Re: Request for Extension of
Construction Permit
WLFB, Bluefield, WV
Facility ID No. 37806
LMS File No. 0000086842

Dear Licensee,

On October 18, 2019, Living Faith Ministries, Inc. (Licensee), the licensee of Station WFLB, Bluefield, West Virginia (the Station), filed the above captioned application seeking an extension of the Station's construction permit expiration date. For the reasons below, we grant Licensee's application and extend the Station's construction permit expiration date 180 days to July 15, 2020.

Background. Pursuant to Section 73.3700(b)(5) of the Commission's rules, a station may request a single extension of its construction permit deadline of up to 180 days to complete construction of its post-auction facility.¹ Grant of an extension of the construction permit deadline does not alter the deadline by which a station must cease operating on its pre-auction channel. A station anticipating the need for an extension must submit an extension application using FCC Form 2100, Schedule 337, not less than 90 days before the assigned construction permit deadline.² For Phase 7 stations, such application was due by October 21, 2019. The application must demonstrate that the station is unable to complete construction on time due to circumstances that were either unforeseeable or beyond the station's control.³

The Station was repacked from channel 40 to channel 25 and assigned to transition Phase 7, which has a phase completion date of January 17, 2020. All repacked stations for Phase 7 were issued a construction permit with an expiration date of January 17, 2020. The Station pledges to cease operation on its pre-auction channel by the phase completion date and operate a temporary facility on its post-auction channel while it completes construction of its permanent post-auction facilities.⁴

¹ See 47 CFR § 73.3700(b)(5). All subsequent requests for additional time to construct are subject to the Commission's tolling provisions, 47 CFR § 73.3598(b).

² 47 CFR § 73.3700(b)(5)(iv).

³ The *Incentive Auction R&O* provides examples of six circumstances that might justify an 180-day extension of a station's post-auction construction permit: (1) weather related delays; (2) delays in construction due to the unavailability of equipment or a tower crew; (3) tower lease disputes; (4) unusual technical challenges; or (5) delays caused by the need to obtain government approvals, such as land use or zoning approvals, or to observe competitive bidding requirements prior to purchasing equipment or services; and (6) financial hardship with sufficient supporting evidence. See *Expanding the Economic and Innovation Opportunities of Spectrum Through Incentive Auctions*, GN Docket No. 12-268 et. al., Report and Order, 29 FCC Rcd 6567,6804-05, paras. 581-2 (2014) (*Incentive Auction R&O*); 47 CFR § 73.3700(b)(5)(ii) and (iii).

⁴ See LMS File No. 0000081854.

Licensee states that the Station needs to construct a new tower for its post-auction channel facilities in a location where the typical weather conditions restrict construction to a limited portion of the year. Before it can start on construction of its new tower, however, Licensee states that it must first install the Station's side-mount interim antenna and remove the Station's pre-auction channel antenna because Licensee has been advised that the existing tower cannot safely hold both. Licensee reports that the antenna swap is scheduled to occur during the week of October 14, 2019, before unfavorable weather conditions typically set in at the site. Following that work, Licensee will focus on construction of the station's permanent post-auction channel facilities. Licensee requests a 180-day extension to complete this work.

Discussion. Upon review of the facts and circumstances presented, we find Licensee's request to extend the construction permit deadline to construct the Station's post-auction facility meets the requirements for a construction permit extension. Licensee has demonstrated that an extension is needed because of delays in constructing its new tower. We also find that grant of this extension request is not likely to negatively impact the overall transition schedule. The Station will cease operations on its pre-auction channel by the Phase 7 completion date and will operate a temporary facility on its post-auction channel. To the extent some viewers are unable to receive the Station's signal while it operates its □□□□□□□□ facility, we believe that Licensee has every incentive to ensure viewers are fully informed about the Station's transition plan.

We remind Licensee that pursuant to the Spectrum Act, the Station is eligible for reimbursement from the TV Broadcast Relocation Fund (Fund) of costs "reasonably incurred . . . in order for the licensee to relocate its television service from one channel to the other."⁵ Additional expenses incurred, for instance, as a result of the grant of changes in the Station's transition plan that are not related to the post-incentive auction channel change, may not be reimbursable from the Fund.

The above facts considered, Living Faith Ministries, Inc.'s application for extension of construction permit expiration date **IS GRANTED**. The construction permit (LMS File No. 0000026305) for WLFB, Bluefield, West Virginia **IS EXTENDED 180 days to July 15, 2020**. Grant of this extension does not permit the Station to recommence operation on its pre-auction channel after ceasing operation or after January 17, 2020, whichever occurs first. We also remind Licensee that any

⁵ See *Media Bureau Finalizes Reimbursement Form for Submission to OMB and Adopts Catalog of Expenses*, GN Docket No. 12-268, Public Notice, 30 FCC Rcd 11701, 11701-02 (MB 2015). See also *Incentive Auction R&O*, 29 FCC Rcd at 6821, para. 622 ("The appropriate scope of 'costs reasonably incurred' necessarily will have to be decided on a case-by-case basis.").

subsequent requests for extension of its construction permit deadline will be subject to the Commission's tolling provisions.⁶

Sincerely,

A handwritten signature in black ink, appearing to read 'B. A. Kreisman', with a long horizontal flourish extending to the right.
