PORN ON STUDENTS SCHOOL LAPTOP

[Anchor:SPENCER] [TAKE PKG] {\*\*\*PKG\*\*\*}SOT: I like to believe that my kids are safe at school... they go through earthquake drills... they go through fire drills... and yet every time I send my kids to school I'm allowing them to potentially be exposed and seek out inappropriate sexual material and even pornography. A MOTHER OF A STUDENT IN THE SOUTH JODAN DISTRICT WAS HORRIFIED TO FIND HER SON ABLE TO LOOK UP EXPLICIT CONTENT ON HIS CHROME BOOK ISSUED BY THE DISTRICT THAT HAD COME PRE LOADED WITH SAFEGUARDS THAT WERE SUPPOSED TO PREVENT IT SOT: it's definitely not something we would want him to have... its defiantly influencing the way he sees women and girls THERE HAD BEEN ISSUES IN THE PAST BUT AFTER INSTALLING HOME PROTECTIONS AGAINST IT SHE THOUGHT THEY WERE IN THE CLEAR SOT: I thought everything was okay... and then I caught some actual pornography on my son's school google drive. SO SHE CONTACTED THE DISTRICT EARLY THIS WEEK SOT: we didn't hear from them for several days so it's incredibly frustrating and very disheartening THEN ON FRIDAY SOT: they finally contacted us after a nudge from the Utah state board of education that I contacted on Thursday FOX13 REACHED OUT TO THE JORDAN SCHOOL DISTRICT WHO COULDN'T DISCUSS SPECIFICS BUT SAID "We thoroughly investigate all reports of inappropriate use of District issued electronic devices and accounts and continually enhance security for student safety."SOT: "I know that I'm not the only parent fighting this battle with the school district" SOT: "There's an issue and it's their responsibility to put a Chromebook in my Childs hands and expecting them to learn using it is their responsibility to resolve this issue." BUT ITS NOT THAT THE SAFEGUARDS ON HIS COMPUTER AREN'T ACTIVE... ITS THAT STUDENTS HAVE FOUND WAYS AROUND THEM SUCH AS MIS-SPELLING WORDS ON PURPOSE TO BYPASS BLOCKSAND THIS MOTHER IS HEARING STUDENTS MIGHT BE SHARING THAT INFORMATION. SOT: He is pretty determined but I am fairly certain that that is not something that would naturally occur to him I don't think so it doesn't surprise me to learn that there is some knowledge sharing about this stuff AND WHILE THIS SPECIFIC ISSUE IS NOW GOING TO BE TAKEN CARE OF... THIS COULD BE HAPPENING ALL OVER THE STATE WITH ONLINE LEARNING CONTINUING DURING THE PANDEMIC SO I ASKED THIS MOTHER "What is your message to parents?" SOT: "I really would like parents to realize their child is not as safe as they may think they are" SOT: "so, I would urge all parents to be more involved"

MILWAUKEE, FOR EXAMPLE, ARE EYEING A POTENTIAL RETURN TO IN-PERSON LEARNING AS EARLY AS NEXT MONTH... AND ARE RAMPING UP EFFORTS TO GET EVERY TEACHER INOCULATED. JOHNSON says: "It's encouraging for parents to know that educators who were maybe on the fence, um, and were waited... they still have access." BUT IT'S NOT SMOOTH SAILING FOR EVERY DISTRICT -- AS TEACHERS IN CHICAGO ARE FACING A VACCINE ROADBLOCK. TWO VACCINE CENTERS, UNDER INVESTIGATION, AFTER ALLEGEDLY GIVING AWAY THOUSANDS OF SHOTS MEANT FOR CITY SCHOOL EMPLOYEES. LIGHTFOOT says: "They've got work to do, I think, to rebuild trust in their own community." THE DEPARTMENT OF EDUCATION IS DOING ALL IT CAN TO GET AMERICAN SCHOOLKIDS BACK IN THE CLASSROOM. IN FACT, RECENTLY, THEY'VE ANNOUNCED THAT 81-BILLION DOLLARS HAS NOW BEEN MADE AVAILABLE BY THE GOVERNMENT TO IMPROVE THE IN-CLASS ENVIRONMENT... [TAKE :FULLSCREEN] {\*\*\*FULLSCREEN\*\*\*}SALT LAKE CITY — Five new films will start production in Utah after getting approval from the Governor's Office of Economic Development (GOED) Board, according to the Utah Film Commission. These projects will create approximately 300 local jobs and could generate approximately \$6.9 into the economy. "Mistletoe Mixup," a film featuring Joey Lawrence, Matthew Lawrence, and Andrew Lawrence, written by Park City resident Kaylin Richardson, will begin filming in March. "There is no other place in the US where you can get small town charm, stunning mountain vistas, and be within a convenient distance of a major airport. Utah is a special place, and we look forward to featuring it prominently in the film," said producer Tim Schaaf. Check out movies filmed in Utah here. "Christmas at the Madison, Part 1 & 2," two Hallmark Channel films starring real-life sisters Kimberly, Paisley, and Ashley Williams, is scheduled to film consecutively in April. "For over 15 years, I've chosen to film in Utah as much as possible," said Producer, David Wulf. "The crew base, diverse locations, the business friendly environment, and the incentives have all been crucial to these particular projects."  
"Summering" is another production coming to the state, directed and co-produced by James Ponsoldt of "The Spectacular Now." "Line Upon Line: Season 2", an animated series from local production company, Living Scriptures, was approved under the Community Film Incentive Program, supporting smaller, local projects. These films join thousands of others that have been filmed in Utah, including "Butch Cassidy and the Sundance Kid," "Thelma and Louise," "127 Hours," and television shows such as "Touched by an Angel" and "Westworld."

Mark your calendar for Friday, August 27 through Sunday, August 29.Over the last month, the Utah Arts Festival has conducted an in-depth evaluation of our options with the primary goal of holding a safe, in-person event in 2021. After asking the general community, artists, partners, board members, staff, and artistic coordinators about their interest and comfort in a live, in-person event, it was clear that people were enthusiastic about a live event, though it seemed best to move the Festival back to a time when there would likely be more safety and certainty in our lives.With all of that in mind, the Festival may look a little different as we follow the safety guidelines prescribed by the state health department, though there will still be that same fun and excitement people expect from the Festival each year."We're excited to get back to doing what we do best and safely welcoming the public to celebrate art and support the work of artists, many of whom have been hit hard over the last year. The festival is going to look a bit different this year, but it's exciting to have an opportunity to come up with new ideas and re-imagine things," says Aimee Dunsmore, Festival Executive Director.Mark your calendars now and be on the lookout for more details about the 2021 Utah Arts Festival as we finalize our plans.

[Anchor:QURAISHI] <WITHIN DAYS OF THE OUTBREAK MANY COMMUNITIES WENT ON NEAR TOTAL LOCKDOWN. THAT INCLUDED INDOOR POOLS AND AQUATIC CENTERS. NOW, SOME CITIES ARE ANNOUNCING PLANS TO RETURN TO THE WATER."Will it be safe to go back to the pools? think it depends on where those pools are. Right?"FOR SOME ANSWERS WE TURN TO INFECTIOUS DISEASE EXPERT DR. EMILY LANDON."First of all the chlorine in the water kills Covid it easily. So, we don't have to worry about the water being a reservoir. And there's often a little you know that chlorine smell that helps a little bit. Actually, there's chlorine in the air and that helps kill things."SO, WHEN PROPERLY MAINTAINED – POOL WATER EFFECTIVELY KILLS GERMS AND VIRUSES.THE CDC SAYS IT'S NOT AWARE OF ANY SCIENTIFIC REPORTS OF "...COVID-19 SPREADING TO PEOPLE THROUGH THE WATER IN POOLS, HOT TUBS, WATER PLAYGROUNDS, OR OTHER TREATED AQUATIC VENUES."OUTSIDE THE WATER IS A DIFFERENT STORY – ESPECIALLY AT CROWDED POOLS WITH A LOT OF CHILDREN."If those kids are also participating in a bunch of day camps and outdoor sports and indoor sports and camps and having lots of playdates with friends which they weren't doing last summer could be higher risk because kids aren't going to get vaccinated again until the end of the summer."IF THE POOL IS REALLY CROWDED -- THAT MAY BE A PLACE WHERE YOU SHOULD BE WEARING YOUR MASK. IN CHANGING ROOMS, LOCKER AREAS AND WALKING TO AND FROM THE POOL AREA.SWIMMING FOR EXERCISE MAY REQUIRE OTHER PRECAUTIONS."Don't share lanes if you don't have to you know try and make sure it's less crowded but you have to manage that risk if you've been vaccinated. You may not be very worried about it but if you've been vaccinated and you live with someone who has a chronic illness who hasn't yet been able to get a vaccine then you may want to be a lot more careful."AS IS THE CASE WITH HELPING TO REDUCE COVID SPREAD – VENTILATION SAYS LANDON IS KEY."Indoor versus outdoor pools if you have a choice?""Outdoor wins hands down every single time.SO, AS THE SUMMER DRAWS NEAR AND PUBLIC AQUATIC CENTERS BEGIN TO REOPEN OVER THE NEXT FEW MONTHS THERE ARE WAYS TO ENSURE YOUR RETURN TO THE WATER IS AS SAFE AS IT CAN BE."I'M ASH-HAR QURAISHI REPORTING.>

{\*\*\*PKG\*\*\*} [Anchor:PAINTER] COURT TV LEGAL CORRESPONDENT CHANLEY PAINTER: 00:01Powerful testimony from four bystanders today in the murder trial of Derrick Chauvin this morning judge Peter Cahill denying a prosecutor's motion over broadcasting of the juvenile witnesses during the trial. But the judge ultimately ruled that no video would be allowed for all four witnesses who were minors at the time of the incident plus no audio when the underage witnesses would say and spell their names. Judge Cahill allowed audio though of their testimony throughout the day00:30SOT: "It's been night I stayed up, apologizing, apologize to sort of for for not doing more and not physically interacting in not saving his life is not what asked him is what he should have done." That was the first of three under-aged witnesses Darnella she was one of two teens to record Derek Chauvin. On the day George Floyd died. We also expect to hear from other bystanders who were at the scene including the off duty firefighter Genevieve Hanson, who is expected tell this jury that when she tried to approach to intervene Derek Chauvin, the defendant actually grabbed his mace and tried to pepper spray her. That's the latest from here in downtown Minneapolis. I'm Chanley Painter with Court TV.

The 48-year-old actor posted a video where she dances to "Thriller" with a child actor from her new movie "Yes Day." [TAKE VO] {\*\*\*VO\*\*\*} In a behind-the-scenes video posted to Instagram, Garner appears to be on the set of the Netflix hit and can be seen performing the iconic dance, which pays homage to a hit scene from the 2004 rom-com. "Victoria was an awesome photo double for 'Ellie' (@everywhere) on YES DAY," Garner wrote in the caption of the video, which substitutes her vocals in place of Jackson's. "She had one big ask of me: For everyone to see us dance 'Thriller' together. Does this work for you, cutie-patootie? (So many amazing kids in and behind the scenes, I'm proud of all of you)." In "13 Going on 30", Garner's character Jenna — a teen who is suddenly transported into an adult woman's body — re-creates the choreography from Michael Jackson's 1983 music video for "Thriller" at an event for the magazine where she works. Back in 2018, Garner's co-star from "13 Going on 30" Judy Greer opened up about the beloved scene. "It was really hard to learn that dance, and the first, like, four hours that we were doing it, it was super fun," she said. "And then every minute after that, I was, like, 'OK, I'm good. I don't need to ever hear this song again for the rest of my life.' And we are coming up upon the holiday season, where I will get to hear that song so much. And every time, I'll immediately start to get hot, and my legs will start to get sore. Even if I'm just sitting in a chair." She added, "I think people still love '13 Going on 30' because everyone can relate to wanting to go back and try it a different way. It's still so fun, and the humor holds up, and who doesn't love Jennifer Garner?"

[TAKE VO] {\*\*\*VO\*\*\*}In a behind-the-scenes video posted to Instagram, Garner appears to be on the set of the Netflix hit and can be seen performing the iconic dance, which pays homage to a hit scene from the 2004 rom-com."Victoria was an awesome photo double for 'Ellie' (@everlyeverywhere) on YES DAY," Garner wrote in the caption of the video, which substitutes her vocals in place of Jackson's. "She had one big ask of me: For everyone to see us dance 'Thriller' together. Does this work for you, cutie-patootie? (So many amazing kids in and behind the scenes, I'm proud of all of you)."In "13 Going on 30", Garner's character Jenna — a teen who is suddenly transported into an adult woman's body — re-creates the choreography from Michael Jackson's 1983 music video for "Thriller" at an event for the magazine where she works.Back in 2018, Garner's co-star from "13 Going on 30" Judy Greer opened up about the beloved scene."It was really hard to learn that dance, and the first, like, four hours that we were doing it, it was super fun," she said. "And then every minute after that, I was, like, 'OK, I'm good. I don't need to ever hear this song again for the rest of my life.' And we are coming up upon the holiday season, where I will get to hear that song so much. And every time, I'll immediately start to get hot, and my legs will start to get sore. Even if I'm just sitting in a chair."She added, "I think people still love '13 Going on 30' because everyone can relate to wanting to go back and try it a different way. It's still so fun, and the humor holds up, and who doesn't love Jennifer Garner?"

So I'm going to act - and act fast."THE PRESIDENT MAKING CLEAR HE'S PLUNGING AHEAD WITH HIS AMERICAN RESCUE PLAN, SAYING IF DEMOCRATS HAVE TO PASS THE BILL ALONE, SO BE IT.HE INVITED REPUBLICAN HELP, BUT SAID THEIR PROPOSALS DID NOT MEET THE MAGNITUDE OF THE ECONOMIC NEED. BIDEN: "What Republicans have proposed is either to do nothing, or not enough."BIDENNATSOT: "Thanks for coming down."IT WAS THE CAPSTONE OF A WHIRLWIND WEEK THAT STARTED WITH REPUBLICANS IN THE OVAL OFFICE ON MONDAY.NATSOT: "Jobs report."...AND ENDED WITH DEMOCRATIC LEADERS THERE TODAY, CHARTING A PATH FORWARD TO PASS THE COVID RELIEF PLAN THROUGH A BUDGET PROCESS THAT ONLY NEEDS A SIMPLE MAJORITY IN THE SENATE.BIDEN: "Here's what I won't do: I'm not cutting the size of the checks. They are going to be \$1,400 period. That's what the American people were promised."BUT BIDEN SAID HE IS WILLING TO NEGOTIATE WHO GETS THOSE CHECKS - SIGNALING HIS INTEREST IN TARGETING THE HELP TOWARD AMERICANS WHO NEED IT MOST, NOT SOME FAMILIES MAKING \$300,000 A YEAR.THE PRESIDENT AND HIS ADVISERS DISMISSED CRITICISM FROM A RENOWN DEMOCRATIC ECONOMIST THAT THE \$1.9 TRILLION PLAN WAS TOO BIG - AND COULD OVERHEAT THE ECONOMY. Reporter: "Is the Biden administration going too big?Jared Bernstein: "No. I firmly would disagree with that contention."PUSH-BACK TO LARRY SUMMERS, A TOP ECONOMIC ADVISER IN THE OBAMA ADMINISTRATION, WHO SAID TODAY SUCH A LARGE BILL WOULD EAT INTO OTHER PRIORITIES, WRITING IN THE WASHINGTON POST: "AFTER RESOLVING THE CORONAVIRUS CRISIS, HOW WILL POLITICAL AND ECONOMIC SPACE BE FOUND FOR THE PUBLIC INVESTMENTS THAT SHOULD BE THE NATION'S HIGHEST PRIORITY?"BUT BIDEN SAYING THAT MENTALITY WOULD DELAY THE AMERICAN RECOVERY.BIDEN: ""Don't worry. Hang on. Things are going to get better. We're going to go smaller. It's just going to take us a lot longer. Like until 2025 -- I can't in good conscious do that.">

2-2-2021 11A VACCINE SKEPTICISM  
[Anchor:CORKE] <THE VACCINE ROLLOUT IS HITTING AN UNEXPECTED ROAD BLOCK -- HEALTH CARE WORKERS REFUSING TO TAKE THE SHOT. WHILE FRONT LINE WORKERS HAVE PRIORITY ACCESS, NOT EVERYONE WANTS TO ROLL UP THEIR SLEEVE -- ESPECIALLY THOSE WORKING IN NURSING HOMES. IN FACT, NEW DATA FROM THE CENTERS FOR DISEASE CONTROL AND PREVENTION REVEALS ONLY ABOUT A THIRD OF NURSING HOME STAFF MEMBERS HAVE RECEIVED THEIR VERY FIRST DOSE... COMPARED WITH ROUGHLY 80 PERCENT OF RESIDENTS.PERRY says: "Of course I'm skeptical, too. But, um, if Doctor Fauci.... and Kamala Harris take it and survive, I think it's a pretty good indicator it's all right." NURSING HOME WORKERS AREN'T THE ONLY ONES WITH VACCINE SKEPTICISM. A RECENT PEW RESEARCH CENTER STUDY SUGGESTS BLACK AMERICANS ARE LESS INCLINED TO TAKE THE VACCINE THAN ANY OTHER RACIAL GROUP -- A HESITANCY THAT'S ROOTED IN HISTORICAL TRAUMA. YOU MAY RECALL, IT WAS IN TUSKEGEE, ALABAMA, WHERE THE GOVERNMENT ONCE USED BLACK MEN AS GUINEA PIGS TO STUDY A SEXUALLY TRANSMITTED INFECTION, AND LOCALS THERE ARE HAVING A HARD TIME OVERCOMING THEIR DISTRUST OF GOVERNMENT-SANCTIONED MEDICINE. LEE says: "I would be wrong to say it doesn't. It does have, uh, an impact on decisions. Being in this community, growing up in this community, I would be very, uh, untruthful if I didn't say that." IT'S NOT JUST THE U-S TRYING TO TEMPER SOME VACCINE SKEPTICISM. FRANCE, ITALY AND OTHER EUROPEAN COUNTRIES APPARENTLY ARE ALSO STRUGGLING TO BUILD CONFIDENCE IN THE VACCINE. **Date:** 2-28-2021 **Time:** 5P **Title:** THIRD VACCINE NOW APPROVED  
[Anchor:NATIONAL REPORTER] < THE U-S NOW HAS A THIRD CORONAVIRUS VACCINE. ON SATURDAY, THE F-D-A AUTHORIZED JOHNSON AND JOHNSON'S SINGLE-SHOT FOR EMERGENCY USE, PAVING THE WAY FOR MILLIONS OF AMERICANS TO BE VACCINATED . HEALTH OFFICIALS CELEBRATED THE GOOD NEWS AND WORKED TO QUELL CONCERN ABOUT THE NEWLY-APPROVED VACCINE'S EFFECTIVENESS. JOHNSON AND JOHNSON'S VACCINE WAS FOUND TO BE 67 PERCENT EFFECTIVE IN PREVENTING MODERATE TO SEVERE CASES, FALLING SHORT OF PFIZER AND MODERNA'S ROUGHLY 95 PERCENT. BUT DOCTOR ANTHONY FAUCI IS URGING PEOPLE NOT TO BE PICKY ABOUT WHICH DOSE THEY GET, SAYING ALL THREE ON THE MARKET ARE SAFE AND EFFECTIVE. FAUCI says: "People should take the one that's most available to them. If you go to a place and you have J&J, and that's the one that's available now, I would take it." THE NATIONAL INSTITUTES OF HEALTH DIRECTOR ECHOED THAT STATEMENT, ENCOURAGING AMERICANS TO GET VACCINATED AS SOON AS POSSIBLE. HE ALSO ACKNOWLEDGED THE RECORD-BREAKING TIMELINE OF THE COVID-19 VACCINE DEVELOPMENT, A PROCESS WHICH TYPICALLY TAKES MORE THAN A DECADE.COLLINS says: "This is about five times faster than has ever been achieved in the history of the world and yet done with extremely high standards of safety and efficacy." [Anchor:PAUL] <THE HELICOPTER CRASH THAT KILLED KOBE BRYANT, HIS 13-YEAR OLD DAUGHTER, GIANNA, AND SEVEN OTHERS WAS LIKELY CAUSED BY THE PILOT BECOMING DISORIENTED, ACCORDING TO THE PROBABLE CAUSE FINDINGS BY THE NATIONAL TRANSPORTATION SAFETY BOARD. SEVILLIAN says: "The result of descent and acceleration were conducive for the pilot to experience a somatogravic illusion in which he would incorrectly perceive the helicopter was climbing when it was descending." 37 MINUTES INTO THE FLIGHT, THE PILOT INITIATED A CLIMB WITH A GRADUAL LEFT TURN TO GET ABOVE THE THICK CLOUDS, A MOVE THE AGENCY SAYS WENT AGAINST HIS TRAINING AND VIOLATED FLIGHT RULES.SUMWALT says: "He was under, flying under Visual Flight Rules, or VFR, which legally prohibited him from penetrating the clouds, however, as we've seen in so many accidents, this pilot continued his VFR flight in clouds." OFFICIALS BELIEVE IT WAS THE FIRST IN A SERIES OF EVENTS THAT ENDED TWO MINUTES LATER WITH THE AIRCRAFT MAKING A FATAL PLUNGE INTO A HILLSIDE. THE PILOT TOLD FLIGHT CONTROLLERS HE HAD NEARLY BROKEN THROUGH THE CLOUDS, BUT, INVESTIGATORS REPORT HE WAS ACTUALLY INCREASINGLY DESCENDING AND MAY HAVE MISPERCEIVED THE ANGLES OF THE TERRAIN. BOARD MEMBERS SAY DESPITE BAD WEATHER AND LOW VISIBILITY, THE CRASH COULD HAVE BEEN PREVENTED.LANDSBERG says: "We pretty well know what happened. We have a very good idea of why it happened, and we absolutely know how to prevent these kinds of crashes." N-T-S-B OFFICIALS SAY THERE COULD HAVE ALSO BEEN ADDED SELF-PRESSURE ON THE PILOT TO COMPLETE THE FLIGHT BECAUSE OF HIS RELATIONSHIP WITH THE CLIENT. IN LOS ANGELES, JEFF PAUL, FOX NEWS.>

2-1-2021 5p LEARNING ABOUT RACE FROM SOCIAL MEDIA  
[TAKE PKG] {\*\*\*PKG\*\*\*}LTS 0:31 Carron Brown Senior Vice President of Client Services, Fullscreen 2:15 Stephanie Caudle Communications Expert and CEO, Black Girl Group Gen Z and millennials are at the forefront of the conversations surrounding race. And according to a new survey from the youth-focused marketing company Fullscreen, 84% of respondents aged 18-37 said "they are responsible for educating themselves when it comes to race-related issues." Those young audiences also have a clear favorite venue for information. Carron Brown, Senior Vice President of Client Services at Fullscreen: "Gen Z and Millennial audiences go to social media as their number one source for race-related news." From text-heavy Twitter threads to minimalistInstagram slide shows, social media has become an accessible platform for Gen Z and Millennial users looking to learn more about social issues. One account called "So You Want to Talk About" that focuses on social issues from a progressive standpoint jumped from 10,000 to 1.4 million followers since June. Beyond those newer accounts, younger audiences are also looking to their favorite influencers to drive conversations. Brown: "The influencers have done a great job building trust with their audiences, therefore, they had the equity to ask these audiences to make that pivot with them." Roger Goodell: "When that happens. It's really powerful." Emmanuel Acho: "Did it change you?" Goodell: "It helped me understand better." Brown: "There's actually an NFL player, Emmanuel Acho, who has a show called 'Uncomfortable Conversations with a Black Man,' where he broaches formerly taboo topics with guests." The conversational format of Acho's series highlights an important point for young audiences: as informative as social media can be, it's really just a starting place for unpacking unconscious biases and dismantling racism in society. And while social media has been used as a tool for social justice activists, it's also worth pointing out the flipside. The Anti-Defamation League notes an explosion in social media being used to radicalize White supremacists and other racists. Stephanie Caudle, communications expert and CEO of Black Girl Group: "What I'm more concerned about is the conversations you're having offline, like, are you checking your friends whenever they're saying things that are racist? ... Are you explaining to them systemic racism? These are the important conversations that you should be having around the dinner table."CASEY MENDOZA NEWSY CHICAGO

"Having support like them, you don't have to think it's that hard because they're right there with you." IT'S SUPPORT THAT IS TYPICALLY LACKING IN NEIGHBORHOODS WITH HIGH RATES OF INFANT MORTALITY, WHERE THERE IS A DESPERATE NEED FOR MEDICAL AND SOCIAL SERVICES TO IMPROVE THE HEALTH OF PREGNANT WOMEN AND GIVE THEM A BETTER CHANCE OF HAVING HEALTHY, FULL-TERM BABIES. "For so long we relied on public health, physicians and pediatricians, obstetricians to correct this, but that has not solved the problem." SO DOCTOR PATRICIA GABBE, A PEDIATRICIAN AT THE OHIO STATE UNIVERSITY WEXNER MEDICAL CENTER, DECIDED TO TRY SOMETHING DIFFERENT. "I said, 'I think we need to go into a high-risk neighborhood and learn from the mothers.'" BY DOING THIS, THEY LEARNED A LOT ABOUT THE CHALLENGES MOMS FACE AND HOW TO MAKE THE SUPPORT, EDUCATION AND RESOURCES OFFERED AT MOMS-TO-BE SESSIONS GO FURTHER. (Nats of sister circle) "We learned so much about their resilience and their willingness to come and how they all want to have a healthy baby." EACH SESSION INCLUDES A LESSON ON PREGNANCY AND PARENTING, ACCESS TO SOCIAL AND MEDICAL SERVICES AND A HEALTHY MEAL. DOCTOR GABBE LED A STUDY ON THE EFFECTS OF MOMS-TO-BE AND FOUND WOMEN WHO ATTEND AT LEAST TWO SESSIONS HAVE LOWER INCIDENCES OF PREMATURE BIRTH AND INFANT MORTALITY. "When we started in our neighborhoods, it could be as high as 19 per 1,000. Overall now, our black infant mortality is 10 per 1,000. We've never had that happen." BUT FOR THE WOMEN HERE, MOMS-TO-BE GOES FAR BEYOND THE NUMBERS. "They're there for you whenever, you can call them, leave them messages, text them. They're there. They will respond." AT THE OHIO STATE WEXNER MEDICAL CENTER, THIS IS BARB CONSIGLIO REPORTING.

It would not be 100 percent the same, might be 90% the same, but that's my plan."While measures like the vending machines require some logistical hurdles, Khosla believes their program could be replicated at colleges nationwide.23:21 "Anybody who thinks that we can help them in any, they should feel free to approach us."So that these classrooms can once again serve as hubs for innovations to help change the world.In San Diego, I'm Amanda Brandeis>

We are in a global pandemic and you are going to deregulate businesses who touch people. [Notes:GRAPHIC] THIS IS THE BILL THAT SPURRED THIS PROTEST. SENATE BILL 87. 1P CRAIG SWAPP DRIVING AT NIGHT

[Anchor:JENNY] {\*\*\*JENNY\*\*\*}Driving at NightHow dangerous is it to drive at night?-While law abiding, attentive drivers can decrease the risk of accident regardless of the time of day, there are some inherent risks that all drivers run at night. Despite less than 60% less traffic on the roads, more than 40% of all fatal car accidents happen at night. What makes night driving so dangerous?-The National Safety Council says the following contribute to making night driving more dangerous than driving any other time of day:- Fatigue Driving under the influence - Compromised night visionHow can drivers combat fatigue while driving at night?-Be alert to the signs of being too tired to drive at night. The National Sleep Foundation suggests the following signs as indicators a driver is getting drowsy: Difficult focusing, frequent blinking, trouble remembering the last few miles driven, or feeling restless and irritable.-If you are experiencing any of those symptoms, do the right thing and pull over at the nearest exit and take a nap. Naps, even short ones, are much more successful at combating driver fatigue than consuming caffeine or playing loud music.How about driving under the influence?- The reality is that people are more likely to drink and drive at night. If you've been drinking it's pretty simple; don't drive.-For those who are driving at night, be especially attentive to drivers who are drifting in their lane or veering off the road. Safely call the police if you suspect a vehicle is being driven by a drunk driver.When does someone know that their vision prevents them from driving at night?-While all drivers suffer a drop in depth perception, color recognition and peripheral vision while driving at night, the National Safety Council explains that a 50-year-old driver may need twice as much light to see as well as a 30-year-old. In general, if you feel you are having a difficult time distinguishing shapes while driving at night, it's time to get an eye exam and consider limiting night driving.-The American Optometric Associations recommends that older drivers and drivers with degenerative eye diseases have annual vision exams and if necessary, limit driving to daytime hours.

THEY WILL BE SENT IN FOR THE INAUGURATION NEXT WEDNESDAY -- THAT INCLUDES A THOUSAND MEMBERS FROM NEW YORK, 6,200 FROM ACROSS THE COUNTRY. THAT INCLUDES A MAN WHO WAS FOUND WITH 11 HOMEMADE BOMBS IN HIS TRUCK, PARKED NEAR THE CAPITOL, PLUS A HANDGUN, ASSAULT, RIFLE, AND AMMUNITION. [TAKE PKG] {\*\*\*PKG\*\*\*} [Anchor:PERGRAM] <THE FIRST THING...IS FIGURING OUT...EXACTLY...WHICH PARTY...TRULY CONTROLS THE SENATE..AFTER DEMOCRATS CLAIMED..BOTH GEORGIA SEATS. AND...EVEN IF PRESIDENT-ELECT KAMALA HARRIS...BREAKS TIES IN FAVOR OF

DEMOCRATS...YOU NEED 60 VOTES IN THE SENATE..TO TERMINATE FILIBUSTERS. ROVE says: "There are items that can be done on a strictly party line basis-- that is to get 50 democrats to back it and have kamala harris in the presiding officers chair and she breaks it" THE SENATE WAS LAST TIED...20 YEARS AGO. THAT'S WHEN SENATE GOP LEADER TRENT LOTT...AND DEMOCRATIC LEADER TOM DASCHLE..FORGED A POWER SHARING AGREEMENT...SIGNED OFF ON..BY ALL 100 SENATORS. TOXIC DIVIDES...COULD MAKE THAT HARDER. ANOTHER COVID RELIEF PACKAGE...IS THE MOST PRESSING CONCERN. REPUBLICANS...LIVED TO FIGHT ANOTHER DAY..ON LIABILITY PROTECTIONS..TIED TO THE PANDEMIC. DEMOCRATS..STILL WANT..MONEY..FOR STATE AND LOCAL GOVERNMENTS. AND THEN...THERE ARE OTHER LIBERAL PRIORITIES...RANGING FROM CLIMATE CHANGE...TO HIKING THE MINIMUM WAGE. THE CAPITOL RIOT...WILL UNDOUBTEDLY BOLSTER A PUSH..TO MAKE WASHINGTON, DC...THE 51ST STATE. BUT..THERE'S A RISK IF PROGRESSIVES..PUSH TOO FAR.ROVE says: "You've got a lot of more traditional liberal democrats who realize if they come out for some of these nutty things that the left is pushing theyre gonna get defeated in two years and turn the house over to the republicans." AND OF COURSE..IT'S THE SENATE'S RESPONSIBILITY TO CONFIRM PRESIDENT-ELECT BIDEN'S CABINET. HISTORICALLY...ABOUT 95 PERCENT OF ALL CABINET NOMINEES RECEIVE A CONFIRMATION HEARING...BEFORE INAUGURATION. It is designed to improve access to I-215 and 7200 South and to enhance safety for drivers.The ramp system is scheduled to open as soon as Jan. 30, with the project finishing in summer 2021. This project is expected to reduce crashes in the area by nearly 40 percent and northbound travel times by 50 percent.

The second thing is anytime you need support at all we are just a phone call away.Customers send their sample to a lab and get results within days.11:33 "If you have an abnormal result, one of our physicians or nurses will call you and talk to you about the results and help you figure out how to access care."LetsGetChecked says combined with their at-home covid test, demand is up more than 800 percent.Everlywell, another popular company, is also reporting massive growth – noting spikes in fertility, heart health, and vitamin deficiency tests.13:10 "Access is important, people are not excited about going into the doctor's office."Newell says these non-covid test kits are FDA cleared and approved – and processed in certified labs.They cost between \$49 and \$349 dollars."We analyzed over 10,000 results with the FDA and convinced them that these tests, including the human error, were as accurate as the tests that would be done in the physician's office."DR. SHELDON CAMPBELL, Professor of Laboratory Medicine at Yale29:55 "Laboratory tests are complicated artifacts."Dr. Sheldon Campbell is a professor of laboratory medicine at Yale.He says while home testing can improve access to health care, he has concerns with the growing trend.16:05 "A test ordered on somebody that doesn't need it is not only wasteful, though it is wasteful, but it also is potentially dangerous because a false positive can lead you away from the true diagnosis."He sees some value in categories like STD's which can carry a stigma.But Campbell believes many conditions are best diagnosed by your doctor.16:35 "Knows you, knows your medical history and could put your new illness in the context of what you've got going on beforehand, and your risk factors."He says results taken out of context could lead to unnecessary additional testing and treatment.And real problems could be missed.But Newell points out human error can also happen in a doctor's office – and believes convenience will drive the future of health care.I'm Amanda Brandeis reporting>#
