Q4 January 1, 2024 through March 31, 2024

Section I. Issues

The stations have identified the following topics as significant issues facing our community in this quarter:

- A. **Molding the Next Generation of Entrepreneurs:** No matter what field a child/young adult wants to pursue, social and team-building skills are crucial. That, along with entrepreneurial skills, are important fundamentals to instill in young children. These are the foundational principles of Junior Achievement of the Heartland, a non-profit in Dubuque and the Tri-State area that looks to instill those ideals early in schools across the area.

- B. **Supporting Area/County Libraries:** Libraries are a cornerstone of communities due to the resources they provide. This includes, but is not limited to after-school programs, community involvement programs, social programs, and more.

- C. **Getting Out-of-Work Veterans Employment Connections:** While the veteran unemployment rate is lower than it has been in recent years (2.8 percent according to the Department of Labor), veterans still find themselves as a disenfranchised sector in terms of being considered for these opportunities. A new network in Dubuque and the Tri-State area is looking to change that.

- D. **Eight Million Tons of Plastic Pollutes Our Oceans Every Year:** Over eight million tons of plastic pollutes the ocean every year, an absurd and discouraging amount. To combat pollution in time for Earth Day, a staple museum in Dubuque has taken it upon themselves to create a fun and educational experience for the entire family.

- E. **Supporting Victims of Sexual Assault & Domestic Violence:** As of 2023, Iowa ranks second in the nation for the percentage of women that have experienced domestic violence. It's a depressingly real statistic that the Riverview Center in Dubuque and the Tri-State area is looking to combat.
