| | Parenting | License to Parent | 12/20/2019/ 4:36 pm | 0:01:00 | If your kids are in public school, they're likely to be aggressively indoctrinated with pro-LGBT propaganda. I'm calling it child abuse of the worst kind. When kids are indoctrinated nearly 20 years before their brain is fully developed, they'll believe most anything. From religion to racism – their worldview is formed early. The question is, "What will we allow our kids to be indoctrinated with?" It's not the public school system's right to undermine the moral standards that God has given us the responsibility to instill in our children. As God-fearing parents, we must challenge our school systems with civil and/or criminal actions when our children's moral rights are being violated. |
