

**Multichannel Video Program Distributors (MVPD) Notification Report
KMCT-TV - WEST MONROE, LA, US**

Per the Incentive Auction Task Force and Media Bureau Procedures for the Post-Incentive Auction Broadcast Transition, released on January 27, 2017, stations moving to a post auction channel must provide notice to MVPDs that carry the station and will continue to be obligated to carry the station.

Widely was engaged to make the required notification to the relevant MVPDs that met the criteria of the rules.

MVPDs meeting the criteria were identified through the station relationships, and the FCC COALS Database. Letters were mailed to the appropriate addresses and contacts. In addition, some MVPDs who have indicated a preference for email communications were also contacted at their designated email addresses.

The letters were mailed via the US Post Office.

Letters that were returned from the US Post Office were researched individually and, where possible, addresses were corrected and the letters were resent and/or the MVPD was contacted directly.

The letter and list of MVPDs follows.

Notice of Channel Change for Digital Television Channels

You are receiving this letter because KMCT-TV, covering West Monroe, LA, was a participant in the Broadcast Incentive Reverse Auction (Auction 1001). This station will cease operations on its current channel 38 (614 - 620 MHz) and will commence operations on channel 22 (518 - 524 MHz). This may affect reception and retransmission equipment in your facility. Please be sure that anyone in your facility who is responsible for the supervision of the receiving equipment receives a copy of this notification.

Under authorization from the Federal Communications Commission (FCC), the station listed above will cease broadcasting on frequencies with the technical parameters listed here.

Per the rules of the FCC (DA 17-702), stations are required to notify MVPDs of any change in operations resulting from the successful participation in the Reverse Auction.

Widelity has been retained by the station listed above to make the required notifications to applicable facilities in their service areas. This letter is to notify you in the event that any changes to your distribution equipment will be required.

Your facilities may have equipment that could be impacted by the change listed here.
