KPHT
Quarterly Issues/Programs List

KPHT provides its listeners with programming and public service announcements that address issues of concern to our local community. Among the issues determined to be of most concern to the community during the preceding calendar quarter were:

- **American Cancer Society Relay For Life:** We talked to Steve about the growing incidence of Cancer in Colorado and The U.S., early detection, treatment options, Angelina Joley's decision to have double mastectomy, new detection tools and this year's Relay For Life events throughout Southern Colorado.
- **Black Forest Fire/Southfork Fire Relief :** Care & Share the food Bank for Southern provided food, drink and other essential items to partner agencies which in turn were given to firefighters, first responders and victims of the BlackForest and Southfork wildfires. We talked about Care & Share's role in relief efforts, items that were needed, how to donate and how distribution of the items were handled.
- **Care & Share Stamp Out Hunger Event:** We spoke of the need for additional food during the Summer months to feed needy kids at home on vacation. This would be the sole source of nourishment for many kids who during the school year would otherwise get their primary sustenance through school lunches. The USPS collected non perishable food items as they delivered mail on Saturday.
- **Co State University Extension Service:** With extreme Summer drought conditions in Colorado coupled with area watering restrictions Southern Colorado Gardeners are becoming frustrated with the futility of their efforts. We spoke to Colorado Master Gardeners about xerascaping, rock vs mulch, plants that do well in CO, irrigation, fertilization and reclamation in the Waldo Canyon burn area.
- **El Paso County Parks & El Paso County Recycling Pr:** Spoke to Todd about Summer camping programs, Nature Center Expansion, Homestead Ranch reopening and County Fair. Kathy address a number of recycling opportunities for residents including Hazardous Waste, Smoke Detectors and Toilets.
- **Emergency Preparedness:** Flash Flooding is a real concern in the Waldo Canyon burn area this Spring and Summer. We spoke about Emergency Preparedness, personal risk, alert systems that are in

place, a family evacuation plan and agencies that can help.

- **Flash Floods:** Discussed Emergency Preparedness systems that are in place and agencies that can help. One of the biggest concerns is flash flooding in the burn area.
- **National Heart & Stroke Month/Heart & Stroke Walk:** We spoke to Christen about the particulars of here stroke, we also discussed detection, treatment and prevention of stroke. Outlined the events for the up-coming Southern Colorado Heart & Stroke walk.
- **Spring & Summer Water Restrictions in Colorado Spr:** New water restrictions and pricing went into effect for Colorado Springs water customers on April 1, 2013. We discussed the changes, why they came about, smart watering practices, what is and is not allowed under the new directives and where the information can be obtained on line.
- **The I-25 Expansion Through Northern El Paso County:** We spoke of the projects progress, what to expect in the coming weeks, lane closures, worker safety, trail closures and projected completion dates.

**Section I
LOCAL PROGRAMMING**

Section I lists regularly-scheduled and special programs that represent the station's issue-responsive programming providing the most significant treatment of the issues listed above for the calendar quarter.
