organization that has been in existence more than two decades, and he discussed
how we may be ridding our nation of the scourge of abortion. He talked about anti-
abortion legislation that is making its way through the Texas legislature that may end
most late-term abortions in that state. The Illinois State Supreme Court has upheld a
bill that requires abortion clinics and other abortion providers to provide notice to
parents that their child is considering an abortion. Planned Parenthood is outraged at
this law. Wisconsin Governor Scott Walker signed into law "Sonya's Law" which
requires a woman considering an abortion to have an ultrasound before she can have
the abortion.

FAITH AND FREEDOM

8/9/2013 15 MIN Matt Staver

M-F 3:00PM

Health and safety violations, such as anesthesia tubes patched with tape and filthy operating rooms, have led to many abortion "clinics" closing down this year. We must protect women with basic safety standards! Hear Mat Staver, Founder and Chairman of Liberty Counsel, and Deryl Edwards, President of Liberty Counsel Action, discuss this further.

CROSSTALK

8/12/2013 55 MIN Jim Schneider and Mark Crutcher

M-F 2:00PM,

REPEAT 8:00PM

Mark Crutcher is President of "Life Dynamics" based in Denton, Texas. He has been working in the pro-life movement full time since 1986 having created the "Life Activist Seminar" and eventually trained more than 15,000 pro-life activists across the U.S. and Canada. In 1992 he Founded "Life Dynamics," an anti-abortion, pro-life organization fighting to end legal abortion and return the right to life to unborn babies from the moment of conception. Their motto is, "Pro-life without compromise, without exception, and without apology," and he discussed what life and the routine are like inside a typical American abortion clinic.

FAITH AND FREEDOM

8/13/2013 15 MIN Matt Staver

M-F 3:00PM

Planned Parenthood cheats federal and state government out of millions of Medicaid and other healthcare dollars. Hear Mat Staver, Founder and Chairman of Liberty Counsel, and Deryl Edwards, President of Liberty Counsel Action, discuss these implications.

FAITH AND FREEDOM

9/9/2013 15 MIN Matt Staver

M-F 3:00PM

California looks to pass a bill allowing midwives, physician assistants, nurses, and others to do abortions without the certification, experience, or equipment necessary to prevent and recover from medical emergencies. Is this a glimpse of how Obamacare could make care cheaper and more dangerous here in America? Hear Matt Barber, Vice President of Liberty Counsel Action, and Shawn Akers, Vice Presidents of Middle Eastern Affairs, talk about the implications of this.

CROSSTALK

9/13/2013 55 MIN Vic Eliason

M-F 2:00PM,

REPEAT 8:00PM

Vic hosted a program "Worshipping At Molech's Altar" likening America's infatuation with abortion since 1973 being like the worship of Molech in the Old Testament where parents would worship by laying their children in the arms of the red hot image of Molech with a furnace in his belly and burn them alive. He also talked about the foolishness of an Oconomowoc elementary school building transgender or unisex bathrooms for one gender-confused student to use.

FAITH AND FREEDOM

9/17/2013 15 MIN Matt Staver

M-F 3:00PM

Video of a pro-abortion prayer thanking God for the freedom of choice has gone viral. It is astounding that someone would be praying for thanks that 45 million women decided to have their children ripped apart during a brutal abortion. Only through God can healing take place and America must turn from this path. Hear Mat Staver, President of Liberty Counsel, and Matt Barber, Vice President of Liberty Counsel Action, discuss this issue and similar ones taking place across the nation.

Peter, in his message on Pentecost, referred to some of these passages and applied them to Jesus Christ which resulted in thousands getting saved on that day. Christianity is always spread by preaching the Word, while Islam, in contrast, is always spread by the sword. Semiramis was referred to as the Queen of Heaven. When Israel went away from Jehovah God, they turned to this ancient religion of worshipping the Queen of Heaven. These symbols relate to the teachings of Roman Catholicism with Mary equating to Semiramis and Jesus to Tamuz. The cult of Mary worship goes all the way back to Genesis. Usama continued his study of the documentary DVD "Islam: An American Faith." Today he talked about how the narrator in the DVD was saying that the freedoms within the Bill of Rights that America is founded upon are definitely within the spirit of Islam. This is an outright lie. The Muslim man in the DVD knows that Islam is based upon Sharia, which does not allow for the freedoms Americans enjoy. The man said derogatory things about Jesus Christ, which under freedom of speech, he is able to do. But he had better beware in a Muslim country, if he says the same kind of things about Mohammed or Allah. His life would be in jeopardy.

Sept.

Usama continued his study of the DVD "Islam: An American Faith." Today he talked about how Mohammed told his followers that Allah had chosen him to be Allah's prophet. The DVD tries to make Islam out to be an American faith just like Christianity, but this is a lie, because Islam is nothing like Christianity and all that America has been founded upon. The ideas of Democracy, the Judeo-Christian worldview and mindset, and the laws that America has devised through the Bible in our Constitution, are nothing like the oppression and brutality that people experience under Islam and Sharia. A true Muslim cannot be an American, because their first allegiance must be to Mohammed, Allah, the Koran, and Sharia, then to neighboring Muslim countries, then Muslim countries that are enemies, and then lastly to America.

Today he talked about how Muslims who are true believers cannot be Americans, because a Muslim could never swear allegiance to the U.S. Constitution or the United States. He was joined by Jay to discuss what the narrator was saying about the sub-cult of Islam, "The Nation of Islam" made famous by Malcolm X, with his black Muslims. Mohammed, himself, hated blacks and would never have wanted to be black, but now Muslims see the black community as a help to conquer America. This sub-cult of Islam tried to segment the American population and drummed up hate of all whites. Christianity says there is neither Jew nor Greek, slave or free, black or white in Christ. Malcolm X, himself, was killed by the Nation of Islam, because he eventually rejected the teachings of his teacher Elijah Mohammed.

They also mentioned that at the end of the Civil War when the slaves were freed, it was Democrats who were forming the KKK and other groups that were against all who did not fit their image. It was the Republicans who fought for the right for blacks to vote, to hold political office, and other freedoms for the freed slaves. The early Muslims actually believed in many gods.

The Black Muslim movement or "Nation of Islam" was supposed to be a movement for blacks to get back to their Muslim roots. This is a lie, because only a very small percentage, about 5%, of the slaves brought to America from Africa were Muslims. African Americans are not Muslims. The premise for the "Nation of Islam" and Black Muslims is a false premise.

This is used by Mormons to teach you can get baptized for someone who has died so they can get saved after death. This verse is talking about being baptized as a Christian to replace those who have died. He then discussed John 12:32 where Christ says if He will be lifted up, He will draw all men unto Himself. This is not talking about "universalism" or we, as Christians, lifting up Christ to the world, then He will draw all men to Himself. It is speaking about literal crucifixion where Christ would be lifted up on a cross to pay for sins, and He would draw men unto Himself in salvation. Then he talked about Proverbs 29:18 that says where there is no vision, the people perish. This is not talking about having visions or having goals or a vision for the work, but where there is no open revelation from God, the people cast off restraint or do whatever they want to do and perish. Lastly, he talked about Esther 4:13 that talks about Esther having been brought to the kingdom for such a time as this to save the Jewish people. This verse applies to every Christian who is allowing God to use them for whatever He created them, because God ordained them for such a task at such a time. families and small businesses. On top of that, his administration is continuing to
invest in our state by providing hundreds of millions of dollars more for our public
schools and over \$100 million in workforce development to help close the skills gap
and help people find jobs faster. In an effort to move people from government
dependence to true independence, he also introduced a number of reforms in this
budget. One reform he's particularly proud of deals with the food stamp program,
and it requires able-bodied adults, without children, to get a job or job training before
they are eligible for benefits. His intention with this program is to provide a helping
hand up, not just a handout. Other great items in this budget include strong property
tax controls and a two-year tuition freeze for every student in the University of

But though our religious freedoms are being threatened, we are still very free compared to other nations around the world. We still are not imprisoned for our faith. God can still raise up a leader to turn this nation back to Himself. He raised up people like Nehemiah and Ezra to bring a whole people back to God. The weather was particularly devastating for the alfalfa and winter wheat. Farmers have eight months to apply for emergency loans through the Farm Service Agency. Wisconsin farmers now have the necessary resources to help them deal with crop loss. Additional resources for affected farmers are available through Ready Wisconsin and the Farmer to Farmer program. The Farmer to Farmer program connects farmers in need of feed for their livestock with farmers who sell feed. The program is provided by UW-Extension and was established last summer in response to the drought. The database is provided free of charge and can be used to search for hay, alfalfa haylage, corn silage, high moisture corn, corn grain, or other forages. FRI 8:18AM,

REPEAT 3:33PM

The Sunday circulars have school supplies these days, and that's the signal not only for the kids, but for you and me...that it's time to buckle down for business. So Lieutenant Governor Rebecca Kleefisch wants to talk business at the third annual Governor's Small Business Summit.

For the last two years, job creators from across the state gathered in Green Bay and La Crosse to meet and discuss the issues facing small businesses and how the state can assist them with their growth here in Wisconsin. We want to continue this tradition and provide another opportunity for small business owners to interact with the Governor and our entire cabinet. That's why on September 25th in Stevens Point, the Governor and Lieutenant Governor will be joined by hundreds of business people looking to improve Wisconsin, and she hopes you are among them. 75 percent of all new jobs come from small businesses. As Wisconsin continues to recover from the recession, we know the role they play in hiring and growing our economy. The Federal Reserve in Philadelphia has an analysis that already shows that Wisconsin is poised to grow over the next six months at an almost unmatched pace. Employers with fewer than 10 employees are now hiring at a faster rate than before the downturn began in 2007. And we here at the state stand ready to help facilitate this growth. From nearly \$1 billion in tax relief to our new investment capital program, we have focused on fostering long-term success in this important sector of Wisconsin's economy. The summit will feature a "brown bag lunch" with a keynote address from Governor Walker. As the Lieutenant Governor has traveled across the state conducting roundtables with small business leaders, they overwhelmingly cite healthcare as their number one concern. This summit will include a breakout session on this and other important topics. Every state cabinet agency will also have an informational booth on their interactions with small business. Julaine discussed what it was like growing up in a traditional Christian home. Reading the Bible daily, prayer, and going to church whenever the doors were open were expected. It was idealistic until one day at school they had a drill in case there was a missile attack by some man whose name she could not pronounce from some place across the ocean. This week many children will start school in a place where the teachers have been taught in a socialistic philosophy of life that the government will provide all of their needs, that it is quite all right for children to have two mommies or for daddy to have a roommate, and that God and the Bible are but myths. Most of those children will never know the comfort and safety of growing up in a traditional Christian home. We must not grow tired of the need to reach these children and their families.

REPEAT 3:33PM Wisconsin's credit rating. These annual meetings give the Walker Administration a chance to discuss the state's bond rating, the fiscal impact of our state budget, and the status of the economy in Wisconsin. Thankfully, there is a great story to tell. The Walker Administration turned a \$3.6 billion budget deficit into a sizable surplus, we have the largest rainy day fund in state history, our state pension system is the only one in the U.S. that is fully funded, and the Federal Reserve Bank of Philadelphia just ranked Wisconsin as second in the country on its leading indexes for the next six months. Over the past few years, the Governor had to make some tough, but prudent, decisions. Thankfully, they worked, as our fiscal and economic situation is much better. This allowed us to invest more into our schools, technical colleges, a tax relief, the UW System, veterans' programs, health care, and other important priorities in our recent budget. Unlike our neighbors to the south, we laid a strong foundation for future prosperity and ongoing stability. The present administration is moving Wisconsin forward.

Millions of dollars are spent on single parent households, but most in tact traditional families made up of a father and a mother are self-supportive and tax payers. The pro-marriage message must continue to be taken to churches here in Wisconsin. Marriages and families are the basic building blocks of any society, and a society is only as strong as its families.

For the first day of school, Governor Walker joined State Superintendent Tony Evers to ring in the school year at Garland Elementary in Milwaukee. They walked through the neighborhood with students from Garland as they headed back to school and had a great time kicking off the school year with them. As a parent, he understands the importance of a quality education. Both of his sons will be away at college this year for the first time, and they'll be building on the academic foundation built in their local public school. Every child deserves access to a great education -- and the foundation for academic success begins with reading. Students need to learn to read by the third grade, so that they can then read to succeed. Our state budget invests \$2.8 million in the PALS reading screener program. The screener assesses students in four-year-old kindergarten through second grade for basic reading skills. Additionally, the assessment will now include an oral vocabulary component in second grade. Governor Walker encourages every parent to read to their child at home so that they can sharpen their reading skills. Tonette and the Governor hope students all across the state have a great school year and foster a joy of learning throughout the year. Thanks to all of our teachers and administrators who dedicate their time and talents to our children day in and day out, so they can build a strong academic foundation for their future.

The previous administration allowed gambling casinos to grow almost unchecked. The Walker Administration has approached it with caution, realizing we need jobs here in Wisconsin, but all jobs are not beneficial. The money low income people spend on gambling is money that could be added to the economy through other more beneficial spending. "We the people of the United States, in order to form a more perfect Union, establish justice, ensure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution for the United States of America."

This week marks the 226th anniversary of the signing of our Constitution. Our Founders spent the summer of 1787 forging a path for the United States to grow and prosper, and each of the delegates was tasked with finding a way to preserve individual freedoms and establish a government that would defend the rights of its people. James Madison played a crucial role in drafting our founding document and is known as the "Father of the Constitution." All of the delegates who signed the Constitution sealed their mark on history, and their work continues to influence our daily lives. Without their wisdom and forethought, America would, without a doubt, be a very different place today. The Founders had been through war and risked everything to build a nation where its citizens could find freedom, justice, tranquility, and prosperity. also wants to provide assistance for the unemployed wishing to transition into new

REPEAT 8:00PM

Vic discussed several of the stories in the news today. Even though the government is shut down the Senate has decided to give 445 million dollars to NPR. The U.S. government is shut down, but Camp David is still open for the President to use for vacationing, including chefs, gardeners, and all other staff members will continue to be employed throughout the shut down, because the White House says Camp David is run by the Department of Defense, and the military must continue to be ready for anything, including making grilled cheese sandwiches. The government even tried to shut down parts of Wisconsin and privately owned Mt Vernon, George Washington's plantation home. Several WWII veterans were blocked from getting into the WWII Memorial this week, but the vets broke through the barriers anyway. The White House is trying to make the shut down worse than it can be. The Federal Bureau of Land Management approved the payment of \$98,000.00 for an outhouse to be built and shipped up to Alaska. Now President Obama is trying to scare the public about the upcoming debate to raise the federal debt limit ceiling, but he says he will not compromise on raising the debt ceiling. 90% of the government employees are still being paid and are employed, except for the very high profile park areas and services that the public wants to visit. CNS News reports that several Democratic members broke rank with their party to fund the NIH which treats many children with terminal cancer treatments. Texas Governor Rick Perry's wife has come out saying she is in favor of abortion. A Memphis Presbyterian Church is set to donate funds for a 5-K run to support an abortion facility. California Governor Jerry Brown will be signing legislation to allow illegal aliens to obtain a drivers license and drive in California. Christian parents in Kansas are suing the school districts for the teaching of global warming and evolution to elementary students. HHS Secretary Kathleen Sebelius is stating that Obamacare is a great success.

Brannon began the program talking about a young black girl who was attending his church who passed away this week. He told her short life story to honor her memory. Jimmy DeYoung is with "ProphecyToday.com," and he gave an update on what is going on in the news in the Middle East. Israeli Prime Minister Benjamin Netanyahu spoke to the Iranian people in their own Farsi Language, finding that the majority of the Iranian people did not want to get involved in an atomic war. He wanted to make sure they knew that even though their new President Hassan Rouhani seems more moderate than his predecessor, that he still has the same goal of destroying Israel, and warned them not to be fooled. He still is under the control of the Ayatollahs. Netanyahu is still not sure he can count on the U.S. in an attack on Iran. The Syrian Foreign Minister said there was no civil war in Syria, but just that the Syrian government is fighting Jihadists from several countries who are trying to overthrow Bashar al-Assad's regime. Syria wants the Golan Heights back from Israel. Middle East and Gulf Arab states including Saudi Arabia are very concerned with President Obama's relationship with Iranian President Hassan Rouhani and his willingness to have dialogue with him. A Syrian military general who has defected says Assad will never give up all of his chemical weapons of mass destruction.

This Is God's Will for You! - I
It seems like many Christians are often confused about how to know God's will for their lives. I'm Mary Wheelchel of The Christian Working Woman, and if that's an issue that has you puzzled, I invite you to listen in this week because I will show you clearly what God's will is for you. I promise, I can definitely, positively tell you God's will, because Scripture makes it very clear. I hope you'll be with me this week for The Christian Working Woman.
