----------	----------	----------	---------

DURATION OF PROGRAMMING SEGMENT:  
20 minutes of a 1 hour program

DESCRIPTION OF PROGRAMMING SEGMENT:

Roxanne Wilder spoke with Dr. Devin Sherman and discussed treating IPF. IPF is a rare disease, affecting about 100,000 Americans and the disease is more common in men than in women. While every person's experience with IPF is different, its impact is severe: the life expectancy after diagnosis is only 3-5 years. Dr. Sherman explained common symptoms and treatment options.

DESCRIPTION OF PROGRAMMING SEGMENT:  
Roxanne Wilder spoke with Geoff Chaiken and Dr. Jen Wolfe about consumers and the high prices they pay for their prescription medications. Each year 50 million consumers leave a prescription at the pharmacy due to its cost. Consumer Reports found that a third of people don't take their medications because they can't afford them. For the 30 million Americans who are uninsured, the high price of prescription drugs can be a matter of life and death.

**DESCRIPTION OF PROGRAMMING SEGMENT:**

Roxanne Wilder spoke with Dr. Gary Gibbons, MD, Medical Director at the South Shore Hospital Center for Wound Healing in Weymouth, about diabetic foot ulcers. Diabetic foot ulcers are one of the less discussed complications of diabetes, but they can have life-altering consequences, including amputation. Poor circulation, high blood sugar, nerve damage, and irritated or wounded feet are the most common causes of DFUs.
