	Dick Cavett's Watergate (PBS)	It was a slow-moving devastating crisis that changed America forever. Forty years ago -- as a result of the complicated, but dramatic, tale of a criminal conspiracy to cover up misdeeds by President Nixon and his top advisers -- there was a sense that the government was in danger of collapsing under the weight of the scandal. From 1972 to 1974 the Watergate scandal was frequently a part of The Dick Cavett Show. Even non-political guests expressed their opinions about Watergate on the show. With exclusive access to the archive of The Dick Cavett Show, this program documents the scandal in the words of the people who lived it: from the botched burglary at the Democratic National Headquarters; to the must-see TV of the daily Congressional Watergate hearings; to the on-going behind-the-scenes battle between the White House and The Dick Cavett Show; culminating with the resignation of the President of	07:00 pm	08/16/16	1 Hour

Other voices lend perspective: Wyoming friends who have known Dick Cheney his entire life, journalists critical of his grip on the levers of power, and first-hand observers of his near half a century in politics and government. 	Conducting Hope (APTEX)	Today, 2.3 million people in the United States - an all-time high - call prison home. Nearly two-thirds of inmates will face re-arrest within three years, and nearly 50 percent will return to prison. In response to these disheartening statistics, one innovative program in Kansas aims to reduce the high rate of recidivism in an unexpected way - through the power of music. CONDUCTING HOPE reveals the story behind the East Hill Singers, the only secular prison choir in the country allowed to perform outside prison gates. During the documentary, choir director (and former opera singer) Kirk Carson works tirelessly to prepare the men - minimum security inmates at Lansing Correctional Facility - for an upcoming public performance alongside community volunteers and former inmates. Carson's passion never wavers despite the challenges of turning the novices into concert-ready singers capable of performing a repertoire ranging from traditional choral to contemporary music to a "rap of redemption." For many of the inmates, whose offenses range from drug-related crimes to burglary, rape and murder, the choir teaches valuable real-world lessons about discipline, responsibility and teamwork. These traits, along with a newfound self-esteem, confidence and pride, eventually may ultimately help ease the men's reintegration back into society.	02:00 pm	07/31/16	1 Hour

	Covenant in the Cove (EARL)	In October of 1856, approximately 500 Mormon pioneers were stranded in an early winter storm near Martin's Cove, Wyoming. With meager food supplies and handcarts as their only means of transportation they waited out the storm. They had already walked 900 miles from Far West, Missouri. Many had died already from exposure and more would die before reaching thier westward home in the Salt Lake valley of Utah. Though they would endure much suffering on their trek to "Zion" their conviction of faith propelled them forward, and inspired thousands of immigrants that would follow after them. In June of 2015, a group of 100 youth and adults from the Salina, Kansas stake of the Church of Jesus Christ of Latter-Day-Saints journeyed to Martin's Cove to reenact a portion of that history. This documentary follows their story of discovery, and spiritual growth as they "walked where their ancestors walked" and experienced a part of their pioneer legacy.	04:00 pm	08/07/16	45 Minutes

Told with warmth and humor, The C Word follows Lisa's journey, and the love and support she received from her devoted husband, Pete, and her family. The diagnosis is unexpected. What starts off as a blog seen by few steadily becomes a profound inspiration to many - from fellow sufferers to those caring for them. And, through it, Lisa comes to realize that her life is not defined by cancer, but by the love she inspires in others. 	Eat Dirt with Dr. Josh Axe (EPS)	What Hippocrates knew 2000 years ago, we're only just discovering: Our gut is responsible for a lot more than processing the food we eat! With the surface area of a football field, our digestive tract is a vital immune barrier, protecting us from disease and contamination. By expelling and killing foreign invaders, it accounts for 70% of our immune system. Leaky gut occurs when the tight junctions that seal the intestinal tract malfunction. These junctions control which nutrients and nourishment passes into the blood stream. As food is digested and moved out of the body, a healthy digestive tract prevents toxins, microbes and undigested food particles from seeping out. When the junctions break down, all kinds of particles contaminate the bloodstream that should have never gotten through.	04:00 pm	08/28/16	90 Minutes

		<p>The immune system responds to the particles as if they were foreign invaders. Eventually the result is chronic inflammation, which leads to a variety of problems, such as allergies, autoimmune disease, eczema, psoriasis, inflammatory bowel disease, rheumatoid arthritis, weight gain, and diabetes. Studies in respected medical journals, like The Lancet, The British Medical Journal and the International Journal of Gastroenterology have found that leaky gut causes several autoimmune diseases and many other health issues, including fatigue, arthritis, acne, depression and food allergies. Some of our "best ideas" have backfired and are actually tearing our guts apart and destroying our health: Hybrid grain that grows fast but is nearly indigestible Refined sugar that creates insulin resistance; Antibiotics that kill even the friendly bacteria we need; Pesticides that deplete the soil until vegetables lose 85% of their nutrients. Our lifestyle does the rest. Almost everyone has swallowed ibuprofen for a headache, consumed processed foods, failed to eat enough fiber, taken an antibiotic, or experienced chronic stress. All of these undermine the integrity of the gut. Leaky gut is a hot topic in health communities these days, but no one has identified the five most common Gut Types and designed a specific program to heal each gut type - until now. Eat Dirt will identify the specific gut types of leaky gut syndrome. Once viewers identify their own Gut Type, they can heal their gut more quickly, by following a plan that is designed specifically for them.</p>
