The second quarter of 2020 brought even more turbulent changes than the first quarter, and KMUW shifted its coverage accordingly, focusing on the following topics via local news efforts for Wichita and Kansas. COVID-19 impacts in our listeneing area became more extreme, and in this same timeframe the reactions to national policing and racial issues also affected events here. KMUW news staff covers these stories for radio and web (as always, with photos and links) via a variety of platforms. We continue our partership with the Kansas News Service for public radio stations, and our news team of seven is supplemented by Wichita State interns, who have learned invaluable lessons in this unprecedented time from our award-winning staff while providing additional local coverage.

Ascertainment topics continue to come from community projects and efforts focused on interest from residents. People need to have dependable information on the coronavirus, the economy, local protests, law enforcement policies, and much more -- and community needs beyond these timely topics have also continued as usual. KMUW enables the community to come together and ask local leaders their own questions (and give feedback) through virtual Democracy on Tap civic engagement events. These efforts and countless one-on-one conversations provide staff with input on topics relevant to Wichitans in order to best inform them.
