

WOWY-FM
2nd QUARTER
ISSUES & PROGRAMS
2015

To: Public File

Date: July 10, 2015

Subject: Issues and Programs (Second Quarter 2015)

Our stations work very hard to identify the concerns of the listening audience. By maintaining a close relationship with government officials, area business leaders, schools, churches, civic organizations and private citizens, we receive a very thorough understanding of the significant issues and needs that affect local residents.

Therefore, we offer live airtime, public service announcements and use of our website to help educate the community regarding vital local issues. Between April and June 30th, we helped many non-profit organizations and civic groups by providing them forums to both promote themselves and explain how they impact our region.

Furthermore, our broadcasts cover local stories that impact our area. These stories often generate further discussion over the air. Listener feedback and input is not only appreciated regarding these matters, but also encouraged.

During the second quarter, this station encouraged listener involvement in activities that will positively impact our community.

The following pages will detail those issues and programs that we have determined to be significant to our listeners for the period between April 1st thru June 30th, 2015.

Second Quarter Public Service Involvement

We offered airtime to local non-profit organizations, civic groups and vital local causes to benefit fund-raisers, volunteer solicitation drives and public awareness. In addition to thirty-second and sixty-second public service announcements, live mentions were made by on-air personalities to promote various events.

Furthermore, all area non-profits, schools, churches and civic groups are invited to use our public service announcements. In addition, these organizations are offered time on our various morning shows.

We donated various items – gift cards, T-shirts and other promotional items for groups to use as door prizes and giveaways to promote involvement in certain events. Our on-air personalities have participated in various events to help these vital community organizations.

We are very proud to be associated with the many community organizations and will continue to support and encourage them through serving as a link to a mass audience.

PUBLIC SERVICE GUEST STUDIO/PHONE SECOND QUARTER

Our stations provide the opportunity for non-profit organizations to be guests on our various radio programs – either live or on the telephone. We also read live announcements showcasing local events benefitting non-profit organizations. The following is a partial list of our second quarter involvement.

Air week: 4-5-15

SEGMENT 1: Race and Diversity: Can it be taught in schools?

10:37

Synopsis: Can race be taught as a school subject, like chemistry and foreign language? And if so, what kinds of curricula are best for making students understand how other races fit into and benefit society? We talk to two researchers about the answers to these questions and take a slightly different look at race, ethnicity, religion and how they affect our perceptions of the world.

Host: Gary Price. **Guests:** Lawrence Blum, Prof. of Philosophy, Dist. Prof. of Liberal Arts & Education, Univ. of Massachusetts, Boston, author of "High Schools, Race and America's Future: What can students teach us about morality, diversity, and community." Todd Pittinsky, Prof. in the Dept. of Technology and Society, SUNY-Stony Brook, lecturer at Harvard Univ., author of "Us + Them: Tapping the positive power of difference."

Host: Marty Peterson. **Guests:** Maryann Karinch, a human behavior expert and author of the book, "Nothing But the Truth: Secrets from top intelligence experts to control the conversation and get the information you need."

SEGMENT 1: Future Crimes: Cybercrime in business and in our homes is growing

11:14

However, there are new ways that criminals can invade our privacy and, often, there's little the police can do about it. We talk to a cyber-security expert and a technology attorney about the new threats to privacy – and even personal safety – and how we can protect ourselves from intrusions into our homes and lives.

Host: Gary Price. **Guests:** Marc Goodman, author of "Future Crimes: Everything is connected, everyone is vulnerable and what we can do about it"; Adam Rouse, Legal Fellow for the Institute for Science, Law and Technology, IIT Chicago-Kent College of Law.

COMPLIANCY ISSUES COVERED: Technology; Crime; Privacy; Family Issues; Economic; Law Enforcement

SEGMENT 2: Roadmap: Learning to incorporate your dreams into your life

Synopsis: Not everyone is able to follow their dream into a career that they truly love. People have debt, family obligations and are possibly just not talented enough to make a living working at what they've always dreamed of doing. Our guest says that he's talked to people who have found ways of incorporating their dreams into their lives in very creative – and lucrative -- ways, and he'll pass along some advice on just how to do it.

Host: Marty Peterson. **Guest:** Nathan Gebhard, co-creator of the PBS documentary series "Roadtrip Nation," and co-author of the book, "Roadmap: The get-it-together guide for figuring out what to do with your life."
