Senator Josh Hawley has said "immoral" to draft young women into combat. It's unclear exactly how this will lay out in Congress but a final decision is exected in the coming weeks.In Washington, I'm Joe St. George.

PROJECT FOUNDER DOCTOR STACEY MADSEN says the STATE OF UTAH IS NOT DOING ENOUGH. 2:41 so the states that have made the most progress are states that have more discussions, more public policies, have major companies in the state stepping forward, talking about that making changes of policies within their companies 2:56 MADSEN SAYS A MULTIFACETED APPROACH IS NECESSARY BECAUSE THE GENDER PAY GAP IS A COMPLEX MATTER CONTAINING A LOT OF DIFFERENT LAYERS. THAT INCLUDES THE REOCCURRING THEM OF OCCUPATIONAL SEGREGATION. 8:58 that's a real issue when women are really drawn to certain areas and the pay is particularly low. Madsen identifies EDUCATION AND HOSPITALITY FIELDS AS SOME OF THEM. THE REPORT ALSO HIGHLIGHTS THE ROLES SOCIETY AND CULTURAL NORMS HAVE ON WOMEN. [Anchor:SPENCER] [TAKE PKG] {***PKG***} [Notes:Brent Jensen, commander, Davis County Search and Rescue] We provide a service for to be able to rescue people in bad situations... ITS THE MISSION OF EVERY SEARCH AND RESCUE CREW IN UTAH... BRING EVERYONE HOME SAFELY BUT A NEW SOCIAL MEDIA POST HAS CREWS ACROSS THE WASATCH FRONT WORRIED. IT SAYS IN PART Change the voicemail on your phone to a message that gives your approximate location, the time, the date, your situation AND FACEBOOK HAS ALREADY FLAGGED THE POST AS PARTIALLY FALSE INFORMATION [Notes:Spencer Joseph] STAND UPS: here's the problem if you are lost you need cell phone signal and I just wasted precious battery life on my cell phone [Notes:Trevor Hatch Davis County Search and Rescue] There's a lot of better options to do... [Notes:Brent Jensen, commander, Davis County Search and Rescue] way before that might be an option. FIRST OFF IF YOU HAVE SERVICE... CALL 9-1-1 [Notes:Brent Jensen, commander, Davis County Search and Rescue] Beautiful thing about calling 9-1-1 is that our dispatch center gets a GPS ping within a few meters of where you are located AND IF YOU DON'T HAVE SERVICE... NO AMOUNT OF VOICEMAIL CHANGING WILL EVER GO THROUGH... LEAVING YOU STRANDED WITH A DEAD BATTERY. [Notes:Brent Jensen, commander, Davis County Search and Rescue] So we notice in the rescue scenarios that when you go up to cold cold environments we will notice that our cell phone batteries drop down to 10 - 12% AND ANOTHER THING DAVIS CO SEARCH AND RESCUE BRINGS UP... TELLING EVERYONE YOUR LOCATION COULD POTENTIALLY SEND OTHERS TO TRY AND LOOK FOR YOU [Notes:Brent Jensen, commander, Davis County Search and Rescue] If its grandpa or grandma now all of a sudden they are going up to look for their grandson. And that does from a search and rescue scenario complicate their efforts... AND YOU MIGHT THINK THIS IS ALL THEORETICAL... BUT TUESDAY NIGHT CREWS ENCOUNTERED A YOUNG MAN WHO TRIED TO GET HIS DRONE UP FARMINGTON CANYON. WITH VERY LOW BATTERY HE WAS ABLE TO CALL 9-1-1 [Notes:Brent Jensen, commander, Davis County Search and Rescue] And had he followed the suggestions that were on that post then we would not have been able to find him and he would probably be dead at this time... and just seeing that embrace of that mother and son... that is 100% why we do what we do. [Notes:Sgt. Spencer Cannon, Utah County Search and Rescue] From your perspective... why is this something you should or shouldn't do A lot of search and rescue organizations are bring up a valid point that if you are trying to do that... you are using battery life SGT. SPENCER CANNON WITH THE UTAH COUNTY SHERIFF'S OFFICE AGREES... AND BRINGS UP THAT IN A VERY LAST CASE RESORT YOU CAN ALSO TEXT 9-1-1 [Notes:Sgt. Utah offers tuition-free, short-term training programs at Weber State University and other Utah colleges. ● I am currently taking the CS Flex program offered at Weber State University.○ As a teacher, I'm always searching for ways to make tedious processes and jobs go quicker. ○ I've always loved computers and solving problems, so I decided to work toward a certificate in Computer Science to develop programs that allow me to spend more time helping students and less time on the "paperwork."○The CS Flex program at WSU provides a flexible learning environment with scholarships available to make it affordable for students.● The last couple of years have been rough for everyone. My family didn't escape the craziness!○ My husband had to make a job change in the middle of the pandemic, which caused us to have to move.○He took a pay cut and housing costs rose.○ As a result of the pandemic, scholarship funding for the Computer Science courses I was currently taking was lost, and without it, I didn't know if I could continue. ■ With Learn & Work funding, I earned a certificate through Weber State, and now I am teaching Computer Science to high school students as well as using my knowledge to simplify processes through computer programs that automate a lot of the work.● What's great about the CS Flex program being online, is that I was still able to continue to take classes from our new home without any trouble.○ Additionally, working full time, being a mom, and everything else that comes with life makes it really hard for me right now to designate specific times (during waking hours) to attend classes.○ CS Flex gives me the ability to complete the work when it works for me, while still providing the structure of deadlines to make sure it gets done in a timely manner.● I was able to complete the Computer Science certificate and earned my teaching endorsement, which I've used to already begin teaching those classes to k-12 students. I'm LOVING it!○ With the added education, I was able to receive a little bit of a pay increase as well.○ I am continuing my education through the CS Flex program toward an associate degree in Computer Science.○ Right now, the goal is to help improve processes at my current school. ○ Eventually it may get bigger than that so that I can make more of a difference for more educators working for an EdTech company as a programmer.○ I think it's invaluable to have programmers that know the programming side as well as the teaching side.● You can still enroll in tuition-free programs across the state for many upcoming courses, but space is limited, so don't wait!● Visit learnandwork.org to see what programs are available.

10-6-2021 9A WOMEN HEALTH HACKS
[TAKE PKG] {***PKG***}<I'd love to discuss the top three issues that women face and how to really focus on prevention. FIRST UP, DR. TARA IS DISCUSSING BREAST CANCERThe number one cancer in women is breast cancer. SO DR. TARA SAYS AWARENESS AND PREVENTION ARE IMPERATIVE...SHE RECOMMENDS- decreasing the plastics in your environment, simple things like reusable water bottles instead of the disposable water bottles or changing your Tupperware from Tupperware to glass snap, those plastics are what we call endocrine disruptors. WHICH DR. TARA SAYS ARE CHEMICALS THAT ACT LIKE ESTROGEN IN OUR BODIES.... WHICH CAN LEAD TO AN INCREASED RISK OF CANCER.....AND BESIDES DITCHING PLASTIC-- SHE SAYS OUR DIETS CAN PLAY A HUGE ROLE. there is a recent study that just eating a little bit less meat and more poultry has been translated to A, decreased risk in breast cancer, AS WELL AS ADDING CERTAIN FOODS INTO OUR DIET LIKE- cruciferous vegetables, cabbage, broccoli, kale, blueberries are really great antioxidants and fiber. A lot of people don't even have fiber. All of those are going to really add at both the cellular detoxification of estrogen and also the elimination in your gut. NEXT, WE'RE TALKIN' HEART DISEASE-I think as a whole, we do a great job being preventative, looking at cholesterol levels, looking at sugar levels, but many women don't realize that estrogen has a link to heart disease. AS FOR OTHER HORMONES TO BE AWARE OF- Vitamin D often thought as a vitamin is actually a hormone and low vitamin D has an addition been associated with an increased risk of heart attacks. And finally, testosterone low testosterone has actually been linked to all cosmic increase in all-cause mortality in women. SO SHE RECOMMENDS WE WORK WITH A HORMONE SPECIALIST TO REGULATE OUR HORMONE LEVELS-- AND PRACTICE STRESS MANAGEMENT!!! things like getting enough sleep and definitely, yoga can reduce cortisol, which is associated with increased cardiac risk. FINALLY LET'S TALK OSTEOPOROSIS PREVENTION. One out of three women are effected by osteoporosis. Osteoporosis is a thinning of your long bones. That is the strength of the bone that thins and makes you at higher risk of fractures. SO SHE RECOMMENDS WE TAKE STEPS TO COMBAT IT. making sure that weight bearing exercise is part of your normal routine. So walking counts, running counts, it doesn't have to be running a marathon, but anything that has you putting weight on your, on your long bones, BUT DON'T FORGET YOUR TOP HALF SO SHE SAYS WORK ON THE ARMS AS WELL... AND CERTAIN MINERALS WE CAN TAKE LIKE- strontium and boron. So there's a lot of good bone health supplements out there that can also be helpful, GETTING AHEAD OF THINGS WITH WOMEN'S PREVENTATIVE HEALTH TIPS... IS ON THE TOP OF THE LIST.>:

10-7-2021 9P WHY A DEAL DOSENT SOVE THE DEBT PROBLEM
[TAKE PKG] {***PKG***} [Anchor:ST. GEORGE] A deal has been reached.""Republican and Democratic members and staff negotiated through the night""We have reached an agreement""The country was set to default on its debt October 18th unless Congress raised the debt limit, which is what allows the country to pay its bills.Inaction temporarily put everything from social security checks to military pay to child tax credit payments at risk.While the bipartisan agreement has temporarily saved the country from an economic crisis, it hasn't solved the problem long term.The agreement only increases the debt limit by around \$480 billion dollars,which means December 3rd, for now, is the new debt limit deadline.That is the exact same date as when federal government funding is also set to expire, putting the country at risk again for a possible shutdown.Does this all sound familiar? It means the same debate that's been happening over the last few weeks will pick up again soon.Joe St. George @joestgeorge 0:58-1:04But does the U.S. need a debt limit rule? Some say no and that its time to get rid of the rule and the debate.H.R.3305, the "End the Threat of Default Act, " is being introduced in Congress by some members.If it passes, it would no longer require Congress to raise the debt limitSecretary of the Treasury Janet Yellen was asked about it last week and endorsed the idea."I believe it's very destructive to put the President, myself where we can't pay the bills"So far however that legislation has not been seriously considered. Instead it appears Congress wants to reprise the confrontation come December. Republicans still want Democrats to raise the debt limit on their own. Democrats still want the debt addressed in a bipartisan way. In Washington, I'm Joe St. George
