- ☒ **Check mark - that you informed them that we do not accept political advertising**

Response –

“Z88.3 does not accept any political advertisements on any of the Z family of stations”.

Note: This year promises to be another one of the busiest political advertising seasons in history, and broadcasters have a critical obligation to keep their political files current and accurate. The Federal Communications Commission (FCC) is paying very close attention to whether stations' online political files are timely and complete. In particular, stations must ensure that all the required disclosure information about political ad buys is uploaded "promptly," which typically means immediately or **within 24 hours**.

In 2000, Congress exempted non-commercial stations from the reasonable access requirement. Specifically, Congress amended Section 312(a)(7) of the Communications Act to include the following provision “The Federal Communications Commission shall take no action against any non-commercial educational broadcast station which declines to carry a political advertisement.”
