04/10/21 **48 HOURS: “Find Yura – Manhunt On The Dark Web”** (9:00 – 10:00p) – a report on the global hunt to track down Yura, the mastermind behind several hitman-for-hire websites and the alleged plot to kill Alexis Stern. In July 2018, police informed Big Lake, MN teen Alexis Stern that someone had gone to the dark web looking to have her killed. In 2017, 48 HOURS began investigating murder-for-hire websites and using information from sources to tip authorities leading to arrests, convictions and prison terms. The hunt for “Yura”, whose identity and location are unknown, has led 48 HOURS to England, India and the Eastern European country of Moldova and eventually culminated in an encounter in Queens, NY. Alexis believes ex-boyfriend Adrian Fry paid Yura for her murder. Alexis, then 15 years-old, met 20-year-old Adrian online and began a relationship with him. After meeting, Alexis felt Adrian was controlling; after two years of dating the relationship ended. After finding out Alexis had a new

boyfriend, he sent threatening messages. 48 HOURS searched for Adrian in London. With the help of Lisa, a dark web intelligence analyst, 48 HOURS continues its search. Last November, Alexis received a letter from the FBI, stating that her case was closed because the “United States Attorney’s Office has declined to prosecute.” **On-screen text graphic:** FORTY-EIGHT HOURS has alerted the NYPD to the new developments in our dark web investigation. 04/10/21

48 HOURS: "The Mysterious Death of Kat West" (10:00 - 11:00p) – a report on the death of Kathleen “Kat” West, a 42-year-old stay-at-home Calera, AL mother and the possible role her active social media life, including an ‘OnlyFans’ account, played in her demise. Before dawn, on January 13th, 2018, a driver spotted Kat’s body in the road, just across the street from the West family home. She was found with a fatal head wound and a bottle of absinthe lying on top of her phone nearby. Police focused their investigation on Kat’s husband Jeff, who they felt was oddly reserved. Jeff was released after questioning and police investigated other possible suspects, including subscribers to her ‘OnlyFans’ account. Police were unable to find a connection. On February 22nd, 2018, Jeff was arrested and charged with murder. Kat’s parents supported their son-in-law. A few months before trial, prosecutors offered Jeff an Alford plea – he would not have to admit that he had committed a crime, but would have to acknowledge that the state had enough evidence to likely convict. Jeff declined. The cause of Kat’s death was determined to be blunt force trauma to the head; the prosecution theorized Jeff became jealous of Kat’s racy ‘OnlyFans’ pictures and in a rage killed her with a blow to the head from a liquor bottle. The defense countered that Jeff often helped take the photos and suggested Kat had died from an accident while intoxicated. Kat’s mother Nancy Martin testified for the defense. During the trial’s final stages, prosecutors convinced the judge to allow the jury to consider a lesser charge of reckless manslaughter. After deliberation, the jury found Jeff guilty of the lesser charge; he was sentenced to 16 years in prison. The broadcast also features the first television interview with Lauren Kwei, a paramedic in New York City who made headlines when *The New York Post* exposed her for posting nude images on ‘OnlyFans’. **On-screen text graphic:** Lola is being raised by both sets of grandparents. Jeff West has filed an appeal. Interviewed: Brittany Driesler, Kat’s friend; Carol Robinson, reporter and CBS consultant; Nancy Martin, Kat’s mother; John Martin, Kat’s father; Macorsha Purifoy, passerby; Sergeant Mike Mehlhoff, Calera, AL police officer; Lauren Kwei, paramedic and ‘OnlyFans’ model; John Robbins, Jeff’s defense attorney; William “Jerry” West,

Jeff's father; Carolyn "Suzi" West, Jeff's mother. (C: Maureen Maher – Joshua Yager, Lauren A. White)

48 HOURS (continued)

04/17/21 **48 HOURS: "Crosley Green Comes Home"** - an update to "Crosley Green's Hard Time" (OAD: 04/18/20), the most recent broadcast reporting on Crosley Green, who continues to wait for a Federal Appeal Court ruling on his case. 48 HOURS has been covering this questionable conviction for 22 years. Despite his claims of innocence, Green was convicted and sentenced to death in 1990 for the April 1989 murder of Charles "Chip" Flynn in a Titusville, FL orange grove. Green has spent decades trying to prove his innocence. At the time of the murder, he was a small-time drug dealer who said he was two miles away when Flynn was killed. Green was arrested after Flynn's former girlfriend, Kim Hallock, told police that she and Flynn had been carjacked by a black man with a gun and driven to a remote orange grove. Flynn was killed, but Hallock escaped. She identified Green from a photo lineup. Green's nine state appeals are exhausted, but his current attorneys Keith Harrison, Bob Rhoad and Jeane Thomas, along with an original private investigator Joe Moura (now a 48 HOURS consultant) have one last hope, federal court. They believe they have enough evidence to prove that the conviction is part of a distinct pattern and practice of government misconduct in Brevard County. Three other men, - Bill Dillion, Juan Ramos and Wilton Dedge - have had their convictions overturned; two of them were also prosecuted by Christopher White. Green's attorneys believe what makes this case different is the great deal of evidence. At the heart of their case are notes from White's meeting with officers Mark Rixey and Diane Clarke (who spoke to 48 HOURS for the first time for the 05/30/15 broadcast). Green's lawyer says that their notes say they think the girl (former girlfriend Kim Hallock) killed Flynn. In June 2017, the 11th Circuit Federal Court of Appeals said it would allow Green's attorneys to argue in person why his case should not have been dismissed. The Florida Attorney General's Office continues to fight to uphold Crosley Green's conviction, claiming Green failed to meet a filing deadline for his appeal. In July 2018, a federal judge ruled that withholding prosecutor notes from Green's defense violated his right to a fair trial. His conviction was overturned and a new trial was ordered. The state of Florida appealed. On March 12th, 2020, the Federal Appeals Court in Jacksonville heard from Green's defense team and state attorneys. **04/17/21 UPDATE:** In March 2021, due to the coronavirus pandemic and Green's diagnosis of latent tuberculosis, his attorneys filed a motion for his immediate release, which the court granted. A decision from the Federal Appeals Court is still pending. *(No on-screen text graphic for this broadcast.)* Interviewed: Crosley Green; Keith Harrison and Jeane Thomas, Green's attorneys; Diane Clarke and Mark Rixey, Brevard County officers; David Stroup, Chip's friend; Christopher White, prosecutor; Charles Flynn, Chip's father; Tim Curtis, who sold the car to Chip; Lisa DiMeo, criminalist; Sheila Green, Crosley's sister; Kenneth Nunn, University of Florida law professor; O'Connor Green, Crosley's brother; Degrah Green, Crosley's sister; Shuma Green, Crosley's son; Shirley

Green, Crosley's sister. (See also: "Reasonable Doubt", OAD: 11/01/99; its retitled rebroadcast, which included an update: "Impossible Mission", OAD: 07/10/00; 48 HOURS: "Last Chance for Freedom", a follow-up to both prior broadcasts, OAD: 05/30/15 - an updated rebroadcast aired on 08/19/17; and 48 HOURS: "Crosley Green's Hard Time", OAD: 04/18/20.) 04/24/21 **48 HOURS: "The Killing of Cowboy Ray Green "** – A report on the death of horse and competitive cowboy action shooting enthusiast Ray Green by his wife and questions regarding her claim of self-defense. On May 28th, 2014 police conducted a wellness check at the home of Ray and Danielle "Dani" Green, in Dillsboro, IN. The sheriff's department was contacted by Ray's mother Betty, after she received a call from Dani, who claimed Ray was killed by a German Shepherd dog. Dani told sheriffs Ray had left for work as a trucker, even though his rig was on the property. She permitted a search, except for a large padlocked toolbox that attracted flies and "smelled of decay". After obtaining a search warrant, Detectives Tom Baxter and Pete Tressler found Ray's body in the toolbox. Dani changed her story and claimed she killed Ray in self-defense after years of domestic abuse. She participated in a recorded reenactment of the events surrounding Ray's death for detectives and claimed after she exited the bathroom in the early morning hours of May 26th, Ray stated he would kill her and reached for a gun. They struggled and both fell on the bed; Dani accidentally shot Ray in the chest. Still scared, Dani left the room to reload and returned, then shot Ray in the head. Ray's death was ruled a homicide and Dani was arrested. Investigators searched Dani's computer and discovered her search history, along with flirtatious correspondence between Dani and George Mann, a mutual friend from when Ray and Dani lived in Palm Beach County, FL. Investigators believed Dani intended to murder Ray so she could begin a new life elsewhere. Dani went on trial in August 2015; her attorney, Delmar Weldon, claimed self-defense and included a deposition from "Carol", who claimed to have witnessed injuries, as well as angry outbursts from Ray. After eight hours of deliberation, Dani was convicted of murder and sentenced to 60 years in prison. **On-screen text graphic:** An appeal by Dani has been denied. She will be eligible for parole when she's 71 years old. Interviewed: Aaron Negangard, prosecutor; Tracey Abbott, Ray's daughter; Bob Stevens, Ray's friend; Dawn Owen, Ray and Dani's friend; Karen and Gerry Auclair, Ray and Dani's friends; Dave Warr, Ray and Dani's friend; Tom Baxter and Pete Tressler, Indiana State detectives; Delmar Weldon, Dani's defense attorney; George Mann, involved in a secret internet relationship with Dani; "Carol" (alias), Dani's friend. 48 HOURS: “Scott Peterson: Case in Question” – an update on the case of Scott Peterson, who was convicted and sentenced to death for the murder of his pregnant wife in 2004. On December 24th, 2002, Laci Peterson was reported missing by her family in Modesto, CA. Investigators’ suspicions turned to her husband, Scott, whom they believed was acting strangely in response to her disappearance. They also considered it odd that he spent the 24th on a fishing trip, leaving Laci alone, despite her being eight months pregnant. The case quickly gained national and international attention. A month after Laci’s disappearance, Amber Frey came forward and revealed that she had been in a romantic relationship with Scott and had no idea he had been married or expecting a child. More than three months after her disappearance, the bodies of Laci and Conner washed up in San Francisco Bay, only a few miles away from where Scott said he was fishing on Christmas Eve. Police quickly moved to arrest Scott. In 2003, Scott’s trial began in Redwood City, CA, where it had been moved to avoid publicity. The prosecution focused on the numerous lies he told during the investigation and used Amber Frey’s secretly made recordings of phone calls between her and Scott. He was found guilty on November 11th, 2004. Four months later, Scott was sentenced to death. Scott’s defense team filed appeals for years and in the summer of 2020, the California Supreme Court threw out his death sentence due to a mistake on how jurors were selected. His attorneys continue to push for an entirely new trial based on juror Richelle Nice, who incorrectly filled out a prospective juror questionnaire. Scott’s defense team, as well as his sister-in-law Janey Peterson, theorize that Laci was still alive when Scott left for his fishing trip, that he is being framed, and a connection between two men caught burglarizing a home across the street from the Petersons. **On-screen text graphic:** Scott Peterson's next court appearance is expected in June 2021. Interviewed: Jon Buehler, Modesto Police detective; Jack Leonard, senior editor of investigations, *Los Angeles Times*; Michael Cardoza, member of Scott’s defense team; Pat Harris, Scott’s defense attorney; Janey Peterson, Scott’s sister-in-law. 05/08/21 **48 HOURS: “The Disappearance of Kristin Smart”** (9:00 - 10:00p) – an updated rebroadcast of a report on the 1996 disappearance of a college freshman that had remained unsolved. On Memorial Day weekend of May 1996, Kristin Smart attended an off-campus party alone after parting ways with a friend. According to witnesses, she became very intoxicated and was helped home by two students. However, the next morning she was nowhere to be found. Her friends reported the college freshman’s disappearance to campus police who were slow to investigate and eventually turned the case over to San Luis Obispo sheriffs. Suspicion turned to Paul Flores, one of the students who helped Kristin home. A witness saw him with a black eye and scratches on his hands the day after Kristin’s disappearance for which he had shifting explanations. Cadaver-sniffing dogs brought to Paul’s dorm room all had a reaction, despite it having been cleaned following the end of the semester. Additionally, Paul had a reputation as being aggressive with women. Kristin’s parents eventually filed a civil suit against Paul, believing him to be behind Kristin’s disappearance and to compel San Luis Obispo sheriffs to look harder at the case. In January 1997, renters of Paul’s mother’s home found a piece of jewelry in the driveway that allegedly resembled what Kristin was wearing in a photo used in billboards about her disappearance. When the Smart family asked to see it, they learned it had been lost by sheriffs. In March 1997 and then again in June 2000, sheriffs searched the home of Paul’s mother, including the yard, but were unable to find Kristin’s body or other evidence. The Smart family was allowed to search the property with ground-penetrating radar in 2007, and likewise did not find anything. In 2011, Sheriff Ian Parkinson took over Kristin’s case. In 2019, he recovered two trucks that had been owned by the Flores family in 1996. In 2020, simultaneous searches at the homes of all Flores family members were executed. Sheriff Parkinson recovered new evidence that he could not publicly disclose as it was still being investigated. **05/08/21 UPDATE:** An important tip came in after a February 2020 search of Paul, Susan and Ruben's properties: four nights later, strange activity was seen at Ruben's house and an eyewitness actually documented the fact that throughout the night, there was activity in the area of the underside of the deck. And during that 2020 search of Paul Flores' home, investigators discovered photographs and videos on Flores' computer showing him engaged in sexual activity with at least ten different women, apparently in various states of consciousness. Also found was evidence that a body had been buried there and recently moved. It is alleged that Paul caused the death of Kristin Smart while in the commission of, or attempted rape of Kristin. Because of the statute of limitations, Paul cannot be charged with rape and was instead arrested on first-degree felony murder charges. Paul Flores and his father both pleaded not guilty to all charges at their arraignment. Ruben Flores was released on \$50,000 bail to his ex-wife and is required to wear an electronic ankle bracelet; Paul is being held on no bail. Original on-screen text graphic: The Kristin Smart Campus Safety Act became California law in 1998. It requires campus and local police to have a joint plan to handle investigations of violent crime on campus. **On-screen text graphic**

05/08/21 **48 HOURS: “The COVID Cover-Up: Searching for Gretchen Anthony”** (10:00 - 11:00p) – a report on the murder of a Florida woman and the attempt to conceal it as a coronavirus pandemic statistic. Friends and family of Gretchen Anthony became concerned when beginning on March 23rd, 2020, Gretchen texted that she tested positive for coronavirus and was steadily getting sicker. They became suspicious when her texts said she was at a CDC facility in Belle Glade, FL, which does not exist, and subsequently reached out to police to perform a welfare check. Officers located Gretchen’s car in the parking lot of Jupiter Medical Center, but found no record of her being a patient there. On March 26th, police canvassed her neighborhood and located a neighbor who reported hearing screams from Gretchen’s home on the 21st. They entered the home and noted the smell of cleaning supplies, towels with a blood-like substance on them and signs of a struggle. Neighbors also shared photos of a truck they had seen parked in Gretchen’s driveway, which matched one owned by Gretchen’s estranged husband, David Anthony. While investigators waited to receive footage from the ‘cloud’, because the security cameras in Gretchen’s home had been removed, they went to David’s home and learned from his mother that he had left for Costa Rica. Because he was attempting to leave the country and matched the tall figure seen exiting Gretchen’s car on hospital surveillance footage, David became a suspect. Tracking phone records, Detective Jared Kenerson tracked David’s path West, where he had stopped at jewelry stores and sold Gretchen’s jewelry. On March 27th, David’s cell phone pinged in Las Cruces, NM. Local police were alerted, who seized his truck. Inside, they found Gretchen’s phone. However, there was not enough cause to hold David and he was released. On March 30th, investigators received camera footage from Gretchen’s home which clearly showed David gagging her and forcing her into a car on the night of the 21st. Detective Kenerson and Detective Sally Sanders interrogated David in Las Cruces. During questioning, he maintained that Gretchen was still alive and claimed she had been travelling with him before suddenly splitting off on her own in Texas. He was charged with second degree murder and extradited to Florida. While in custody in Palm Beach County, the grand jury raised his indictment to first degree murder and kidnapping. On December 21st, 2020, David agreed to plead guilty to second degree murder in exchange for a 38-year prison sentence and revealed the location of Gretchen’s body. Her remains were recovered the

same day. An autopsy revealed her cause of death was stab wounds to the neck and torso. In January 2021, David was sentenced. **On-screen text graphic:** David Anthony is scheduled for release from prison in 2058. He will be 81 years old. Interviewed: Kelly Hanna, Gretchen's friend; Chrichet Mixon, assistant state's attorney, Palm Beach County; Tabitha Hopkins, David's former employer; Dave Aronberg, state attorney, Palm Beach County; Detective Jared Kenerson, Jupiter Police. 05/15/21 **48 HOURS: “A Sister's Fight for her Brother”** – a report on Lauren Pettit's continuing support of her brother, Brandon Pettit, following his arrest, trial and conviction for the murder of their parents. At 3AM on August 8th, 2013, a fire in the Modesto, CA home of Scott and Janet Pettit engulfed their bedroom. Investigators soon discovered that the couple had been shot seven times and the fire was set to cover up their murder. Police's attention soon turned to Brandon, Scott and Janet's son. A week after their deaths and following two interrogations, he was arrested. While Brandon had an alibi for the time of the murder, police believed he paid a friend, Felix Valverde, to commit the act. A search of Felix's home produced Scott and Janet's wallets, a case of ammunition, and seven spent shell casings hidden in a planter. Brandon confessed to giving Felix \$100 in the days after his parents' death, but maintained it was to help him with bills. Brandon and Felix were set to stand trial together. However in August 2020, Felix was declared incompetent to stand trial. Brandon's trial began September 1st, 2020. Prosecutors built a case around financial motive, saying that Brandon had given Felix the keys to Scott and Janet's home so that he could commit the murder and Brandon could receive an inheritance. Pettit family friend Mike Anderson testified that Brandon tried to sell Scott's classic Corvette soon after his death. High school friend Sarah Wilson detailed her communications with Brandon, who had promised his parents would buy a \$1 million house for the two of them in Georgia. The jury also heard from Susan Sanchez, Brandon's ex-girlfriend and mother of their daughter, who testified Brandon told her he wanted his parents dead and that Felix could make her ex-husband “disappear” in exchange for money. Brandon's sister Lauren testified in his defense. She countered the financial motive and that the Corvette was already in Brandon's name. Robert Winston, Brandon's defense attorney, brought up that the Pettit home had electronic locks and suggested Felix likely ended up with keys after he took their wallets, where spares were kept. Additionally, they brought up the large dog door at the rear of the home, which was large enough to allow an adult to enter. Finally, Winston questioned the police's interrogation of Brandon. A clinical psychologist testified that because of Brandon's Asperger's syndrome, which falls under autism spectrum disorder, it was unclear if Brandon truly understood the questions asked of him. After a day and a half of deliberation, the jury returned with a guilty verdict. Brandon was given the maximum sentence: two life terms without the possibility of parole. **On-screen text graphic:** Brandon

has written Sarah Wilson multiple times from jail insisting he is innocent. She says she has never responded. Interviewed: Lauren Pettit, Brandon's sister; Mike Anderson, Pettit family friend; Martha Carlton-Magana, Brandon's former defense attorney; Sarah Wilson, Brandon's friend; Robert Winston, Brandon's defense attorney; Mary Fulginiti, CBS News consultant. 05/22/21 **48 HOURS: “The Fenn Treasure”** – a report on the treasure hunt started by a rich art dealer and the lives lost in pursuit of it. After he retired as a fighter pilot, Forrest Fenn became a successful art dealer in Santa Fe, NM. In 2010, he published a memoir that included a twenty-four line poem that he said contained clues to the location of a ten-by-ten inch box filled with gold he had hidden in the Rocky Mountains. After attention from the media, the hunt grew in popularity, including annual “Fennboree” meetups, which Forrest himself attended. On January 5th, 2016, Randy Bilyeu set off searching along the Rio Grande near Santa Fe, NM with his dog. He was reported missing ten days later. A helicopter rescue crew located his dog and raft, but could not find Randy. Six months later, his body was found on a riverbank. In June 2017, three more searchers lost their lives. Jeff Murphy fell off a cliff. Pastor Paris Wallace attempted to cross the high waters of the Rio Grande near the Taos Junction Bridge, but was overcome. His body was recovered four days later and spurred New Mexico State Police to ask Fenn to call off the hunt. Fenn refused. Eric Ashby attempted to swim across the Arkansas River outside Canon City, CO, but could not get past the rapids. On March 17th 2020, Mike Sexson and Steven Inlow set off from Salt Lake City, UT so they could search before the coronavirus lockdowns went into place. Originally on snowmobiles, they left their vehicles and most of their supplies when the terrain changed. They attempted to reach a mountain ridge, but the trek was longer and more arduous than they anticipated. Without water, Steve resorted to drinking his own urine to survive the cold. At 2AM on March 20th, he awoke to find Mike dead from hypothermia. The next day, Steven was able to draw the attention of a rescue helicopter. On June 6th, 2020, Fenn posted a brief message on a forum used by searchers stating that the treasure had been found. In July 2020, he elaborated that it was found in Wyoming. In September 2020, Fenn passed away. Later that year, Jack Stuef went public as the person who had located the treasure. **On-screen text graphic:** To this day, searchers continue to look for the spot where Jack Stuef found the treasure, still hoping to solve the clues in Fenn's poem. Interviewed: Liz Key, Mike's friend; Beth Van Oss, Mike's girlfriend; Dan Barbarisi, author, Chasing the Thrill: Obsession, Death, and Glory in America's Most Extraordinary Treasure Hunt; Sacha Dent, searcher, Fenn's friend; Katya Luce, searcher, Fenn's friend; Toby Younis, YouTube show host; Kathy Leibold, Randy's sister; Erin Johnson, flight nurse; Jay Raynor, Dan Barbarisi's treasure-hunting partner; Paul Ashby, Eric's father; Steven Inlow, Mike's friend. 05/29/21 **48 HOURS: “The Final Days of JJ and Tylee”** (9:00 - 10:00p) – a follow-up to “The Missing Children of Lori Vallow Daybell” (OAD: 05/16/20), a report on the deaths of JJ Vallow and Tylee Ryan, whose mother refused to speak about their whereabouts after they went missing and is now on trial for their murder. Lori Vallow and Charles Vallow were raising Tylee, Lori’s daughter from a previous marriage, and JJ, the adopted grandson of Charles’ sister, in Arizona. Things began to change in 2017 when Lori became interested in the works of Chad Daybell. Thereafter, Lori allegedly came to believe that she could see “light and dark” in people. Charles went to the police and stated that Lori had threatened to kill him, believing him to be a “zombie”, and would eventually file for divorce. In July 2019, Charles went to Lori’s home to pick up JJ for school. After arriving, he was shot by Alex Cox, Lori’s brother, who claimed he was acting in self-defense, which Lori and Tylee backed up. By September 2019, Lori moved to a home near Chad Daybell in Rexburg, ID with the children and Alex. By the end of the month, both Tylee and JJ would be missing. Roughly one month later, Chad’s wife, Tammy Daybell, died mysteriously in her sleep. Two weeks later, Chad and Lori were married. In November 2019, Kay Woodcock, JJ’s grandmother, contacted police after becoming concerned that she could not reach Tylee or JJ. Lori told police that the children were staying with her friend, Melanie Gibb, in Arizona. She would then ask Melanie to corroborate the story and allegedly to take pictures of random children and say they were JJ and Tylee. In January 2020, Lori was ordered to produce the children. She ignored the order and was arrested. Police examined location data from Alex’s cell phone for the last days Tylee and JJ were seen alive and, in June 2020, searched Chad Daybell’s property. Checking an area of shorter grass, they found JJ’s body, his limbs bound with duct tape. In the pet cemetery, they found some of Tylee’s remains, which showed signs of being burned. Chad Daybell was arrested and he and Lori were charged with conspiracy to destroy or conceal evidence. There were no charges involved in the children’s deaths as Alex had passed away from natural causes earlier in the year, leaving police unable to determine who the killer was. Tammy’s body was exhumed and investigators now consider her death suspicious. Arizona authorities are also re-examining Charles’ death. Original on-screen text graphic: If found guilty, Chad Daybell faces up to 20 years in prison, and Lori Vallow faces up to 10 years in prison. **On-screen text graphic for 05/29/21 rebroadcast:** On May 25, 2021, Lori Vallow and Chad Daybell were indicted on charges of murder in the first degree in the deaths of Tylee and JJ. Chad Daybell was also charged with first degree murder in the death of his former wife, Tammy Daybell. Lori Vallow's case is on hold while the court determines whether she is mentally competent to stand trial on charges related to the death of her children. Interviewed: Vaisia Itaaehau, Tylee’s friend; Morgan Loew, KPHO investigative reporter; Echo Itaaehau, Vaisia’s mother; April Raymond, Lori’s friend; Margaret Travillion, co-founder of Lauren’s Institute for Education; Julia Allen, JJ’s teacher; Benjamin Hyde, Chad’s friend. 05/29/21 **48 HOURS: “In the Name Of Hate”** (10:00 – 11:00p) - a report on the 2018 murder of Blaze Bernstein, a brilliant Ivy League student. Allegedly slain because he was gay and Jewish, this report examines the rise of hate-fueled crimes in the United States; the influence these hate groups have; background information on the group Atomwaffen Division; and how the Bernstein family has used the death of their son to attempt positive change. Bernstein, a student at the University of Pennsylvania, returned to his California home after finishing the fall semester. He disappeared shortly thereafter. The investigation led to former high school classmate Sam Woodward, who was ultimately charged with his murder. The charges have been elevated to hate crime status, based on information found on Woodward’s personal computer, social media feeds and cellphone. Woodward was a member of Atomwaffen Division, a neo-Nazi hate group whose members praised Bernstein’s murder. Also included is an interview with a member of the group, who provides information on the case of Nick Giampa. Giampa murdered Scott Fricker and Buckley Kuhn Fricker, of Reston, Virginia -- the parents of his girlfriend, who had told their daughter to stop dating Giampa because of his beliefs and support of Atomwaffen Division. **On-screen text graphic for the 05/29/21 rebroadcast:** Sam Woodward’s trial is expected to take place later this year. CBS NEWS: “TULSA 1921: AN AMERICAN TRAGEDY” – a primetime news special marking the 100th anniversary of the Tulsa Massacre - the single worst incident of racial violence in American history. On May 31 and June 1, 1921, White Tulsans attacked, killed, destroyed and pillaged their Black neighbors, leaving about 300 people dead and razing a business district in the Greenwood section of Tulsa known as Black Wall Street. The broadcast includes eyewitness accounts from survivors and descendants, who describe the loss of family members and explain how it continues to impact generational wealth. Historians and authors examine why the Tulsa Race Massacre happened and how the events in Tulsa continue to reverberate both locally and across the country. In 2019, Oklahoma passed a law requiring that the 1921 Tulsa Race Massacre be taught in schools. Current Tulsa community members share how the city is rebuilding itself. - 06/05/21 **48 HOURS: LIVE TO TELL: “Surviving Ted Bundy”** (9:00 – 10:00p) – Karen Kleiner, Karen Chandler, and Cheryl Thomas, all attacked by serial killer Ted Bundy, tell their stories and their subsequent road to recovery. In the early morning hours of January 15th, 1978, Karen Kleiner was awakened by the slamming of her bedroom door, just before a man struck her with an object. He attacked her roommate Karen Chandler, after he noticed her stirring. Alarmed by the return of a Chi Omega sorority sister to the house on the Florida State University (FSU) campus, the man fled. The two women were taken to the emergency room and learned the man had murdered and sexually assaulted two of their sorority sisters. Sheriff Ken Katsaris found bite marks on the deceased victims and was informed of another attack six blocks away, this time on Cheryl Thomas. He also received word from Colorado authorities about an escaped criminal in the area, Ted Bundy. Weeks later, another possible victim came to light, 12-year-old Kimberly Leach. On February 15th, Ted Bundy was arrested in a stolen car and immediately became a suspect. While none of the victims could identify Bundy, a Chi Omega sister saw his profile the night of the attacks and positively identified him from a lineup. Sheriff Katsaris obtained a warrant for a mold of Bundy’s teeth, which experts matched to the bite marks. During the trial, Bundy took an active role in his defense, deposing witnesses and serving on his own defense team for the FSU trial. On July 24th, after seven hours of deliberation, Bundy was found guilty on all counts and sentenced to death. He would subsequently be found guilty for Kimberly Leach’s death and given a second death sentence. Bundy appealed through the 1980s and after exhausting all appeals, offered information on more victims, in exchange for his sentence to be changed. He was executed January 24th, 1989. **On-screen text graphic:** Ted Bundy confessed to at least thirty murders. But it is believed he may have killed over a hundred women in at least six states. - 06/05/21 **48 HOURS: “Home Renovation Homicide”** (10:00 – 11:00p) - a report on the murder of Shanti Cooper in Orlando, FL, for which her husband Dave Tronnes is suspected, allegedly over the ownership of a house undergoing years of renovations. In 2013, Shanti Cooper began an online relationship with Dave Tronnes that quickly blossomed. After just a few months, Dave moved from Minneapolis, MN to Orlando, FL to be with her. In 2015 the pair would move to a new home and begin renovations, which Shanti paid for. Keith Ori, host of a house-flipping television show, had difficulty getting the two to appear on camera together. According to prosecutor Ryan Vescio, the animosity came from Dave’s refusal to make Shanti a beneficiary to the trust that owned that house, effectively making him the sole owner. On April 24th, Dave called 911 after returning home

in the afternoon and finding Shanti dead in the bathtub. In the lengthy police interview that followed, detectives questioned inconsistencies in his story: Shanti had numerous injuries on her person inconsistent with falling; there was no water on her or around the tub; and there was blood on the bed, which Dave dismissed as being from Shanti's period. An autopsy would later find strangulation as the cause of death. Dave agreed to a polygraph, but due to the late hours, police could not find anyone to administer one and released him. Searching for a motive, police received a tip that Dave was a member at a local bathhouse and interviewed an employee who claimed to have seen Dave having sex. Dave maintained Shanti was killed in a robbery and cited her missing diamond engagement ring as proof. In August 2018, Dave was arrested for Shanti's murder. A search of the home he was staying at produced the missing ring. In November 2018, police interviewed Dave's ex-wife, Carole, about her health conditions, which her loved one suspected was from Dave poisoning her. Carole denied this. A surveillance camera police had set up at the couple's property captured footage of investigators hired by Dave's defense team. Those lawyers revealed to Vescio they had two pieces of evidence that had been removed from the house: bedsheets with Shanti's blood on them and a green cord. Police would also interview Edward Gismondi, who met Dave in a jail housing unit. Gismondi stated Dave told him how certain hallucinogens could be used to poison food. He also told police Dave confessed to killing Shanti after she found messages on his phone pointing to an affair. However, police were unable to corroborate Gismondi's claims. In 2019 Ryan Vescio left his position as a prosecutor and became counsel for Shanti's estate in order to make sure her assets went to her son. Dave is awaiting trial. Original on-screen text graphic: Shanti's son Jackson lives with her ex-husband Jim Cooper. 06/12/21 **48 HOURS: "The Final Hours of Cayley Mandadi"** - a report on the murder of Trinity University student Cayley Mandadi, allegedly by one of the two men she was involved with. In October 2017, Cayley Mandadi was rushed to the emergency room in Luling, TX by Mark Howerton, a man she had been having a relationship with. After leaving a San Antonio music festival on October 29th and having sex, Mark claimed she stopped breathing. Medical staff were unable to revive Cayley. Three months later, an autopsy concluded she had died from blunt force trauma to the face and head, leading to Mark's arrest for murder and sexual assault. At trial, the prosecution presented witnesses from the night at the emergency room that noted bruises on Cayley's legs and redness on Mark's

hands, and cited the fact that Mark had changed his story about where he and Cayley had sex. Friends of Cayley and a Trinity University security officer testified about Mark's violent outbursts, including an incident that led to him being barred from campus. Jett Birchum, the other man Cayley had been involved with, testified that Cayley had agreed to break up with Mark at the music festival and that he witnessed Mark forcing her to leave with him. Mark's attorney, John Hunter, questioned Jett's credibility as he had given different testimony in court than he had to police and the grand jury. He also pressed Jett on the immunity deal he made with prosecutors over Jett's alleged involvement in dealing drugs. Defense witnesses rebuked the autopsy: a forensic pathologist stated a skull fracture was consistent with a fall and a pharmacology expert testified that the large amount of MDMA in Cayley's system could have led to hemorrhages and bruising. After 10 hours of deliberation over two days, a mistrial was declared. However, the prosecution plans to retry the case. Alison Steele, Cayley's mother, worked to pass the CLEAR alert bill in Texas, which allows for emergency texts for missing persons between 18 and 64. 48 HOURS: “Justice for Ahmaud” – a report on the shooting death of Ahmaud Arbery, which led to widespread national outrage after video of the incident was released. On February 23, 2020, Ahmaud Arbery went running in the Satilla Shores neighborhood of Brunswick, GA. During that time, he went inside a home under construction, which led to a neighbor calling 911 to report a trespasser. Another neighbor, Greg McMichaels, and his son, Travis, decided to follow Ahmaud in their truck. Ahmaud fled when they confronted him. Soon Roddie Bryan also joined the pursuit, and the McMichaels were able to box Ahmaud in. As Ahmaud attempted to run past Travis, a confrontation ensued, which resulted in Ahmaud being fatally shot. First responders arrived within minutes and allowed all three men to go free. Police contacted Ahmaud's mother, Wanda Cooper-Jones, and stated that he was killed during a break-in. She would learn the truth after it was published in the paper. Two district attorneys recused themselves from the case afterwards due to ties with Greg, who was a former police officer. In May 2020, video of the incident was released and led to widespread condemnation and protests. Greg, Travis, and Roddie would subsequently be arrested. At a preliminary hearing, defense attorneys portrayed Ahmaud as the aggressor and cited a previous mental illness diagnosis of his, while dismissing any accusation of racism. However, investigators from the Georgia Bureau of Investigation revealed numerous texts including the N-word from Travis. At Roddy's arraignment hearing in July 2020, he claimed to have been only a

witness to the shooting and denied any involvement, despite Ahmaud's handprint being found on his truck. Original on-screen text graphic: The Department of Justice is considering federal hate crime charges in the Ahmaud Arbery case. *(The 06/19/21 rebroadcast includes an update in the form of a new voiceover: In April, authorities filed federal hate crime and attempted kidnapping charges against the McMichaels and Roddie Bryan.)* **On-screen text graphic for the 06/19/21 rebroadcast:** In pretrial motions, defense attorneys argue the jury should hear details of Ahmaud's mental illness and brushes with the law. 48 HOURS: “Christy Martin - The Fight of Her Life” – boxer Christy Martin opens up about the attack from her former husband that nearly ended her life. In November 2010, Christy Martin told her husband and long-time boxing trainer, Jim Martin, that she would be seeking a divorce. Christy had reconnected with her high school girlfriend, Sherry Lusk, and no longer wished to live in the closet. Days later, Jim approached Christy with a concealed knife as she prepared for a workout. In the ensuing confrontation, Jim stabbed Christy multiple times and shot her near her heart. Jim believed her to be dead, but Christy survived and was able to make it outside where she found Rick Cole, a passing driver who took her to the emergency room. Jim went on the run and was found seven days later living in a neighbor's shed. In April 2012, Jim's trial began in Orlando, FL. Witnesses for the prosecution testified to Jim's history of controlling and abusing Christy. In contrast, Jim's defense attorney, Bill Hancock, portrayed Christy as the aggressor and claimed that the injuries she suffered were the result of her attacking Jim and Jim defending himself. The jury found Jim guilty of attempted murder. He was sentenced to 25 years in prison.
